Study Abroad, Second Language Acquisition and Interculturality-Martin Howard 2019-08-07 This book unites a range of emerging topics in the burgeoning transdisciplinary fields of second language acquisition and interculturality in a study abroad context. It explores key issues, trends and approaches within each strand and how the strands relate to one another, painting a big picture of the diversity and complexity underpinning second language acquisition in a study abroad context. The chapters highlight themes such as social networks, input and interaction issues, learner identities and study abroad in lingua franca contexts, while also presenting other themes spanning the breadth of second language acquisition and interculturality research, such as individual differences and linguistic development. This comprehensive and cohesive volume showcases the latest innovative research using quantitative, qualitative and mixed method approaches across a range of source and target language learner cohorts, and highlights emerging themes and directions for future research.

Future Research Directions for Applied Linguistics-Simone E. Pfenninger 2017-01-19 This edited volume provides an overview of current thinking and directions for further research in applied linguistics by bringing together in a single volume a range of perspectives regarding original research agendas and innovative methodological approaches. It focuses not only on the challenges that applied linguistics researchers have been facing in recent years but also on producing workable and productive research designs and on identifying ways of how alternatives to conventional research methodologies can be used. Discussions featured in the volume include the so-called 'Bilingual Advantage' in psycho- and neurolinguistics; the optimal starting age debate in foreign language learning; the growing interest among applied linguists in more nuanced and more complex (statistical) data analysis and the priority given to more descriptive and social approaches to linguistics rather than to theorising. The collection will be a useful reference and stimulus for students, researchers and professionals working in the areas of applied linguistics, psycholinguistics, second language acquisition and second language education.

English Teaching Forum- 2000

The Politics of English Second Language Writing Assessment in Global Contexts-Todd Ruecker 2018-04-17 Reflecting the internationalization of the field of second language writing, this book focuses on political aspects and pedagogical issues of writing instruction and testing in a global context. High-stakes assessment impacts the lives of second language (L2) writers and their teachers around the world, be it the College English Test in China, Common Core-aligned assessments in the U.S., English proficiency tests in Poland, or the material conditions (such as access to technology, training, and other resources) affecting a classroom. With contributions from authors working in ten different countries in a variety of institutional contexts, the chapters examine the uses and abuses of various writing-related assessments, and the policies that determine their form and use. Representing a diverse range of contexts, methods, and disciplines, the authors jointly call for more equitable testing systems that consider the socioeconomic, psychometric, affective, institutional, and needs of all students who strive to gain access to education and employment opportunities related to English language proficiency.

Recent Research in Second Language Phonetics/Phonology-Michael A. Watkins 2009-10-02 Recent Research in Second Language Phonetics/Phonology: Perception and Production reports the findings of seventeen interphonology studies on perception/production of sounds by different first language speakers. All the papers describe careful empirical research, and as such will be of great interest to anyone working, or intending to work, in the specific field of second language phonological acquisition. However, given that speech production and perception are highly complex skills, the research findings in this volume will also be relevant to those with a broader interest in language learning or cognition in general.

Handbook- 2001

Speaking and Instructed Foreign Language Acquisition-Prof. Miroslaw Pawlak 2011-07-04 Developing the ability to speak in a foreign language is an arduous task. This is because it involves the mastery of different language subsystems, simultaneous focus on comprehension and production, and the impact of a range of social factors. This challenge is further compounded in situations in which learners have limited access to the target language. Thus, there is a need to explore issues related to teaching, learning and testing speaking with a view to translating the guidelines based on theoretical positions and research findings into feasible and context-specific pedagogical recommendations. This is the rationale behind this book, which considers speaking from leading theoretical perspectives, investigates individual variables which affect its development, and reports the results of studies focusing on different aspects of its instructed acquisition.

