Jacob's ABC's of Exercise-Bulby Duncan 2011-10-13 Bulby Duncan utilizes a unique style of teaching children different elements of fitness through his book "Jacob's ABC's of Exercise". This book introduces healthy activity unifying each letter of the alphabet and exercise, and is intended to reinforce the importance of being active at an early age. "Jacob's ABC's of Exercise" focuses on the various components of exercise such as: aerobic, abdominal, balance, flexibility, strengthening, and stretching. This book is also geared to assisting in the development of self-esteem, building character, and increasing knowledge of exercise in children to help in the fight against early childhood obesity. Parents and teachers will love how this book allows them to interact with the kids to help them learn ideal ways to be and stay fit. According to the American Dietetic Association (ADA), one in every three children is obese and weight-related diseases are a result of their lack of activity. To join national movement to reduce childhood obesity, Mr. Duncan created Alphafit. Alphafit promotes healthy lifestyles during early childhood development by stressing the importance of being active. Mr. Duncan knows that children are our future and wants to start with ACTIVITY as a way to head them in the right direction. Grab a towel and some water and get ready to exercise with Jacob!!

College Success Strategies-Sherrie L. Nist 2002-12-01 College Learning Strategies teaches the skills and strategies that will enable readers o become life-long learners capable of knowing how to approach new and difficult material in college and beyond. The skills taught in this book will serve readers well in the future in a variety of learning situations. College Learning Strategies is designed to engage readers in thought about their own learning and the important role they play in the learning process. Because effective learning is a complex process, the authors have based the book on the idea that there are four key factors that must interact for learning to occur: 1.The characteristics of the learner (motivation, interest, beliefs, etc); 2. The tasks that readers are asked to do (both the level of thinking required and type of assessment); 3. The strategies that readers must use (previewing, annotation, mapping, etc); and 4. The characteristics of the books with which readers interact (textbooks, lecture, internet, and other sources of information). For those interested in developing their study skills.

In 2003, Len founded Hopecam, a nonprofit that uses technology to connect young cancer patients with their friends at school. Ten years later, Len's fight against childhood cancer rose to a new level. He qualified as a solo competitor in Race Across America, a 3,000-mile bicycle race that traverses scorching deserts and 11,000-foot mountain elevations. As Len fought to finish the race is just 12 days, an all-volunteer crew supported him around the clock. What Spins the Wheel is a true story about fatherhood and fortitude, business grit and growth ? and the power of combining the right mission with the right team to help others.

Talk, Think, Feel-Nathaniel Bayer 2015-06-11 Talk, Think, Feel is an exploration of emotions in children with cancer, their families, and the doctors who take care of them. In this thought-provoking work, Nathaniel Bayer offers insight into the emotional side of medicine and the range of feelings that pervade pediatric oncology and life in general. This book is a collection of reflections, stories, observations of clinical encounters, and extensive direct quotes from interviews Bayer conducted with twenty pediatric oncologists across the United States. The narrative voices are illuminating in their candor and provide a window into the thoughts of doctors and the close relationships they share with patients. The poignant vignettes-about the lives and even the deaths of children with cancer-serve as a way for readers to further understand the illness experience and to reflect on their own emotional responses. This book is part of an increasingly important conversation about the role of emotions in medicine. Join the discussion.
