business address, and electronic contacts-telephone, fax, e-mail and Web site. Home addresses and contacts are also provided for most of the entries. In the biographical summary section for each individual, the following information is provided: date and place of birth, education and educational achievements, work experience including company or other organization names, positions held and time periods. Also included in this section are the number of patents awarded, articles, and book chapters authored, and conference sessions chaired. Other information includes titles of books edited or written by the individual, listing of conferences where the person had a leadership position, and listing of memberships and positions held in professional organizations. Finally, professional and civic awards are listed. Indexes provide listings of individuals by company or other organization name, and also by geographical location. Who's Who in Plastics & Polymers is now published in a limited edition of 1,000 copies. This edition will not be reprinted. To be sure of receiving your copy, please act now. Information on ordering follows sample pages on the reverse.

The Option Advisor-Bertram J. Schaeffer 1997-10-24 Acclaim for Bernie Schaeffer's expert approach to options trading. "Bernie Schaeffer's penchant for contrary investing is terrific, and his market calls on that strategy have been excellent. He shows how to apply contrary thinking-and many other types of 'expectational analysis'-to option strategies. All option traders should enjoy reading this book." -Lawrence G. McMillan President, McMillan Analysis Corp. Author, Options as a Strategic Investment and McMillan on Options. "A superb book that will benefit both stock and options investors. It blends technical analysis, fundamentals, investor psychology, and strategy to come up with an excellent approach to the markets. A good read for the investor seeking new trading ideas in today's fast moving markets." -Leo Fasciocco Stock Market Columnist, Investor's Business Daily. "A breath of fresh air for options traders. Most options books are textbook in nature. Schaeffer cuts right to the chase and provides solid ideas on how to use options effectively for both conservative and trading-oriented investors. It's innovative and fresh. Get a copy." -Thomas J. Dorsey President, Dorsey Wright & Associates Author, Point & Figure Charting. When nationally renowned options expert Bernie Schaeffer

Schaeffer talks, everyone listens. A "Market Maven" on CNBC, a frequent guest on CNN, and a top-rated Timer Digest market timer for the past decade, he has also been a featured speaker at numerous investment conferences. His views on the stock market and the economy are regularly quoted in the Wall Street Journal, the New York Times, Barron's, and Investor's Business Daily. Thousands of subscribers eagerly await each issue of his Option Advisor newsletter, and when he distills his decades of knowledge and experience-as he does in this remarkable book-savvy investors everywhere pay close attention. In *The Option Advisor: Wealth-Building Strategies Using Equity and Index Options*, Schaeffer offers his own carefully tested, prudent, and profitable strategies for trading options. He begins by dispelling outdated folklore and beliefs about the options world, and reveals instead how options can be used as an inexpensive, leveraged vehicle for profiting from the movement in an equity. With clarity and logic, he explains the basic principles of options trading, emphasizing, in particular, why options cannot be traded like stocks-a very common and potentially very costly mistake. Schaeffer delves into the psychology of options trading, demonstrating how to distinguish between "high" and "low" expectation stocks, how to measure sentiment, and how to master the valued Contrary Opinion Theory for successful trading. He shares his wealth-building techniques for selecting the right stocks, assessing risk, managing your options portfolio, and, most important, for reading market timing indicators. What *The Option Advisor* boils down to is expert guidance on managing your money, while avoiding the most common errors of options trading. In a detailed section on applications, Schaeffer gives you practical, hands-on advice on how to use a full array of real-world trading strategies, including quick trades, aggressive trading strategies, conservative approaches, portfolio protection, and the increasingly popular Long-term Equity Anticipation Securities (LEAPS). With characteristic thoroughness, Schaeffer also offers invaluable information on selecting an options broker, opening an options trading account, and doing research on the Internet. From the novice to the experienced investor, *The Option Advisor* offers a gold mine of information on how to achieve success in options trading.

Cat Running-Zilpha Keatley Snyder 2012-12-04 An award-winning, thoughtful, and moving glimpse into life during the Depression Cat is the fastest kid at her school—and with Play Day is coming up soon, she will be able to show off her speed to everybody.

