We Need to Weaken the Mixture-Guy Martin 2018-10-18 The million-copy selling truck fitter returns ***Featured on Channel 4*** 'I can't stop biting off more than I can chew. Maybe I'm wearing everything out, but I believe the body is a fantastic thing and it will repair itself and I'll go again. If it's running too rich, I don't stop what I'm doing, just weaken the mixture and carry on.' Since we last heard from him, Guy Martin has restored a 1983 Williams F1 car then raced Jenson Button in it; helped to build a First World War tank; ridden with Putin's favourite biker gang the Night Wolves; competed on the classic endurance circuit; stood on top of one of Chernobyl's nuclear reactors and taken part in his last ever Isle of Man TT. Then there's the stuff he really can't wait to get out of bed for: 12-hour shifts for a local haulage firm and tatie farming in his new John Deere tractor. Besides all this, he's saved his local pub from closure and become a dad. But let him tell you his own stories, in his own words: 'You're getting it from the horse's mouth. No filter. I hope you enjoy it.'

authoritative book, elegantly written in highly digestible style by the foremost expert on the subject, provides in-depth analysis of classic motorcycle race engines spanning eight decades, from the 1930s Guzzi 500 120-degree twin to the latest Yamaha YZR M1 in-line four. Packed with technical detail, the book provides an absorbing insight into the technology employed in a wide variety of motorcycle engines, investigating the diverse approaches taken by various manufacturers over the years in the search for race-winning performance.

Feel-Freddie Spencer 2017-04-20 Feel is the story of how a small-time boy from humble beginnings in Louisiana rose to the pantheon of greats, to win the 500cc and 250cc GP Championship in the same year - an historic achievement over three decades ago which has never been repeated. Growing up at the time of the assassination of Malcolm X and Martin Luther King, Freddie judged by feel, not by colour. Blind to prejudice and discrimination, he formed dynamic connections with people and events, but only years later during his racing afterlife could Freddie come to understand the true power of the things he learned. Spencer is an articulate and compassionate guide as he describes the thrill and horror of racing in an era when death was a perennial threat. He recalls in pin-sharp detail the frenetic high-octane racing duels with the 'King' Kenny Roberts, but also describes a parallel internal journey as he struggled to make sense of it all. Driven by a search for the personal fulfilment that comes through finding your purpose, Freddie's story is a universal one. In its message of hope, Feel transcends its genre to offer a story for everyone. Part thriller, part philosophical self-exploration, it is a remarkably insightful account of what it is like to have it all, but wonder why. "For the first time I will talk about the traumas of my childhood, the contrast between the leaf fire burns, the mistrust and discomfort and the peace and purpose I felt when riding my bike. I didn't tell my parents about something that happened to me. Why? I felt ashamed, but when I rode I felt connected to everything and the pain in my hand and heart would go away. It gave me the feeling of hope".

Make Haste, Slowly-Michelle Ann Duff 1999 Make Haste Slowly chronicles the grand prix motorcycle racing career of Canadian Mike Duff, the first North American and only Canadian

world championship grand prix race. Duff won three GP events, the 1964 250 Belgian GP at Spa Francorchamps, the 1965 125 Dutch GP at Assen The Netherlands and the 1965 250 Finnish GP at Imatra Finland. In 1964 Duff finished 3rd in the 350 world championship riding a private 350 AJS 7R single. In 1965 riding a factory Yamaha RD56 250 twin Duff finished 2nd in the 250 world championship. He never won a world title nor an Isle of Man TT, but he rode some of the most exotic racing machines ever built on race courses throughout the Grand Prix Continental Circus. He rode and conquered the intricacies of the Isle of Man TT and forever instilled its magic in his veins. He accelerated along glamorous racing circuits that are but names in a book to most, and he mixed it with the best of the world's motorcycle racers and often emerged victorious. During the 1960s, when the Japanese manufacturers began their dominance of GP racing, Duff had the best seat in the house to watch the titanic battles for first place between the stars of the time, riders like Mike Hailwood, Phil Read, Jim Redman Giacomo Agostini, Luigi Taveri and Bill Ivy. Share these experiences with the author in minute detail from the perspective of Duff's seat aboard a factory Yamaha RD56 or RA97, a Matchless G50 or AJS 7R, or the legendary AJS Porcupine. A story of courage, disappointment and reward, *Make Haste Slowly* is a must read for all motorcycle racing fans. Duff has stood alone atop a winner's rostrum in silence to his country's national anthem then raised his arms to the tumultuous cheers of thousands all proclaiming an accomplishment that was singularly his. What four times world champion, New Zealander Hugh Anderson says about *Make Haste, Slowly* - A tale of human endeavour with a truly unique ending; I truly enjoyed it.

Proficient Motorcycling-David L. Hough 2010-11-09 This best-selling book is also “#1 book in motorcycle safety” (Nielsen BookScan) and essential reading for all motorcyclists regardless of their years of experience. Author David L. Hough, a reviewer

