Twelve Years a Slave-Solomon Northup 2014-03-08 Now a major motion picture nominated for nine Academy Awards. Narrative of Solomon Northup, a Citizen of New-York, Kidnapped in Washington City in 1841, and Rescued in 1853. Twelve Years a Slave by Solomon Northup is a memoir of a black man who was born free in New York state but kidnapped, sold into slavery and kept in bondage for 12 years in Louisiana before the American Civil War. He provided details of slave markets in Washington, DC, as well as describing at length cotton cultivation on major plantations in Louisiana.

The Little Book That Still Beats the Market-Joel Greenblatt 2010-09-07 In 2005, Joel Greenblatt published a book that is already considered one of the classics of finance literature. In The Little Book that Beats the Market—a New York Times bestseller with 300,000 copies in print—Greenblatt explained how investors can outperform the popular market averages by simply and systematically applying a formula that seeks out good businesses when they are available at bargain prices. Now, with a new Introduction and Afterword for 2010, The Little Book that Still Beats the Market updates and expands upon the research findings from the original book. Included are data and analysis covering the recent financial crisis and model performance through the end of 2009. In a straightforward and accessible style, the book explores the basic principles of successful stock market investing and then reveals the author's time-tested formula that makes buying above average companies at below average prices automatic. Though the formula has been extensively tested and is a breakthrough in the academic and professional world, Greenblatt explains it using 6th grade math, plain language and humor. He shows how to use his method to beat both the market and professional managers by a wide margin. You'll also learn why success eludes almost all individual and professional investors, and why the formula will continue to work even after everyone "knows" it. While the formula may be simple, understanding why the formula works is the true key to success for investors. The book will take readers on a step-by-step journey so that they can learn the principles of value investing in a way that will provide them with a long term strategy that they can understand and stick with through both good and bad periods for the stock market. As the Wall Street Journal stated about the original edition, "Mr. Greenblatt...says his goal was to provide advice that, while sophisticated, could be understood and followed by his five children, ages 6 to 15. They are in luck. His 'Little Book' is one of the best, clearest guides to value investing out there."

Tafsir Al-Qurtubi - Vol. 1-Abu 'Abdullah Muhammad Al-Qurtubi 2019-03-25 The tafsīr of al-Qurṭubī is perhaps one of the most compendious of them all and is certainly among the most famous. As its title, al-Jāmi' li Aḥkām al-Qur'ān - The General Judgments of the Qur'an, suggests, its main focus is on the rulings and judgments to be found in the Qur'ān. However, in the course of doing that, al-Qurṭubī examines all the relevant sciences necessary, such as the ḥadīth pertaining to the āyahs, events in the sīrah, what the Companions, their Followers and other noted people of knowledge said about the āyahs, essential aspects of Arabic etymology, syntax and usage, copiously illustrated by examples, and much more. In this volume, the author examines the Fātiḥah in great depth, and then works through the first juz' (two hizbs), stopping to examine linguistic matters, aḥkām/judgments in greater detail, covering, for example, imān, establishment of the ṣalāt, zakāt, hypocrisy, the Tribe of Israel, the creation of Adam and Ḥawwā', caliphate, abrogation, and including the pivotal story of the sacrifice of the cow by the Tribe of Israel.

The Secret Code of Japanese Candlesticks-Felipe Tudela 2008-04-30 A simple guide for using Japanese candlesticks correctly, and profitably Candlesticks have gotten a lot of attention lately, but few traders truly know how to use them wisely and profitably. Without the proper context, candlestick charting won't work. In this book, technical analysis expert Felipe Tudela shares candlestick creator Sokyu Honma's Great Market Cycle theory. With the Great Market Cycle, candlesticks reveal their powerful and simple logic and give traders the insight and context they need to use them successfully. Using these insights, readers will be able to trade each market phase in accordance with his or her own personal strategy. Felipe Tudela (Paris, France) is a researcher and specialist in technical analysis, as well as President of the Center of Financial Research in Paris.

