American Government-Peter Woll 2003-05 With an even stronger focus on the major cases and readings that define our thinking about American government and politics, the Fifteenth Edition puts students directly in touch with the great authors and political leaders who have shaped and are shaping American government. As it has since its first edition, this reader provides a strong, balanced blend of classics that illustrate and amplify important concepts in American government, along with extremely current readings and cases drawn from today's literature.

American Government-Peter Woll 2011-03 This best-selling book in American government puts readers directly in touch with the great authors and political leaders who have shaped-and are shaping-American government. American Government: Readings and Cases has been the bestselling American government reader for over 40 years. This anthology continues to provide a strong, balanced blend of classic selections that illustrate and amplify important concepts in American government, along with current readings and cases drawn from today's headlines.

American Government- 1975

American Government- 1975

American Government-Will Geisler 2017-07-24 American Government: Readings and Cases using primary sources and Supreme Court cases from the 18th-21st centuries to understand political science, political philosophy, political history.

American Government: Readings and Cases-Peter Woll 1962

American Government-Karen O'Connor 1995

Rendering to God and Caesar-Mark Caleb Smith 2017-12-20 You are holding in your hands a piece of the counterculture. The recent tendency in the academic world has been away from primary sources and toward textbooks. Being a fairly traditional lot, we find that unacceptable. We focus on the "big ideas" that have shaped American government. There are many ways to gain exposure to these ideas, but in our opinion, none are better than actually reading the primary sources that first articulated them. That is why you will see many founding documents, Supreme Court cases, and momentous speeches within these pages. This collection will whet your appetite for exploring our rich American governmental heritage. Our hope is that this may be the beginning of a lifelong interest in the basis of our American government—how we got where we are today, and how we are to proceed from here!

American Government-Glen Krutz 2018-01-07 Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

Instructor's Manual to Accompany-Peter Woll 1987 "This instructor's manual for the ninth edition of American Government: Readings and Cases contains background material, questions, and comments that are keyed to the selections in the book." -- preface.

Farther to Go-Franklin D. Gilliam 2002 Part documentary anthology, part literature review, and part bibliography, FARTHER TO GO gives students a thorough historical grounding in the field of racial politics. Dr. Gilliam imparts a strong working knowledge of the civil rights movement, as well as the cultural, economic, and psychological nuances underlying the relationship between the black community and the political system. To that end, the text presents significant court cases, speeches, and statutes that allow students to discover the texture of racial politics in America.

Governmental Powers-Corey Brettschneider 2014-02-07 Governmental Powers: Cases and Readings in Constitutional Law and American Democracy, written by prominent scholar and professor of constitutional law and political theory, Corey Brettschneider, explores the division, enumeration, and roles of the governmental powers established under the U.S. Constitution and the controversies arising from that system in the context of a changing American society. Like its parent volume, Constitutional Law and American Democracy, this text offers a wealth of highly focused case excerpts and interdisciplinary readings dealing with today's most salient debates. These carefully selected readings and cases focus on high-interest topics, including the nature and justification of judicial review, federalism, and separation of powers, and work together to create a nuanced view of key political and constitutional issues. Grounded in precedent, constitutional theory, and history, this bold work explores urgent issues of current debate and controversy making Governmental Powers fun to read and to teach. The clear, well-reasoned writing frequently challenges and always engages. A dynamic book drawing on a wealth of sources, Governmental Powers: Cases and Readings in Constitutional Law and American Democracy, features: An organization linking the history of the Constitution, constitutional law, and the structure of the federal government to contemporary issues and controversies A wealth of primary sources, including case excerpts, concurring and dissenting opinions, law journal and interdisciplinary articles, and published letters A new chapter on the nature and implications of the Supreme Court's 2012 decision regarding the Patient Protection and Affordable Health Care Act A focused selection of cases covering a nuanced perspective on the Constitution and the political and constitutional disputes that have shaped its meaning Exposure to legal argumentation through astutely selected and edited readings from noted scholars and theorists Coverage spanning the history and development of constitutional law up to the present day, with ample background for considering the big-picture questions of constitutional doctrine and the Supreme Court's role A stimulating balance of foundational and cutting-edge topical coverage that doesn't sidestep provocative or controversial subject matter Overviews in each chapter introducing the constitutional arguments, chapter readings, and cases Discussion questions promoting comprehension, analysis, and classroom discourse Teachers of constitutional law have long awaited a text like this. Brettschneider blends the most important pertinent statements of political and legal theory with skillful excerpts from the major constitutional cases on governmental powers, civil rights, and civil liberties. Brettschneider's insightful commentaries make the text all the richer. Rogers M. Smith, Christopher H. Browne Distinguished Professor of Political Science, University of Pennsylvania

