Commonwealth of Letters-Peter J. Kalliney 2013-09-19 Peter Kalliney's original archival work demonstrates that metropolitan and colonial intellectuals used modernist theories of aesthetic autonomy to facilitate collaborative ventures.

Modernism in a Global Context-Peter Kalliney 2015-12-17 Exploring the transnational dimension of literary modernism and its increasing centrality to our understanding of 20th-century literary culture, *Modernism in a Global Context* surveys the key issues and debates central to the 'global turn' in contemporary Modernist Studies. Topics covered include: - Transnational exchanges between Western and non-Western literary cultures - Imperialism and the Modernism - Cosmopolitanism and postcolonial literatures - Global literary institutions - from the *Little Magazine* to the Nobel Prize - Mass media - photography, cinema, and radio broadcasting in the modernist age Exploring the work of writers such as T.S. Eliot, Virginia Woolf, Jean Rhys, Wole Soyinka, Salman Rushdie and critics such as Edward Said, Pascale Casanova, Paul Gilroy, and Gayatri Spivak amongst many others, the book also includes a comprehensive annotated guide to further reading and online resources.

Commonwealth of Letters-Peter J. Kalliney 2013-07-26 *Commonwealth of Letters* examines midcentury literary institutions integral to modernism and postcolonial writing. Several organizations central to interwar modernism, such as the BBC, influential publishers, and university English departments, became important sites in the emergence of postcolonial literature after the war. How did some of modernism's leading figures of the 1930s-such as T.S. Eliot, Louis MacNeice, and Stephen Spender-come to admire late colonial and early postcolonial literature in the 1950s? Similarly, why did late colonial and early postcolonial writers-including Chinua Achebe, Kamau Brathwaite, Claude McKay, and Ngugi wa Thiong'o-actively seek alliances with metropolitan intellectuals? Peter Kalliney's original and extensive archival work on modernist cultural institutions demonstrates that this disparate group of intellectuals had strong professional incentives to treat one another more as fellow literary professionals, and less as political or cultural antagonists. Surprisingly, metropolitan intellectuals and their late colonial counterparts leaned heavily on modernist theories of aesthetic autonomy to facilitate their collaborative ventures. For white, metropolitan writers, T.S. Eliot's notion of impersonality could help recruit new audiences and conspirators from colonized regions of the world. For black, colonial writers, aesthetic autonomy could be used to imagine a literary sphere uniquely resistant to the forms of racial prejudice endemic to the colonial system. This strategic collaboration did not last forever, but as *Commonwealth of Letters* shows, it left a lasting imprint on the ultimate disposition of modernism and the evolution of postcolonial literature.

British Literature in Transition, 1940-1960: Postwar-Gill Plain 2018-12-20 Examines debates central to postwar British culture, showing the pressures of reconstruction and the mutual implication of war and peace.

Post-War British Literature and the "End of Empire"-Matthew Whittle 2017-01-03 This book examines literary texts by British colonial servant and settler writers, including Anthony Burgess, Graham Greene, William Golding, and Alan Sillitoe, who depicted the impact of decolonization in the newly independent colonies and at home in Britain. The end of the British Empire was one of the most significant and transformative events in twentieth-century history, marking the beginning of a new world order and having an indelible impact on British culture and society. Literary responses to this moment by those from within Britain offer an enlightening (and often overlooked) exploration of the influence of decolonization on received notions of "race" and class, while also prefiguring conceptions of multiculturalism. As Matthew Whittle argues in this sweeping study, these works not only view decolonization within its global context (alongside the aftermath of the Second World War, the rise of America, and mass immigration) but often propose a solution to imperial decline through cultural renewal.

A Handbook of English Renaissance Literary Studies-John Lee 2017-08-14 Provides a detailed map of contemporary critical theory in Renaissance and Early Modern English literary studies beyond Shakespeare A Handbook of English Renaissance Literary Studies is a groundbreaking guide to the contemporary engagement with critical theory within the larger disciplinary area of Renaissance and Early Modern studies. Comprising commissioned contributions from leading international scholars, it provides an overview of literary theory, beyond Shakespeare, focusing on most major figures, as well as some lesser-known writers of the period. This book represents an important first step in bridging the divide between the abundance of titles which explore applications of theory in Shakespeare studies, and the relative lack of such texts concerning English Renaissance studies as a whole, which includes major figures such as Marlowe, Jonson, Donne, and Milton. The tripartite structure offers a map of the critical landscape so that students can appreciate the breadth of the work being done, along with an exploration of the ways in which the treatments of or approaches to key issues have changed over time. Handbook of English Renaissance Literary Studies is must-reading for undergraduate and postgraduate students of early modern and Renaissance English literature, as well as their instructors and advisors. Divided into three main sections, "Conditions of Subjectivity," "Spaces, Places, and Forms," and "Practices and Theories," A Handbook of English Renaissance Literary Studies: Provides an overview of theoretical work and the theoretical-informed competencies which are central to the teaching of English Renaissance literary studies beyond Shakespeare Provides a map of the critical landscape of the field to provide students with an opportunity to appreciate the breadth of the work done Features newly-commissioned essays in representative subject areas to offer a clear picture of the contemporary theoretically-engaged work in the field Explores the ways in which the treatments of or approaches to key issues have changed over time Offers examples of the ways in which the practice of a theoretically-engaged criticism may enrich the personal and professional lives of critics, and the culture in which such critical practice takes place

