The Recognition of Shakuntala-Kālidāsa 2006-11 The play Shakuntala was one of the first examples of Indian literature to be read in translation in Europe. Shakuntala's story is a leitmotiv that recurs in many works of Indian literature and culminates in the master Kali-dasa's drama for the stage. The virtuous heroine is forgotten by her betrothed, the king Dushyanta, only to be refound thanks to a distinguishing signet ring discovered by a fisherman in the belly of one of his catch. The final act distills the essence of human forgiveness, in Shakuntala's gracious release of her husband from his guilt.

Indian Microfinance-Prabhu Ghate 2007-10-04 This is the first comprehensive account of various components of the Indian microfinance sector, the largest in the world. After reviewing the main challenges facing the sector, it analyses the progress of the two main delivery models, issues relating to the emerging microfinance services of micro-insurance and money transfers, ongoing efforts in training and capacity building, opportunities facing commercial financiers such as bankers and social venture capitalists, the remaining need for development financing, and ongoing research in the sector. The main challenge facing the sector is identified as the need to enhance borrower, public and regulatory support and understanding, by increasing transparency in dealings with borrowers, and by 'educating' the public on why microfinance interest rates have to higher than bank lending rates if microfinance institutions are to recover costs and attain viability. Failures in both these areas led to a highly publicized attack in 2006 on the sector by the state government of Andhra Pradesh. While the sector weathered the storm, it needs to take serious note of the lessons, which are analysed in a separate chapter. The book will be of interest to various players in the sector including practitioners, bankers, insurance companies, venture capitalists, regulators, donors and academics. Given heightened interest in the sector with the Nobel prize awarded to Muhammad Yunus and the Grameen Bank, it will be of even greater interest than before to the intelligent layman and the development community generally.

Topology of Metric Spaces-S. Kumaresan 2005 "Topology of Metric Spaces gives a very streamlined development of a course in metric space topology emphasizing only the most useful concepts, concrete spaces and geometric ideas to encourage geometric thinking, to treat this as a preparatory ground for a general topology course, to use this course as a surrogate for real analysis and to help the students gain some perspective of modern analysis." "Eminently suitable for self-study, this book may also be used as a supplementary text for courses in general (or point-set) topology so that students will acquire a lot of concrete examples of spaces and maps."--BOOK JACKET.

Genomes 3-Terence A. Brown 2007 The VitalBook e-book version of Genomes 3 is only available in the US and Canada at the present time. To purchase or rent please visit <http://store.vitalsource.com/show/9780815341383> Covering molecular genetics from the basics through to genome expression and molecular phylogenetics, Genomes 3is the latest edition of this pioneering textbook. Updated to incorporate the recent major advances, Genomes 3 is an invaluable companion for any undergraduate throughout their studies in molecular genetics. Genomes 3 builds on the achievements of the previous two editions by putting genomes, rather than genes, at the centre of molecular genetics teaching. Recognizing that molecular biology research was being driven more by genome sequencing and functional analysis than by research into genes, this approach has gathered momentum in recent years.
