**Philosophising the Occult-Michael-Sebastian Noble 2020-11-23** Was it mere encyclopedism that motivated Fakhr al-Dīn al-Rāzī (d.1210), one of the most influential Islamic theologians of the twelfth century, to theorize on astral magic – or was there a deeper purpose? One of his earliest works was *The Hidden Secret* ('al-Sirr al-Maktūm'), a magisterial study of the 'craft' which harnessed spiritual discipline and natural philosophy to establish noetic connection with the celestial souls to work wonders here on earth. The initiate's preceptor is a personal celestial spirit, 'the perfect nature' which represents the ontological origin of his soul. This volume will be the first study of *The Hidden Secret* and its theory of astral magic, which synthesized the naturalistic account of prophethood constructed by Avicenna (d.1037), with the perfect nature doctrine as conceived by Abū'l-Barakāt (d.1165). Shedding light on one of the most complex thinkers of the post-Avicennan period, it will show how al-Rāzī's early theorizing on the craft contributed to his formulation of prophethood with which his career culminated. Representing the nexus between philosophy, theology and magic, it will be of interest to all those interested in Islamic intellectual history and occultism.

While presenting the material through both magical and mythopoetic narrative, the stance of the book is also grounded firmly in supportive disciplines such as botany, chemistry, and anthropology and also includes up to date phylogenetic and pharmacological findings. Interspersed with the encyclopedic plant entries are short narratives addressing such concepts as the Witches' Flying Ointment, intoxicating incense, the herbal dimension of Alchemy, and the 'Green Saints' such as Al-Khidir, the medieval Wildman, and the forest-dwelling Nymphs who nourished the Greek gods.

More than a mere collation of previously existing works on plants, much of the material is drawn directly from the author's private field notes, diaries, and manuals of magical operation, presented in an engaging narrative style. Arabian Magic Compendium-Geoffrey Harris 2017-02-16 The power of three books in one compendium. This present work is a compilation of occult knowledge acquired from diverse sources of the Ilmu Al-Hikmah, or the Islamic occult tradition in Indonesia. The majority of these teachings represent the legacy left to us by the spiritual Islamic adepts of the Middle East. Elements of Indonesian Shamanism and Kejawen may also be found in the occult knowledge presented in this book and others of these series. The latter tradition is one of the other major occult streams to be found in the island of Java. Most of the occult teachings of the exercises, rituals, rites, spells, etc., to be found in these series of books have been gathered from the numerous metaphysical Islamic lodges in Indonesia. Not all of these are spiritually oriented, some are decidedly "black" in nature. We trust that the readers of these books are spiritually mature and will not use or apply these teachings for any negative purposes.

Studies in Occultism-H. P. Blavatsky 2019-01-08 Occultism is not magic. It is comparatively easy to learn the trick of spells and the methods of using the subtler, but still material, forces of physical nature; the powers of the animal soul in man are soon awakened; the forces which his love, his hate, his passion, can call into operation, are readily developed. But this is Black Magic — Sorcery. For it is the motive, and the motive alone, which makes any exercise of power become black, malignant, or white, beneficent Magic. It is impossible to employ spiritual forces if there is the slightest tinge of selfishness remaining in the operator. For, unless the intention is entirely unalloyed, the spiritual will transform itself into the psychic, act on the astral plane, and dire results may be produced by it. The powers and forces of animal nature can equally be used by the selfish and revengeful, as by the unselfish and the all-forgiving; the powers and forces of spirit lend themselves only to the perfectly pure in heart — and this is DIVINE MAGIC.