The Oxford Handbook of Literature and the English Revolution-Laura Lunger Knoppers 2012-11-29 This Handbook offers a comprehensive introduction and thirty-seven new essays by an international team of literary critics and historians on the writings generated by the tumultuous events of mid-seventeenth-century England. Unprecedented events-civil war, regicide, the abolition of monarchy, proscription of episcopacy, constitutional experiment, and finally the return of monarchy-led to an unprecedented outpouring of texts, including new and transformed literary genres and techniques. The Handbook provides up-to-date scholarship on current issues as well as historical information, textual analysis, and bibliographical tools to help readers understand and appreciate the bold and indeed revolutionary character of writing in mid-seventeenth-century England. The volume is innovative in its attention to the literary and aesthetic aspects of a wide range of political and religious writing, as well as in its demonstration of how literary texts register the political pressures of their time. Opening with essential contextual chapters on religion, politics, society, and culture, the largely chronological subsequent chapters analyse particular voices, texts, and genres as they respond to revolutionary events. Attention is given to aesthetic qualities, as well as to bold political and religious ideas, in such writers as James Harrington, Marchamont Nedham, Thomas Hobbes, Gerrard Winstanley, John Lilburne, and Abiezer Coppe. At the same time, the revolutionary

political context sheds new light on such well-known literary writers as John Milton, Andrew Marvell, Robert Herrick, Henry Vaughan, William Davenant, John Dryden, Lucy Hutchinson, Margaret Cavendish, and John Bunyan. Overall, the volume provides an indispensable guide to the innovative and exciting texts of the English Revolution and reevaluates its long-term cultural impact.

Commonwealth—Ann Patchett 2016-09-13 #1 New York Times Bestseller The acclaimed, bestselling author—winner of the PEN/Faulkner Award and the Orange Prize—tells the enthralling story of how an unexpected romantic encounter irrevocably changes two families' lives. One Sunday afternoon in Southern California, Bert Cousins shows up at Franny Keating's christening party uninvited. Before evening falls, he has kissed Franny's mother, Beverly—thus setting in motion the dissolution of their marriages and the joining of two families. Spanning five decades, *Commonwealth* explores how this chance encounter reverberates through the lives of the four parents and six children involved. Spending summers together in Virginia, the Keating and Cousins children forge a lasting bond that is based on a shared disillusionment with their parents and the strange and genuine affection that grows up between them. When, in her twenties, Franny begins an affair with the legendary author Leon Posen and tells him about her family, the story of her siblings is no longer hers to control. Their childhood becomes the basis for his wildly successful book, ultimately forcing them to come to terms with their losses, their guilt, and the deeply loyal connection they feel for one another. Told with equal measures of humor and heartbreak, *Commonwealth* is a meditation on inspiration, interpretation, and the ownership of stories. It is a brilliant and tender tale of the far-reaching ties of love and responsibility that bind us together.