Unfortunately, her old-fashioned father forbids her to wear pants, even while playing sports. So Cat refuses to race, and Zane, an Okie boy whose family works on a nearby farm, wins. Cat is furious that Zane is so fast, and angry that he was able to beat all the sixth-grade boys, even in his bare feet. Though Cat hates Zane at the start, soon the two become friends. They are the school's best runners, after all. But while Cat's family is doing well, Zane's family has lost everything in the Depression. All Cat can offer Zane's family is sympathy and friendship . . . until Zane's sister gets pneumonia and Cat and Zane are forced into a race for the little girl's life. This ebook features an extended biography of Zilpha Keatley Snyder.

Grumman Jf/J2f Duck-Steve Ginter 2009-01-01 The JF/J2F "Duck" was one of those military workhorses moving around in the background before and during WWII which did a tremendous job but never got the publicity of its' more glamorous teammates. Some said the Duck could be more aptly named the "Ugly Duckling." Be that as it may; when no other bomber could be found, it carried bombs; when no other transport could be found, it transported; when no other photo plane could be found, it photographed and when no other rescuer could be found, it rescued. When it came to "Utility Craft," the JF/J2F was the definitive.

Crying Freeman-Kazuo Koike 2014-12-17 Crying Freeman, the deadliest assassin of the 108 Dragons clan of the Chinese mafia has taken a bride, and she has passed the harsh tests of the Dragons and been given a new name, Hu Qing Lan, "Tiger Orchid." And despite Freeman's Japanese heritage, he has been chosen to become the eventual leader of the Dragons. But someone inside the Dragons wants Freeman dead, and Tiger Orchid should make a fine hostage to draw Freeman into the open . . . where a monstrous killer awaits! Written by manga legend Kazuo Koike, creator of Lone Wolf and Cub and Samurai Executioner, and illustrated by the acclaimed Ryoichi Ikegami, Crying Freeman is manga at its most adult: intensely violent, morally ambiguous, and boldly erotic. • Featuring an all-new translation, Dark Horse's Crying Freeman is the first English-language edition of the title in the original non-westernized format! • From the writer of Lone Wolf and Cub, Lady Snowblood, and Samurai Executioner!

Metallic Pigments in Polymers-Ian Wheeler 1999 This book is the ideal basic guide for anyone who is about to start working with metallic pigments but also contains a wealth of information for those who already use these pigments. It is hoped that this book will help existing users to achieve the best possible effects with metallic pigments and encourage those who have not yet used them to explore their potential to add value to their products.

Designing with Plastics-Gunter Erhard 2013-03-18 "Designing with Plastics" is an indispensable tool for every engineer and designer working with plastic materials. It will assist in the development of plastic parts that are not only functional and esthetically pleasing but also manufacturable while meeting ever increasing end-use requirements. The short but concise introduction into the specific properties of this material class focuses on the practical needs of the designer and lays the foundation for the following in-depth discussion of part design suitable for production and the intended end-use application. Numerous detailed examples highlight practical tips and rules of thumb for successful part design.

Industrial Polymers, Specialty Polymers, and Their Applications- Manas Chanda 2008-07-18 Derived from the fourth edition of the well-known Plastics Technology Handbook, Industrial Polymers, Specialty Polymers, and Their Applications covers a wide range of general and special types of polymers, along with a wealth of information about their applications. The book first focuses on commonly used industrial polymers, including polypropylenes, low- and high-density polyethylenes, and poly(vinyl chloride), as well as less widely used polymer types, such as acrylics, ether polymers, cellulose, sulfide polymers, silicones, polysulfones, polyether ether ketones, and polybenzimidazoles. It then explores polymer derivatives and polymeric combinations that play special and often critical roles in diverse fields of human activities. The polymers covered include liquid crystal, electroactive, ionic, and shape memory polymers; hydrogels; and nanocomposites. The volume concludes with a comprehensive overview of new developments in the use of polymers in a variety of areas.

