Becoming Steve Jobs-Brent Schlender & Rick Tetzeli

Becoming Steve Jobs-Brent Schlender 2015-03-24 The #1 New York Times bestselling biography of how Steve Jobs became the most visionary CEO in history. Becoming Steve Jobs breaks down the conventional, one-dimensional view of Steve Jobs that he was half-genius, half-jerk from youth, an irascible and selfish leader who slighted friends and family alike. Becoming Steve Jobs answers the central question about the life and career of the Apple cofounder and CEO: How did a young man so reckless and arrogant that he was exiled from the company he founded become the most effective visionary business leader of our time, ultimately transforming the daily life of billions of people? Drawing on incredible and sometimes exclusive access, Schlender and Tetzeli tell a different story of a real human being who wrestled with his failings and learned to maximize his strengths over time. Their rich, compelling narrative is filled with stories never told before from the people who knew Jobs best, including his family, former inner circle executives, and top people at Apple, Pixar and Disney, most notably Tim Cook, Jony Ive, Eddy Cue, Ed Catmull, John Lasseter, Robert Iger and many others. In addition, Schlender knew Jobs personally for 25 years and draws upon his many interviews with him, on and off the record, in writing the book. He and Tetzeli humanize the man and explain, rather than simply describe, his behavior. Along the way, the book provides rich context about the technology revolution we've all lived through, and the ways in which Jobs changed our world. A rich and revealing account, Becoming Steve Jobs shows us how one of the most colorful and compelling figures of our times was able to combine his unchanging, relentless passion with an evolution in management style to create one of the most valuable and beloved companies on the planet.

A Regular Guy-Mona Simpson 2011-05-11 Anywhere But Here and The Lost Father have established Mona Simpson as one of our most accomplished writers. In her new novel--the portrait of a legendary, quintessentially American entrepreneur trapped by the age he helped to define--she brilliantly extends her achievement. More powerfully than ever before, Simpson uncovers the nature of longing and belonging, of blood relations and the human heart.

Becoming Steve Jobs by Brent Schlender and Rick Tetzeli | Summary & Analysis-Instaread 2015-05-11 Becoming Steve Jobs by Brent Schlender and Rick Tetzeli | Summary & Analysis Preview: So much has been written about the late Steve Jobs that Brent Schlender and his co-author, Rick Tetzeli, wisely begin their

biography with a prologue that explains why they wrote yet another biography of the Apple co-founder. Schlender, a former reporter for the Wall Street Journal and Fortune, became close to Jobs over twenty-five years of interviews, and was one of the few journalists Jobs trusted. They were the same age, shared a similar middle-class background, and even suffered severe health crises at the same time. When Jobs died, Schlender realized that his portrayal in the media remained inaccurate. Jobs was perceived as a genius whose abilities had been undermined by his egocentric, volatile, and demanding personality. The real Jobs was "more complex, more human, more sentimental, and even more intelligent" (Prologue, EPUB), especially after undergoing a metamorphosis during his exile from Apple from 1985 to 1997, when the whiz kid... investment, Warren Buffett amassed one of the epochal fortunes of the twentieth century--an astounding net worth of \$10 billion, and counting. His awesome investment record has made him a cult figure popularly known for his seeming contradictions: a billionaire who has a modest lifestyle, a phenomenally successful investor who eschews the revolving-door trading of modern Wall Street, a brilliant dealmaker who cultivates a homespun aura. Journalist Roger Lowenstein draws on three years of unprecedented access to Buffett's family, friends, and colleagues to provide the first definitive, inside account of the life and career of this American original. Buffett explains Buffett's' investment strategy--a long-term philosophy grounded in buying stock in companies that are undervalued on the market and hanging on until their worth invariably surfaces--and shows how it is a reflection of his inner self.

Breaking Philosophy-Nishitha Bujala 2019-11-28 Seventeen-year-old Sophie Tucker's quiet life is thrown into disarray when she finds her father, the mayor of the town, dead in the house. Before she can understand what happened, she is kidnapped by a man who claims to be from a secret government laboratory called the CSES. Filo Hardy hails from a family of the long disappeared great Himalayan Maharishis or the enlightened in India. She wants almost nothing from the world. But the CSES might just have the one thing she can't refuse. Twenty volunteers. Ten lab heads. One trainer. A survival game. It was supposed to be very simple. But what happens when you find you've been lied to, manipulated and not everything is as it seems to be? You break.