AmGov-Christine Barbour 2019-02-12 All the fundamentals. No fluff. Learn more with less! A truly revolutionary American Government textbook, Christine Barbour's AmGov: Long Story Short, responds to the needs of today's students and instructors through brevity and accessibility. The succinct ten chapters are separated by tabs that make it easy to skim, flip, revisit, reorient, and return to content quickly. Reading aids like bullets, annotations and arrows walk students through important facts and break up the material in short, engaging bites of information that highlight not only what is important but why it's important. Though brief, this core book is still robust enough to provide everything that students need to be successful in their American Government course. Whether for the on-the-go student who doesn't have time to read and digest a lengthy chapter, or the instructor who wants a book that will stay out of their way and leave room for plenty of supplementary reading and activities, AmGov provides a perfectly simplified foundation for a successful American Government course.

Exam Prep for: American Government ; Readings and Cases-

American Governments-Peter Woll 2005-02-01

American Government-Scott F. Abernathy 2017-01-03 Real People. Real Stories. Real Politics. Politics involves people, from many backgrounds, struggling to make their voices heard. Real people, telling their stories, reflect our ideals, choices, and collective experiences as a nation. In American Government: Stories of a Nation, author Scott Abernathy tunes in to these voices, showing how our diverse ideas shape the way we participate and behave, the laws we live by, and the challenges we face. Each chapter features real stories illustrating how the American political system is the product of strategies, calculations, and miscalculations of countless individuals. Students learn the nuts and bolts of political science through these compelling stories. Learning concepts in context is a tested learning technique that works to help ideas stick. The key concepts are memorable because they are tied to real politics, where students see political action and political choices shaping how institutions advance or impede the fulfillment of fundamental ideas. Not only will all students see themselves reflected in the pages, but they will come to understand that they, too, are strategic players in American politics, with voices that matter. Just like the Full version, The Essentials edition is perfect for instructors who don't wish to cover the last three chapters on policy.

The Lanahan Readings in the American Polity-Ann Gostyn Serow 2003 COLLECTION OF 98 ESSAYS ON AMERICAN GOVERNMENT FOR THE COLLEGE UNDERGRADUATE COURSE MARKET

Constitutional Law for a Changing America-Lee Epstein 2017-09-27 Drawing on political science as much as from legal studies, Constitutional Law for a Changing America helps students realize that Supreme Court cases are more than just legal names and citations. Ideal for a one-semester course, the Short Course offers all of the hallmarks of the Rights and Powers volumes in a more condensed format. The authors are known for fastidious revising and streamlining of decisions. A recipient of 12 grants from the National Science Foundation for her work on law and legal institutions, Lee Epstein has authored or co-authored over 100 articles and essays, as well as 15 books, and received the Teaching and Mentoring Award from the Law and Courts Section of the American Political Science Association. Additionally, Thomas G. Walker is the Goodrich C. White Professor of Political Science at Emory University and co-author of A Court Divided, which won the V. O. Key, Jr. Award for the best book on southern politics.

Democracy-David A. Moss 2017-02-01 Historian David Moss adapts the case study method made famous by Harvard Business School to revitalize our conversations about governance and democracy and show how the United States has often thrived on political conflict. These 19 cases ask us to weigh choices and consequences, wrestle with momentous decisions, and come to our own conclusions.

Voices of Dissent-Joseph G. Peschek 2005-02 Homosexuality is anathema to Islam - or so the majority of both believers and non-believers suppose. Throughout the Muslim world, it is met with hostility, where state punishments range from hefty fines to the death penalty. Likewise, numerous scholars and commentators maintain that the Qur'an and Hadith rule unambiguously against same-sex relations. This pioneering study argues that there is far more nuance to the matter than most believe. In its narrative of Lot, the Qur'an could be interpreted as condemning lust rather homosexuality. While some Hadith are fiercely critical of homosexuality, some are far more equivocal. One even appears to actively endorse love between men. This is the first book length treatment to offer a detailed analysis of how Islamic scripture, jurisprudence, and Hadith, can not only accommodate a sexually sensitive Islam, but actively endorse it. Scott Kugle is the first Muslim to publish widely on the issue of homosexuality and Islam. An independent research scholar in Islamic studies, he has previously held positions at Duke University, the University of Cape Town, and Swarthmore College.

