Apprenticeship Branch 1996-10-01</p> <p>The Lichens of British Columbia-Trevor Goward 1994 This manual provides illustrated keys to all leaf and scale lichens known to occur in British Columbia. In total, 327 species are included, while 19 taxa are excluded from earlier accounts of the flora. Accompanying the keys are approximately 350 line drawings. The manual briefly summarizes the ecology, distribution, and frequency status of the province's foliose and squamulose lichens. Each genus account provides a common name, a short description, pertinent references, notes on the derivation of the common name, and notes on global status and distribution, taxonomy, chemistry, and/or similar genera. Each species account provides species and author citation, distribution maps, common names, habit, and lichen distribution in B.C.</p> <p>British Columbia Government Publications, Monthly Checklist-British Columbia. Simmons 1887 TO PRESUME to multiply books in this day of excellent writers and learned book-makers is a rash thing perhaps for a novice. It may even be a presumption that shall be met by the production itself being driven from the market by the keen, searching criticism of not only the reviewers, but less noted objectors. And yet there are books that meet a ready sale because they seem like "Ishmaelites"--against everybody and everybody against them. Whether this work shall ever accomplish the design of the author may not at all be determined by its sale. While I hope to secure some pecuniary gain that I may accompany it with a companion illustrating what our women have done, yet by no means do I send it forth with the sordid idea of gain. I would rather it would do some good than make a single dollar, and I echo the wish of "Abou Ben Adhem," in that sweet poem of that name, written by Leigh Hunt. The angel was writing at the table, in his vision. The names of those who love the Lord.Abou wanted to know if his was there--and the angel said "No." Said Abou, I pray thee, then, write me as one that loves his fellow-men. That is what I ask to be recorded of me. The angel wrote and vanished. The next night It came again, with a great awakening light. And showed the names whom love of God had blessed. And lo! Ben Adhem's name led all the rest. I desire that the book shall be a help to students, male and female, in the way of information concerning our great names. I have noticed in my long experience as a teacher, that many of my students were wofully ignorant of the work of our great colored men--even ignorant of their names. If they knew their names, it was some undefinable something they had done--just what, they could not tell. If in a slight degree I shall here furnish the data for that class of rising men and women, I shall feel much pleased. Herein will be found many who had severe trials in making their way through schools of different grades. It is a suitable book, it is hoped, to be put into the hands of intelligent, aspiring young people everywhere, that they might see the means and manners of men's elevation, and by this be led to undertake the task of going through high schools and colleges. If the persons herein mentioned could rise to the exalted stations which they have and do now hold, what is there to prevent any young man or woman from achieving greatness? Many, yea, nearly all these came from the loins of slave fathers, and were the babes of women in bondage, and themselves felt the leaden hand of slavery on their own bodies; but whether slaves or not, they suffered with their brethren because of color. That "sum of human villainies" did not crush out the life and manhood of the race. I wish the book to show to the world--to our oppressors and even our friends--that the Negro race is still alive, and must possess more intellectual vigor than any other section of the human family, or else how could they be crushed as slaves in all these years since 1620, and yet to-day stand side by side with the best blood in America, in white institutions, grappling with abstruse problems in Euclid and difficult classics, and master them? Was ever such a thing seen in another people? Whence these lawyers, doctors, authors, editors, divines, lecturers, linguists, scientists, college presidents and such, in one quarter of a century?</p> <p>British Columbia Early Learning Framework-British Columbia. Ministry of Education 2008</p> <p>Wollstonecraft, Mill, and Women's Human Rights-Eileen Hunt Botting 2016-01-01 A novel and important argument that the articulation of women's rights was a necessary prerequisite to the development of a coherent and universal theory of human rights. This title was made Open Access by libraries from around the world through Knowledge Unlatched.</p> <p>2021 National Home Improvement Estimator-Ray F. Office of the Queen's Printer 1987</p> <p>Changing Our Minds-Miles Myers 1996 Suggesting that the United States' dominant form of literacy is contingent and historical, not permanent and absolute, this book asserts that when a society changes its definition of literacy, it also changes its models of mind and its models for teaching English. The book challenges the assumption that the public schools are a failure, arguing instead that public school teachers have met every literacy challenge put to them by parents and government. The book introduces a new standard of literacy ("translation/critical literacy"), and discusses how the new standard affects the English and language arts curriculum, the tools and methods of learning, and the conceptualization of assessment of knowledge. Chapters in the book are: (1) Shifting Social Needs: From Clocks to Thermostats; (2) From Oracy (or Face-to-Face Literacy) to Signature Literacy; 1660-1776; (3) Signature and Recording Literacy; 1776-1864; (4) Recitation and Report Literacy; 1864-1916; (5) A Literacy of Decoding, Defining, and Analyzing; 1916-1983; (6) The Transition to a New Standard of Literacy; 1960-1983; (7) The Event-Based Features of Translation/Critical Literacy; (8) Embodied Knowledge: Self-Fashioning and Agency; (9) Distributed Knowledge: The Technology of Translation/Critical Literacy; (10) Negotiated and Situated Knowledge: Translating among Sign Systems; (11) Negotiated and Situated Knowledge: Translating among Speech Events; (12) Negotiated, Situated, and Embodied Knowledge: Translating among the Modes; (13) Negotiated and Situated Knowledge: Translating between Stances; (14) Style and Worldviews in Literature and Public Discourse; and (15) Conclusion: "I Think It Happened Again." Ministry of Health 2010-03 The first edition of Baby's best chance: parent's handbook of pregnancy and baby care was published in 1979. It has been revised to give parents easy to read information, based on best practices and evidence, to ensure a healthy pregnancy and baby. The fourth revision, sixth edition of Baby's best chance has been revised to meet the Baby-Friendly Initiative criteria. The Baby-Friendly Initiative (BFI) is a global program of the World Health Organization (WHO) and UNICEF to increase hospital and community support for promoting, supporting, and protecting breastfeeding. Accepted criteria have been established for designation of Baby-Friendly hospitals, maternity facilities, and communities. This handbook is divided into two sections. The first is to help support the reader during and after the pregnancy. The second section gives information on getting the best start with the new baby.--Includes text from document.</p> <p>Parliamentary Practice in British Columbia-E. Sheridan 2009-03-12 In this study Professor Sheridan presents a rich and wide-ranging account of the health care of slaves in the British West Indies, from 1680-1834. He demonstrates that while Caribbean island settlements were viewed by mercantile statesmen and economists as ideal colonies, the physical and medical realities were very different. The study is based on wide research in archival materials in Great Britain, the West Indies and the United States. By steeping himself in the eighteenth- and nineteenth-century sources, Professor Sheridan is able to recreate the milieu of a past era: he tells us what the slave doctors wrote and how they functioned, and he presents a storehouse of information on how and why the slaves sickened and died. By bringing together these diverse medical demographic and economic sources, Professor Sheridan casts new light on the history of slavery in the Americas.</p>