She Come By It Natural-Sarah Smarsh 2020-10-13 The National Book Award finalist and New York Times bestselling author of Heartland focuses her laser-sharp insights on a working-class icon and one of the most unifying figures in American culture: Dolly Parton. Growing up amid Kansas wheat fields and airplane factories, Sarah Smarsh witnessed firsthand the particular vulnerabilities—and strengths—of women in working poverty. Meanwhile, country songs by female artists played in the background, telling powerful stories about life, men, hard times, and surviving. In her family, she writes, “country music was foremost a language among women. It’s how we talked to each other in a place where feelings aren’t discussed.” And no one provided that language better than Dolly Parton. Smarsh challenged a typically male vision of the rural working class with her first book, Heartland, starring the bold, hard-luck women who raised her. Now, in She Come By It Natural, originally published in a four-part series for The Journal of Roots Music, No Depression, Smarsh explores the overlooked contributions to social progress by such women—including those averse to the term “feminism”—as exemplified by Dolly Parton’s life and art. Far beyond the recently resurrected “Jolene” or quintessential “9 to 5,” Parton’s songs for decades have validated women who go unheard: the poor woman, the pregnant teenager, the struggling mother disparaged as “trailer trash.” Parton’s broader career—from singing on the front porch of her family’s cabin in the Great Smoky Mountains to achieving stardom in Nashville and Hollywood, from “girl singer” managed by powerful men to leader of a self-made business and philanthropy empire—offers a springboard to examining the intersections of gender, class, and culture. Infused with Smarsh’s trademark insight, intelligence, and humanity, She Come By It Natural is a sympathetic tribute to the icon Dolly Parton and—call it whatever you like—the organic feminism she embodies.

Substance Use Disorders-Gerard Moeller 2020-09-17 Substance Use Disorders provides an overview of substance misuse and addresses the neurobiology, pharmacotherapy, and behavioural therapy management of substance use disorders from a clinical perspective. Examining the opioid epidemic to frame its discussion of the epidemiology of substance misuse, this book explores common barriers that prevent the implementation of effective treatment. Chapters discuss various aspects of substance use disorders, particularly opioids, alcohol, cannabis, and cocaine, to inform better conceptualization and management of these conditions. Part of the Primer On Psychiatry series, this book will provide a solid foundation for residents and fellows in psychiatry and addiction medicine and can also be used in clinical practice.

Out-Innovate-Alexandre "Alex" Lazarow 2020-04-07 The new playbook for innovation and startup success is emerging from beyond Silicon Valley--at the "frontier." Startups have changed the world. In the United States, many startups, such as Tesla, Apple, and Amazon, have become household names. The economic value of startups has doubled since 1992 and is projected to double again in the next fifteen years. For decades, the hot center of this phenomenon

has been Silicon Valley. This is changing fast. Thanks to technology, startups are now taking root everywhere, from Delhi to Detroit to Nairobi to Sao Paulo. Yet despite this globalization of startup activity, our knowledge of how to build successful startups is still drawn primarily from Silicon Valley. As venture capitalist Alexandre Lazarow shows in this insightful and instructive book, this Silicon Valley "gospel" is due for a refresh--and it comes from what he calls the "frontier," the growing constellation of startup ecosystems, outside of the Valley and other major economic centers, that now stretches across the globe. The frontier is a truly different world where startups often must cope with political or economic instability and lack of infrastructure, and where there might be little or no access to angel investors, venture capitalists, or experienced employee pools. Under such conditions, entrepreneurs must be creators who build industries rather than disruptors who change them because there are few existing businesses to disrupt. The companies they create must be global from birth because local markets are too small. They focus on resiliency and sustainability rather than unicorn-style growth at any cost. With rich and wide-ranging stories of frontier innovators from around the world, *Out-Innovate* is the new playbook for innovation--wherever it has the potential to happen.

