Introduction to Machine Learning with R-Scott V. Burger 2018-03-07 Machine learning is an intimidating subject until you know the fundamentals. If you understand basic coding concepts, this introductory guide will help you gain a solid foundation in machine learning principles. Using the R programming language, you'll first start to learn with regression modelling and then move into more advanced topics such as neural networks and tree-based methods. Finally, you'll delve into the frontier of machine learning, using the caret package in R. Once you develop a familiarity with topics such as the difference between regression and classification models, you'll be able to solve an array of machine learning problems. Author Scott V. Burger provides several examples to help you build a working knowledge of machine learning. Explore machine learning models, algorithms, and data training Understand machine learning algorithms for supervised and unsupervised cases Examine statistical concepts for designing data for use in models Dive into linear regression models used in business and science Use single-layer and multilayer neural networks for calculating outcomes Look at how tree-based models work, including popular decision trees Get a comprehensive view of the machine learning ecosystem in R Explore the powerhouse of tools available in R's caret package

How to Restore and Modify Your Porsche 914 and 914/6-Patrick C. Paternie Often overlooked by the staunchest Porsche enthusiasts, the 914 nevertheless continues to grow in popularity among club racers, entry-level collectors, and those who simply want a fun and relatively cheap sports car. This book covers 914 restorations and modifications, whether the goal is a restored stocker, modified street car, or a club racer. A history of the model traces the evolution of the Volkswagen-Porsche collaboration through the mid-1970s, while explaining what to look for when buying a 914 and what to do with it once purchased. Chapters are devoted to repair and restoration and modifications of body and trim, interiors, lighting and electrical, suspension, brakes, engines, fuel systems, transmission, wheels and tires, and detailing for concours participation.

Datsun 280Z & 280ZX-R.M Clarke 2011-10-01 Datsun's initial offerings were fairly conventional family cars, but with the introduction of the 240Z in 1969 the marque's image received a massive boost. It was a runaway success, outselling every European sports car model in the lucrative North American market. The 280Z arrived in 1975 followed by the 280ZX in 1978 and sales of the 280ZX had reached over 446,000 units by the time production came to an end in 1983. 44 international articles include road, track and comparison tests, a service guide plus full technical and performance data.
Datsun 240Z & 260Z- 2012-01-01 Some 75 articles drawn from four Continents trace the progress of Datsun's highly competitive 240Z and 280Z coupes between 1970 and 1978. Included are road, track, comparison and long-term tests, new model introductions and updates together with full specifications and performance data. Also featured are articles on tuning and racing, plus advice is offered on acquiring a good pre-owned 240Z or 260Z.
Marketing Across Cultures-Jean-Claude Usunier 2005 Back Cover Copy-Usunier "This book is noteworthy in its content and approach as well as in generating class discussion on intercultural marketing relations, exchange, and communications. With the diversity in world markets and the importance of having locally-specific understanding of markets and consumers, it is a welcome resource for teaching students who can either relate it to their own intercultural experiences or who have never had intercultural experiences themselves." Guliz Ger, Professor of Marketing, Faculty of Business Administration, Bilkent University, Turkey International marketing relationships have to be built on solid foundations. Transaction costs in international trade are high--only a stable and firmly established link between business people can enable them to overcome disagreements and conflicts of interest. "Marketing Across Cultures, 4e" uses a successful two-stage cultural approach to explore International Marketing. - A cross-cultural approach which compares marketing systems and local commercial customs in various countries - An inter-cultural approach which studies the interaction between business peoples of different national cultures "I used "Marketing Across Cultures" in courses in five different countries with students from more than 35 nations. The book provides a stimulating view on international marketing issues and at the same time allows in an excellent way to sensitize and train students for intercultural work, which has become the norm for most medium-sized and large companies." Prof. Dr. Hartmut H. Holzmüller., Chair of Marketing University of Dortmund, Germany Invaluable to all undergraduate, postgraduate and MBA students studying International Marketing and for marketing practitioners who wish to improve their cultural awareness, "Marketing Across Cultures, 4e" is essential reading. New to This Edition! Rewritten extensively in an effort to make the book as accessible as possible, co-author Julie Lee from Australia helps bring a Euro-Australasian perspective to the table. New materials includes: - The internet revolution and its impact on international marketing - Additional web references that allow in-depth and updated access to cultural and business information - New cases with web-based references, including Muslim Cola (Chapter 6), Bollywood (Chapter 8), BrandUSA: Selling Uncle Sam Like Uncle Ben's? (Chapter 14) and more! To access the robust web materials go to: www.booksites.net/usunier. Jean-Claude Usunier is a professor of Marketing and International Business at the University of Lausanne - Graduate School of Commerce (HEC) and at the University Louis-Pasteur (Strasbourg, France). Julie Lee is a Senior Lecturer in Marketing at the Graduate School of Management, University of Western Australia.
