description of one of these European combat systems ~ the art of fighting with the Rapier ~ a long, slender, civilian sword designed for self defence and dueling. The ability to wield such a weapon with skill was a matter of vital importance in an age when the defence of honour and, by definition, the immortal soul, could be more important than life itself. Alfieri's concise system is a very practical and effective way to address this need. It is an excellent resource for all students of historical swordplay and anyone interested in the martial arts of Renaissance Europe." -- Amazon.com

Towards a Unified Italy-Salvatore DiMaria 2018-08-22 Since unification in 1860, Italy has remained bitterly divided between the rich North and the underdeveloped South. This book examines the historical, literary, and cultural contexts that have informed and inflamed the debate on the Southern Question for over a century. It brings together analysis of cinema, literature, and newspaper archives to reconsider the myths and stereotypes that both Northerners and Southerners deploy in their narratives. Salvatore DiMaria offers a masterful assessment of the entangled issues that have produced the South's image as impoverished and backwards, such as organized crime, illiteracy, and mass emigration. Documenting the state's largely failed efforts to bring the South into its socio-economic fold, DiMaria also points to the future, arguing that the European Union and globalization are transformative forces that may finally produce a unified Italy.

Writing Beloveds-Aileen A. Feng 2016-12-09 "This study considers the way in which a poetic convention, the beloved to whom Renaissance amatory poetry was addressed, becomes influential political rhetoric, an instrument that both men and women used to shape and justify their claims to power. The author argues that Petrarchan poetic conventions were part of a social discourse that signaled anxiety concerning the rising place of women as intellectual interlocators, public figures, and patrons of the arts."--

The Selected Poetry and Prose of Vittorio Sereni-Vittorio Sereni 2008-09-15 One of the most important Italian poets of the last century, Vittorio Sereni (1913-83) wrote with a historical awareness unlike that of any of his contemporaries. A poet of both personal and political responsibility, his work sensitively explores life under fascism, military defeat and imprisonment, and the resurgence of extreme right-wing politics, as well as the roles played by love and friendship in the survival of humanity. The first substantial translation of Sereni's oeuvre published anywhere in the world, The Selected Poetry and Prose of Vittorio Sereni is a unique guide to this twentieth-century poet. A bilingual edition, reissued in paperback for the poet's centenary, it collects Sereni's poems, criticism, and short fiction with a full chronology, commentary, bibliography, and learned introduction by British poet and scholar Peter Robinson.

*Eating the Other*-Simona Stano 2015-09-04 Food represents an unalienable component of everyday life, encompassing different spheres and moments. What is more, in contemporary societies, migration, travel, and communication incessantly expose local food identities to global food alterities, activating interesting processes of transformation that continuously reshape and redefine such identities and alterities. Ethnic restaurants fill up the streets we walk, while in many city markets and supermarkets local products are increasingly complemented with spices, vegetables, and other foods required for the preparation of exotic dishes. Mass and new media constantly provide exposure to previously unknown foods, while “fusion cuisines” have become increasingly popular all over the world. But what happens to food and food-related habits, practices, and meanings when they are carried from one foodsphere to another? What are the main elements involved in such dynamics? And which theoretical and methodological approaches can help in understanding such processes? These are the main issues addressed by this book, which explores both the functioning logics and the tangible effects of one of the most important characteristics of present-day societies: eating the Other.

The contributions, authored by outstanding papyrologists and historians of the ancient medicine, deal with a variety of topics focused on the papyrological evidence of ancient medical texts and contexts. The first part, devoted to "medical texts", contains some new reflections on important sources such as the Anonymus Londinensis and the Hippocratic corpus, as well as on specific themes like the pharmacological vocabulary, the official medical reports, the medical care in the Roman army. The second part collects papers about the "doctors' context", providing highlights from broader viewpoints like the analysis of the writing supports, the study of the ostraka from the Eastern Desert, the evidence of inscriptions and philosophical texts. The third part is entirely focused on the DIGMEDTEXT project itself: the team members present some relevant key issues raised by the digitisation of the medical papyri.

