Georges Brassens and Jacques Brel-Chris Tinker 2005 This book explores the various personal and social narratives within the songs of Brassens and Brel, the auteurs-compositeurs-interpretes who epitomised what is now widely regarded as the golden era of chanson francaise during the 1950s and 60s. Tinker's discussion reveals the tensions in thenarrators' relationship with themselves, other individuals, and society. The book builds upon, and moves beyond, the two dominant critical approaches used to write about French song: the exclusively biographical oriented approach and the purely linguistic analysis. Tinker focuses both on identity,viewed primarily as a relational process, and on representation: linguistic, musical, vocal, and gestural.

A Slice of the Pie-Nick Sarillo 2012-09-13 How does a suburban pizza joint end up profiled on national magazine covers and network TV news? (Hint: The secret is not in the sauce.) When Nick Sarillo decided to open a family-friendly pizza restaurant in the suburbs of Chicago, people thought he was nuts. Having worked as a carpenter for much of his adult life, he lacked any formal experience in restaurants or in managing a small business. Everyone told him no one else would ever care about his place the way he did. They warned he'd have to work 20-hour-days and monitor every employee just to stay in business. But Sarillo saw things differently, and set out to run his business in a radically different way. Today Nick's Pizza & Pub is one of the top ten busiest independent pizza restaurants in the country, with two locations that gross about six times the revenue of the typical pizza restaurant. And in an industry where most employees leave within less than a year, Nick's annual turnover rate is less than 20 percent. How did he do it? The secret lies in Nick's purpose-driven culture, in which every employee—from the waiters to the chefs to the managers—is equipped with the tools necessary to do their jobswhile also advancing the company's overall mission. The result is higher sales, a dedicated team, and a big little business that is beloved by the entire community. In A Slice of the Pie Sarillo tells the story of how he built his extraordinary culture and shows how anyone can follow his methods. For instance, Nick's managers engage the staff by tracking and rewarding unusual metrics, such as how many guests request a particular server or the average check amount of each carryout host. Likewise, team members of all ages and levels of experience are encouraged to express themselves, acquire new skills, and suggest ideas to help the business grow. A Slice of the Pie will help transform even the smallest, simplest, and most ordinary business into a successful, high-performance organization.

Preserving New York-Anthony Wood 2013-10-28 Preserving New York is the largely unknown inspiring story of the origins of New York City's nationally acclaimed landmarks law. The decades of struggle behind the law, its intellectual origins, the men and women who fought for it, the forces that shaped it, and the buildings lost and saved on the way to its ultimate passage, span from 1913 to 1965. Intended for the interested public as well as students of New York City history, architecture, and preservation itself, over 100 illustrations help reveal a history richer and more complex than the accepted myth that the landmarks law sprang from the wreckage of the great Pennsylvania Station. Images include those by noted historic photographers as well as those from newspaper accounts of the time. Forgotten civic leaders such as Albert S. Bard and lost buildings including the Brokaw Mansions, are unveiled in an extensively researched narrative bringing this essential episode in New York's history to future generations tasked with protecting the city's landmarks. For the first time, the story of how New York won the right to protect its treasured buildings, neighborhoods and special places is brought together to enjoy, inform, and inspire all who love New York.

Cherry Ames, Visiting Nurse-Helen Wells 2009-08-31 Cherry Ames is back, just as you remember her! The books are just as you remember them, retaining the same look, feel, and sense of adventure and patriotism as when they were first published. With fully illustrated color covers and a soft-finished hardcover format just like the originals, these books will transport you back to the days when you were reading about this spunky young nurse. Series editor and registered nurse Harriet Forman was inspired by, and remains a devoted fan of, Cherry Ames: ""...I was going to follow in her footsteps and become a nurse--nothing else would do"". Cherry reunites with her old Spencer classmates Gwen, Bertha, Josie, Vivian, and Mai Lee, when they all decide to take an apartment together in New York City, and work for the Visiting Nurse Service of New York. Greenwish Village is a far cry from Hilton, Illinois, and farm-raised Bertha is ready to mutiny when she tries to cook in their tiny kitchen. Assigned to a specific neighborhood, Cherry marvels at the many countries her patients come from--and is determined to resolve the loneliness of a few of them by having them all meet at an ""Around the World"" Dinner at the local settlement house. But who is the mysterious woman who lives in the Victorian mansion at the center of his district? Why hasn't she been seen by anyone in the past 18 years?

American Cars, 1973D1980-J. “Kelly” Flory, Jr. 2012-11-02 The 1973 oil crisis forced the American automotive industry into a period of dramatic change, marked by stiff foreign competition, tougher product regulations and suddenly altered consumer demand. With gas prices soaring and the economy in a veritable tailspin, muscle cars and the massive “need-for-speed” engines of the late ‘60s were out, and fuel efficient compacts were in. By 1980, American manufacturers were churning out some of the most feature laden, yet smallest and most fuel efficient cars they had ever built. This exhaustive reference work details every model from each of the major American manufacturers from model years 1973 through 1980, including various “captive imports” (e.g. Dodge’s Colt, built by Mitsubishi.) Within each model year, it reports on each manufacturer’s significant news and details every model offered: its specifications, powertrain offerings, prices, standard features, major options, and production figures, among other facts. The work is heavily illustrated with approximately 1,300 photographs.

As with all Workbench titles, this book details and highlights special components, tools, chemicals, and other accessories needed to get the job done right, the first time. Appendices are packed full of valuable reference information, and the book includes a Work-Along-Sheet to help you record vital statistics and measurements along the way. Twenty Fathoms Down (Large Print 16pt)-L. Ron Hubbard 2013-06-24 As daring and defiant as Kirk Douglas journeying "20,000 Leagues Under the Sea," there's no stopping diver Hawk Ridley as he takes the plunge into a briny world of untold riches and danger. The Caribbean is a fortune hunter's dream, salted with the gold of galleons long ago claimed by the deep. Now Hawk's headed for the Windward Passage of Haiti to stake his claim. But a rival team has also picked up the scent, and they're willing to turn the sea red with blood to get to the gold first. Fighting off ruthless competitors is nothing new to Hawk ... but fighting off a beautiful woman is a different story. Is she an innocent stowaway or a seductive saboteur? Between the cool millions lying on the bottom of the ocean, and the boiling - hot race to grab it, Hawk's about to find the answer and make a discovery "Twenty Fathoms Down" that will blow you out of the water. When it came to research, Hubbard was not one to head for the library. He always went to the source - in this case a U.S. navy deep - sea diver who agreed to show him the ropes and the danger. Hubbard admits it was daunting - even frightening - but he returned from the experience with all the first - hand knowledge he needed to fathom the true nature of life and death underwater.
