The Aliens Are Coming!-Ben Miller 2016-11-01 Actor and bestselling science writer Ben Miller takes readers to the cutting edge of one of the greatest questions of all: Is there life beyond Earth? For millennia, we have looked up at the stars and wondered whether we are alone in the universe, but in the last few years—as our probes begin to escape the solar system, and our telescopes reveal thousands of Earthlike planets—scientists have taken huge leaps toward an answer. “Forget science fiction,” author Ben Miller writes. “We are living through one of the most extraordinary revolutions in the history of science: the emergent belief of a generation of physicists, biologists, and chemists that we are not alone.” The Aliens Are Coming! is a refreshingly clear, hugely entertaining guide to the search for alien life. Miller looks everywhere for insight, from the Big Bang’s sea of energy that somehow became living matter, to the equations that tell us Earth is not so rare, to the clues bacteria hold to how life started. And he makes the case that our growing understanding of life itself will help us predict whether it exists elsewhere, what it might look like, and when we might find it.

Real Aliens, Space Beings, and Creatures from Other Worlds-Brad Steiger 2011-05-01 Shocking true stories of those who walk among us . . . Just who has visited us in the past? Who might be coming next? And who walks among us today? Real Aliens, Space Beings, and Creatures from Other Worlds investigates the theories, the mysteries, and the facts surrounding alien involvement in the lives of Earthlings. Packed with thought-provoking stories and shocking revelations of more than 300 otherworldly incidents, including aliens living among us, spacecraft landings, interstellar cooperation, alien encounters, government conspiracies, hybrid children, mutilations, missing time experiences, secret alien facilities, and the influence of extraterrestrials on human events throughout history. Each astonishing report is detailed with thorough research of the historical record, news articles, and disquieting testimonials.

Communion-Whitley Strieber 2008-01-02 Thus begins the most astonishing true-life odyssey ever recorded—one man's riveting account of his extraordinary experiences with visitors from “elsewhere” . . . how they found him, where they took him, what they did to him, and why. Believe it. Or don't believe it. But read it—for this gripping story will move you like no other. It will fascinate you, terrify you, and alter the way you experience your world.

They Are Already Here-Sarah Scoles 2020-03-03 An anthropological look at the UFO community, told through first-person experiences with researchers in their element as they pursue what they see as a solvable mystery—both terrestrial and cosmic. More than half a century since Roswell, UFOs have been making

headlines once again. On December 17, 2017, the New York Times ran a front-page story about an approximately five-year Pentagon program called the Advanced Aerospace Threat Identification Program. The article hinted, and its sources clearly said in subsequent television interviews, that some of the ships in question couldn't be linked to any country. The implication, of course, was that they might be linked to other solar systems. The UFO community—those who had been thinking about, seeing, and analyzing supposed flying saucers (or triangles or chevrons) for years—was surprisingly skeptical of the revelation. Their incredulity and doubt rippled across the internet. Many of the people most invested in UFO reality weren't really buying it. And as Scoles did her own digging, she ventured to dark, conspiracy-filled corners of the internet, to a former paranormal research center in Utah, and to the hallways of the Pentagon. In *They Are Already Here* we meet the bigwigs, the scrappy upstarts, the field investigators, the rational people, and the unhinged kooks of this sprawling community. How do they interact with each other? How do they interact with “anomalous phenomena”? And how do they (as any group must) reflect the politics and culture of the larger world around them? We will travel along the Extraterrestrial Highway (next to Area 51) and visit the UFO Watchtower, where seeking lights in the sky is more of a spiritual quest than a “gotcha” one. We meet someone who, for a while, believes they may have communicated with aliens. Where do these alleged encounters stem from? What are the emotional effects on the experiencers? Funny and colorful, and told in a way that doesn't require one to believe, Scoles brings humanity to an often derided and misunderstood community. After all, the truth is out there . . .

