Pengaruh kebudayaan India dalam Bentuk Arca di Sumatra-Bambang Budi Utomo Pulau Sumatra telah memiliki sejarah peradaban manusia yang cukup panjang. Berbagai pengaruh budaya yang masuk ke lingkungan penghuni Sumatra cukup banyak. Di antara pengaruh budaya asing yang pernah hadir di Sumatra adalah pengaruh budaya India. Pengaruh kebudayaan India yang pernah hadir di bumi Sumatra antara lain dalam bentuk religi ajaran Hindu atau Buddha, yang diwujudkan dalam bentuk bangunan suci (candi dan stūpa), prasasti, dan arca (batu dan logam). Buku sederhana ini berisi kupasan rinci mengenai arca-arca batu dan logam yang ditemukan di Sumatra. Arca-arca tersebut kini disimpan di berbagai tempat, seperti di Museum Nasional Jakarta, museum-museum negeri di Sumatra, bahkan ada yang disimpan di Museum Leiden (Belanda). Arca-arca yang ditemukan di Sumatra dibuat dalam berbagai gaya seni, seperti gaya seni Amarawati (abad ke-6 Masehi), gaya seni Śailendra (abad ke-8-9 Masehi), gaya seni Cōla (abad ke-11-12 Masehi), gaya seni Siṅhasāri (abad ke-13 Masehi), dan gaya seni Majapahit (abad ke-15 Masehi). Gaya seni yang dituangkan dalam bentuk-bentuk arca ini mencerminkan adanya interaksi budaya di masa lampau antara wilayah Sumatra dan wilayah luar Sumatra, seperti dengan Jawa dan India. Barus seribu tahun yang lalu-C. Guillot 2008 Archaeological findings in Lobu Tua site in Barus, North Sumatera.

Journal of Information Systems Engineering and Business Intelligence-Indra Kharisma Raharjana 2016-04-01 Journal of Information System Engineering and Business Intelligence (JISEBI) focuses on Information System Engineering and its implementation, Business Intelligence, and its application. JISEBI is an international, peer review, electronic, and open access journal. JISEBI is seeking an original and high-quality manuscript. Information System Engineering is a multidisciplinary approach to all activities in the development and management of information system aiming to achieve organization goals. Business Intelligence (BI) focuses on techniques to transfer raw data into meaningful information for business analysis purposes, such as decision making, identification of new opportunities, and the implementation of business strategy. The goal of BI is to achieve a sustainable competitive advantage for businesses.

Principles of Instrumental Analysis-Douglas A. Skoog 2017-01-27 PRINCIPLES OF INSTRUMENTAL ANALYSIS is the standard for courses on the principles and applications of modern analytical instruments. In the 7th edition, authors Skoog, Holler, and Crouch infuse their popular text with updated techniques and several new Instrumental Analysis in Action case studies. Updated material enhances the book's proven approach, which places an emphasis on the fundamental principles of operation for each type of instrument, its optimal area of application, its sensitivity, its precision, and its limitations. The text also introduces students to elementary analog and digital electronics, computers, and the treatment of analytical data. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Principles and Practice of Psychiatric Nursing-Gail Wiscarz Stuart 2014-04-14 Using the latest clinical research and diagnoses, Principles and Practice of Psychiatric Nursing, 10th Edition provides a holistic, biopsychosocial approach to psychiatric nursing care. It follows the popular Stuart stress-adaptation framework and includes comprehensive coverage to simplify important nursing and medical concepts, promote quality and safety in care, and address psychobiology and psychopharmacology topics integral to today's psychiatry. New to this edition is a chapter on psychiatric care of military personnel, plus the latest on health care reform, prescription abuse, and obesity issues. Written by psychiatric nursing expert Gail W. Stuart, this market-leading text makes it easy to apply classroom theory to clinical practice. An easy-to-follow writing style makes it easy to understand both simple and complex topics. A well-rounded, collaborative approach provides coverage of all major psychiatric disorders from nursing and medical perspectives. The Stuart Stress Adaptation Model of health and wellness provides a consistent nursing-oriented framework, with clear explanations of biological, psychological, sociocultural, environmental, and legal-ethical components. An evidence-based practice approach bridges the gap between clinical research and everyday practice. Learning from a Clinical Case boxes begin disorders chapters with thought-provoking questions and end chapters with answers and feedback. Summarizing the Evidence boxes in the disorders chapters examine the research and findings that support psychiatric nursing care. A family focus and discussions of outpatient care reflect current trends in psychiatric nursing. A Patient Speaks and A Family Speaks boxes present short vignettes with the patient's and family's perspectives of the caregiving process. Competent Caring: A Clinical Exemplar of a Psychiatric Nurse boxes feature the experiences and personal insights of practicing psychiatric nurses. Medical and Nursing Diagnoses boxes and Detailed Diagnoses tables emphasize the interdisciplinary approach to patient care by presenting NANDA diagnoses relevant to specific disorders and describing the essential features of the related DSM-IV-TR diagnoses. Nursing Treatment Plan Summary tables present care plans including patient goals with nursing interventions and rationales. Patient Education Plan and Family Education Plan tables include key information that you need to share with the patient and his or her family to facilitate shorter hospital stays and more outpatient care. Therapeutic Dialogue boxes offer examples of nurse-patient interactions. Clinical examples include selected nursing diagnoses. Focus Points provide a comprehensive, point-by-point review of the important information in each chapter.