The Dark Light Years-Brian W. Aldiss 2011-03-17 The Utods are a highly advanced alien species from whom the human race might learn much, with superior technology and a profound philosophy. But when

they meet, their customs and conventions are far beneath what humankind considers to be civilized. Brian Aldiss's satirical depiction of the first encounter and subsequent violent conflict between mankind and a gentle, intelligent race which it cannot understand was first published in 1964, but its archly ironic message of cultural misunderstanding and the potential for catastrophe it entails resonates as strongly today. 'Flies straight to its mark with hardly a word wasted: a treat for the fans and required reading for anyone seriously interested in the fiction and ideas of today.' Kingsley Amis

Magical Capitalism-Brian Moeran 2018-07-16 This volume of essays examines the ways in which magical practices are found in different aspects of contemporary capitalist societies. From contract law to science, by way of finance, business, marketing, advertising, cultural production, and the political economy in general, each chapter argues that the kind of magic studied by anthropologists in less developed societies - shamanism, sorcery, enchantment, the occult - is not only alive and well, but flourishing in the midst of so-called 'modernity'. Modern day magicians range from fashion designers and architects to Donald Trump and George Soros. Magical rites take place in the form of political summits, the transformation of products into brands through advertising campaigns, and the biannual fashion collections shown in New York, London, Milan and Paris. Magical language, in the form of magical spells, is used by everyone, from media to marketers and all others devoted to the art of 'spin'. While magic may appear to be opposed to systems of rational economic thought, Moeran and Malefyt highlight the ways it may in fact be an accomplice to it.

Mind Reading as a Cultural Practice-Laurens Schlicht 2020-04-04 This book provides a genealogical perspective on various forms of mind reading in different settings. We understand mind reading in a broad sense as the twentieth-century attempt to generate knowledge of what people held in their minds - with a focus on scientifically-based governmental practices. This volume considers the techniques of mind reading within a wider perspective of discussions about technological innovation within neuroscience, the juridical system, "occult" practices and discourses within the wider field of parapsychology and magical beliefs. The authors address the practice of, and discourses on, mind reading as they form part of the consolidation of modern governmental techniques. The collected contributions explore the question of how these techniques have been epistemically formed, institutionalized, practiced, discussed, and how they have been used to shape forms of subjectivities - collectively through human consciousness or individually through the criminal, deviant, or spiritual subject. The first part of this book focuses on the technologies and media of mind reading, while the second part addresses practices of mind reading as they have been used within the juridical sphere. The volume is of interest to a broad scholarly readership dealing with topics in interdisciplinary fields such as the history of science, history of knowledge, cultural studies, and techniques of subjectivization.

A Wiccan Bible-A.J. Drew 2003-08-15 "A book or collection of writings constituting the sacred text of a religion." —The American Heritage® Dictionary of the English Language, Fourth Edition For thousands of years, we have been told that God was a man. Then someone reminded us of when God was a woman. Now we have a reference for the sensible folk who have always felt that it takes two. If you have ever thought there was more to religion than ancient rituals performed for reasons unknown, this book will show you exactly what you have been looking for. If you have already come to the realization that Wicca is the religion for you, this book will help fill those many blanks that have been left by other books. Author A.J. Drew makes no attempt to dictate religious dogma or routine. He is quick to point out that the title does not start with the word the. He illustrates the many issues a person's religion should address and shows how he has been able to find answers to those issues through the practice of a modern religion that was based on some of the oldest principles of the ancient world. A Wiccan Bible takes you through the journey of life in three stages: Maiden and Master: Creation, Wiccaning, and Self-dedication. Mother and Father: Initiation, Handfasting/Handparting, and the Wheel of the Year. Crone and Sage: Community, the world, and death. Mythology and science converge as the author details a life's journey into a religion with both old world ritual and new world science, fusing both into a creation myth which satisfies not only mind, but soul as well. A Wiccan Bible not only shows a religious path filled with joy, but one that offers the ability to accept and manage sorrow. It is filled with ritual and with the reasons why ritual is fulfilling, rewarding, and a necessary part of everyday life. As A.J. addresses each issue, he demonstrates not only how he found the solutions in Wicca, and the many ways in which science and magick have helped him to do so. A Wiccan Bible also contains select recipes that the author has collected, including mixtures for incense, oils, and baths.