The Wizards of Wyrld World-Pamela F. Service 2013-08-01 Josh Higgins and his sister Maggie have vowed not to use the alien gizmo that lets them visit other worlds. But when Josh's favorite writer comes to town, the temptation is too much. Along with famous author P. L. Cuthbertson, Josh and Maggie prepare to visit the land of Cuthbertson's books: *Wyrld World*. As soon as the crew arrives, some of *Wyrld World*'s thuggish locals mistake P.L. for a wizard—and that's not a good thing. Josh and Maggie begin a rescue mission, sneaking through fortresses and dungeons. But to challenge the planet's evil rulers, they'll have to unite a group of rebels and outcasts who would just as soon fight each other. . . .

Confirmation-Whitley Strieber 1999-02-15 The author draws on a combination of scientific research and personal struggle to explore his personal efforts to procure the physical evidence necessary to prove his case that aliens have made contact with Earth

Area 51-Annie Jacobsen 2011-05-17 *Area 51* It is the most famous military installation in the world. And it doesn't exist. Located a mere seventy-five miles outside of Las Vegas in Nevada's desert, the base has never been acknowledged by the U.S. government-but *Area 51* has captivated imaginations for decades. Myths and hypotheses about *Area 51* have long abounded, thanks to the intense secrecy enveloping it. Some claim it is home to aliens, underground tunnel systems, and nuclear facilities. Others believe that the lunar landing itself was filmed there. The prevalence of these rumors stems from the fact that no credible insider has ever divulged the truth about his time inside the base. Until now. Annie Jacobsen had exclusive access to nineteen men who served the base proudly and secretly for decades and are now aged 75-92, and unprecedented access to fifty-five additional military and intelligence personnel, scientists, pilots, and engineers linked to the secret base, thirty-two of whom lived and worked there for extended periods. In *Area 51*, Jacobsen shows us what has really gone on in the Nevada desert, from testing nuclear weapons to building super-secret, supersonic jets to pursuing the War on Terror. This is the first book based on interviews with eye witnesses to *Area 51* history, which makes it the seminal work on the subject. Filled with formerly classified information that has never been accurately decoded for the public, *Area 51* weaves the mysterious activities of the top-secret base into a gripping narrative, showing that facts are often more fantastic than fiction, especially when the distinction is almost impossible to make.

Childhood's End-Arthur C. Clarke 2012-11-30 In the Retro Hugo Award-nominated novel that inspired the Syfy miniseries, alien invaders bring peace to Earth—at a grave price: “A first-rate tour de force” (*The New York Times*). In the near future, enormous silver spaceships appear without warning over mankind's largest cities. They belong to the Overlords, an alien race far superior to humanity in technological development. Their purpose is to dominate Earth. Their demands, however, are surprisingly benevolent: end war, poverty, and cruelty. Their presence, rather than signaling the end of humanity, ushers in a golden age . . . or so it seems. Without conflict, human culture and progress stagnate. As the years pass, it becomes clear that the Overlords have a hidden agenda for the evolution of the human race that may not be as benevolent as it seems. “Frighteningly logical, believable, and grimly prophetic . . . Clarke is a master.” —*Los Angeles Times*

Aliens Built the Pyramids-J. J. Gregory 2014-07-04 Do you really think that the advanced mathematical & scientific minds that built the Great Pyramid thousands

of years ago designed it so grave robbers could steal the treasures of the king & queen so easily? The fact of the matter is that no one has yet found their hiding place. You will know how it was done.

Homicidal Aliens and Other Disappointments-Brian Yansky 2013-09-10 The reluctant hero from Alien Invasion and Other Inconveniences is back in all his droll glory — and this time the fate of humankind is on the line. Jesse has had the worst year of his life. First a race of homicidal (but very polite) aliens invaded Earth, killing pretty much everyone and enslaving the few people left behind, including Jesse; his best friend, Michael; his sort-of girlfriend, Lauren; and the girl of his dreams, Catlin. Now Jesse is revered as some sort of Chosen One all because he managed to kill one of the alien lords and escape — even though he's not really sure how he did it. But it's hard to argue with the multitude of new talents he is developing, including (somehow) killing aliens with his mind and grasping glimpses of alternate futures. With thousands of aliens already on Earth and thirty million more about to arrive, Jesse has to decide whether to embrace his maybe-destiny before the world is completely destroyed. No pressure.