Cities of Affluence and Anger—Peter J. Hefner 2015-10-29 Providing a compact literary history of the twentieth century in England, *Cities of Affluence and Anger* studies the problematic terms of national identity during England's transition from an imperial power to its integration in the global cultural marketplace. While the countryside had been the dominant symbol of Englishness throughout the previous century, modern literature began to turn more and more to the city to redraw the boundaries of a contemporary cultural polity. The urban class system, paradoxically, still functioned as a marker of wealth, status, and hierarchy throughout this long period of self-examination, but it also became a way to project a common culture and mitigate other forms of difference. Local class politics were transformed in such a way that enabled the English to reframe a highly provisional national unity in the context of imperial disintegration, postcolonial immigration, and, later, globalization. Kalliney plots the decline of the country-house novel through an analysis of Forster's *Howards End* and Waugh's *Brideshead Revisited*, each ruthless in its sabotage of the trope of bucolic harmony. The traditionally pastoral focus of English fiction gives way to a high-modernist urban narrative, exemplified by Woolf's *Mrs. Dalloway*, and, later, to realists such as Osborne and Sillitoe, through whose work Kalliney explores postwar urban expansion and the cultural politics of the welfare state. Offering fresh new readings of Lessing's *The Golden Notebook* and Rushdie's *The Satanic Verses*, the author considers the postwar appropriation of domesticity, the emergence of postcolonial literature, and the renovation of travel narratives in the context of globalization. Kalliney suggests that it is largely one city—London—through which national identity has been reframed. How and why this transition came about is a process that *Cities of Affluence and Anger* depicts with exceptional insight and originality.

Burnt Shadows—Kamila Shamsie 2009-05-29 Hiroko steps out onto the veranda. Her body from neck down a silk column, white with three black cranes swooping across her back. She looks out towards the mountains, and everything is more beautiful to her than it was early this morning. Nagasaki is more beautiful to her than ever before. She turns her head and sees the spires of Urakami Cathedral, which Konrad is looking up at when he notices a gap open between the clouds. Sunlight streams through, pushing the clouds apart even further. Hiroko. And then the world goes white. —From *Burnt Shadows* by Kamila Shamsie -- The morning of August 9, 1945 breaks dreary and unspectacular in the city of Nagasaki. Nonetheless, twenty-one year-old Hiroko Tanaka is elated: she is in love. Her emerging romance with the displaced German Konrad Weiss offers release from the greyness of wartime deprivation. In this time of heightened xenophobia, their affair must be kept secret, particularly as Hiroko's father has recently been outcast for questioning the patriotism of sending children on kamikaze missions. As Hiroko and Konrad furtively plan for a future after the war, there is no way they can comprehend the unspeakable devastation bearing down upon them. Two years later, Hiroko arrives in Delhi at the home of Konrad's sister Ilse and his brother-in-law James Burton. Upon Hiroko's back are crane-shaped scars, seared into her skin when her kimono was incinerated by the bomb. She is on the run from unbearable memories, as well as from the stigma of being branded a hibakusha, a survivor of the bomb. Ilse, in an uncharacteristically impulsive move, welcomes Hiroko into her home, seeing in the brave young woman a possibility of release from her own conscripted existence. Hiroko quickly destabilizes the frigid hierarchy of the household, much to the relief of Sajjad Ashraf, James's bored servant. Tensions are running high in the Mohalla with the looming partition of India and Pakistan. Will Sajjad remain in his beloved Dilli/Delhi, or depart with so many others for the promise of Pakistan? Sajjad's family has secured for him a wife, and he yearns for a legal career, still half-clinging to the hope that James will assist him. But James's only use for him is as a chess opponent, an idle distraction as the Raj winds to a close. The Burtons are preparing to decamp for England, having already dispatched their son Harry to boarding school. But what James does not know is that Ilse is making other plans. A romance blooms between Hiroko and Sajjad, much to the incredulity of the Burtons, whose own emotional lives have become entwined in the futures of their charismatic young charges. Despite outbursts of jealousies and a terrible act of betrayal, the Burtons nevertheless assist Hiroko and Sajjad in their flight to married life in Istanbul. Later the Ashrafs will move to Karachi to raise their son, Raza. The lives of the Ashrafs and the Burtons will remain entwined for decades, though in ways they cannot anticipate. Across continents and through geopolitical flux, each family will continue to act as a catalytic force upon the other, sometimes in life-saving ways, and sometimes causing great peril. Why is it that some bonds flourish in times of crisis, and why do some fail? What defines the character that survives the cruelest of circumstances? And how is it that entire populations can support unspeakable acts en masse, while relating as individuals with compassion? Longlisted for the prestigious Orange Prize for Fiction, Kamila Shamsie's *Burnt Shadows* is an enthralling meta-cultural epic, the panoramic tale of two families tangled together in some of the most devastating conflicts of modern history. From the Hardcover edition.

