American Government-Glen Krutz 2018-01-07 Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

Guide to U.S. Environmental Policy-Sally K. Fairfax 2014-08-14 Guide to U.S. Environmental Policy provides the analytical connections showing readers how issues and actions are translated into public policies and persistent institutions for resolving or managing environmental conflict in the U.S. The guide highlights a complex decision-making cycle that requires the cooperation of government, business, and an informed citizenry to achieve a comprehensive approach to environmental protection. The book's topical, operational, and relational essays address development of U.S. environmental policies, the federal agencies and public and private organizations that frame and administer environmental policies, and the challenges of balancing conservation and preservation against economic development, the ongoing debates related to turning environmental concerns into environmental management, and the role of the U.S. in international organizations that facilitate global environmental governance. Key Features: 30 essays by leading conservationists and scholars in the field investigate the fundamental political, social, and economic processes and forces driving policy decisions about the protection and future of the environment. Essential themes traced through the chapters include natural resource allocation and preservation, human health, rights of indigenous peoples, benefits of recycling, economic and other policy areas impacted by responses to green concerns, international cooperation, and immediate and long-term costs associated with environmental policy. The essays explore the impact made by key environmental policymakers, presidents, and politicians, as well as the topical issues that have influenced U.S. environmental public policy from the colonial period to the present day. A summary of regulatory agencies for environmental policy, a selected bibliography, and a thorough index are included. This must-have reference for political science and public policy students who seek to understand the forces that U.S. environmental policy is suitable for academic, public, high school, government, and professional libraries.

The Federalist Papers-Alexander Hamilton 2018-08-20 Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755-1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

E-government Guide Germany-Achim Zechner 2007 The comprehensive modernisation of the administration demands reliable concepts and efficient products on the one hand and innovative ideas and the motivation of numerous people in quite different roles and positions on the other. In order for the public sector to be able to make use of the enormous creative potential of modern technologies, it is important to intensify efforts to combine all available forces and to exploit new synergies. E-Government Guide Germany: Strategies, solutions and efficiency provides a broad, discerning picture of the activities and achievements to date as well as the challenges to come. More than fifty experts from the public sector (federal, provinces and communal level), and from industry and science, examine e-government as a complex challenge to be mastered through the close co-operation of those involved. All the authors in this edition have many years of experience in their special fieldsd of developing and applying e-government. Based on the principle "by professionals for professionals", this handbook not only offers insights into what has already been achieved in the field, but also states what still has to be done. It defines specific tasks, creating a solid, common basis for decision-makers and implementers. Deutsche Version "Handbuch E-Government" ISBN 978-3-8167-7261-3

U.S. History-P. Scott Corbett 2017-12-19 Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Exploring Government-Ray Notgrass 2016 Explore the government of the United States from its beginning to the present with special emphasis on the Biblical pattern for government and on the U.S. Constitution. Learn about the operations of Federal, state, and local government, and about issues facing our nation today. Become better equipped to understand, pray for, and be involved in our country's government. Includes guide for parents.

Civic Revolution-Ric Casale 2019-04-16 Cities are the places that have the greatest influence over life on Earth. The single biggest cause of global warming, the urbanisation of humanity, is potentially the principal solution. The 'ecological genius' of the city enables us to live better - while consuming, wasting and polluting less. However it remains a vast, largely hidden civic power. What is missing is a citizen's guide to turn the place where we live into the seat of the solution. Energising, motivating and uplifting, Civic Revolution is a topical and relevant book about the power of belonging that gets to the heart of how - and why - all of us must act. 'A timely and readable call to arms to people who want to make life better in their local community but also understand the need for more fundamental system change.' - Matthew Taylor, Chief Executive of the Royal Society of Arts.

Government by the People- 1997 Analyzes the political policies of the Clinton administration in the US, and considers voting and party activity, and Supreme Court decisions. This book reflects the concerns and experiences of minorities in relation to the American government, including political changes affecting minority groups.

You're More Powerful than You Think-Eric Liu 2017-03-28 Is this the America you want? If not, here's how to claim the power to change your country. We are in an age of epic political turbulence in America. Old hierarchies and institutions are collapsing. From the election of Donald Trump to the upending of the major political parties to the spread of grassroots movements like Black Lives Matter and \$15 Now, people across the country and across the political spectrum are reclaiming power. Are you ready for this age of bottom-up citizen power? Do you understand what power truly is, how it flows, who has it, and how you can claim and exercise it? Eric Liu, who has spent a career practicing and teaching civic power, lays out the answers in this incisive, inspiring, and provocative book. Using examples from the left and the right, past and present, he reveals the core laws of power. He shows that all of us can generate power-and then, step by step, he shows us how. The strategies of reform and revolution he lays out will help every reader make sense of our world today. If you want to be more than a spectator in this new era, you need to read this book.

Includes multiple faculty and student exercises, activities, and assessment tools.

Democracy in One Book or Less-David Litt 2020-06-16 Bill Bryson meets Thomas Frank in this deeply insightful, unexpectedly hilarious story of how politicians hijacked American democracy and how we can take it back The democracy you live in today is different—completely different—from the democracy you were born into. You probably don't realize just how radically your republic has been altered during your lifetime. Yet more than any policy issue, political trend, or even Donald Trump himself, our redesigned system of government is responsible for the peril America faces today. What explains the gap between what We, the People want and what our elected leaders do? How can we fix our politics before it's too late? And how can we truly understand the state of our democracy without wanting to crawl under a rock? That's what former Obama speechwriter David Litt set out to answer. Poking into forgotten corners of history, translating political science into plain English, and traveling the country to meet experts and activists, Litt explains how the world's greatest experiment in democracy went awry. (He also tries to crash a party at Mitch McConnell's former frat house. It goes poorly.) The result of Litt's journey is something you might not have thought possible: a page-turner about the political process. You'll meet the Supreme Court justice charged with murder, learn how James Madison's college roommate broke the Senate, encounter a citrus thief who embodies what's wrong with our elections, and join Belle the bill as she tries to become a law (a quest far more harrowing than the one in Schoolhouse Rock!). Yet despite his clear-eyed assessment of the dangers we face, Litt remains audaciously optimistic. He offers a to-do list of bold yet achievable changes—a blueprint for restoring the balance of power in America before it's too late.
