For close to a decade thereafter, his life was a wasteland of darkness and despair. While his peers were graduating from college, buying homes, getting married, having kids, and leading normal lives, Mike was snorting OxyContin, climbing out of cars at gunpoint, and burying his childhood friends. Unable to escape the noose of addiction, he eventually lost the trust and support of everyone who had ever loved him. Alone, with nothing but drugs to keep him company, darkness closed in, and the light inside him—the last flicker of hope—began to dim. His dreams, potential, and future were all being devoured by a relentless addiction too powerful to fight. Despair filled him as he realized he wasn't going to survive. Somehow, he did... HE NOT ONLY SURVIVED, HE THRIVED. Now he's a social media personality with millions of followers, and an entrepreneur, marketer, podcaster, YouTuber, and author who hopes to use his voice to shine a light for those whose own lights have grown dim. This is the prelude to his story.

Proofs and Fundamentals-Ethan D. Bloch 2013-12-01 The aim of this book is to help students write mathematics better. Throughout it are large exercise sets well-integrated with the text and varying appropriately from easy to hard. Basic issues are treated, and attention is given to small issues like not placing a mathematical symbol directly after a punctuation mark. And it provides many examples of what students should think and what they should write and how these two are often not the same.

Typographic Systems of Design-Kimberly Elam 2007-05-03 Typographic organization has always been a complex system in that there are so many elements at play, such as hierarchy, order of reading, legibility, and contrast. In Typographic Systems, Kim Elam, author of our bestselling books, Geometry of Design and Grid Systems, explores eight major structural frameworks beyond the grid including random, radial, modular, and bilateral systems. By taking the reader through exercises, student work, and professional examples, Elam offers a broad range of design solutions. Once essential visual organization systems are understood the designer can fluidly organize words or images within a structure, combination of structures, or a variation of a structure. With clarity and substance, each system from the structured axis to the nonhierarchical radial array is explained and explored so that the reader comes away with a better understanding of these intricate complex arrangements. Typographic Systems is the seventh title in our bestselling Design Briefs series, which has sold more than 100,000 copies worldwide.

Titanic's Last Secrets-Brad Matsen 2008-10-01 After rewriting history with their discovery of a Nazi U-boat off the coast of New Jersey, legendary divers John Chatterton and Richie Kohler decided to investigate the great enduring mystery of history's most notorious shipwreck: Why did Titanic sink as quickly as it did? To answer the question, Chatterton and Kohler assemble a team of experts to explore Titanic, study its engineering, and dive to the wreck of its sister ship, Britannic, where Titanic's last secrets may be revealed. Titanic's Last Secrets is a rollercoaster ride through the shipbuilding history, the transatlantic luxury liner business, and shipwreck forensics. Chatterton and Kohler weave their way through a labyrinth of clues to discover that Titanic was not the strong, heroic ship the world thought she was and that the men who built her covered up her flaws when disaster struck. If Titanic had remained afloat for just two hours longer than she did, more than two thousand people would have lived instead of died, and the myth of the great ship would be one of rescue instead of tragedy. Titanic's Last Secrets is the never-before-told story of the Ship of Dreams, a contemporary adventure that solves a historical mystery.

Fires of Winter-Roberta Gellis 2011-11-01 "A master storyteller!" — RT Book Reviews A sparkling prize of war The beautiful, cherished daughter of Scottish nobility, Melusine of Ulle had all the privileges of rank. But her family and her life were destroyed by the ravages of war. And her noble name made her a threat to the new king ... A loyal vassal's reward A bastard son of an English lord, Bruno of Jernaev was born with nothing. But through loyalty, cleverness, and brute strength, he carved out a spot at the right hand of the king. And to remain in favor he would do anything, even accept the hand of his enemy... They have nothing in common and every reason to hate each other, but even in the coldest of winters one spark can ignite a fire too hot to tame. "Five stars...Fires of Winter is the best a book can be...I dare anyone not to be hooked!" — Affaire de Coeur "Fascinating and well-written...a romance with substance!" — Knoxville News Sentinel "A masterpiece...Only a consummate writer of Ms. Gellis's talents could bring the Middle Ages so brilliantly alive." —Rave Reviews

Chrysler's Turbine Car-Steve Lehto 2010-10-01 Offering a behind-the-scenes look into the world of automotive research and development in the 1960s, this engaging narrative traces the birth of Chrysler's alternative "jet" car and reveals the story behind its sudden and mysterious demise. Relying on extensive research and firsthand accounts from surviving members of the turbine car program—including the metallurgist who created the exotic metals for the engine and the test driver who drove it at Chrysler's proving grounds—this chronicle documents the bold development of an automobile with a jet turbine engine. In addition to running well on virtually any flammable liquid—including kerosene, vodka, heating oil, and Chanel N°5 perfume—the pioneering engines had one fifth the number of moving parts and required less maintenance than conventional engines. Despite the fleet's amazing performance over millions of miles by test drivers, Chrysler pulled the plug on the project and crushed almost all of the cars. The reasons behind the surprising end to the jet car fleet are finally explained here.

Allies at Odds-Eugenie M. Blang 2011-04-16 Allies at Odds examines America's Vietnam policy from 1961 to 1968 in an international context by focusing on the United States' relationship with its European partners France, West Germany, and Great Britain. The European response to America's Vietnam policy provides a framework to assess this important chapter in recent American history within the wider perspective of international relations. Equally significant, the respective approaches to the "Vietnam question" by the Europeans and Americans reveal the ongoing challenge for nation-states of transcending narrowly defined state-centered policies for a global perspective pursuant of common goals among the trans-Atlantic allies. Blang explores the failure of France, West Germany, and Great Britain to significantly influence American policy-making.

