Just Enough Software Architecture-George Fairbanks 2010-08-30 This is a practical guide for software developers, and different than other software architecture books. Here's why: It teaches risk-driven architecting. There is no need for meticulous designs when risks are small, nor any excuse for sloppy designs when risks threaten your success. This book describes a way to do just enough architecture. It avoids the one-size-fits-all process tar pit with advice on how to tune your design effort based on the risks you face. It democratizes architecture. This book seeks to make architecture relevant to all software developers. Developers need to understand how to use constraints as guiderails that ensure desired outcomes, and how seemingly small changes can affect a system's properties. It cultivates declarative knowledge. There is a difference between being able to hit a ball and knowing why you are able to hit it, what psychologists refer to as procedural knowledge versus declarative knowledge. This book will make you more aware of what you have been doing and provide names for the concepts. It emphasizes the engineering. This book focuses on the technical parts of software development and what developers do to ensure the system works not job titles or processes. It shows you how to build models and analyze architectures so that you can make principled design tradeoffs. It describes the techniques software designers use to reason about medium to large sized problems and points out where you can learn specialized techniques in more detail. It provides practical advice. Software design decisions influence the architecture and vice versa. The approach in this book embraces drill-down/pop-up behavior by describing models that have various levels of abstraction, from architecture to data structure design.

Modern Art: A Very Short Introduction-David Cottington 2005-02-24 As public interest in modern art continues to grow, as witnessed by the spectacular success of Tate Modern and the Bilbao Guggenheim, there is a real need for a book that will engage general readers, offering them not only information and ideas about modern art, but also explaining its contemporary relevance and history. This book achieves all

this and focuses on interrogating the idea of 'modern' art by asking such questions as: What has made a work of art qualify as modern (or fail to)? How has this selection been made? What is the relationship between modern and contemporary art? Is 'postmodernist' art no longer modern, or just no longer modernist - in either case, why, and what does this claim mean, both for art and the idea of 'the modern'? Cottington examines many key aspects of this subject, including the issue of controversy in modern art, from Manet's *Dejeuner sur L'Herbe* (1863) to Picasso's *Les Femmes d'Alger*, and Tracey Emin's *My Bed*, (1999); and the role of the dealer from the main Cubist art dealer Kahnweiler to Charles Saatchi. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Edith Wharton's *Brave New Politics*-Dale M. Bauer 1994 Most critics claim that Edith Wharton's creative achievement peaked with her novels *The House of Mirth* and *The Age of Innocence*, dismissing her later fiction as reactionary, sensationalistic and aesthetically inferior. In *Edith Wharton's Brave New Politics*, Dale M. Bauer overturns these traditional conclusions. She shows that Wharton's post-World War I writings are acutely engaged with the cultural debates of her day - from reproductive control, to authoritarian politics, to mass culture and its ramifications.

Ethnographic Sorcery-Harry G. West 2008-09-15 According to the people of the Mueda plateau in northern Mozambique, sorcerers remake the world by asserting the authority of their own imaginative visions of it. While conducting research among these Muedans, anthropologist Harry G. West made a revealing discovery—for many of them, West's efforts to elaborate an ethnographic vision of their world was itself a form of sorcery. In *Ethnographic Sorcery*, West explores the fascinating issues provoked by this equation. A key theme of West's research into sorcery is that one sorcerer's claims can be challenged or reversed by other sorcerers. After West's attempt to construct a metaphorical interpretation of Muedan assertions that the lions prowling their villages are fabricated by sorcerers is disputed by his Muedan research collaborators, West realized that ethnography and sorcery indeed have much in common. Rather than abandoning ethnography, West draws inspiration from this connection, arguing that anthropologists, along with the people they study, can scarcely avoid interpreting the world they inhabit, and that we are all, inescapably, ethnographic sorcerers.

Introducing Intercultural Communication-Shuang Liu 2010-11-09 Books on intercultural communication are rarely written with an intercultural readership in mind. In contrast, this multinational team of authors has put together an introduction to communicating across cultures that uses examples and case studies from around the world. The book further covers essential new topics, including international conflict, social networking, migration, and the effects technology and mass media play in the globalization of communication. Written to be accessible for international students too, this text situates communication theory in a truly global perspective. Each chapter brings to life the links between theory and practice and between the global and the local, introducing key theories and their practical applications. Along the way, you will be supported with first-rate learning resources, including:

- theory corners with concise, boxed-out digests of key theoretical concepts
- case illustrations putting the main points of each chapter into context
- learning objectives, discussion questions, key terms and further reading framing each chapter and stimulating further discussion
- a companion website containing resources for instructors, including multiple choice questions, presentation slides, exercises and activities, and teaching notes.

This book will not merely guide you to success in your studies, but will teach you to become a more critical consumer of information and understand the influence of your own culture on how you view yourself and others.

Negotiating the Sacred II-Elizabeth Burns Coleman 2008-12-01 Blasphemy and other forms of blatant disrespect to religious beliefs have the capacity to create significant civil and even international unrest. Consequently, the sacrosanctity of religious dogmas and beliefs, stringent laws of repression and codes of moral and ethical propriety have compelled artists to live and create with occupational hazards like uncertain audience response, self-censorship and accusations of deliberate misinterpretation of cultural production looming over their heads. Yet, in recent years, issues surrounding the rights of minority cultures to recognition and respect have raised new questions about the contemporariness of the construct of blasphemy and sacrilege. Controversies over the aesthetic representation of the sacred, the exhibition of the sacred as art, and the public display of sacrilegious or blasphemous works have given rise to heated debates and have invited us to reflect on binaries like artistic and religious sensibilities, tolerance and philistinism, the sacred and the profane, deification and vilification. Endeavouring to move beyond 'simplistic' points about the rights to freedom of expression and sacrosanctity, this collection explores how differences between conceptions of the sacred can be negotiated. It recognises that blasphemy may be justified as a form of political criticism, as well as a sincere expression of spirituality. But it also recognises that within a pluralistic society, blasphemy in the arts can do an enormous amount

of harm, as it may also impair relations within and between societies. This collection evolved out a two-day conference called 'Negotiating the Sacred: Blasphemy and Sacrilege in the Arts' held at the Centre for Cross Cultural Research at The Australian National University in November 2005. This is the second volume in a series of five conferences and edited collections on the theme 'Negotiating the Sacred'. The first conference, 'Negotiating the Sacred: Blasphemy and Sacrilege in a Multicultural Society' was held at The Australian National University's Centre for Cross-Cultural Research in 2004, and published as an edited collection by ANU E Press in 2006. Other conferences in the series have included Religion, Medicine and the Body (ANU, 2006), Tolerance, Education and the Curriculum (ANU, 2007), and Governing the Family (Monash University, 2008). Together, the series represents a major contribution to ongoing debates on the political demands arising from religious pluralism in multicultural societies.

One American Boy-Dolph Crawford 2004-07 "When I was born on May 26, 1963, I had already broken a law: homosexuality was illegal in Texas..." Dolph Crawford used his pretty-boy looks to wrangle his way to fortune and fame. But along the way, his life was filled with the inevitable ups and downs of a young gay boy growing up in mostly heterosexual Texas. Alienation, shame, and self-hatred were the substance of his youth, and when he left home in his teens he didn't fare much better. Fueled by confusion and pain, he entered the alluring but toxic world of male hustling, dancing, and eventually signed with Vivid Entertainment to act in, produce, and direct some of the company's most popular gay porn videos. Now Dolph bares all in a revealing memoir that rips the glamour off the video industry as effectively as it unearths the enduring pain of growing up gay in America.