The Basics of American Government-Carl D. Cavalli 2013-08-06 The Basics of American Government is a collaborative effort among eight current and one former faculty members in the Departments of Political Science and Criminal Justice at University of North Georgia. The purpose of this book is to offer a no-frills, low-cost, yet comprehensive overview of the American political system for students taking introductory courses in American national government. Furthermore, the work combines the best aspects of both a traditional textbook and a reader in that most chapters offer a piece of original scholarship as a case study to bolster or reinforce the material presented in the chapter. In addition, many chapters present a civic engagement-type exercise and discussion questions intended to challenge, engage, and foster student participation in the political system. The authors undertook this project for several reasons, most notably the high costs of textbooks for students and the lack of college-level scholarship found in most American Government texts. This 375-page, peer-reviewed, edited book that combines traditional material with original scholarship will cost students \$27.99, well below market standards. All of the authors are experienced classroom instructors, subject matter experts, and published researchers in the field of American politics.

Public Administration: Concepts and Cases-Richard Stillman 2012-08-01 PUBLIC ADMINISTRATION: CONCEPTS AND CASES offers a unique and highly regarded framework in which conceptual readings are paired with contemporary case studies that reflect real-world examples of administrative work, as well as new thinking and developments in the field. Case studies and examples cover topics such as the Columbia space shuttle disaster, the shootings at Columbine High School, and the war in Iraq making it easy to engage students in the readings. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Presidential Character-James David Barber 2017-10-03 Dr. James David Barber's well-known, provocative examination of who has the potential to be voted into the highest office in the land - and why - is being reissued as the newest addition to the "Longman Classics in Political Science" series. Arguing that patterns in a person's character, world view, and style can allow us to anticipate their performance as president, The Presidential Character offers explanations and predictions of the performance of presidents and presidential candidates. Drawing on historical, biographical, and psychological research, Dr. Barber hoped to help voters make judicious choices in determining the country's highest leaders. Revisiting this classic work in today's important presidential election season begs a reconsideration of Barber's probing and enduring query, "What should we look for in a president?"

Ideas and Issues in Public Administration-Dwight Waldo 1970

The Future of the Public's Health in the 21st Century-Institute of Medicine 2003-02-01 The anthrax incidents following the 9/11 terrorist attacks put the spotlight on the nation's public health agencies, placing it under an unprecedented scrutiny that added new dimensions to the complex issues considered in this report. The Future of the Public's Health in the 21st Century reaffirms the vision of Healthy People 2010, and outlines a systems approach to assuring the nation's health in practice, research, and policy. This approach focuses on joining the unique resources and perspectives of diverse sectors and entities and challenges these groups to work in a concerted, strategic way to promote and protect the public's health. Focusing on diverse partnerships as the framework for public health, the book discusses: The need for a shift from an individual to a population-based approach in practice, research, policy, and community engagement. The status of the governmental public health infrastructure and what needs to be improved, including its interface with the health care delivery system. The roles nongovernment actors, such as academia, business, local communities and the media can play in creating a healthy nation. Providing an accessible analysis, this book will be important to public health policy-makers and practitioners, business and community leaders, health advocates, educators and journalists.

Divided We Govern-David R. Mayhew 2005 In this prize-winning book, a renowned political scientist debunks the commonly held myth that the American national government functions effectively only when one political party controls the presidency and Congress. For this new edition, David R. Mayhew has provided a new Preface, a new appendix, and a new concluding chapter that brings the historical narrative up to date. "Important, accessible, and compelling, David Mayhew's second edition of Divided We Govern takes the best book on the history of US lawmaking and—against all odds—makes it better."--Keith Krehbiel, Stanford University "In this welcome updating of his agenda-setting classic, David Mayhew cogently defends his original methodology and finds that divided government remains no less productive of important legislation than unified government, although it is now (thanks mainly to Clinton's impeachment) strongly associated with prominent investigations of the executive branch. Written with Mayhew's usual clarity and grace, this is a book to be enjoyed by beginning and veteran students of Congress alike."--Gary Jacobson From reviews of the first edition: "First-rate. . . . Mayhew's tabulations and analysis are, quite simply, unimpeachable."--Morris Fiorina, Washington Monthly "Will stand for years as a classic."--L. Sandy Maisel, Political Science Quarterly "Should be read by every student of American politics."--Gillian Peele, Times Higher Education Supplement

American Government-James Q. Wilson 1998

Communities in Action-National Academies of Sciences, Engineering, and Medicine 2017-04-27 In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways.