Kaikhosru Sorabji's Letters to Philip Heseltine (Peter Warlock)—Brian Inglis 2019-06-05 Two extraordinary personalities, and one remarkable friendship, are reflected in the unique corpus of letters from Anglo-Parsi composer-critic Kaikhosru Sorabji (1892-1988) to Philip Heseltine (Peter Warlock) (1894-1930): a fascinating primary source for the period 1913-1922 available in a complete scholarly edition for the first time. The volume also provides a new contextual, critical and interpretative framework, incorporating a myriad of perspectives: identities, social geographies, style construction, and mutual interests and influences. Pertinent period documents, including evidence of Heseltine's reactions, enhance the sense of narrative and expand on aesthetic discussions. Through the letters' entertaining and perceptive lens, Sorabji's early life and compositions are vividly illuminated and Heseltine's own intriguing life and work recontextualised. What emerges takes us beyond tropes of otherness and eccentricity to reveal a persona and a narrative with great relevance to modern-day debates on canonicity and identity, especially the nexus of ethnicity, queer identities and Western art music. Scholars, performers and admirers of early twentieth-century music in Britain, and beyond, will find this a valuable addition to the literature. The book will appeal to those studying or interested in early musical modernism and its reception; cultural life in London around and after the First World War; music, nationality and race; Commonwealth studies; and music and sexuality.

Candide—Voltaire 2016-01-20 Voltaire's masterpiece of satire *Candide* was written between July and December 1758 and published simultaneously in Geneva, Paris and Amsterdam in January 1759. The events in the book unlike most works of fiction are astutely based on the current state of Voltaire's contemporary world and culled from the headlines of his day. No major power center was omitted. Arbiters of social status, sex/love, money, war and religion were all lambasted within the pages of *Candide*.

Bringing together leading and emerging scholars working in animal studies and critical animal studies, *Thinking Veganism in Literature and Culture* shows how the experience of being vegan, and the conditions of thought fostered by veganism, pose new questions for work across multiple disciplines. Offering accounts of veganism which move beyond contemporary conceptualizations of it as a faddish dietary preference or set of proscriptions, it explores the messiness and necessary contradictions involved in thinking about or practicing a vegan way of life. By thinking through as well as about veganism, the project establishes the value of a vegan mode of reading, writing, looking, and thinking.

Novelty-Michael North 2013-10-25 If art and science have one thing in common, it's a hunger for the new—new ideas and innovations, new ways of seeing and depicting the world. But that desire for novelty carries with it a fundamental philosophical problem: If everything has to come from something, how can anything truly new emerge? Is novelty even possible? In *Novelty*, Michael North takes us on a dazzling tour of more than two millennia of thinking about the problem of the new, from the puzzles of the pre-Socratics all the way up to the art world of the 1960s and '70s. The terms of the debate, North shows, were established before Plato, and have changed very little since: novelty, philosophers argued, could only arise from either recurrence or recombination. The former, found in nature's cycles of renewal, and the latter, seen most clearly in the workings of language, between them have accounted for nearly all the ways in which novelty has been conceived in Western history, taking in reformation, renaissance, invention, revolution, and even evolution. As he pursues this idea through centuries and across disciplines, North exhibits astonishing range, drawing on figures as diverse as Charles Darwin and Robert Smithson, Thomas Kuhn and Ezra Pound, Norbert Wiener and Andy Warhol, all of whom offer different ways of grappling with the idea of originality. *Novelty*, North demonstrates, remains a central problem of contemporary science and literature—an ever-receding target that, in its complexity and evasiveness, continues to inspire and propel the modern. A heady, ambitious intellectual feast, *Novelty* is rich with insight, a masterpiece of perceptive synthesis.

Queer Terror-C. Heike Schotten 2018-08-21 After Sept. 11, 2001, George W. Bush declared, "Either you are with us, or you are with the terrorists." Bush's assertion was not simply jingoist bravado—it encapsulates the civilizationalist moralism that has motivated and defined the United States since its beginning, linking the War on Terror to the nation's settlement and founding. In *Queer Terror*, C. Heike Schotten offers a critique of U.S. settler-colonial empire that draws on political, queer, and critical indigenous theory to situate Bush's either/or moralism and reframe the concept of terrorism. The categories of the War on Terror exemplify the moralizing politics that insulate U.S. empire from critique, render its victims deserving of its abuses, and delegitimize resistance to it as unthinkable and perverse. Schotten provides an anatomy of this moralism, arguing for a new interpretation of biopolitics that is focused on sovereignty and desire rather than racism and biology. This rethinking of biopolitics puts critical political theory of empire in dialogue with the insights of both native studies and queer theory. Building on queer theory's refusal of sanctity, propriety, and moralisms of all sorts, Schotten ultimately contends that the answer to Bush's ultimatum is clear: dissidents must reject the false choice he presents and stand decisively against "us," rejecting its moralism and the sanctity of its "life," in order to further a truly emancipatory, decolonizing queer politics.