The Alien Book-Nick Redfern 2019-09-01 Unmasking the mysteries of alien life on earth! Make mention of the word “alien” and it conjures images of black-eyed, large-headed, dwarfish beings that have come to be known as the Greys. Indeed, Greys have become a staple part of pop-culture, never mind just the field of UFO research. They've appeared in Steven Spielberg's classic 1977 movie, Close Encounters of the Third Kind. They regularly popped up in The X-Files. And, of course, there are numerous people - all across the world - who claim to have been abducted by the Greys and subjected to intrusive medical experiments. Yet, before the 1950s, the Greys were nowhere in sight. The Alien Book: A Guide to Extraterrestrial Beings on Earth shows that extraterrestrial life comes in all kinds, appearances, sizes, and bodies. They all have one thing in common, however: the human race has encountered them, and we continue to do so today. Not just dozens, or even hundreds, but thousands of eyewitness experiences have been reported. Covering hundreds of extraterrestrial life forms in more than 40 thematic chapters, this absorbing look at the mysteries of aliens on earth includes ... the Space Brothers: long-haired, very human-looking ETs the fiendish Reptilians: seven-to-eight-foot-tall predatory shapeshifters Men in Black beings: extremely pale-skinned, tall, and with huge eyes Black-eyed Children: anemic-looking kids with solid black eyes that might be ET-human hybrids Bigfoot the werewolf-like Dogmen jellyfish-style aliens that soar around the skies of our world the Shadow People: dangerous humanoids that terrorize people legendary Nephilim space-vampires: insect-like aliens that resemble a giant praying mantis and many, many more! The Alien Book investigates the full range of sentient, alien life forms. Some are benign and others downright deadly. Some are small, like a germ or virus that has NASA, creating guidelines to deal with an outbreak of an extraterrestrial germ. Some are big like a giant praying mantis or the biblical Goliath. They all lurk on Earth and in this chilling book! With more than 120 photos and graphics, this tome is richly illustrated. Its helpful bibliography and extensive index add to its usefulness.

Intimate Alien-David J. Halperin 2020-03-24 A voyage of exploration to the outer reaches of our inner lives. UFOs are a myth, says David J. Halperin—but myths are real. The power and fascination of the UFO has nothing to do with space travel or life on other planets. It's about us, our longings and terrors, and especially the greatest terror of all: the end of our existence. This is a book about UFOs that goes beyond believing in them or debunking them and to a fresh understanding of what they tell us about ourselves as individuals, as a culture, and as a species. In the 1960s, Halperin was a teenage UFOlogist, convinced that flying saucers were real and that it was his life's mission to solve their mystery. He would become a professor of religious studies, with traditions of heavenly journeys his specialty. With Intimate Alien, he looks back to explore what UFOs once meant to him as a boy growing up in a home haunted by death and what they still mean for millions, believers and deniers alike. From the prehistoric Balkans to the deserts of New Mexico, from the biblical visions of Ezekiel to modern abduction encounters, Intimate Alien traces the hidden story of the UFO. It's a human story from beginning to end, no less mysterious and fantastic for its earthliness. A collective cultural dream, UFOs transport us to the outer limits of that most alien yet intimate frontier, our own inner space.

The Day After Roswell-Philip Corso 2012-12-11 Since 1947, the mysterious crash of an unidentified aircraft at Roswell, New Mexico, has fueled a firestorm of speculation and controversy with no conclusive evidence of its extraterrestrial origin -- until now. Colonel Philip J. Corso (Ret.), a member of President Eisenhower's National Security Council and former head of the Foreign Technology Desk at the U.S. Army's Research & Development department, has come forward to tell the whole explosive story. Backed by documents newly declassified through the Freedom of Information Act, Colonel Corso reveals for the first

time his personal stewardship of alien artifacts from the crash, and discloses the U.S. government's astonishing role in the Roswell incident: what was found, the cover-up, and how these alien artifacts changed the course of 20th century history.