Essential Guide to Blood Groups-Geoff Daniels 2011-04-18 The second edition of Essential Guide to Blood Groups is a pocket-sized book containing four-color text together with schematic figures and tables. The book comprises an introduction to blood groups, followed by chapters on techniques, information on various blood groups, antibodies, quality assurance in immunohaematology, and it concludes with chapters on troubleshooting in the laboratory, and FAQs. It also covers the serology, inheritance, biochemistry and molecular genetics of the most important blood group systems.

The Garden of Truth-Seyyed Hossein Nasr 2009-10-13 The headlines are filled with the politics of Islam, but there is another side to the world's fastest-growing religion. Sufism is the poetry and mysticism of Islam. This mystical movement from the early ninth century rejects worship motivated by the desire for heavenly reward or the fear of punishment, insisting rather on the love of God as the only valid form of

adoration. Sufism has made significant contributions to Islamic civilization in music and philosophy, dance and literature. The Sufi poet Rumi is the bestselling poet in America. But in recent centuries Sufism has been a target for some extremist Islamic movements as well as many modernists. The Garden of Truth presents the beliefs and vision of the mystical heart of Islam, along with a history of Sufi saints and schools of thought. In a world threatened by religious wars, depleting natural resources, a crumbling ecosystem, and alienation and isolation, what has happened to our humanity? Who are we and what are we doing here? The Sufi path offers a journey toward truth, to a knowledge that transcends our mundane concerns, selfish desires, and fears. In Sufism we find a wisdom that brings peace and a relationship with God that nurtures the best in us and in others. Noted scholar Seyyed Hossein Nasr helps you learn the secret wisdom tradition of Islam and enter what the ancient mystics call the "garden of truth." Here, liberate your mind, experience peace, discover your purpose, fall in love with the Divine, and find your true, best self.

ACSM's Guidelines for Exercise Testing and Prescription-ACSM 2013-02-01 The flagship title of the certification suite from the American College of Sports Medicine, ACSM's Guidelines for Exercise Testing and Prescription is a handbook that delivers scientifically based standards on exercise testing and prescription to the certification candidate, the professional, and the student. The 9th edition focuses on evidence-based recommendations that reflect the latest research and clinical information. This manual is an essential resource for any health/fitness and clinical exercise professional, physician, nurse, physician assistant, physical and occupational therapist, dietician, and health care administrator. This manual give succinct summaries of recommended procedures for exercise testing and exercise prescription in healthy and diseased patients.

History of The Arabs-Philip K. Hitti 2002-09-26 This classic history of the Arab peoples is a work of great thoroughness and insight which contains much to satisfy general readers as well as scholars. Here is the story of the rise of Islam in the Middle Ages, its conquests, its empire, its time of greatness and of decay, unrolling one of the richest and most instructive panoramas in history. For this reissue of the tenth edition, Walid Khalidi gives a brief overview of the history and content of the book, and emphasises the vital importance of Philip K. Hitti's magisterial and scholarly work to on-going attempts to bridge the Arab/Western cultural divide.

Health Promotion-Keith Tones 2004-05-24 Written for all professionals who strive to improve the health of others.

Islamic Methodology in History-Fazlur Rahman 1994

The Perfect Guide to the Sciences of the Qurān-Imam Jalal-Al-Din Al-Suyuti 2011 Imam Jalal-al-Din `Abd al-Rahman al-Suyuti (849--911 AH / 1445--1505 AD) was born, lived and was buried in Cairo. The ascription `al-Suyuti' is a reference to Asyut, a town in Upper Egypt from which his family hailed. Known as the `son of books' from the numerous books he studied and referred to in his works, he could equally be called the `father of books' because of the many books he produced From his early years, al-Suyuti devoted his life to learning, reading, writing and teaching, holding notable positions in those fields in the city of Cairo at a time when it was the centre of Islamic learning par excellence. He was an outstanding scholar, second to none in the field, of Quranic Sciences (`Ulum al-Qur'an), in which he produced many well-known works. However, being the all-round scholar that he was, his contributions covered almost all the fields of Arabic, the Qur'an, the Traditions (hadith) and History. His works were of such superb quality that they earned him the respect of his generation and the generations that followed to the present day. Most important of these in the field of Quranic Sciences was his al-Itqan. The work found its way to many circles both near and far in the Islamic world. It was first published in the years 1271, 1278, 1279, 1306, 1317 and 1318 AH, in two volumes, but the translation presented here is of a publication of four volumes published in 1987 AD (1967 AD). The translation at hand is of the first volume. Al-Itqan is perhaps the most outstanding work of its kind in the field of Quranic Sciences. Exhaustive in its sources and its subjects, thoughtfully and lucidly written, the work is also well arranged. Readers will be taken by the depth, breadth, scope and mastery of the author while noting how much Muslim scholars have devoted to the study of the Qur'an and how varied and diverse were the fields in which those studies were made. A must to the specialist of Quranic Studies, the work is highly recommended to the initiate

Mobile Media Learning: amazing uses of mobile devices for learning-Seann Dikkers 2012-06-01 Mobile Media Learning shares innovative uses of mobile technology for learning in a variety of settings. From

camps to classrooms, parks to playgrounds, libraries to landmarks, Mobile Media Learning shows that exciting learning can happen anywhere educators can imagine. Join these educator/designers as they share their efforts to amplify spaces as learning tools by engaging learners with challenges, quests, stories, and tools for investigating those spaces.

