For more than three hundred years, generations of the Yamaki family trimmed and pruned me into a beautiful bonsai tree. In 1945, our household survived the atomic bombing of Hiroshima. Penjing: The Chinese Art of Bonsai-Zhao Qingquan 2012-04-10 With hundreds of color photographs and illustrations, this Chinese gardening book is a wonderful introduction to penjing—China's treasured bonsai art. Although most people think bonsai is a Japanese invention, the art originated in ancient China where it is called penjing. this art: sculpting microcosms of the beauty of the natural world from plants, rocks, soil, and water, both as an artistic process and as horticultural cultivation. Both penjing and bonsai are art forms that express the beauty of nature. In China, bonsai, as a part of penjing, is often called "tree penjing," or "tree in a pot." The Chinese divide penjing into three categories: tree penjing, rock penjing, and water-and-land penjing. This Chinese gardening book showcases the Chinese art of penjing in all its aspects for the benefit of penjing aficionados and all other readers interested in Chinese culture. It covers the concept, history, categories, aesthetic features, techniques, display, appreciation, and preservation of penjing. Destined to become the new standard reference for cooking vegetables, *Vegetable Literacy*, by revered chef Deborah Madison, shows cooks that vegetables within the same family, because of their shared characteristics, can be used interchangeably in cooking. For example, knowing that dill, chervil, cumin, parsley, coriander, anise, and caraway come from the umbellifer family makes it clear why they're such good matches for carrots, also an umbel. With stunning images from the team behind Canal House cookbooks and website, and 150 classic and exquisitely simple recipes, such as Savoy Cabbage on Rye Toast with Gruyère Cheese; Carrots with Caraway Seed, Garlic, and Parsley; and Pan-fried Sunchoke with Walnut Sauce and Sunflower Sprouts; Madison brings this wealth of information together in dishes that highlight a world of complementary flavors.