*Small Fry*-Lisa Brennan-Jobs 2018-09-13 Vogue's Best Books of the Year, 2018 Sunday Times' Best Memoirs of the Year, 2018 A New York Times Book of the Year New Yorker Book of the Year A frank, smart and captivating memoir by the daughter of Apple founder Steve Jobs. Born on a farm and named in a field by her parents - artist Chrisann Brennan and Steve Jobs - Lisa Brennan-Jobs's childhood unfolded in a rapidly changing Silicon Valley. When she was young, Lisa's father was a mythical figure who was rarely present in her life. As she grew older, her father took an interest in her, ushering her into a new world of mansions, holidays and private schools. His attention was thrilling, but he could also be cold, critical and unpredictable. When her relationship with her mother grew strained in high school, Lisa decided to move in with her father, hoping he'd become the parent she'd always wanted him to be. *Small Fry* is Lisa Brennan-Jobs's poignant story of a childhood spent between two imperfect but extraordinary homes. Scrappy, wise and funny, young Lisa is an unforgettable guide through her parents' fascinating and disparate worlds. Part portrait of a complex family, part love letter to California in the seventies and eighties, *Small Fry* is an enthralling book by an insightful new literary voice.

*Creole Son*-E. Kay Trimberger 2020-04-01 *Creole Son* is the compelling memoir of a single white mother searching to understand why her adopted biracial son grew from a happy child into a troubled young adult who struggled with addiction for decades. The answers, E. Kay Trimberger finds, lie in both nature and nurture. When five-day-old Marco is flown from Louisiana to California and placed in Trimberger's arms, she assumes her values and example will be the determining influences upon her new son's life. Twenty-six years later, when she helps him make contact with his Cajun and Creole biological relatives, she discovers that many of his cognitive and psychological strengths and difficulties mirror theirs. Using her training as a sociologist, Trimberger explores behavioral genetics research on adoptive families. To her relief as well as distress, she learns that both biological heritage and the environment--and their interaction--shape adult outcomes. Trimberger shares deeply personal reflections about raising Marco in Berkeley in the 1980s and 1990s, with its easy access to drugs and a culture that condoned their use. She examines her own ignorance about substance abuse, and also a failed experiment in an alternative family lifestyle. In an afterword, Marc Trimberger contributes his perspective, noting a better understanding of his life journey gained through his mother's research. By telling her story, Trimberger provides knowledge and support to all parents--biological and adoptive--with troubled offspring. She ends by suggesting a new adoption model, one that creates an extended, integrated family of both biological and adoptive kin.

Irrepressible enthusiast, intuitive people person, and born storyteller, Kroc will fascinate and inspire you on every page.

Big Billion Startup: The Untold Flipkart Story-Mihir Dalal 2019-10-06 The definitive account of India's biggest startup that redefined e-commerce, entrepreneurship and the way we shop and live. IIT graduates Sachin Bansal and Binny Bansal founded out of a Bangalore apartment what would become India's biggest e-commerce startup. Established in October 2007, Flipkart began as an online bookstore and soon came to be known for its 'customer obsession'. As the startup's reputation grew, so did its value, with venture capitalists in India and abroad lining up to invest heavily in the company that stood for bold ambition, unabashed consumerism and the virtues of technology. Investigative journalist Mihir Dalal recounts the astounding story of how the Bansals built Flipkart into a multi-billion-dollar powerhouse in the span of a few years and made internet entrepreneurship a desirable occupation. But it is also a story of big money, power and hubris, as both business and interpersonal complexities weakened the founders' control over their creation and forced them to sell out to a retailer whose dominance they had once dreamt of emulating. Flipkart's auction involved some of the corporate world's biggest names, from Jeff Bezos, Satya Nadella, Sundar Pichai to Masayoshi Son and Doug McMillon, an ironic testimony to the strength of what the Bansals had forged. Based on extraordinary research, extensive interviews and deep access to key characters in the Flipkart story, Big Billion Startup is the riveting and revealing account of how Sachin and Binny Bansal built and sold India's largest internet company.

The book outlines proven Disney principles and processes for helping an organization focus its vision and align its people into a strategy that delivers on the promise of exceptional customer service.