April 4, 1968-Michael Eric Dyson 2009-01-06 On April 4, 1968, at 6:01 p.m., while he was standing on a balcony at a Memphis hotel, Martin Luther King Jr. was shot and fatally wounded. Only hours earlier King ended his final speech with the words, "I may not get there with you, but I want you to know tonight, that we as a people will get to the Promised Land." Acclaimed public intellectual and best-selling author Michael Eric Dyson examines how King fought, and faced, his own death, and how America can draw on his legacy in the twenty-first century. April 4, 1968 celebrates the leadership of Dr. King, and challenges America to renew its commitment to his vision.

The Immortal Bartfuss-Aharon Appelfeld 1994 Set in contemporary Israel, The Immortal Bartfuss is perhaps the most profound and powerful portrait of a Holocaust survivor ever drawn. Using the techniques of omission and indirection perfected in such masterpieces as *Badenheim 1939* and *To the Land of the Cattails*, Appelfeld tells the story of Bartfuss, enigmatically "the immortal" because of his experience in the camps. Now locked in a hopeless marriage, Bartfuss struggles to suppress the emotions and recollections he fears and despises, while trying to keep alive the poise, dignity, and compassion essential to a human being. The Immortal Bartfuss is an overwhelming and unforgettable study of a man reduced to his tragic limits.

Wild Goose Moon-Ben Shepperd 2010-05 "Molly Ivins, Texas columnist and wry observer of American culture, called 1968 'the year everything happened.' 1968 finds America engulfed in political and racial turmoil, assassinations, and a war seemingly without end. The year finds Tom Windham trying to deal with a few of life's basics - love, death, God, and sex. A sophomore at a conservative university in Dallas and the veteran of an upbringing in a small East Texas town, Tom sits uncomfortably on the cusp of adulthood. He is joined there by his roommate Brandeis. Along with the young women in their lives, their college friends, and their families, they experience the joys, struggles and tragedies of the year on a human scale. While the events of the operatic year keep intervening, changes in American attitudes toward sex, race, women, war and religion are also reflected in Wild Goose Moon"--Publisher description.

Continuity and Change in Irish Poetry, 1966-2010-Eric Falci 2012-07-30 In this book, Eric Falci reshapes the story of Irish poetry since the 1960s. He shows how polemical arguments concerning the role of poetry in 1960s Ireland evolve into a set of formal and compositional strategies for emerging Irish poets in the mid 1970s and beyond. His study presents a cohesive picture of the relationship between Northern Irish poetry from the Republic of Ireland since World War II and traces the lineage of lyric practice from a unique historical perspective. At the same time, it recontextualizes late twentieth-century Irish poetry within the long Irish poetic tradition, places Irish writing more accurately within the field of postwar Anglophone poetry and offers a new account of lyric's critical capacities. Of interest to Irish studies and twentieth-century poetry specialists, this book provides a much-needed guide to some of the most inventive and notable poetry written in the past forty years.

"¡Mi Raza Primero!" (My People First!)-Ernesto Chávez 2002 ¡Mi Raza Primero! is the first book to examine the Chicano movement's development in one locale--in this case Los Angeles, home of the largest population of people of Mexican descent outside of Mexico City. Ernesto Chávez focuses on four organizations that constituted the heart of the movement: The Brown Berets, the Chicano Moratorium Committee, La Raza Unida Party, and the Centro de Acción Social Autónomo, commonly known as CASA. Chávez examines and chronicles the ideas and tactics of the insurgency's leaders and their followers who, while differing in their goals and tactics, nonetheless came together as Chicanos and reformers. Deftly combining personal recollection and interviews of movement participants with an array of archival, newspaper, and secondary sources, Chávez provides an absorbing account of the events that constituted the Los Angeles-based Chicano movement. At the same time he offers insights into the emergence and the fate of the movement elsewhere. He presents a critical analysis of the concept of Chicano nationalism, an idea shared by all leaders of the insurgency, and places it within a larger global and comparative framework. Examining such variables as gender, class, age, and power relationships, this book offers a sophisticated consideration of how ethnic nationalism and identity functioned in the United States during the 1960s and 1970s.

Eating Stone-Ellen Meloy 2009-07-29 Long believed to be disappearing and possibly even extinct, the Southwestern bighorn sheep of Utah's canyonlands have made a surprising comeback. Naturalist Ellen Meloy tracks a band of these majestic creatures through backcountry hikes, downriver floats, and travels across the Southwest. Alone in the wilderness, Meloy chronicles her communion with the bighorns and laments the growing severance of man from nature, a severance that she feels has left us spiritually hungry. Wry, quirky and perceptive, Eating Stone is a brilliant and wholly original tribute to the natural world.

Women's Rights and Women's Lives in France, 1944-1968-Claire Duchen 1994 Women's Rights and Women's Lives In France explores the everyday experiences of women between the liberation, and May 1968. In 1945, French women believed that a new era was beginning for them, in which they had finally won equality (the right to vote in 1944, equal pay and access to education and employment). But the new Republic considered that women's main role was that of motherhood. Competing visions of women's place had concrete implications for women's lives, influencing work, politics and ideals of femininity. Working from a wide range of sources, including women's magazines, prescriptive literature, political pamphlets, fiction and memoirs, and government reports, Claire Duchen follows the debates concerning women through twenty years, and grounds them in the changing social reality of postwar France.