Ancient Aliens in the Bible-Xaviant Haze 2017-10-23 Did a distant race of ancient aliens once inhabit the lands of the Bible? Do the ancient writings of the Bible and other texts provide proof of their existence? Did the "prophets" have close encounters with ancient aliens? Were the "angels" physical beings sent to perform specific tasks by their alien masters? Ancient Aliens in the Bible answers these questions and more. Analyzing the historical and archaeological evidence, and using the work of former Vatican translator Mauro Biglino as his guide, Xaviant Haze provides ample proof that what our ancestors described in ancient biblical texts were real-life events and not visions. The UFO encounters in the Bible are described as concrete experiences by flesh-and-blood beings. The angels were assigned specific duties and struggled to carry them out; some even rebelled and took earthly wives, forbidden by their superiors. Ancient Aliens in the Bible reveals that: Lamech's wife gave birth to the son of an angel with glowing eyes. Moses was led to the promised land by UFOs. Noah's great-grandfather, Enoch, got a heavenly tour of space. Your view of the Bible will never be the same.

The Real Cowboys & Aliens-Noe Torres 2020-01-25 Long before the first airplane took flight, when nothing but birds should have been in the skies, the early residents of the United States witnessed bizarre unidentified flying objects of all sizes, shapes, and descriptions. They encountered strange beings that clearly were not human, including "Men in Black" and possibly time travelers. They saw huge motherships, underwater UFOs, and other unexplained wonders. Some of America's most famous early historical figures, including Thomas Jefferson, Ben Franklin, and George Washington, shared an interest in UFOs and extraterrestrials. Contained within these pages is the "other" American History that you were never taught in school!

Strangers, Aliens, Foreigners-Marissa Sonnis-Bell 2018-12-27 This book examines the other from experiences of migrants and refugees to terrorist labels to constructions of the local. We find that inclusive and exclusive identities are often arbitrarily defined along ambiguous lines, yet with tangible and deeply political consequences.

Sekret Machines Book 1: Chasing Shadows-Tom DeLonge 2016-04-05 For those who know... that something is going on... The witnesses are legion, scattered across the world and dotted through history, people who looked up and saw something impossible lighting up the night sky. What those objects were, where they came from, and who—or what—might be inside them is the subject of fierce debate and equally fierce mockery, so that most who glimpsed them came to wish they hadn't. Most, but not everyone. Among those who know what they've seen, and—like the toll of a bell that can't be unrung—are forever changed by it, are a pilot, an heiress, a journalist, and a prisoner of war. From the waning days of the 20th century's final great war to the fraught fields of Afghanistan to the otherworldly secrets hidden amid Nevada's dusty neverlands—the truth that is out there will propel each of them into a labyrinth of otherworldly technology and the competing aims of those who might seek to prevent—or harness—these beings of unfathomable power. Because, as it turns out, we are not the only

ones who can invent and build...and destroy. Featuring actual events and other truths drawn from sources within the military and intelligence community, Tom DeLonge and A.J. Hartley offer a tale at once terrifying, fantastical, and perhaps all too real. Though it is, of course, a work of... fiction?

Witnessed-Budd Hopkins 1997 Chronicles the alien abduction case surrounding Linda Cortile, who remembered her experience while under hypnosis and who offered a bizarre explanation to several independent testimonies of a strange incident near where she was taken. Reprint.