Saying No to Jugaad-T N Hari 2019-10-07 Saying No to Jugaad is a riveting account of how the start-up ecosystem in India evolved rapidly in the last 10 years. Ushering in a new turn in the country's economy that shook up existing ways of doing business, start-ups brought together investors and a rare breed of entrepreneurs to create a set of unicorns focused, for the first time, on solving the country's problems. The book busts some of the common myths around e-commerce businesses and describes the evolution of grocery as the mother of all categories in this sector. It also is the story of how start-ups go through different distinct stages as they evolve and mature. The courage needed to hold your ground when the world seems to have a contrarian view, the relentless focus on customer centricity and the emphasis on foundation-building are illustrated through lucid and stirring stories. Entertaining and anecdotal, the book is not a panegyric about the founders or the company but is the story of real people and a real company with real flaws but also several great ideas and moments. Saying No to Jugaad vividly captures the vision, culture and commitment to values which has made Bigbasket one of India's most successful start-ups.

A Beautifully Foolish Endeavor-Hank Green 2020-07-07 THE INSTANT NEW YORK TIMES BESTSELLER Who has the right to change the world forever? How will we live online? How do we find comfort in an increasingly isolated world? The Carls disappeared the same way they appeared, in an instant. While the robots were on Earth, they caused confusion and destruction with only their presence. Part of their maelstrom was the sudden viral fame and untimely death of April May: a young woman who stumbled into Carl's path, giving them their name, becoming their advocate, and putting herself in the middle of an avalanche of conspiracy theories. Months later, April's friends are trying to find their footing in a post-Carl world. Andy has picked up April's mantle of fame, speaking at conferences and online; Maya, ravaged by grief, begins to follow a string of mysteries that she is convinced will lead her to April; and Miranda is contemplating defying her friends' advice and pursuing a new scientific operation...one that might have repercussions beyond anyone's comprehension. Just as it is starting to seem like the gang may never learn the real story behind the events that changed their lives forever, a series of clues arrive—mysterious books that seem to predict the future and control the actions of their readers—all of which seems to suggest that April could be very much alive. In the midst of the search for the truth and the search for April is a growing force, something that wants to capture our consciousness and even control our reality. A Beautifully Foolish Endeavor is the bold and brilliant follow-up to An Absolutely Remarkable Thing. It is a fast-paced adventure that is also a biting social commentary, asking hard, urgent questions about the way we live, our freedoms, our future, and how we handle the unknown.

The Secret Life of Groceries-Benjamin Lorr 2020-09-08 In the tradition of Fast Food Nation and The Omnivore's Dilemma, an extraordinary investigation into the human lives at the heart of the American grocery store What does it take to run the American supermarket? How do products get to shelves? Who sets the price? And who suffers the consequences of increased convenience and efficiency? In this alarming exposé, author Benjamin Lorr pulls back the curtain on this highly secretive industry. Combining deep sourcing, immersive reporting, and compulsively readable prose, Lorr leads a wild investigation in which we learn: • The secrets of Trader Joe's success from Trader Joe himself • Why truckers call their job "sharecropping on wheels" • What it takes for a product to earn certification labels like "organic" and "fair trade" • The struggles entrepreneurs face as they fight for shelf space, including essential tips, tricks, and traps for any new food business • The truth behind the alarming slave trade in the shrimp industry The result is a page-turning portrait of an industry in flux, filled with the passion, ingenuity, and exploitation required to make this everyday miracle continue to function. The product of five years of research and hundreds of interviews across every level of the industry, The Secret Life of Groceries delivers powerful social commentary on the inherently American quest for more and the social costs therein.

The Modern Detective-Tyler Maroney 2020-09-29 A fascinating examination of the world of private investigators by a 21st-century private eye. Today's world is complicated: companies are becoming more powerful than nations, the lines between public and corporate institutions grow murkier, and the internet is shredding our privacy. To combat these onslaughts, people everywhere -- rich and not so rich, in business and in their personal lives -- are turning away from traditional police, lawyers, and government regulators toward a new champion: the private investigator. As a private investigator, Tyler Maroney has traveled the globe, overseeing sensitive investigations and untying complicated cases for a wide array of clients. In his new book, he shows that it's private eyes who today are being called upon to catch corrupt politicians, track down international embezzlers, and mine reams of data to reveal which CEOs are lying. The tools Maroney and other private investigators use are a mix of the traditional and the cutting edge, from old phone records to computer forensics to solid (and often inspired) street-level investigative work. The most useful assets private investigators have, Maroney has found, are their resourcefulness and their creativity. Each of the investigations Maroney explores in this book highlights an individual case and the people involved in it, and in each account he explains how the transgressors were caught and what lessons can be learned from it. Whether the clients are a Middle Eastern billionaire whose employees stole millions from him, the director of a private equity firm wanting a background check on a potential hire (a known convicted felon), or creditors of a wealthy American investor

