Dictionary of Modern American Philosophers-John R. Shook 2005-01-01 The Dictionary of Modern American Philosophers includes both academic and non-academic philosophers, anda large number of female and minority thinkers whose work has been neglected. It includes those intellectualsinvolved in the development of psychology, pedagogy, sociology, anthropology, education, theology, politicalscience, and several other fields, before these disciplines came to be considered distinct from philosophy in the late nineteenth century.Each entry contains a short biography of the writer, an exposition and analysis of his or her doctrines and ideas, abibliography of writings, and suggestions for further reading. While all the major post-Civil War philosophers arepresent, the most valuable feature of this dictionary is its coverage of a huge range of less well-known writers,including hundreds of presently obscure thinkers. In many cases, the Dictionary of Modern AmericanPhilosophers offers the first scholarly treatment of the life and work of certain writers. This book will be anindispensable reference work for scholars working on almost any aspect of modern American thought.

Dictionary of Early American Philosophers-John R. Shook 2012-04-05 The Dictionary of Early American Philosophers, which contains over 400 entries by nearly 300 authors, provides an account of philosophical thought in the United States and Canada between 1600 and 1860. The label of "philosopher" has been broadly applied in this Dictionary to intellectuals who have made philosophical contributions regardless of academic career or professional title. Most figures were not academic philosophers, as few such positions existed then, but they did work on philosophical issues and explored philosophical questions involved in such fields as pedagogy, rhetoric, the arts, history, politics, economics, sociology, psychology, medicine, anthropology, religion, metaphysics, and the natural sciences. Each entry begins with biographical and career information, and continues with a discussion of the subject's writings, teaching, and thought. A cross-referencing system refers the reader to other entries. The concluding bibliography lists significant publications by the subject, posthumous editions and collected works, and further reading about the subject.

Dictionary of Early American Philosophers-John R. Shook 2012-04-05 An update to the Dictionary of Modern American Philosophers, this version now includes the those minds dealing in the area of theology.

The Bloomsbury Encyclopedia of Philosophers in America-John R. Shook 2016-02-11 For scholars working on almost any aspect of American thought, The Bloomsbury Encyclopedia to Philosophers in America presents an indispensable reference work. Selecting over 700 figures from the Dictionary of Early American Philosophers and the Dictionary of Modern American Philosophers, this condensed edition includes key contributors to philosophical thought. From 1600 to the present day, entries cover psychology, pedagogy, sociology, anthropology, education, theology and political science, before these disciplines came to be considered distinct from philosophy. Clear and accessible, each entry contains a short biography of the writer, an exposition and analysis of his or her doctrines and ideas, a bibliography of writings and suggestions for further reading. Featuring a new preface by the editor and a comprehensive introduction, The Bloomsbury Encyclopedia to Philosophers in America includes 30 new entries on twenty-first century thinkers including Martha Nussbaum and Patricia Churchland. With in-depth overviews of Waldo Emerson, Margaret Fuller, Noah Porter, Frederick Rauch, Benjamin Franklin, Thomas Paine and Thomas Jefferson, this is an invaluable one-stop research volume to understanding leading figures in American thought and the development of American intellectual history.

Dictionary of World Philosophy-A. Pablo Iannone 2013-04-15 The Dictionary of World Philosophy covers the diverse and challenging terminology, concepts, schools and traditions of the vast field of world philosophy. Providing an extremely comprehensive resource and an essential point of reference in a complex and expanding field of study the Dictionary covers all major subfields of the discipline. Key features: * Cross-references are used to highlight interconnections and the cross-cultural diffusion and adaptation of terms which has taken place over time * The user is led from specific terms to master entries which provide valuable historical and cultural context * Each master entry is followed by at least two suggestions for further reading on the subject, creating a substantial bibliography of world philosophy * References extend beyond philosophy to related areas such as cognitive science, computer science, language and physics Subdisciplines covered include:* aesthetics * ethics * sociopolitical philosophy * the philosophy of law * epistemology * logic * the philosophy of science * the philosophy of mind * the philosophy of culture and history * metaphysics * the philosophy of religion Entries are drawn from West Africa, Arabic, Chinese, Indian, Japanese, Jewish, Korean, Latin American, Maori and Native American philosophy including the important and so far largely neglected instance of Pre-Hispanic thought: Nahua philosophy.

The Penguin Dictionary of Philosophy-Thomas Mautner 1997 Clear and concise definitions are given of key concepts, doctrines, and schools of thought in Western philosophy, from 600 B.C. to the present day. The dictionary offers numerous entries on major and lesser known philosophers, from Socrates to Thomas Aquinas, from Rousseau to Derrida. 27 tables, 12 figures.