Alien Antichrist-Jeffrey A. Wingo 2014-06-11 In this fascinating new book you will discover the truth about UFOs, aliens, and alien disclosure from a biblical perspective. In fact, according to the Bible aliens will play a major role in the fulfillment of end-times prophecy. You will also learn the startling details about a forthcoming alien invasion of our planet and the fearsome role of the Alien Antichrist as he conquers the world through a satanic empire called Babylon the Great. This incredible book also reveals: The fallen sons of God are behind the deceptive UFO and alien abduction phenomena. The genetic program of the fallen ones to corrupt humanity with the DNA of the Beast. The ominous Antichrist figure is not a human being. He is a fallen alien king who ruled the earth during the days of Noah—and he's coming back! Earth will soon be invaded by three successive waves of alien warriors. The image of the Beast is not what you have been told—it's even more frightening because it is in the human mind—and there is only one way to escape its overwhelming power. The incredible truth behind 666 the number of the Beast and the second enigmatic figure in the book of Revelation, the False Prophet.

Extraterrestrial Languages-Daniel Oberhaus 2019-10-22 If we send a message into space, will extraterrestrial beings receive it? Will they understand? The endlessly fascinating question of whether we are alone in the universe has always been accompanied by another, more complicated one: if there is extraterrestrial life, how would we communicate with it? In this book, Daniel Oberhaus leads readers on a quest for extraterrestrial communication. Exploring Earthlings' various attempts to reach out to non-Earthlings over the centuries, he poses some not entirely answerable questions: If we send a message into space, will extraterrestrial beings receive it? Will they understand? What languages will they (and we) speak? Is there not only a universal grammar (as Noam Chomsky has posited), but also a grammar of the universe? Oberhaus describes, among other things, a late-nineteenth-century idea to communicate with Martians via Morse code and mirrors; the emergence in the twentieth century of SETI (the search for extraterrestrial intelligence), CETI (communication with extraterrestrial intelligence), and finally METI (messaging extraterrestrial intelligence); the one-way space voyage of Ella, an artificial intelligence agent that can play cards, tell fortunes, and recite poetry; and the launching of a theremin concert for aliens. He considers media used in attempts at extraterrestrial communication, from microwave systems to plaques on spacecrafts to formal logic, and discusses attempts to formulate a language for our message, including the Astraglossa and two generations of Lincos (lingua cosmica). The chosen medium for interstellar communication reveals much about the technological sophistication of the civilization that sends it, Oberhaus observes, but even more interesting is the information embedded in the message itself. In Extraterrestrial Languages, he considers how philosophy, linguistics, mathematics, science, and art have informed the design or limited the effectiveness of our interstellar messaging.

Out There-Michael Wall 2018-11-13 In the vein of Randall Munroe's What If? meets Brian Green's Elegant Universe, a senior writer from Space.com leads readers on a wild ride of exploration into the final frontier, investigating what's really "out there." We've all asked ourselves the question. It's impossible to look up at the stars and NOT think about it: Are we alone in the universe? Books, movies and television shows proliferate that attempt to answer this question and explore it. In OUT THERE Space.com senior writer Dr. Michael Wall treats that question as merely the beginning, touching off a wild ride of exploration into the final frontier. He considers, for instance, the myriad of questions that would arise once we do discover life beyond Earth (an eventuality which, top NASA officials told Wall, is only drawing closer). What would the first aliens we meet look like? Would they be little green men or mere microbes? Would they be found on a planet in our own solar system or orbiting a star far, far away? Would they intend to harm us, and if so, how might they do it? And might they already have visited? OUT THERE is arranged in a simple question-and-answer format. The answers are delivered in Dr. Wall's informal but informative style, which mixes in a healthy dose of humor and pop culture to make big ideas easier to swallow. Dr. Wall covers questions far beyond alien life, venturing into astronomy, physics, and the practical realities of what long-term life might be like for we mere humans in outer space, such as the idea of lunar colonies, and even economic implications. Dr. Wall also shares the insights of some of the leading lights in space exploration today, and shows how the next space age might be brighter than ever.

