Epicureans and Stoics-Axios Institute 2008 This little book contains some of the greatest wisdom literature of the ages. Everyone, and especially young people, should be familiar with it. Both Epicureanism and Stoicism taught that if we want to be happy and productive, we must strengthen and train our willful and wayward minds. There are echoes of the Buddha's Dhammapada. The passages selected are both beautiful and moving.

The Perfect Vehicle: What It Is About Motorcycles-Melissa Holbrook Pierson 2011-01-12 "This book, a polished, winding meditation on the theory and fractiousness of motorcycles, celebrates both their eccentric history and the wary pleasures of touring."—The New Yorker In a book that is "a must for anyone who has loved a motorcycle" (Oliver Sacks), Melissa Pierson captures in vivid, writerly prose the mysterious attractions of motorcycling. She sifts through myth and hyperbole: misrepresentations about danger, about the type of people who ride and why they do so. The Perfect Vehicle is not a mere recitation of facts, nor is it a polemic or apologia. Its vivid historical accounts—the beginnings of the machine, the often hidden tradition of women who ride, the tale of the defiant ones who taunt death on the racetrack—are intertwined with Pierson's own story, which, in itself, shows that although you may think you know what kind of person rides a motorcycle, you probably don't.

Graphic Violence-Emily Edwards 2019-06-17 Graphic Violence provides an innovative introduction to the relationship between violence and visual media, discussing how media consumers and producers can think critically about and interact with violent visual content. It comprehensively surveys predominant theories of media violence and the research supporting and challenging them, addressing issues ranging from social learning, to representations of war and terrorism, to gender and hyper-masculinity. Each chapter features original artwork presenting a story in the style of a graphic novel to demonstrate the concepts at hand. Truly unique in its approach to the subject and medium, this volume is an excellent resource for

undergraduate students of communication and media theory as well as anyone interested in understanding the causes and effects of violence in media.

The Practice of Contemplative Photography-Andy Karr 2011 This book teaches photographers how to connect fully with the visual richness present in their ordinary, daily experiences. According To The authors, photography is not purely a mechanical process. You need to know how to look, As well as where to point the camera, and when to press the button. Then as you develop your ability to see, your appreciation and inspiration from the world around you become enhanced. Filled with practical exercises and techniques inspired by mindfulness meditation, this book teaches photographers how to "see what's in front of them". It offers a system of training and exercises that draw upon Buddhist concepts, As well as on insights of great photographic masters such as Alfred Stieglitz, Edward Weston, and Henri Cartier-Bresson. There is a series of visual exercises and assignments for working with texture, light, and colour, As well as for developing mindfulness, As a way of bringing the principles of contemplative photography into ordinary experience.

Leading the Unleadable-Alan Willett 2016-11-29 Is that one guy dragging you all down? The control-freak, the narcissist, the slacker, the cynic... Difficult people are the worst part of a manager's job. Whether it comes from direct reports or people above, outbursts, irrational demands, griping, and other disruptions need to be dealt with-and it's your responsibility to do it. Leading the Unleadable turns this dreaded chore into a straight forward process that gently, yet effectively, improves behaviors. Written by an insider in the tech industry, where personality issues routinely wreck projects, the book reveals a core truth: most people actually want to contribute results, not cause headaches. Once you realize the potential for change, the book's simple steps, examples, and scripts explain how to right even the most hopeless situations. You'll learn how to: * Master the necessary mindset * Explain the problem calmly in a short feedback session * Get a commitment to change, and follow up * Coach others to replicate the process * Develop the situational awareness required to spot trouble even earlier in the future Every manager has "problem people." What sets great managers apart is how they turn them into productive team players. Prepare to transform the troublesome into the tremendous.

Nordic Elites in Transformation, c. 1050-1250, Volume III-Wojtek Jezierski 2020-10-07 This book explores the practical and symbolic resources of legitimacy which the elites of medieval Scandinavia employed to establish, justify, and reproduce their social and political standing between the end of the Viking Age and the rise of kingdoms in the thirteenth century. Geographically the chapters cover the Scandinavian realms and Free State Iceland. Thematically the authors cover a wide palette of cultural practices and historical sources: hagiography, historiography, spaces and palaces, literature, and international connections, which rulers, magnates or ecclesiastics used to compete for status and to reserve haloing glory for themselves. The volume is divided in three sections. The first looks at the sacral, legal, and acclamatory means through which privilege was conferred onto kings and ruling families. Section Two explores the spaces

such as aristocratic halls, palaces, churches in which the social elevation of elites took place. Section Three explores the traditional and novel means of domestic distinction and international cultural capital which different orders of elites - knights, powerful clerics, ruling families etc. - wrought to assure their dominance and set themselves apart vis-à-vis their peers and subjects. A concluding chapter discusses how the use of symbolic capital in the North compared to wider European contexts.

The Xenophobe's Guide to the Chinese-Song Zhu 2010 The Chinese are inordinately proud of having invented, among a whole host of other things, the compass (without which the world would have got lost), paper (without which books would not exist), the printing press (ditto), porcelain (no pretty matching chinaware), silk (no decadence), pasta (what would the Italians eat?), the wheelbarrow (how would civilisation have fared without it?) and the bristle toothbrush. A guide to understanding the Chinese which dispels or confirms preconceived prejudices with humor and insight.