trying to recoup their money after he fled the country to avoid bankruptcy, all of them hired private investigators to solve problems the authorities either can't or won't touch. In an era when it's both easier and more difficult than ever to disappear after a crime is committed, it's the modern detective people are turning to for help, for revenge, and for justice.

Flunk. Start-Sands Hall 2019-11-19 "With its keen attention to the language and tactics of the church, Hall's memoir is unique among the assortment of Scientology reports and exposés, offering insight into the certainties that its subjects gain." --The Nation In the secluded canyons of Hollywood, Sands Hall--a young woman from a literary family striving to forge her own way as an artist--finds herself increasingly drawn toward the certainty that Scientology appears to offer. Her time in the Church, the 1980s, includes the secretive illness and death of its founder, L. Ron Hubbard, and the ascension of David Miscavige. In *Reclaiming My Decade Lost in Scientology*, Hall compellingly reveals what drew her into the religion--what she found intriguing and useful--and how she came to confront its darker sides and escape. "Some of the most penetrating, illuminating prose about how an educated and skeptical person could get so deeply into, and then struggle to escape, what everyone around her warned was a dangerous cult . . . brilliant." --The Underground Bunker "If it is Scientology's offer of a life with meaning that hauls her in . . . it is its approach to meaning that keeps her . . . Hall's fascination with this is palpable." --Camille Ralphs, *The Times Literary Supplement*

Tough Choices-Carly Fiorina 2011-02-22 By accepting the CEO job at Hewlett-Packard, an iconic company that had lost its way, Carly Fiorina confirmed her status as the most powerful businesswoman in America. But she also made herself a target for everyone who disliked her bold leadership style and resented her rapid rise. For six years, as she led HP through drastic changes and a controversial merger, Fiorina was the subject of endless analysis, debate and speculation. Yet in all that time, the public never really got to know the person behind the persona. *Tough Choices* finally reveals the real Carly Fiorina, who writes with brutal honesty about her triumphs and failures, her deepest fears and most painful confrontations - including her sudden and very public firing by HP's board of directors. *Tough Choices* shows what it's really like to lead a major corporation in a time of great change while trying to stay true to your values. It's one woman's inspiring story, along with her unique perspective on leadership, technology, globalisation, sexism and many other issues. "Superb... certain to be a hit. Ms Fiorina is at her best when recounting the travails of a woman in a male-dominated culture. She is also good in her psychological descriptions of the constant betrayals that occur in corporate bureaucracies. The woman that emerges from these pages is cultured, sensitive and vulnerable, even as she acts tough." —*The Economist*

I too had a Dream-Verghese Kurien 2012-12-27 Architect of 'Operation Flood', the largest dairy development programme in the world, Dr Verghese Kurien has enabled India to become the largest milk producer in the world. A man with a rare vision, Dr Kurien has devoted a lifetime to realizing his dream - empowering the farmers of India. He has engineered the milk cooperative movement in India. It was a sheer quirk of fate that landed him in Anand where a small group of farmers were forming a cooperative, Kaira District Cooperative Milk Producers' Union Limited (better known as Amul), to sell their milk. Intrigued by the integrity and commitment of their leader, Tribhuvandas Patel, Dr Kurien joined them. Since then there has been no looking back. The 'Anand pattern of cooperatives' were so successful that, at the request of the Government of India, he set up the National Dairy Development Board to replicate it across India. He also established the Gujarat Cooperative Milk Marketing Federation to market its products. In these memoirs, Dr Verghese Kurien, popularly known as the 'father of the white revolution', recounts, with customary candour, the story of his life and how he shaped the dairy industry. Profoundly inspiring, these memoirs help up comprehend the magnitude of his contributions and his multifaceted personality.

