Tales --Edgar Allan Poe 2008-10 This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1917 edition. Excerpt: ... (6) Columns for Discount on Purchases and Discount on Notes on the same side of the Cash Book; (c) Columns for Discount on Sales and Cash Sales on the debit side of the Cash Book; (d) Departmental columns in the Sales Book and in the Purchase Book. Controlling Accounts.--The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts. The most common examples of such accounts are Accounts Receivable account and Accounts Payable account. These summary accounts, respectively, displace individual customers' and creditors' accounts in the Ledger. The customers' accounts are then segregated in another book called the Sales Ledger or Customers' Ledger, while the creditors' accounts are kept in the Purchase or Creditors' Ledger. The original Ledger, now much reduced in size, is called the General Ledger. The Trial Balance now refers to the accounts in the General Ledger. It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved. A Schedule of Accounts Receivable is then prepared, consisting of the balances found in the Sales Ledger, and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance. A similar Schedule of Accounts Payable, made up of all the balances in the Purchase Ledger, is prepared, and it must agree with the balance of the Accounts Payable account of the General Ledger." The Balance Sheet.--In the more elementary part of the text, the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise. In the present chapter he was shown how to prepare a similar statement, the Balance Sheet. For all practical...

Ignite Your Masculine Sexuality-Caeden Connor 2018-05-09 Every day of life, men are under so much pressure from society to conform. If you're a man, you might be feeling the blows of the media frenzy on how men should behave. We keep reading of sexual accusations made by women. Often, they seem to be about the kind of stuff men have done since time began. Our masculinity is a trait that we were born with, and not something we bought online. FACT: Men want to have sex with women. We have hormones that effect our moods, same as women do. Our testosterone levels make us horny, and drive us to search for sexual encounters. We try our luck and take risks.

Women want us to take these risks, to prove our commitment to them. My opinion is, that you should not stop behaving in a masculine way, all because of the media hype. Be proud of your masculinity, because that is what makes you attractive to women. Play the game and show any prospective partner, that your worth taking a chance with. This book will help you reassert your masculinity. I want to show you how to behave as the man that nature intended, and not the shrinking violet. There's nothing wrong with being a nice guy, and being kind and respectful. Don't be nice though, because you're trying to follow the latest fads and trends. Don't shave off all your body hair and smell sweet, because some effeminate model of a soy boy tells you that's how a man should behave. Forget that kinda nice. Keep your body hair and be proud of it; it's part of being a man. You will soon learn that being born a man, and acting like a man, are two different things. For instance, a man does NOT have a feminine side to his nature, real men never have and never will. Sure, you can be a tender and considerate lover. But, to share that side of yourself with a woman, you first need to show her that you're a real man. My book will show you how to emphasize your confidence and not hide your true identity. Don't have any shame about your sexual desires; act upon them. If a woman sets your pulse racing, and you feel that you have to have her, act on those impulses, immediately. Don't dither, deciding what your gonna say to her. Grasp that first moment or it will pass by, and someone else will be in there. I'm not saying be rude, or act like a bully to get a woman. Show her respect. At the same time make sure she senses your masculinity. It's the best-known aphrodisiac there is. This book will give you the confidence, and the skills, to be the man who makes the moves. As a man, you have the responsibility to show the world, that men and women are not equal. Men DO have the right to show off their sexual needs. Men are takers, but they are protectors too. If you feel attracted to a woman, approach her, don't be afraid. Learn to do it the right way, as I will show you in this guide. Find your courage and stand up to those pressures in society that are trying to take your masculinity away. Stand tall, and look everyone in the eye. Turn on the charm and make her want you. Do NOT be afraid of making your move. Be more afraid of not making it. Already the world of masculinity is in danger of emasculation. The day we stop finding women attractive, then there is no hope for mankind.
