Changes in Marriage Practices-Mohan Singh 1996 The book highlights the changes in marriage practices to identify mechanisms, processes and causes therefore and to examine their social and demographic implications in rural Himachal Pradesh,India. The study suggests a unique profile of the shift from traditional to modern one in which high fertility and mortality rates have declined. The demographic changes have brought with it economic prosperity and political awareness and,in turn,they aroused the desire for upward social mobility. The study reveals a transition from bride-price to daan or dowry marriages on account of the improvement in the economic status and spread of education. Significantly, a positive association of the quality and quantity of dowry with the desired qualities of the groom and his family has been observed,thus reflecting the status of the brides and groom's families. The impact of education and the impovement of social status did also have a positive effect on the increase in age at marriage of girls. There has also been a decline in the rate of divorce and separation. Divorce, however ,occurs because of the sheer desire of a woman for survival and escape from abuse. Though there is no prejudice against widow remarriage, yet it is not encouraged. From the study,there emerges a need to explore the relationships and pathways for the association among socio-economic,political and cultural change autonomy of women and demokgraphic behaviour. The book is a substantial addition in India's Social demography and is useful for Social Scientists,Planner,demographer and those with an interest ;in Society.

Marriage Analysis-Harold T. Christensen 1958

Family Multinationals-Christina Lubinski 2013-07-18 In contrast to widespread assessments that family enterprises lack sufficient resources and capabilities to go global, many family companies are competing successfully in an increasingly globalized business environment. Worldwide, a large number of thriving multinationals are still family-owned and/or under family control. While there is abundant literature on the phenomenon of globalization from many different disciplines, neither the literature on multinationals nor the growing field of family business studies have systematically investigated family multinationals yet. This volume is one of the first to deal explicitly with family multinationals and the role of the family in internationalization. It situates itself at the crossroads of internationalization studies on the one hand and family business research on the other. Why do families continue to play such a large role in some of the most prominent firms in emerging and mature economies? How did they manage to maintain ownership control, yet divest of unrelated business ventures? How did they internationalize yet maintain control? This book identifies the idiosyncratic strategies and structures of family multinationals in different countries and at different points in time. A comparative historical and case study approach allows us to explore the role of the family through the firms' various internationalization pathways and understand long-term developments and path dependencies.

A Legacy of Liberation-Mark Gevisser 2009-03-31 A gripping social history of South Africa's past and future and beautifully narrated by one of Africa's most esteemed journalists, From Struggle to Liberation sheds light on the future of the nation under a new regime. With unprecedented access to Thabo Mbeki and the top brass in the African National Congress, Mark Gevisser weaves a nuanced portrait of the black experience under apartheid. Revelations about the current president and the politics that continue to shape South Africa include: - Thabo Mbeki's difficult relationship with his own political activist and largely absent father Govan Mbeki, who was imprisoned on Robben Island with Nelson Mandela. - How the death of his son Kwanda in the diamond mines and the murder of his brother Jama directly affected his leadership and will continue to shape the governance of Africa for years to come. - The reasons behind Mbeki's puzzling refusal to admit that the HIV virus causes AIDS, which in South Africa claims 800 lives per day, and his support of corrupt governments such as Zimbabwe's. - Inside rivalry between Thabo Mbeki and Jacob Zuma, the populist leader destined to take over as president in 2009. This accessible account of a monumental period in world history is the definitive look at contemporary South Africa.

The Longevity Project-Howard S. Friedman Ph.D. 2011-03-03 Watch a video Watch a Fox News segment on The Longevity Project. This landmark study--which Dr. Andrew Weil calls "a remarkable achievement with surprising conclusions"--upends the advice we have been told about how to live to a healthy old age. We have been told that the key to longevity involves obsessing over what we eat, how much we stress, and how fast we run. Based on the most extensive study of longevity ever conducted, The Longevity Project exposes what really impacts our lifespan-including friends, family, personality, and work. Gathering new information and using modern statistics to study participants across eight decades, Dr. Howard Friedman and Dr. Leslie Martin bust myths about achieving health and long life. For example, people do not die from working long hours at a challenging job- many who worked the hardest lived the longest. Getting and staying married is not the magic ticket to long life, especially if you're a woman. And it's not the happy-go-lucky ones who thrive-it's the prudent and persistent who flourish through the years. With questionnaires that help you determine where you are heading on the longevity spectrum and advice about how to stay healthy, this book changes the conversation about living a long, healthy life.