Communities in Action: Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

American Government and Politics in the Information Age-David L. Paletz 2021

The American Political System-Ken Kollman 2017-02-01 A contemporary framework without the fluff.

Reading Lolita in Tehran-Azar Nafisi 2003-12-30 We all have dreams—things we fantasize about doing and generally never get around to. This is the story of Azar Nafisi's dream and of the nightmare that made it come true. For two years before she left Iran in 1997, Nafisi gathered seven young women at her house every Thursday morning to read and discuss forbidden works of Western literature. They were all former students whom she had taught at university. Some came from conservative and religious families, others were progressive and secular; several had spent time in jail. They were shy and uncomfortable at first, unaccustomed to being asked to speak their minds, but soon they began to open up and to speak more freely, not only about the novels they were reading but also about themselves, their dreams and disappointments. Their stories intertwined with those they were reading—Pride and Prejudice, Washington Square, Daisy Miller and Lolita—their Lolita, as they imagined her in Tehran. Nafisi's account flashes back to the early days of the revolution, when she first started teaching at the University of Tehran amid the swirl of protests and demonstrations. In those frenetic days, the students took control of the university, expelled faculty members and purged the curriculum. When a radical Islamist in Nafisi's class questioned her decision to teach The Great Gatsby, which he saw as an immoral work that preached falsehoods of "the Great Satan," she decided to let him put Gatsby on trial and stood as the sole witness for the defense. Azar Nafisi's luminous tale offers a fascinating portrait of the Iran-Iraq war viewed from Tehran and gives us a rare glimpse, from the inside, of women's lives in revolutionary Iran. It is a work of great passion and poetic beauty, written with a startlingly original voice. From the Hardcover edition.

Scientific Integrity-Francis L. Macrina 2014-07-01 This widely adopted textbook provides the essential content and skill-building tools for teaching the responsible conduct of scientific research. Scientific Integrity covers the breadth of concerns faced by scientists: protection of animal and human experimental subjects, scientific publication, intellectual property, conflict of interest, collaboration, record keeping, mentoring, and the social and ethical responsibilities of scientists. Learning activities and resources designed to elucidate the principles of Scientific Integrity include Dozens of highly relevant, interactive case studies for discussion in class or online Numerous print and online resources covering the newest research guidelines, regulations, mandates and policies Discussion questions, role-playing exercises, and survey tools to promote critical thought Documents including published rules of conduct, sample experimentation protocols, and patent applications The new edition of Scientific Integrity responds to significant recent changes—new mandates, policies, laws, and other developments—in the field of responsible conduct of research. Dr. Macrina plants the seeds of awareness of existing, changing, and emerging standards in scientific conduct and provides the tools to promote critical thinking in the use of that information. Scientific Integrity is the original turnkey text to guide the next generations of scientists as well as practicing researchers in the essential skills and approaches for the responsible conduct of science.

Congressional Record0- 1877

Constitutional Law and American Democracy-Corey Brettschneider 2011-12-01 In what promises to become a foundational undergraduate and law school text, Constitutional Law and American Democracy: Cases and Readings goes beyond parsing cases, providing ample

How to Read the Constitution—and Why-Kim Wehle 2019-06-25 "A must-read for this era."--Jake Tapper, CNN Anchor and Chief Washington Correspondent An insightful, urgent, and perennially relevant handbook that lays out in common sense language how the United States Constitution works, and how its protections are eroding before our eyes—essential reading for anyone who wants to understand and parse the constantly breaking news about the backbone of American government. The Constitution is the most significant document in America. But do you fully understand what this valuable document means to you? In How to Read the Constitution—and Why, legal expert and educator Kimberly Wehle spells out in clear, simple, and common sense terms what is in the Constitution, and most importantly, what it means. In compelling terms and including text from the United States Constitution, she describes how the Constitution's protections are eroding—not only in express terms but by virtue of the many legal and social norms that no longer shore up its legitimacy—and why every American needs to heed to this "red flag" moment in our democracy. This invaluable—and timely—resource includes the Constitution in its entirety and covers nearly every significant aspect of the text, from the powers of the President and how the three branches of government are designed to hold each other accountable, to what it means to have individual rights—including free speech, the right to bear arms, the right to be free from unreasonable searches and seizures, and the right to an abortion. Finally, the book explains why it has never been more important than now for all Americans to know how our Constitution works—and why, if we don't step in to protect it now, we could lose its protections forever. How to Read the Constitution—and Why is essential reading for anyone who cares about maintaining an accountable government and the individual freedoms that the Constitution enshrines for everyone in America—regardless of political party.

