Cross-Examination: Science and Techniques-Larry S. Pozner 2012-09-27 In Cross-Examination: Science and Techniques, Second Edition, Larry Pozner and Roger Dodd continue their outstanding tradition of helping attorneys conduct commanding cross-examinations. The second edition offers deeper analysis of cross-examination methods, with more integration and interrelationship of techniques and principles. In analyzing thousands of new trial experiences, they present efficient techniques to confront the challenges of evolving admissibility standards and electronic discovery, and ultimately, help attorneys develop cross-examination skills that are critical to trial success. Inside you'll find valuable advice on how to:

- Use opponents' objections as the springboard for deeper and broader cross-examinations.
- Sequence cross-examination to teach the theory of the case in the best way, and to literally expand the rules of admissibility.
- Use "loops" (the practice of incorporating and repeating key phrases and terms in successive questions to the witness) to rename witnesses and exhibits.
- Use "double loops" to discredit opposing expert witnesses.
- Use voir dire to create great jurors
- Use a fact-driven investigation to develop a winning theory
- Use a witness's own words to follow your theme and theory
- Control the runaway witness
- Communicate winning theories in opening, cross, and closing
- Use loops to box in the witness
- Use tactical sequencing to create the most powerful cross
- Convert a witness's silence into admission of fact
- Induce the witness to voice your pre-selected words
- Prepare for devastating impeachment
- Close off any escape routes for the witness
- Punish the evasive or "I don't know" witness
- Control the crying witness
- Use timing, posture, inflection, diction, wording, eye contact, and other effects to emphasize a witness's concession

Effective cross-examination is a science with established guidelines, identifiable techniques, and definable methods. Attorneys can learn how to control the outcome with careful preparation, calculated strategy, effective skills, and a disciplined demeanor. Pozner and Dodd's treatise remains the definitive guide to preparing killer cross-examinations, only from LexisNexis.

Children and Cross-Examination-J R Spencer 2012-06-01 In 2009, Stephen Barker was convicted of rape on the evidence of a little girl who was four-and-a-half years old at the trial, and about three-and-a-half when first interviewed by the police. The high point of the proceedings was the child's appearance as a live witness in order for Barker's counsel to attempt a cross-examination. This case focused attention on the need, imposed by current English law, for even tiny children to come to court for a live cross-examination. In 1989, the Pigot Committee proposed a scheme under which the whole of a young child's evidence, including cross-examination, would be obtained out of court and in advance of trial. In 1999 a provision designed to give effect to this was included in the Youth Justice and Criminal Evidence Act, but it has not yet been brought into force. The full Pigot proposal was implemented, however, in Western Australia, and similar schemes operate in a number of European jurisdictions. This book of essays examines a number of these schemes, and argues the case for further reforms in the UK.

Culture under Cross-Examination-Tim Kelsall 2009-10-22 The international community created the Special Court for Sierra Leone to prosecute those who bore the greatest responsibility for crimes committed during the country's devastating civil war. In this book Tim Kelsall examines some of the challenges posed by the fact that the Court operated in a largely unfamiliar culture, in which the way local people thought about rights, agency and truth-telling sometimes differed radically from the way international lawyers think about these things. By applying an anthro-political perspective to the trials, he unveils a variety of ethical, epistemological, jurisprudential and procedural problems, arguing that although touted as a promising hybrid, the Court failed in crucial ways to adapt to the local culture concerned. Culture matters, and international justice requires a more dialogical, multicultural approach.