Explorations in Albania, 1930-39-Luigi Cardini 2005 In 1999 a collection of documents were found in the archives of the Italian Institute of Human Palaeontology belonging to Luigi Cardini, one of the founders of the Institute. These documents included site notebooks, photographs, drawings and maps relating to work carried out in Albania from 1930-39 where he was sent on a governmental mission to 'reinforce Italian supremacy in Albania through archaeological research'. This monograph publishes extracts from these notebooks within a historical, political and archaeological context. The work he carried out is synthesised and a report is included on survey work carried out in 2000 and 2001 to attempt to relocate many of Cardini's cave sites described in his notebooks.

Translation and Censorship in Different Times and Landscapes-Maria Lin Moniz 2009-03-26 This volume is a selection of papers presented at the international conference on Translation and Censorship. From the 18th Century to the Present Day, held in Lisbon in November 2006. Although censorship in Spain under

Franco dictatorship has already been thoroughly studied, the Portuguese situation under Salazar and Caetano has been, so far, almost ignored by the academic research. This is then an attempt to start filling this gap. At the same time, new case studies about the Spanish context are presented, thus contributing to a critical view of two Iberian dictatorial regimes. However other geographical and time contexts are also included: former dictatorships such as Brazil and Communist Czechoslovakia; present day countries with very strict censoring apparatus such as China, or more subtle censorial mechanisms as Turkey and Ukraine. Specific situations of past centuries are given some attention: the reception of Ovid in Portugal, the translation of English narrative fiction into Spanish in the 18th century, the translation of children literature in Victorian England and the emergence of the picaresque novel in Portugal in the 19th century. Other forms of censorship, namely self-censorship, are studied in this volume as well. "The book fits in one of the most innovative fields of research in translation studies, i.e. the study of social and political constraints on translation processes and translation functions. More specifically, the concept of censorship is crucial to the understanding of these constraints, especially in spatio-temporal settings where translation exhibits conflicts between what is acceptable for and what is prohibited by a given culture. For that reason, detailed descriptive research is needed in as many situations as possible. It gives an excellent view on the complex mechanisms of censorship with regard to translation within a large number of modern European and non European cultures. In addition to articles devoted to cases dealing with China, Brazil, Great-Britain, Turkey, Ukraine or Czechoslovakia, Spain and Portugal occupy a prominent role. As a whole, the volume marks an important step forward in our growing understanding of the role of socio-political factors for the development and changes of translation policies. I highly recommend the publication." Prof. dr. Lieven D'hulst, Professor of Translation Studies at K.U.Leuven (Belgium).

The Knicks of the Nineties-Paul Knepper 2020-09-22 The Knicks of the 1990s competed like champions but fell short of their goal. An eclectic group who took divergent, in many cases fascinating paths to New York, they forged an identity as a rugged, relentless squad. Led by a superstar center Patrick Ewing and two captivating coaches--Pat Riley and Jeff Van Gundy--they played David to the Chicago Bulls' Goliath. Despite not winning a championship, they were embraced as champions by New Yorkers and their rivalries with the Bulls, Indiana Pacers and Miami Heat defined NBA basketball for a decade. Drawing on original interviews with players, coaches and others, this narrative rediscovers the brilliance of the Knicks, Ewing and his colorful supporting cast--Charles Oakley, John Starks, Larry Johnson and Latrell Sprewell--in the glory days of Madison Square Garden.