Apple Pro Training Series-Joe Torelli 2010-04-09 Broadcast editors work with deadlines that are the most demanding in the field. High Performance Polymers and Engineering Plastics-Vikas Mittal 2011-09-09 This book describes advances in synthesis, processing, and technology of environmentally friendly polymers generated from renewable resources. With contents based on a wide range of functional monomers and contributions from eminent researchers, this volume demonstrates the design, synthesis, properties and applications of plant oil based polymers, presenting an elaborate review of acid mediated polymerization techniques for the generation of green polymers. Chemical engineers are provided with state-of-the-art information that acts to further progress research in this direction.

My Nine Lives-Ruth Praver Jhabvala 2016-04-01 A moving and intriguing book of invention and memory showcasing the genius of a Booker Prize-winning novelist and Academy Award-winning screenwriter. My Nine Lives is a book filled with invented memories—of Ruth Praver Jhabvala and the life she may have or may have wished to live. Nine vignettes are linked to portray a rich life filled with searching, from London to Delhi, from Hollywood to New York. Each chapter gathers a different cast of characters, some new and some vaguely familiar, and the linked assembly is as exciting and illuminating as an artist’s first show at a Soho gallery or a new play at the Studio Theater. “Sinewy with compressed emotion and intellectual energy, as well as the poignancy of a thwarted search for love” (Publishers Weekly), Jhabvala’s late work further cements the award-winning writer and Academy award-winning screenwriter’s acclaimed reputation. As lauded by Booklist, “Jhabvala name-drops Chekhov, and this is no pretension given the grace of her spiraling plots, the depth of her psychology, the elegance of her humor, the subtlety of her eroticism, and her masterfully concise descriptions of imperiled households.”

Surveying recent developments in coating polymers and plastics in the automotive industry, this book examines proper materials selection, basic processing mechanics, process selection based on cost and coating mechanics, molding, and performance and durability assessments. Techniques for salvaging plastics from used vehicles are highlighted, and North American and European techniques for coating plastics in the automotive industry are compared. The editors are members of the Federation of Societies for Coatings Technology. Annotation (c)2003 Book News, Inc., Portland, OR (booknews.com).

Welcome to Hoxford-Ben Templesmith 2009 Raymond Delgado isn't well. He's the newest inmate at the Hoxford Correctional Facility and Mental Institution. He has no hope of release, parole, rehabilitation, or decent conversation. On a good day, he'll tell you he's Zeus and only bite your arm off. Literally. On a bad day, you won't have time to scream to the prison guard for help. But Dr. Jessica Ainley, his doctor for five, years wants to help Ray and can't understand why the newly privatized, corporately-run prison won't give her access to her patients. And why are people always transferred into Hoxford, but no records show anyone ever transferring back out?

Conversations with Jean Piaget-Jean-Claude Bringuier 1989-01-15
"What is most impressive about this book is its intelligence, its sophistication, and its charm. . . . This book presents Piaget's work and his person better than anything else that I know about."—David Elkind, Tufts University "The tone is one of constant movement from the most ordinary to the most abstruse. There are 14 conversations with 'le Patron,' some in 1969, some in 1975, and several more with co-workers in various fields. . . . In Mr. Bringuier's book, in a pleasant informal way, we see a sophisticated non-scientist exploring Piaget's domain with the master. Some of Piaget's best-known findings about children as explained along the way, but Mr. Bringuier has ways of bringing out the relation of this psychological work to the whole of Piaget's enterprise, and we get a good sense of the man and his work."—Howard E. Gruber, New York Times Book Review

Last Sword of Power-David Gemmell 2011-06-08 "David Gemmell tells a tale of very real adventure, the stuff of true epic fantasy." --R. A. Salvatore, New York Times Bestselling author The Goths followed a bloodthirsty new leader, one who sought to open the Gates of Hell: Wotan. His immortal power stemmed from human sacrifice and dark sorcery, and no sword could touch him. He rode the winds on a leather-winged steed, while his armies cut a deadly swath across the northern kingdoms. Even death's icy hand could not stop them. Only Uther Pendragon could save Britannia. To do so he must wield his birthright--Cunobelin's blade, the legendary Sword of Power. But Uther was chained in Hell, the sword lost in swirling Chaos. All hope lay with the warrior known as Revelation, with the magic of the Sipstrassi Stones, and with Anduine, a blind girl possessed of arcane powers. Only if these unlikely allies united could they hope to stop the invincible foe before the world plunged into darkness.