The Puzzle People-Thomas E. Starzl 2003 The memoirs of an transplant physician trace his career and family life, presenting an argument for the benefits of organ transplant while offering insight into how politics and personalities contribute to the business of organ transplant and its related science. Believe in People-Charles Koch 2020-11-17 A surprising take on how you can help tackle the really big problems in society--from one of America's most successful entrepreneurs. People are looking for a better way. Towering barriers are holding millions of people back, and the institutions that should help everyone rise are not doing the job. Crumbling communities. One-size fits all education. Businesses that rig the economy. Public policy that stifles opportunity and emboldens the extremes. As a result, this country is quickly heading toward a two-tiered society. Today's challenges call for nothing short of a paradigm

shift – away from a top-down approach that sees people as problems to be managed, toward bottom-up solutions that empower everyone to realize their potential and foster a more inclusive society. Such a shift starts by asking: What would it mean to truly believe in people? Businessman and philanthropist Charles Koch has devoted his life to answering that question. Learn what he’s discovered during his 60-year career to help you apply the principles of empowerment in your life, in your business, and in society. By learning from the social movements and applying the principles that have enabled social progress throughout history, Koch has achieved more than he dreamed possible – building one of the world’s most successful companies and founding Stand Together, one of America’s most innovative philanthropic communities. Stand Together CEO Brian Hooks and Koch show how the only way to solve the really big problems – from poverty and addiction to harmful business practices and destructive public policy – is for each and every one of us to find and take action in our unique role as part of the solution. Full of compelling examples of what works – including several first-person accounts from individuals whose lives have been transformed – Koch and Hooks’ refreshing approach promotes partnership instead of partisanship and speaks to people from different perspectives and all walks of life. They show that no injustice is too tough to overcome if you share a deep belief in people, are willing to unite with anyone to do right, and work to empower others from the bottom up.

*A Furious Sky: The Five-Hundred-Year History of America's Hurricanes*-Eric Jay Dolin 2020-08-04 Finalist • Kirkus Prize for Nonfiction Editor's Choice • New York Times Book Review With *A Furious Sky*, best-selling author Eric Jay Dolin tells the history of America itself through its five-hundred-year battle with the fury of hurricanes. Hurricanes menace North America from June through November every year, each as powerful as 10,000 nuclear bombs. These megastorms will likely become more intense as the planet continues to warm, yet we too often treat them as local disasters and TV spectacles, unaware of how far-ranging their impact can be. As best-selling historian Eric Jay Dolin contends, we must look to our nation’s past if we hope to comprehend the consequences of the hurricanes of the future. With *A Furious Sky*, Dolin has created a vivid, sprawling account of our encounters with hurricanes, from the nameless storms that threatened Columbus’s New World voyages to the destruction wrought in Puerto Rico by Hurricane Maria. Weaving a story of shipwrecks and devastated cities, of heroism and folly, Dolin introduces a rich cast of unlikely heroes, such as Benito Vines, a nineteenth-century Jesuit priest whose innovative methods for predicting hurricanes saved countless lives, and puts us in the middle of the most devastating storms of the past, none worse than the Galveston Hurricane of 1900, which killed at least 6,000 people, the highest toll of any natural disaster in American history. Dolin draws on a vast array of sources as he melds American history, as it is usually told, with the history of hurricanes, showing how these tempests frequently helped determine the nation’s course. Hurricanes, it turns out, prevented Spain from expanding its holdings in North America beyond Florida in the late 1500s, and they also played a key role in shifting the tide of the American Revolution against the British in the final stages of the conflict. As he moves through the centuries, following the rise of the United States despite the chaos caused by hurricanes, Dolin traces the corresponding development of hurricane science, from important discoveries made by Benjamin Franklin to the breakthroughs spurred by the necessities of the World War II and the Cold War. Yet after centuries of study and despite remarkable leaps in scientific knowledge and technological prowess, there are still limits on our ability to predict exactly when and where hurricanes will strike, and we remain terribly vulnerable to the greatest storms on earth. *A Furious Sky* is, ultimately, a story of a changing climate, and it forces us to reckon with the reality that as bad as the past has been, the future will probably be worse, unless we drastically reimagine our relationship with the planet.