The Triumphant Church-Kenneth E. Hagin 1993-07 Rev. Kenneth E. Hagin's newest book, The Triumphant Church: Dominion Over All the Powers of Darkness is

a comprehensive biblical study on the subject of demonology. Rev. Hagin builds a thorough study from the Scriptures on the origins of Lucifer and how Satan became the god of this world. Rev. Hagin shows the difference between oppression, obsession, and possession and discusses various ways believers can give Satan access in their lives. The Triumphant Church will show you how to enforce Satan's defeat in your life so you can live in the victory God intended for every believer. No longer will you have to try to "battle" to a place of victory once you understand the authority that is yours in Jesus Christ. As a believer, you are seated in heavenly places in Christ far above all powers and principalities now. So if you're not looking down on the devil, you're not high enough! Come on up and sit in heavenly places in Christ where you belong. Learn how to take your place in Christ as the triumphant Church-which is always a position of victory!

Career Development Across the Lifespan-Grafton T. Eliason 2019-08-01 This second edition of Career Counseling Across the Lifespan: Community, School, Higher Education, and Beyond is the latest volume in the Issues in Career Development Series, edited by Drs. Grafton Eliason, Mark Lepore, Jeff Samide, and John Patrick, from California University of Pennsylvania and Clarion University of Pennsylvania. The purpose of Career Development Across the Lifespan is to provide a broad and in-depth look at the field of career development as it applies to individuals involved in all areas of community counseling, school counseling, and higher education. The book will examine some of the field's major theories, themes, approaches, and newest models incorporating chapters from national and international career counseling experts. Specific emphasis is spent examining issues reflective of today's challenges in developing and maintaining a workforce that is diverse, flexible, and efficient. Readers will be provided with an action-based framework built on the best available research. This text book is truly the culmination of a decade's work, compiling comprehensive studies from four previous volumes and updating key concepts in career counseling with the most contemporary theories and innovations. We examine three primary domains of career counseling throughout all of the developmental stages of the lifespan: community, schools K-12, and higher education. We include a specific focus on career history and theories, to prepare students for both the counseling environment and for national exams leading to certification and licensure, such as the (NCE) National Counseling Exam. We also include cutting edge research on contemporary topics, including such areas as: military careers, life after the military, individuals with disabilities or special needs, career counseling in our current socio-economic environment, and current technologies such as virtual counseling. In addition, we have added case studies and key terms as study guides at the end of each chapter. We are fortunate to include many recognized experts in the field of career counseling. Career Counseling Across the Lifespan: Community, School, Higher Education, and Beyond is a comprehensive text, written to address the broad needs of career counselors, educators, and students today.

The Coming Convergence of World Religions-Robley Edward Whitson 1971

The Legend of Rigel-Christine Jamesson 2005-12 THE LEGEND AND MYSTERY OF RIGEL On a frigid night in 1912 the great unsinkable Titanic sank 2 miles down to a watery grave. Many stories of heroes and villains have been passed down since that fateful night. Yet there is one hero in particular whose story has remained a mystery. Meet Rigel- the Titanic's Newfoundland dog mascot. His incredible story of courage and survival was originally published as an alleged factual account in 1912 just days after the sinking. Come along and enjoy this fictionalized story of Rigel's tragedy and triumph in spite of challenges no human could have survived! * * * Yes Virginia, there may have been a Rigel. The story of Rigel was first reported in the "New York Herald" the day the Carpathia docked with Titanic's survivors. It also appeared in a well-known book: " The Sinking of Titanic and Great Sea Disasters" which was first published in 1912 a few short months after the disaster. After that there was no mention of him at all, no disclaimers, no retractions, nothing to my knowledge. Although there has been some recent mention of him in dog books all subsequent books and movies about Titanic by historians, crew and survivors don't mention him either. Why? Was he a figment of the reporter's imagination? That seems unlikely. If Rigel and new owner didn't exist then who was interviewed? Someone playing a cruel joke while wearing a uniform and holding onto a 150-pound dog? Unlikely again, but I suppose that could have happened. The only two well-known dogs that survived the sinking were toy breeds lovingly smuggled on board the lifeboats in their owner's coats. All of the other dogs on board lost their lives including a champion English Bulldog who was last seen trying to swim in the frigid water. Comparing a bulldog's swimming ability to a Newfoundland's is like expecting your Shetland Pony to win the Kentucky Derby. Bulldogs are among the worst swimmers in dog-dom and Newfoundlands are the absolute best. Many people are skeptical as to whether any creature could have survived a long distance swim in freezing water. Certainly none of the people did. "Newfie" owners and breeders have no problem believing a Newfoundland could do exactly what the record states. Bred to withstand the harsh conditions of the frigid north Atlantic they have been used to haul in heavy fishing nets and assist in water rescues. Newfoundlands could be called the "Polar bears" of the dog world. They have the same adaptations for swimming albeit on a smaller scale. And since Scientists have seen Polar Bears swimming 100 miles out to sea in freezing water and not looking the least bit exhausted, then why not? The near lifeboat collision was also never mentioned again. Perhaps it was dropped purposely. No one wanted to detract from the heroics of the Carpathia and crew. After pushing their small steamer full speed into the very same icefield that doomed Titanic, they deserved all the credit and praise that was bestowed on them. Finally there is the Jonas Briggs mystery. He isn't listed on either ship's crew list for that year. For many that is proof positive this was nothing more than a hoax. Apparently these people have never done genealogy research. Our ancestors were not sticklers for detail. Sometimes they'd spell names phonetically. Other times they'd scribble a name and then not be able to decipher it. I found one of my ancestor's names spelled 4 different ways. One spelling was way off. I changed Jonas to John in my book, a common name that could have been mistaken for Jonas. Taking into account the pandemonium surrounding the Carpathia's arrival there would certainly be some examples of miscommunication.