Translating Culture Specific References on Television-Irene Ranzato 2015-09-16 Translating Culture Specific References on Television provides a model for investigating the problems posed by culture specific references in translation, drawing on case studies that explore the translational norms of contemporary Italian dubbing practices. This monograph makes a distinctive contribution to the study of audiovisual translation and culture specific references in its focus on dubbing as opposed to subtitling, and on contemporary television series, rather than cinema. Irene Ranzato's research involves detailed analysis of three TV series dubbed into Italian, drawing on a corpus of 95 hours that includes nearly 3,000

CSR translations. Ranzato proposes a new taxonomy of strategies for the translation of CSRs and explores the sociocultural, pragmatic and ideological implications of audiovisual translation for the small screen. Dictionary of Italian-Turkish Language (1641) by Giovanni Molino-Elżbieta Świącicka 2020-01-20 Giovanni Molino's Dittionario Della Lingua Italiana, Turchesca (1641), is the first extensive Turkish dictionary of its kind, with nearly 8000 lexical head entries excerpted, not from the Ottoman literature, but the everyday Turkish language, the vernacular for at least a part of the population of 17th century Constantinople. Molino, born Armenus Turcicus Yovhannēs of Ankara, was exposed to the Turkish language from childhood, unlike other authors of the known "texts in transcription". In Armenian cultural history, he is remembered as a man of letters, a publisher and the translator of religious texts, whose services to the history of the Turkish language and the corresponding contribution to Ottoman Turkish culture were to this date unknown. The editor has reversed and reorganised the material of the lexicon from Italian-Turkish to Turkish-Italian. The lexical entries of Molino's dictionary are presented according to morphological and phonological principles, with their orthographic variants side by side, revealing information on the morpho-phonological patterns of Ottoman-Turkish at that time. The language Molino recorded sounds almost like contemporary Turkish and can be considered a bridge to the modern Turkish

language.

Lu Pavone-Giuseppe Jovine 1993 Questa raccolta di poesie e di racconti popolari anonimi in dialetto molisano tracciano il percorso di due storie che, pur diversificate, si compenetrano e si completano a vicenda: la storia individuale dell' autore e la storia collettiva della società di un paese del Sud. Le immagini di un mondo apparentemente immobile e arcaico si alternano alle vicende di una realtà storica complessa e tormentata, nel cui magma vecchio e nuovo si scontrano e si fondono. This collection of poems and anonymous folktales in the Molisan dialect traces the unfolding of two stories which, although distinct, interweave and complete each other: the author's individual story and the story of a town in the South of Italy. The images of an apparently immobile and archaic world alternate with the events of a complex and tormented historical reality, in whose magma the new and the old clash and fuse.

Believe, Obey, Fight-Tracy H. Koon 2017-11-01 The Fascist regime under Mussolini regarded its youth as its best hope for the future. Young people were courted more assiduously than any other group in the society and their political socialization became a central concern of the government. Believe, Obey, Fight

discusses the various tools used by the Fascist regime from 1922 to 1943 to shape the political values and environment of the young. Tracy Koon focuses on the secondary agents of socialization, including the party, the educational establishment, youth groups, and the media of political communication. She shows that the response to this socialization ranged from apparent consent to dissent and finally to open opposition. The regime employed several methods to produce consensus among the young. Koon's analysis begins with a discussion of the rhetorical style of Mussolini's message and the key political myths manipulated by his propaganda machine: fascism as continuing revolution and social justice, the glories of ancient Rome, the hygienic function of war and violence, the religious spirit of the new creed, and the omniscience of the leader. She then describes the pre-Fascist educational system, the "most Fascist" Gentile reforms of 1923, and the later revision of those reforms by zealous party men engaged in the Fascist regimentation of teachers and students and the militarization and politicization of curricula and textbooks. Equally important agents of socialization were the Fascist groups organized for young people from their earliest years through the university level, including the annual national competitions and forums in which members could express their ideas on a range of issues. The regime provided physical, military, sports, and political training to strengthen the new Fascist society. Fascist socialization did for a time create a superficial consensus by appealing to both the love of conformity that marks the very young and the economic fears that caused students to conform in the hope of jobs. But Koon argues that the regime's attempt to exert totalitarian control over the young deprived them of personal identity. As time passed, the contradictions of the regime became clearer, the chasm between Fascist rhetoric and reality more obvious. In the end, the majority of young people came to believe that the regime had given them nothing to believe in, no one to obey, and nothing for which to fight. Originally published in 1985.
