Colonial Metropolis tells the story of the interactions and connections of these black colonial migrants and white feminists in the social, cultural, and political world of interwar Paris and of how both were denied certain rights lauded by the Third Republic such as the vote, how they suffered from sensationalist depictions in popular culture, and how they pursued parity in ways that were often interpreted as politically subversive.

The New Imperialism-David Harvey 2005-02-24 People around the world are confused and concerned. Is it a sign of strength or of weakness that the US has suddenly shifted from a politics of consensus to one of coercion on the world stage? What was really at stake in the war on Iraq? Was it all about oil and, if not, what else was involved? What role has a sagging economy played in pushing the US into foreign adventurism and what difference does it make that neo-conservatives rather than neo-liberals are now in power? What exactly is the relationship between US militarism abroad and domestic politics? These are the questions taken up in this compelling and original book. Closely argued but clearly written, 'The New Imperialism' builds a conceptual framework to expose the underlying forces at work behind these momentous shifts in US policies and politics. The compulsions behind the projection of US power on the world as a 'new imperialism' are here, for the first time, laid bare for all to see. This new paperback edition contains an Afterword written to coincide with the result of the 2004 American presidential election.

Feminism for the Americas-Katherine M. Marino 2019-02-05 This book chronicles the dawn of the global movement for women's rights in the first decades of the twentieth century. The founding mothers of this movement were not based primarily in the United States, however, or in Europe. Instead, Katherine M. Marino introduces readers to a cast of remarkable Latin American and Caribbean women whose deep friendships and intense rivalries forged global feminism out of an era of imperialism, racism, and fascism. Six dynamic activists form the heart of this story: from Brazil, Bertha Lutz; from Cuba, Ofelia Domingez Navarro; from Uruguay, Paulina Luisi; from Panama, Clara Gonzalez; from Chile, Marta Vergara; and from the United States, Doris Stevens. This Pan-American network drove a transnational movement that advocated women's suffrage, equal pay for equal work, maternity rights, and broader self-determination. Their painstaking efforts led to the enshrinement of women's rights in the United Nations Charter and the development of a framework for international human rights. But their work also revealed deep divides, with Latin American activists overcoming U.S. presumptions to feminist superiority. As Marino shows, these early fractures continue to influence divisions among today's activists along class, racial, and national lines.

Marino's multinational and multilingual research yields a new narrative for the creation of global feminism. The leading women introduced here were forerunners in understanding the power relations at the heart of international affairs. Their drive to enshrine fundamental rights for women, children, and all people of the world stands as a testament to what can be accomplished when global thinking meets local action.

Japanese Imperialism, 1894-1945-William G. Beasley 1987 This is a study of the origins and nature of Japanese imperialism from the Sino-Japanese war of 1894-1895 through to 1945. Japan is the only Asian country in modern times to have built both a successful industrial economy and an empire, and it is Professor Beasley's contention that these two phenomena are closely related. Japan's aims were influenced by its experience of western imperialism and its own growing industrialization, but as external circumstances changed and Japan's capacitygrew, so did its needs and ambitions. The creation of the Japanese empire is one of the most remarkable exploits of the twentieth century. Professor Beasley has provided a much-needed scholarly investigation into its development, expansion, and eventual destruction.

United States in a World in Crisis-Adrián Sotelo Valencia 2020 "This work by the distinguished Mexican theorist Adrián Sotelo Valencia explores new dimensions of super-exploitation in a context of the structural crisis of capitalism and imperialism. Steeped in a new generation of radical dependency theory and informed by the legacy of his own mentor, the famous Brazilian Marxist Ruy Mauro Marini, Sotelo rigorously examines prevailing theoretical debates regarding the expansion of super-exploitation in advanced capitalism. Building upon a Marinist framework, he goes beyond Marini to identify new forms of super-exploitation that shape the growing precarity of work. Sotelo demonstrates the inextricable link between reliance upon fictitious capital and the intensification of super-exploitation. Poignant contrasts are drawn between US capitalism and Mexico that reveal the nefarious new forms of imperialist dependency"--

Culture and Imperialism-Edward W. Said 2012-10-24 A landmark work from the author of Orientalism that explores the long-overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it. In the nineteenth and early twentieth centuries, as the Western powers built empires that stretched from Australia to the West Indies, Western artists created masterpieces ranging from Mansfield Park to Heart of Darkness and Aida. Yet most cultural critics continue to see these phenomena as separate. Edward Said looks at these works alongside those of such writers as W. B. Yeats, Chinua Achebe, and Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance. Vast in scope and stunning in its erudition, Culture and Imperialism reopens the dialogue between literature and the life of its time. From the Trade Paperback edition.

Imperialism in the Twenty-First Century-John Smith 2016-01-22 Winner of the first Paul A. Baran-Paul M. Sweezy Memorial Award for an original monograph concerned with the political economy of imperialism, John Smith's Imperialism in the Twenty-First Century is a seminal examination of the relationship between the core capitalist countries and the rest of the world in the age of neoliberal globalization.Deploying a sophisticated Marxist methodology, Smith begins by tracing the production of certain iconic commodities-the T-shirt, the cup of coffee, and the iPhone-and demonstrates how these generate enormous outflows of money from the countries of the Global South to transnational corporations headquartered in the core capitalist nations of the Global North. From there, Smith draws on his empirical findings to powerfully theorize the current shape of imperialism. He argues that the core capitalist countries need no longer rely on military force and colonialism (although these still occur) but increasingly are able to extract profits from workers in the Global South through market mechanisms and, by aggressively favoring places with lower wages, the phenomenon of labor arbitrage. Meticulously researched and forcefully argued, Imperialism in the Twenty-First Century is a major contribution to the theorization and critique of global capitalism.
