Gentile Impurities and Jewish Identities-Christine E. Hayes 2002-11-14 In ancient Jewish culture the ideas of purity and impurity defined the socio-cultural boundaries between Jews and Gentiles. Hayes argues that different views of the possibility of conversion, based on varying ideas about Gentile impurity, were the key factor in the formation of Jewish sects in the second temple period, and in the separation of the early Christian Church from what later became rabbinic Judaism.

Between the Babylonian and Palestinian Talmuds-Christine Elizabeth Hayes 1997-04-24 In this book, Hayes addresses the central concern in talmudic studies over the genesis of halakhic (legal) divergence between the Talmuds produced by the Palestinian rabbinic community (c. 370 C.E.) and the Babylonian rabbinic community (c. 650 C.E.). Hayes analyzes selected divergences between parallel passages of the two Talmuds. Proceeding on a case-by-case basis, she considers whether external influences (cultural or regional differences), internal factors (textual, hermeneutical, or dialectical), or some intersection of the two best accounts for the differences.

Life in Extreme Environments-Guido di Prisco 2020-09-30 From deep ocean trenches and the geographical poles to outer space, organisms can be found living in remarkably extreme conditions. This book provides a captivating account of these systems and their extraordinary inhabitants, 'extremophiles'. A diverse, multidisciplinary group of experts discuss responses and adaptations to change; biodiversity, bioenergetic processes, and biotic and abiotic interactions; polar environments; and life and habitability, including searching for biosignatures in the extraterrestrial environment. The editors emphasize that understanding these systems is important for increasing our knowledge and utilizing their potential, but this remains an understudied area. Given the threat to these environments and their biota caused by climate change and human impact, this timely book also addresses the urgency to document these systems. It will help graduate students and researchers in conservation, marine biology, evolutionary biology, environmental change and astrobiology better understand how life exists in these environments and their susceptibility or resilience to change.

Nursing Diagnoses 2012-14-NANDA International 2014-02-05 A nursing diagnosis is defined as a clinical judgment about individual, family or community responses to actual or potential health problems or life processes which provide the basis for selection of nursing interventions to achieve outcomes for which the nurse has accountability (NANDA-I, 2009). Accurate and valid nursing diagnoses guide the selection of interventions that are likely to produce the desired treatment effects and determine nurse-sensitive outcomes. Nursing diagnoses are seen as key to the future of evidence-based, professionally-led nursing care – and to more effectively meeting the need of patients. In an era of increasing electronic patient health records, standardized nursing terminologies such as NANDA-I, NIC and NOC provide a means of collecting nursing data that are systematically analysed within and across healthcare organizations and provide essential data for cost/benefit analysis and clinical audit. Nursing Diagnoses: Definitions and Classification is the definitive guide to nursing diagnoses, as reviewed and approved by NANDA-I. Each nursing diagnosis undergoes a rigorous assessment process by NANDA-I's Diagnosis Development Committee, with stringent criteria used to indicate the strength of the underlying level of evidence. Each diagnosis comprises a label or name for the diagnosis, a definition, defining characteristics, risk factors and/or related factors. Many diagnoses are further qualified by terms such as risk for, effective, ineffective, impaired, imbalanced, self-care deficit, readiness for, disturbed, decreased, etc. The 2012-2014 edition is arranged by concept according to Taxonomy II domains, i.e. Health promotion, Nutrition, Elimination and exchange, Activity/Rest, Perception/Cognition, Self-perception, Role relationships, Sexuality, Coping/ Stress tolerance, Life principles, Safety/protection, Comfort, and Growth/development. This book brings together the reflections of the Italian educators who founded and developed the system, as well as North Americans who have observed and/or studied there. The solution exists to operate business processes in order to achieve business objectives, meet a business need and deliver business value. Solution architecture is concerned with engaging with the originating business function looking for the solution to create a solution vision and design a solution that meet their needs, subject to a range of constraints such as cost and affordability, time to deliver and organisational standards. Daphne Carter-Ernest Kolowrat 2012-10-17 Set in the 1960s, Daphne Carter is a vivacious, witty, wealthy twenty-year-old with a social conscience and a glamorous job in the Kennedy White House. She has everything going for her -- until she doesn't. Ernest Kolowrat was born in Prague in 1935. After attending schools in the former Czechoslovakia, Turkey and England, he graduated from Yale and served as a junior naval reserve officer with the U. S. Pacific Fleet. During the decade of the 1960s, he was successively employed as world affairs editor for Scholastic Magazines in New York, director of information for the American Institute for Foreign Study in Greenwich, Connecticut, and director of 10th Anniversary Programs of the Peace Corps in Washington. Since 1971, he has been a freelance writer, publicist and filmmaker. He is the author of "Hotchkiss: A Chronicle of an American School." "Ernest Kolowrat has written a tender, haunting love story set in a long-ago world that was really only yesterday." -Stephen Birmingham, Author "Our Crowd""A perceptive story of a courageous girl with insightful nuances of social conventions of the upper classes in America in a different era. Edith Wharton for the mid-twentieth century."--Peter Tcherepnine on Amazon.comFrom beginning of Part II:Glancing through the gossip columns in the New York Journal American for familiar names, I came across the following item: "Washington socialite Daphne Carter is now out of danger, we are told by friends who ought to know, following her automobile mishap on Virginia's back roads last week. We wish you speedy recovery, Daphne." It was an unusually warm spring day. Intent on acquiring an early tan, I was lounging with the afternoon paper on a beach chair at the ocean's edge of my host's Southampton weekend home. I hadn't seen Daphne since she had left for Shannon months earlier. I had received a card from her from Cortina, noting that after skiing in Austria and Switzerland, she had taken my suggestion and was spending two glorious weeks on the slopes in Italy. Some weeks later I ran across one of her Garrison Forest classmates who had joined Daphne in Ireland for one of the major hunts. She related a typical Daphne tale - how Daphne had drawn a terrible horse, was sent sprawling into an icy stream, got right back on, and by the end of the hunt Daphne and horse were in perfect accord. More recently I heard from various sources that Daphne was back in the States, living in Washington and thinking of going back to work for the government, this time in the State Department. The rumor also had it that she was involved with her stable boy. And just a few weeks earlier, I had spoken with Daphne's mother after seeing Mrs. Carter's name plastered on the front pages of New York's afternoon papers. Her clinic in Harlem was campaigning for legislation that would encourage sterilization of mothers with more than four children. Cardinal Spellman took the lead in having her condemned in sermons throughout the diocese for lobbying against the natural order. From a different venue came the accusation by a leader of the Black Muslims that Daphne's mother was waging a sinister campaign to eliminate his race. That's why her name was now on a "White List" of those who would one day be taken to task. While I had phoned Mrs. Carter to offer moral support, I had been hoping she would volunteer news of her daughter. She didn't, and considering the rumors about the stable boy, I didn't think it tactful to ask. Now, I reread the brief item about Daphne's accident . . . what began to bother me after yet another reading was the part that Daphne "is now out of danger." If so, what exactly had she been in danger of?"DAPHNE CARTER is a novella inspired by Phyllis Mills Wyeth, whose photo from 1962 is on the book's cover -- and whose horse, Union Rags, won the Belmont Stakes in 2012.