Dictionary of Twentieth-Century British Philosophers-Stuart Brown 2005-06-01 This is a two-volume work with entries on individuals who made some contribution to philosophy in the period 1900 to 1960 or soon after. The entries deal with the whole philosophical work of an individual or, in the case of philosophers still living, their whole work to date. Typically the individuals included have been born by 1935 and by now have made their main contributions. Contributions to the subject typically take the form of books or journal articles, but influential teachers and people otherwise important in the world of philosophy may also be included. The dictionary includes amateurs as well as professional philosophers and, where appropriate, thinkers whose main discipline was outside philosophy. There are special problems about the term "British" in the twentieth century, partly because of human migration, partly because of decolonialization and the changing denotation of the term. The intention has been to include not only those who were British subjects at least for a significant part of their lives (even if they mostly lived outside what is now the U.K.) but also people who spent a significant part of their lives in Britain itself, irrespective of their nationality or country of origin. In the first category are included, for instance, a number of people who were born and educated in Britain but who subsequently taught in universities abroad. In the second category are included those who were born elsewhere but who came to Britain and contributed to its philosophical culture.

American Philosophy-Woodbridge Riley 1907

Biographical Dictionary of Twentieth-Century Philosophers-Stuart Brown 2012-09-10 This Biographical Dictionary provides detailed accounts of the lives, works, influence and reception of thinkers from all the major philosophical schools and traditions of the twentieth-century. This unique volume covers the lives and careers of thinkers from all areas of philosophy - from analytic philosophy to Zen and from formal logic to aesthetics. All the major figures of philosophy, such as Nietzsche, Wittgenstein and Russell are examined and analysed. The scope of the work is not merely restricted to the major figures in western philosophy but also covers in depth a significant number of thinkers from the near and far east and from the non-European Hispanic-language communities. The Biographical Dictionary also includes a number of general entries dealing with important schools of philosophy, such as the Vienna Circle, or currents of thought, such as vitalism. These allow the reader to set the individual biographies in the context of the philosophical history of the period. With entries written by over 100 leading philosophy scholars, the Biographical Dictionary is the most comprehensive survey of twentieth-century thinkers to date. Structure The book is structured alphabetically by philosopher. Each entry is identically structured for ease of access and covers: * nationality * dates and places of birth and death * philosophical style or school * areas of interest * higher education * significant influences * main appointments * main publications * secondary literature * account of intellectual development and main ideas * critical reception and impact At the end of the book a glossary gives accounts of the schools, movements and traditions to which these philosophers belonged, and thorough indexes enable the reader to access the information in several ways: * by nationality * by major areas of contribution to philosophy e.g. aesthetics * by major influences on the thinker concerned e.g. Plato, Kant, Wittgenstein

Historical Dictionary of Husserl's Philosophy-John J. Drummond 2007-12-20 Edmund Husserl (1859-1938) is widely regarded as the founding figure of the philosophical movement of 'phenomenology.' Husserl's philosophical program was both embraced and rejected by many, but in either case, his ideas set the stage for and exercised an enormous influence on the development of much of the philosophy that followed. In particular, his thought provides the backdrop and impetus for movements such as existentialism, hermeneutics, and deconstruction. Also, because of his career-long concerns with logic and mathematics, there are many points of contact between Husserl's phenomenology and so-called 'analytical philosophy,' further cementing study of Husserl's thought across the philosophical spectrum. The Historical Dictionary of Husserl's Philosophy provides the means to approach the texts of Husserl, as well as those of his major commentators. This is done through a chronology, an introductory essay, an extensive bibliography, and hundreds of cross-referenced dictionary entries on key terms and neologisms, as well as brief discussions of Husserl's major works and of some of his most important predecessors, contemporaries, and successors.

Edinburgh Dictionary of Continental Philosophy-Prof. John Protevi 2005-05-12 The first ever dictionary of continental philosophy to be published.With over 450 clearly written definitions and articles by an international team of specialists, this authoritative dictionary covers the thinkers, topics and technical terms associated with the many fields known as 'continental' philosophy'. Special care has been taken to explain the complex terminology of many continental thinkers. Researchers, students and professional philosophers alike will find the dictionary an invaluable reference tool.Key features include:*in-depth entries on major figures and topics*over 190 shorter articles on other figures and topics*over 250 items on technical terms used by continental thinkers, from abjection [Kristeva] to worldhood [Heidegger]*coverage of related subjects that use continental terms and methods*extensive cross-referencing, allowing readers to relate and pursue ideas in depth.Entries include: Major Figures and Topics: Deleuze, Derrida, Foucault, Hegel, Heidegger, Husserl, Irigaray, Kant, NietzscheEpistemology, Feminism, German Idealism, Marxism, Phenomenology, Poststructuralism, Time, etc.Other figures and topics covered include: Adorno, Althusser, Arendt, Badiou, Barthes, Bergson, Butler, Haraway, Habermas, Kristeva, Merleau-Ponty, Sartre, Schelling, Schiller, Weber, Weil, Wittgenstein, Zizek, etc;African Philosophy, Cognitive Science, Death, Ecocriticism, Embodiment, Environmental Philosophy, Modernity, Philosophy of Nature, NeoThomism, Postcolonial Theory, Psychology, Race Theory, Sex / sexuality, Space, Speech Act Theory, Structuralism, Subject, 'Young Hegelians', etc.