The War of the Worlds-H. G. Wells 2016-03-15 The science fiction masterpiece of man versus alien that inspired generations, from Orson Welles's classic radio play to the film starring Tom Cruise. At the turn of the twentieth century, few would believe that mankind is being watched from above. But millions of miles from Earth, the lords of the Red Planet prepare their armies for invasion, waiting for the moment to strike. When they land in the English countryside, baffled humans approach, waving white flags, and the Martians burn them to a crisp. The war has begun, and mankind doesn't stand a chance. As Martian armies roll across England, one man fights to keep his family safe, risking his life—and his sanity—on the front lines of the greatest war in galactic history. H. G. Wells's groundbreaking novel, adapted to radio and film, among other mediums, by visionary artists from Orson Welles to Steven Spielberg, remains one of the most chilling, unforgettable works of science fiction ever written. This ebook has been professionally proofread to ensure accuracy and readability on all devices.

Aliens: The Strange Truth-Bob Sanders 2018-09-19 Are you ready for the truth about Aliens? Do you think that you have all the answers, that you know all there is to know about these entities outside our planet? We intend to devote this book to a study of an aspect of life that has seldom ever been mentioned in the past and we are concerned that even today there will be many people unable to comprehend the message. But that is not our concern. We are tasked with revealing information and so we will make this information available now and hope that some, at least, will comprehend. Others will begin to understand at a later date. Indeed, there are aspects of life so far remote from anything that even the most advanced, even the most open-minded person would not be able to accept. We give this book to you, the general public, in the hopes that it will eventually bring knowledge concerning aliens to you. So, we hope that you have read this book, even if you cannot accept all of it, you will be able to accept parts of it. That which you cannot accept must remain outside of your belief. However, it happens to be the truth and so, with time, people will come to accept what we have told you as true and mankind will advance in knowledge one more step. So, get ready to take the red pill, much of what you are about to read has never been revealed to the public before!

U.S. Tax Guide for Aliens- 1996

Grey Aliens and the Harvesting of Souls-Nigel Kerner 2010-01-19 Exposes the agenda behind the bio-robotic grey aliens' genetic manipulation of certain human races • Reveals the Grey's nature as sophisticated self-aware machines created by a long vanished extraterrestrial civilization • Explains how their quest to capture human souls appears in the historical record from biblical times • Explains how the phenomenon of racism is a by-product of their genetic tampering In 1997 Nigel Kerner first introduced the notion of aliens known as Greys coming to Earth, explaining that Greys are sophisticated biological robots created by an extraterrestrial civilization they have long since outlived. In this new book Kerner reveals that the Greys are seeking to master death by obtaining something humans possess that they do not: souls. Through the manipulation of human DNA, these aliens hope to create their own souls and, thereby, escape the entropic grip of the material universe in favor of the timeless realm of spirit. Kerner explains that genetic manipulation by the Greys has occurred since biblical times and has led to numerous negative qualities that plague humanity, such as violence, greed, and maliciousness. Racism, he contends, was developed by the aliens to prevent their genetic experiments from being compromised by breeding with others outside their influence. Examining historical records, Kerner shows that Jesus, who represented an uncorrupted genetic line, warned his disciples about the threat posed by these alien interlopers, while Hitler, a pure product of this alien intelligence, waged genocide in an attempt to rid Earth of all those untouched by this genetic tampering. Despite the powerful grip the Greys have on humanity, Kerner says that all hope is not lost. Greys exist wholly in the material world, so if we follow the spiritual laws of reincarnation and karma, aiming for enlightenment and rising above the material--a state the Greys are unable to reach--we can free ourselves from their grasp.