motorcycle author, columnist, and riding-safety consultant, lays out a clear course for all riders who want to sharpen their handling skills and improve their rides. This second edition, expanded and now in full color, offers new riders and road warriors the exact kind of advice they need to be prepared for anything when on the road, how to avoid accidents, and how to handle the unexpected. Hough, who began motorcycling in the 1960s, tackles every imaginable topic—from the mechanics of the bike, selection of the right-sized bike, and basic riding skills to night riding, group outings, and advanced survival tactics. In the chapter called “Motorcycle Dynamics,” Hough spells out the equipment needed and basic skills required to control a bike, and specifically keeping the rider’s safety and ability to avoid potentially injurious or fatal crashes. The author is outspoken and direct when it comes to safety, and he emphasizes the importance of the rider’s braking abilities and spells out how to improve them. The chapter offers six tried-and-true techniques for quick-stop tactics, critical for every rider to understand and master. He also addresses other vital skills that riders need to evaluate and improve, such as turning, maintaining balance and stability, and steering. He defines, compares, and analyzes the ins and outs of steering and control: direct steering, countersteering, push steering, out-tracking, coning, u-turns, and directional control. The chapter called “Cornering Habits” is a virtual master class in acceleration, deceleration, use of weight, throttle, leaning, and handling challenging terrain. Hough’s skill as a photographer and illustrator adds a graphic element to his books that leads to immediate understanding of the concepts he explains. The detail offered in each section of the book can only come from decades on the road, and the author is the consummate instructor, assigning homework to the readers in the form of exercises to practice and improve specific techniques that he outlines and illustrates in the text. Any rider who would venture out on the road without David Hough’s voice in his head takes an unnecessary risk with his own life. Proficient Motorcycling takes riders from long, snaking country roads right into the traffic of the big city, and Hough offers the best advice for riders dealing with the most challenging conditions, whether it’s road construction, snap-jawed intersections, skateboarders, or suddenly slippery road surfaces. A critical section from

of the book offers riders advice on how to deal with automobiles, including aggressive car drivers, oblivious SUV drivers, or “blind” truck drivers. The book offers the kind of first-hand experience that can literally save riders’ lives, as illustrated in the chapters “Booby Traps” and “Special Situations,” which offer evasive tactics and advice to avoid and handle everything from slick surfaces, curbs, and construction plates to ferocious dogs, hazardous wildlife, and difficult weather conditions. The final chapter of the book, “Sharing the Ride,” is geared toward experienced riders who travel together in groups or who travel with a second passenger on the bike. Topics covered are formation, packing for trips, communication between riders, sidecars, trikes, and more. The book concludes with a resources section of organizations, training schools, educational tools, and websites; a glossary of 80+ terms; and a complete index.

Harley-Davidson Knucklehead-Greg Field 2016-11-21 Celebrate the 80th anniversary of the engine that changed the motorcycle world. Motorcycle technology lagged far behind automotive technology since the earliest days of the internal-combustion engine. All that changed in 1936 when Harley-Davidson introduced the Model EL. For the first time ever, a company was manufacturing a high-performance overhead-valve engine for the masses. And what an engine it was -- in addition to bringing state-of-the-art technology to the motorcycling world -- a work of art. Because of the shape of its rocker covers, the engine was given a nickname to match its looks: the Knucklehead. The technology used in this engine was so advanced that it laid the foundation for every future Harley-Davidson motorcycle, including the current models built in the 21st century. To this day every cruiser style motorcycle still adheres to the shape of that original Knucklehead. Harley-Davidson Knucklehead: Eighty Years tells the entire Knucklehead story, from the very first overhead-valve V-twin Harley produced for the public through the post-war models, continuing right up until today, when aftermarket manufacturers reproduce complete Knucklehead crate engines because of its continuing popularity.

Big Sid's Vincati-Matthew Biberman 2009-04-30 Read Matthew Biberman's posts on the Penguin Blog. "If you believe it is possible to fall in love with a motorcycle, you will love this book." -Jay Leno When Big Sid had a heart attack and gave up the will to live, his son Matthew Biberman panicked. Impulsively, Matthew promised his father that they would build a Vincati together. This fusion of two legendary motorcycles, the Vincent Black Shadow and the Ducati GT, a Vincati was considered near-impossible to build. But if anyone could do it, Matthew knew his father could. Big Sid was the mechanic to see about repairing Vincents for nearly sixty years. But now, Sid was old, busted up and broke. Matthew, despite sharing his dad's passion, had become a Shakespearean scholar. The two men hadn't spoken in years-but called a truce to attempt a shared dream. Zen and the Art of Motorcycle Maintenance meets Shop Class as Soulcraft, in this heartfelt memoir that shows how two very different men built a legendary motorcycle, and along the way, discovered what it means to be father and son.

Enterprise on the Edge of Industry-Stan Dibben 2018-10-15 Rarely has it been possible to study multiple industries in multiple countries and multiple generations over 100 years, to uncover the challenge of business growth and the times when owners decide against it - as well as the implications of it for employees. Our purpose in this book is to apply the ideas of the Anglo-German economist E.F. Schumacher in telling the otherwise unobservable entrepreneurial business history that is embedded within the life-stories of its subjects. In so doing, we question the economic nature of our lives in the twenty-first century.

The Vincent in the Barn-Tom Cotter 2009-09-15 It's every motorcyclist's dream. A friend or acquaintance says, "You know, there's an old bike that's been sitting in this garage for years." The hunt is on. And rather than the usual worthless Hondazukimaha pile of hopeless oxidation, at the back of that barn you find a genuine classic, the motorcycle collector's dream. The Vincent in the Barn tells forty such stories--tales of motorcycle hunting dreams come true. From Ducatis in basements to Vincents abandoned in sheds, Harleys in barns to Brit bikes moldering behind urban garages, these are the stories that fuel every motorcyclist's fantasies. The only difference? They're true. See Tom Cotter, author of Motorbooks "In the Barn" series, interviewed by Jay Leno on JayLenosGarage.com:

motorcycle" (Oliver Sacks), Melissa Pierson captures in vivid, writerly prose the mysterious attractions of motorcycling. She sifts through myth and hyperbole: misrepresentations about danger, about the type of people who ride and why they do so. The Perfect Vehicle is not a mere recitation of facts, nor is it a polemic or apologia. Its vivid historical accounts—the beginnings of the machine, the often hidden tradition of women who ride, the tale of the defiant ones who taunt death on the racetrack—are intertwined with Pierson's own story, which, in itself, shows that although you may think you know what kind of person rides a motorcycle, you probably don't.