Historical Dictionary of Metaphysics-Gary Rosenkrantz 2011 Metaphysics is what Aristotle described as 'the First Philosophy' or 'first science,' a comprehensive inquiry into the ultimate nature of reality. As such, metaphysics consists of a systematic study of the more general categories of being and of the more general ways of relating entities. The Historical Dictionary of Metaphysics focuses on metaphysics in Western philosophy, the metaphysical tradition that developed under the influence of Greek philosophy, and especially Plato and Aristotle. It offers a comprehensive guide to the many facets of metaphysics through a chronology, an introductory essay, a bibliography, and over 300 cross-referenced dictionary entries on concepts, people, works, and technical terms. This volume is an invaluable resource for student and scholar alike.

Dictionary of Untranslatables-Barbara Cassin 2014-02-09 Characters in some languages, particularly Hebrew and Arabic, may not display properly due to device limitations. Transliterations of terms appear before the representations in foreign characters. This is an encyclopedic dictionary of close to 400 important philosophical, literary, and political terms and concepts that defy easy—or any—translation from one language and culture to another. Drawn from more than a dozen languages, terms such as Dasein (German), pravda (Russian), saudade (Portuguese), and stato (Italian) are thoroughly examined in all their cross-linguistic and cross-cultural complexities. Spanning the classical, medieval, early modern, modern, and contemporary periods, these are terms that influence thinking across the humanities. The entries, written by more than 150 distinguished scholars, describe the origins and meanings of each term, the history and context of its usage, its translations into other languages, and its use in notable texts. The dictionary also includes essays on the special characteristics of particular languages--English, French, German, Greek, Italian, Portuguese, Russian, and Spanish. Originally published in French, this one-of-a-kind reference work is now available in English for the first time, with new contributions from Judith Butler, Daniel Heller-Roazen, Ben Kafka, Kevin McLaughlin, Kenneth Reinhard, Stella Sandford, Gayatri Chakravorty Spivak, Jane Tylus, Anthony Vidler, Susan Wolfson, Robert J. C. Young, and many more.The result is an invaluable reference for students, scholars, and general readers interested in the multilingual lives of some of our most influential words and ideas. Covers close to 400 important philosophical, literary, and political terms that defy easy translation between languages and cultures Includes terms from more than a dozen languages Entries written by more than 150 distinguished thinkers Available in English for the first time, with new contributions by Judith Butler, Daniel Heller-Roazen, Ben Kafka, Kevin McLaughlin, Kenneth Reinhard, Stella Sandford, Gayatri Chakravorty Spivak, Jane Tylus, Anthony Vidler, Susan Wolfson, Robert J. C. Young, and many more Contains extensive cross-references and bibliographies An invaluable resource for students and scholars across the humanities

The Oxford Dictionary of Philosophy-Simon Blackburn 2005-10-27 A major new edition of the best-selling and most authoritative paperback dictionary of philosophy available. Contains over 3,000 entries, including over 500 new entries, as well as biographies of nearly 500 philosophers. A wide-ranging and reliable source of reference for advanced students, a solid support for teachers, and an excellent introduction to philosophy for beginners. - ;This best-selling dictionary is written by one of the most famous philosophers of our time, and widely recognised as the best dictionary of its kind. Wide-ranging and authoritative, it covers every aspect of philosophy from Aristotle to Zen. Clear, concise and easy to use, it provides lively and accessible coverage of not only Western philosophical traditions, but also themes from Chinese, Indian, Islamic, and Jewish philosophy. Entries include over 500 biographies of famous and influential philosophers, in-depth analysis of philosophical terms and concepts, and a chronology of philosophical events stretching from 10,000 BC to the present day. The first edition of this dictionary became a market leader and a standard work of reference, selling over 100,000 copies. Now the author, Professor Simon Blackburn, has revised and updated it to include over 500 new entries including terms from related disciplines such as religion, science and logic. Fully cross-referenced and containing over 3,000 alphabetical entries, this dictionary is the ideal introduction to philosophy for beginners, and an essential work of reference for more advanced students and teachers. -

Historical Dictionary of Ancient Greek Philosophy-Anthony Preus 2015-02-12 This second edition covers the history of Greek philosophy through a chronology, an introductory essay, a glossary, and an extensive bibliography. The dictionary section has over 1500 cross-referenced entries on important philosophers, concepts, issues, and events.