Major Themes of the Qur'an-Fazlur Rahman 2009-06-15 In this introduction to the Qur'an, Fazlur Rahman unravels its complexities on themes such as God, society, revelation, and prophecy.

Cardiac Rehabilitation Manual-Josef Niebauer 2017-02-13 This book fulfills the need for practical guidance among all professionals involved in the management of these patients, from residents and fellows of cardiology and internal medicine, surgical teams, physiotherapy professionals, critical care physicians and family medicine practitioners. The thoroughly updated content takes into account recent developments in cardiac rehabilitation, and incorporates practical advice on how to use guidelines in clinical practice. There will be one new chapter on patients with cardiac resynchronization therapy and all the others will be updated to keep up-to-date with the guidelines and current practice. Cardiac rehabilitation is of key importance to ameliorate long-term morbidity and mortality resulting from cardiac diseases and events. However, much of the current literature is dense, unwelcoming and academic in style and format. For those physicians understanding the scope of cardiac rehabilitation there is a need to distill the guidelines and various management options available to them into a concise practical manual. Up until now, all references have looked at the general options, but there is definite need to investigate the practicalities of individual patient groups.

Cooperative Learning-Robert E. Slavin 1987

Source Methodology in Islamic Jurisprudence-Ṭāhā Jābir Fayyāḍ Alwānī 2003 Usul Al-Fiqh is a science which is deeply embedded in the Islamic experience and one which, thanks to its methods and concerns, helped generate an empirical trend in Muslim culture, in turn benefiting western thinking. Itself a creation of influences from within and without, Al-Usul, often called "The Philosophy of Islam," invites both reason and revelation to work for the harmony and well-being of human society. Although the science of Al-Usul is mainly concerned with legal matters, its range and the arsenal of tools it uses makes it attractive to students of Islamic Jurisprudence as well as to other scholars of Islamic Knowledge and culture. The difficulties it poses are inevitable. This book, however, attempts to simplify this "Most important method of research ever devised by Islamic thought" during its most creative period, and bring it to the understanding and appreciation of the modern learner, while underscoring its importance and relevance to the world of Islam today.

Multimedia Literacy-Fred T. Hofstetter 2000-10-01 A hands-on guide to the concepts, tools and applications of electronic media. It presents the subject in a way that students learn from the ground up, learning and applying solid design and implementation along the way. The focus is on the effective distribution of information through multimedia.

What is Islamic Economics?-Umer Chapra 1996-12-01 In this lecture, Dr. Umer Chapra has explained both the subject matter of Islamic economics as well as its methodology in his usual masterly fashion. He has also presented a comparative perspective for solving the eternal economic problem: He has explained how the Islamic economics paradigm deals with this problem and allocates the scarce resources among their alternative uses in such a way that human well-being is maximized without sacrificing social objectives.

English translation of Sunan Abu Dawud- 2008

Islam and Science-Muzaffar Iqbal 2018-05-08 This title was first published in 2002. This text seeks to provide the necessary background for understanding the contemporary relationship between Islam and modern science. Presenting an authentic discourse on the Islamic understanding of the physical cosmos, Muzaffar Iqbal explores God's relationship to the created world and the historical and cultural forces that have shaped and defined Muslim attitudes towards science. What was Islamic in the Islamic scientific tradition? How was it rooted in the Qur'anic worldview and whatever happened to it? These are some of the facets of this account of a tradition that spans eight centuries and covers a vast geographical region. Written from within, this ground-breaking exploration of some of the most fundamental questions in the Islam and science discourse, explores the process of appropriation and transformation of the Islamic scientific tradition in Europe during the three centuries leading up to the Scientific revolution.

Religious Life in Poland-Christopher Garbowski 2014-01-23 This book provides a concise historical outline of religion in Poland up until its entry into the European Union in 2004, together with a longer presentation of contemporary religious issues. Albeit largely mono-ethnic and overwhelmingly Catholic after the loss of its large Jewish population to the Holocaust, and subsequent post-World War II border shifts, traces of an historic diversity remain in Poland to date, playing a greater role than mere numbers

would suggest. Poland's fairly robust religious life is affected by the country's continuing modernization and its various institutions, and this is discussed within a broad context. One of the unfortunate legacies of decades of communism is a stunted civil society; while at different levels there are conflicts involving religion, at the grassroots it is one of the few forces building much needed trust in present-day Polish society.