Freedom's Law-Ronald Dworkin 1999 Written by the world's best-known political and legal theorist, Freedom's Law: The Moral Reading of the American Constitution is a collection of essays that discuss almost all of the great constitutional issues of the last two decades, including abortion, euthanasia, capital punishment, homosexuality, pornography, and free speech. Professor Dworkin offers a consistently liberal view of the Constitution and argues that fidelity to it and to law demands that judges make moral judgments. He proposes that we all interpret the abstract language of the Constitution by reference to moral principles about political decency and justice. His "moral reading therefore brings political morality into the heart of constitutional law. The various chapters of this book were originally published separately and are now drawn together to provide the reader with a rich, full-length treatment of Dworkin's general theory of law.

The Case for Nationalism-Rich Lowry 2019-11-05 It is one of our most honored clichés that America is an idea and not a nation. This is false. America is indisputably a nation, and one that desperately needs to protect its interests, its borders, and its identity. The Brexit vote and the election of Donald Trump swept nationalism to the forefront of the political debate. This is a good thing. Nationalism is usually assumed to be a dirty word, but it is a foundation of democratic self-government and of international peace. National Review editor Rich Lowry refutes critics on left and the right, reclaiming the term "nationalism" from those who equate it with racism, militarism and fascism. He explains how nationalism is an American tradition, a thread that runs through such diverse leaders as Alexander Hamilton, Teddy Roosevelt, Martin Luther King, Jr., and Ronald Reagan. In The Case for Nationalism, Lowry explains how nationalism was central to the American Project. It fueled the American Revolution and the ratification of the Constitution. It preserved the country during the Civil War. It led to the expansion of the American nation's territory and power, and eventually to our invaluable contribution to creating an international system of self-governing nations. It's time to recover a healthy American nationalism, and especially a cultural nationalism that insists on the assimilation of immigrants and that protects our history, civic rituals and traditions, which are under constant threat. At a time in which our nation is plagued by self-doubt and self-criticism, The Case for Nationalism offers a path for America to regain its national self-confidence and achieve continued greatness.

American Constitutional Law, Volume II-Ralph A. Rossum 2018-05-15 American Constitutional Law, Volume II provides a comprehensive account of the nation's defining document, examining how its provisions were originally understood by those who drafted and ratified it, and how they have since been interpreted by the Supreme Court, Congress, the President, lower federal courts, and state judiciaries. Clear and accessible chapter introductions and a careful balance between classic and recent cases provide students with a sense of how the law has been understood and construed over the years. The Tenth Edition has been fully revised to include twelve new cases, including key decisions Obergefell v. Hodges, Burwell v. Hobby Lobby Stores, Shelby County v. Holder, Horne v. Department of Agriculture, and Riley v. California. A revamped and expanded companion website offers access to even more additional cases, an archive of primary documents, and links to online resources, making this text essential for any constitutional law course.

Cases in Comparative Politics (Sixth Edition)-Patrick H. O'Neil 2017

We the People-Erwin Chemerinsky 2018-11-13 A primer on recognizing the power and promise of the Preamble and the Constitution during this conservative assault on our founding text "Over the course of American history, there have been great gains in individual freedom and enormous advances in equality for racial minorities, women, and gays and lesbians, though obviously much remains to be done. Now we are at a moment with a president who is not committed to these values and face the reality of a Supreme Court that will likely be more hostile to them for the foreseeable future." --From the Preface Worried about what a super conservative majority on the Supreme Court means for the future of civil liberties? From gun control to reproductive health, a conservative court will reshape the lives of all Americans for decades to come. The time to develop and defend a progressive vision of the U.S. Constitution that protects the rights of all people is now. University of California Berkeley Dean and respected legal scholar Erwin Chemerinsky expertly exposes how conservatives are using the Constitution to advance their own agenda that favors business over consumers and employees, and government power over individual rights. But exposure is not enough. Progressives have spent too much of the last forty-five years trying to preserve the legacy of the Warren Court's most important rulings and reacting to the Republican-dominated Supreme Courts by criticizing their erosion of rights—but have not yet developed a progressive vision for the Constitution itself. Yet, if we just look to the promise of the Preamble—liberty and justice for all—and take seriously its vision, a progressive reading of the Constitution can lead us forward as we continue our fight ensuring democratic rule, effective government, justice, liberty, and equality. Includes the Complete Constitution and Amendments of the United States of America