Dictionary of American Philosophy-St. Elmo Nauman 1972 Lives and works of great thinkers from Jonathan Edwards to Albert Einstein, from Wiliam Penn, escaping English tyranny, to Paul tillich, fleeing German despotism.

The Dictionary of Philosophy-Dagobert D. Runes 2001

The Cambridge Dictionary of Philosophy-Robert Audi 2015-05-18 This is the leading, full-scale comprehensive dictionary of philosophical terms and thinkers to appear in English in more than half a century. Written by a team of more than 550 experts and now widely translated, it contains approximately 5,000 entries ranging from short definitions to longer articles. It is designed to facilitate the understanding of philosophy at all levels and in all fields. Key features of this third edition: • 500 new entries covering Eastern as well as Western philosophy, and covering individual countries such as China, France, Germany, Italy, and Spain • Increased coverage of such growing fields as ethics and philosophy of mind • More than 100 new intellectual portraits of leading contemporary thinkers • Wider coverage of Continental philosophy • Dozens of new technical concepts in cognitive science and other areas • Enhanced cross-referencing to add context and increase understanding • Expansions in both text and index to facilitate research and browsing

The Neglected Canon: Nine Women Philosophers-T. Dykeman 2013-06-29 When down from the moon stepped the goddess of the night, she bid Minerva/Athene come to her. "Minerva/Athene," she said, "you sprang fully formed from the head of your father. Now all the daughters of mankind think they, too, are as rootless as you. Tonight I bid you dance, join the circle round 1 that tree glistening with the clarity of wisdom. Mother Natura and Lady Philosophia, hands together, already have begun the promenade of myth and allegory. " Still in the garb of gold and white stone, Minerva/ Athene did as she was bid and danced till dawn. Then in new light, she found herself suddenly a budding flower on a tall branch, and even more swiftly a crystalline fruit, rivaling the morning sun, refracting the light. Behold, she had grown roots, difficult to discover down in the dark of history, deep in the solid knowledge of earth. And the daughters of humankind saw and reveled in their roots. This is the story of this book, a history, long and diverse, of women thinkers and their thought. It will become a legacy for all who study it, a legacy that Heloi'se, Marie de Gournay, Sor Juana Ines de la Cruz, and Judith Sargent Murray among many women philosophers assured by composing lists of the names of women little acknowledged century after century. While the Hannah Arendt's, Susanne K.

The Dictionary Wars-Peter Martin 2020-09-08 A compelling history of the national conflicts that resulted from efforts to produce the first definitive American dictionary of English The Dictionary Wars recounts the patriotic fervor in the early American republic to produce a definitive national dictionary that would rival Samuel Johnson's 1755 Dictionary of the English Language. But what began as a cultural war of independence from Britain devolved into a battle among lexicographers, authors, scholars, and publishers, all vying for dictionary supremacy and shattering forever the dream of a unified American language. Peter Martin tells of the intense rivalry between America's first lexicographers, Noah Webster and Joseph Emerson Worcester, and how their conflict continued beyond Webster's death, when the ambitious Merriam brothers acquired publishing rights to Webster's American Dictionary. The dictionary wars also engaged America's colleges, libraries, newspapers, religious groups, and state legislatures at a pivotal historical moment that coincided with rising literacy and the print revolution. Delving into personal stories and national debates, The Dictionary Wars examines the linguistic struggles that underpinned the founding and growth of a nation.

Biographical Dictionary of American Business Leaders-John N. Ingham 1983 The biographies concentrate on the subjects' business achievements and conclude with brief bibliographies. Appendixes group biographies by industry, company, birthplace, principal place of business activity, religion, ethnicity, and year of birth. One appendix names the fifty-three women treated. This is a needed and refreshing complement to the hundreds of business reference books whose columns of figures do not convey the human effort involved in American business. Library Journal

Transactions of the American Philosophical Society-American Philosophical Society 1793 Held at Philadelphia for promoting useful knowledge.

Time, Will, and Purpose-Randall E. Auxier 2013-11-19 Josiah Royce (1855–1916) has had a major influence on American intellectual life — both popular movements and cutting-edge thought — but his name often went unmentioned while his ideas marched forward. The leading American proponent of absolute idealism, Royce has come back into fashion in recent years. With several important new books appearing, the formation of a Josiah Royce Society, and the re-organization of the Royce papers at Harvard, the time is ripe for Time, Will, and Purpose. Randall Auxier delves into the primary texts written by Royce to retrieve the most poignant ideas, the ideas we need most in the present day, while he also offers a new framework for understanding the development of Royce's philosophy. Auxier responds to everything that has been written about Royce, both early and recent.