Report of the Royal Commission on Alien Immigration-Great Britain. Royal Commission on Alien Immigration 1903

When Prophecy Fails-Leon Festinger 2013-04-01 The study reported in this volume grew out of some theoretical work, one phase of which bore specifically on the behavior of individuals in social movements that made specific (and unfulfilled) prophecies. We had been forced to depend chiefly on historical records to judge the adequacy of our theoretical ideas until we by chance discovered the social movement that we report in this book. At the time we learned of it, the movement was in mid-career but the prophecy about which it was centered had not yet been disconfirmed. We were understandably eager to undertake a study that could test our theoretical ideas under natural conditions. That we were able to do this study was in great measure due to the support obtained through the

Laboratory for Research in Social Relations of the University of Minnesota. This study is a project of the Laboratory and was carried out while we were all members of its staff. We should also like to acknowledge the help we received through a grant-in-aid from the Ford Foundation to one of the authors, a grant that made preliminary exploration of the field situation possible.

The 37th Parallel-Ben Mezrich 2016-09-06 This real-life The X-Files and Close Encounters of the Third Kind tells the true story of a computer programmer who tracks paranormal events along a 3,000-mile stretch through the heart of America and is drawn deeper and deeper into a vast conspiracy. Like "Agent Mulder" of The X-Files, computer programmer and sheriff's deputy Zukowski is obsessed with tracking down UFO reports in Colorado. He would take the family with him on weekend trips to look for evidence of aliens. But this innocent hobby takes on a sinister urgency when Zukowski learns of mutilated livestock, and sees the bodies of dead horses and cattle—whose exsanguination is inexplicable by any known human or animal means. Along an expanse of land stretching across the southern borders of Utah, Colorado, and Kansas, Zukowski discovers multiple bizarre incidences of mutilations, and suddenly realizes that they cluster around the 37th Parallel or "UFO Highway." So begins an extraordinary and fascinating journey from El Paso and Rush, Colorado, to a mysterious space studies company and MUFON, from Roswell and Area 51 to the Pentagon and beyond; to underground secret military caverns and Indian sacred sites; beneath strange, unexplained lights in the sky and into corporations that obstruct and try to take over investigations. Inspiring and terrifying, this true story will keep you up at night, staring at the sky, and wondering if we really are alone...and what could happen next.

True Faith and Allegiance-Noah Pickus 2009-04-11 True Faith and Allegiance is a provocative account of nationalism and the politics of turning immigrants into citizens and Americans. Noah Pickus offers an alternative to the wild swings between emotionally fraught positions on immigration and citizenship of the past two decades. Drawing on political theory, history, and law, he argues for a renewed civic nationalism that melds principles and peoplehood. This tradition of civic nationalism held sway at America's founding and in the Progressive Era. Pickus explores how, from James Madison to Teddy Roosevelt, its proponents

sought to combine reason and reverence and to balance inclusion and exclusion. He takes us through controversies over citizenship for blacks and the rights of aliens at the nation's founding, examines the interplay of ideas and institutions in the Americanization movement in the 1910s and 1920s, and charts how both left and right promoted a policy of neglect toward immigrants and toward citizenship in the second half of the twentieth century. True Faith and Allegiance shows that contemporary debates over a range of immigration and citizenship policies cannot be resolved by appeals to fixed notions of creed or culture, but require a supple civic nationalism that bridges the gap between immigrants' needs and American principles and practices. It is critical reading for scholars, policy makers, and all who care about immigrants and about America.

The Last Astronaut-David Wellington 2019-07-23 Mission Commander Sally Jansen is Earth's last astronaut--and last hope--in this gripping near-future thriller where a mission to make first contact becomes a terrifying struggle for survival in the depths of space. Sally Jansen was NASA's leading astronaut, until a mission to Mars ended in disaster. Haunted by her failure, she lives in quiet anonymity, convinced her days in space are over. She's wrong. A large alien object has entered the solar system on a straight course toward Earth. It has made no attempt to communicate and is ignoring all incoming transmissions. Out of time and out of options, NASA turns to Jansen. For all the dangers of the mission, it's the shot at redemption she always longed for. But as the object slowly begins to reveal its secrets, one thing becomes horribly clear: the future of humanity lies in Jansen's hands. "A terrifying tour de force." --James Rollins "Breathless, compulsive reading." --Christopher Golden "Readers will be riveted." --Publishers Weekly (starred)