Introduction to Solution Architecture-Alan McSweeney 2019-02-20 Solution architecture is concerned with the design and definition of (information technology) solutions so they can be subsequently implemented, used, operated and supported securely and efficiently. The solution exists to operate business processes in order to achieve business objectives, meet a business need and deliver business value. Solution architecture is concerned with engaging with the originating business function looking for the solution to create a solution vision and design a solution that meet their needs, subject to a range of constraints such as cost and affordability, time to deliver and organisational standards. The solution must exist as a coherent whole. Solutions must be designed consistently across the

solution landscape and make optimum use of appropriate technologies. Solution architecture must focus on creating usable and useful solutions. Solution architecture must have a standard reliable approach to business engagements and the design of solution that emerge from them. Solution architecture must work collaboratively with other information technology functions - other architecture roles, business analysis and service management - to ensure continuity along the solution delivery journey. Effective solution architecture involves: -Have a depth and breadth of solution delivery and technical experience to be able to identify solution design options quickly-Being able to understand the detail of the solution while maintaining a view of the wider (and higher) context of the business need for the solution and being able to explain both these views of sets of information-Being able to communicate effectively with all parties - technical and business - involved in the solution design and delivery journey, assist with decision-making, be realistic and make appropriate compromises and design choices in order to create the best solution design-Being able to apply technology appropriately and with selective innovation (and the desire to constantly acquire new knowledge and ways of applying technology)-Being involved in the solution delivery journey along its entire length-Being able to be the solution advocate and subject matter expert This book is aimed at a variety of potential readers: -Existing solution architects who want to have a more theoretical and a broader understanding of their role-Existing or new managers of solution architecture functions who want to create a high-performing practice within their organisations and who want to articulate the benefits and value solution architect can contribute to the information technology function and the wider business and the potential it can offer to the business organisation-Managers of information technology functions who want to understand what solution architecture is, where it fits into the wider architecture context and disciplines and solution delivery and operation and the value it can contribute to both the information technology function and the wider business-Other information technology architects who want to understand how the architecture disciplines can work together to deliver value-Business analysts and managers of business analysis functions who want to understand how they can work more closely with the solution architecture function in order to provide the business with a better overall service-Other information technology personnel who want to move into solution architecture and who want to understand what it is-Consulting organisations and individuals who want to develop and offer value-adding solution architecture services

How to Be the Perfect Grandma-Bryna Nelson Paston 2010 Becoming a grandma is like getting a subpoena. You don't expect it. You don't know how to respond. You know you must be mature and accept it. Being a grandma, though, is as close as many of us ever get to perfection. Filled with snappy one-liners followed by humorous anecdotes, this is the perfect gift book to keep grandma laughing. As author Bryna Nelson Paston says, "We have a window of opportunity as grandparents, usually five years, or maybe more if you're lucky. So you have to make your move fast and decisively. Your kids and their spouses will intrude, interrupt, and interfere. But persevere. Circumvent them, do exactly what you want, and lie— with dignity, I might add. Whatever it takes. Promise anything, but get the kid."