5 Steps to a 5 AP English Language-Barbara Murphy 2001-12-31 ENGLISH LANGUAGE ENGLISH LITERATURE Grace Freedson, Series Editor An exciting new series of study guides that lets each student design a course of study pitched to his or her individual needs and learning style Each year, more than one million U.S. high school students take one or more advanced placement (AP) exams, and, according to official projections, that number will continue to rise in the years ahead. That is because AP exams confer important benefits on those who do well on them. High AP scores are indispensable to gaining admission to most elite colleges. They provide students with a competitive edge when competing for grants and scholarships. And they allow students to bypass required university survey courses, saving on skyrocketing tuition fees. Designed to coincide perfectly with the most current AP exams, Five Steps to a 5 on the Advanced Placement Examinations guides contain several advanced features that set them above all competitors. Each guide is structured around an ingenious Five-Step Plan. The first step is to develop a study plan, the second builds knowledge, the third and fourth hone test-taking skills and strategies, and the fifth fosters the confidence students need to ace the tests. This flexible study tool is also tailored to three types of students. For the more structured student there is a "Month-by-Month" approach that follows the school year and a "Calendar Countdown" approach that begins with the new year. For students who leave studying to the last minute "Basic Training" covers the basics in just four weeks. Other outstanding features include: Sample tests that closely simulate real exams Review material based on the contents of the most recent tests Icons highlighting important facts, vocabulary, and frequently-asked questions Boxed quotes offering advice from students who have aced the exams and from AP teachers and college professors Websites and links to valuable online test resources, along with author e-mail addresses for students with follow-up questions Authors who are either AP course instructors or exam developers

Which University?- 1975

Austria-Karen Hammerlund Lukas 1987 Information on the educational system of Austria and guidelines on the placement of Austrian students in U.S. high schools and colleges are presented. After a brief introduction on the country and the basic structure and principles of the educational system, attention is directed to primary and secondary education. Vocational educational offerings in Austria are also covered, and information is provided on admission criteria for each type of vocational program, the length of the program, and the final certificate. The following programs are also described: social work education, fine arts education, teacher education, paramedical education, and international education. University-level higher education and major degree programs are covered, including regular and special study programs. Profiles of universities are also included. Guidelines are provided to help admissions officers determine the admissibility and appropriate level of placement of Austrian students in U.S. institutions. Appended are a glossary, a list of educational institutions, and copies of certificates of completions and grade reports for various schools. (SW) Handbook of Research on E-Learning Methodologies for Language Acquisition-de C ssa Veiga Marriott, Rita 2008-07-31 "This book discusses the complete range of contemporary research topics such as computer modeling, geometry, geoprocessing, and geographic information systems"--Provided by publisher.

The Handbook of Spanish Second Language Acquisition-Kimberly L. Geeslin 2013-09-24 Bringing together a comprehensive collection of newly-commissioned articles, this Handbook covers the most recent developments across a range of sub-fields relevant to the study of second language Spanish. Provides a unique and much-needed collection of new research in this subject, compiled and written by experts in the field Offers a critical account of the most current, ground-breaking developments across key fields, each of which has seen innovative empirical research in the past decade Covers a broad range of issues including current theoretical approaches, alongside a variety of entries within such areas as the sound system, morphosyntax, individual and social factors, and instructed language learning Presents a variety of methodological approaches spanning the active areas of research in language acquisition

Which Degree 1997- 1996-05 One of a series, this book gives information on Arts, Humanities and language first degree courses. It is divided into subject chapters, with courses arranged alphabetically by title and institution. Each course entry includes the course length, mode of study, UCAS code and entrance requirements.

Language Teacher Identities-Dr. Matthew Clarke 2008-06-06 Set in the rapidly changing world of the contemporary United Arab Emirates and bringing together detailed linguistic analysis with cutting edge social theory, this book explores the development of the first cohort of students to complete a new Bachelor of Education in English language teaching, theorizing the students' learning to teach in terms of the discursive construction of a teaching identity within an evolving community of practice. Both a study of the influence of issues such as gender and nationalism in language teacher education in the Middle East, as well as of the power of discourse and community in shaping identity, this book will be of relevance to anyone working in teacher education as well as to those with an interest in theorizations of discourse and identity.

The Directory of Graduate Studies- 1999

Women's Studies Quarterly-Liza Fiol-Matta 1996-08 This issue of WSQ spotlights educators' efforts to transform the curriculum in community colleges, where women make up the majority of the students and over half of the faculty.

Ta(l)king English Phonetics Across Frontiers-Biljana Čubrović 2009-10-02 Highlighting some interesting and intriguing aspects of English phonetics and phonology from a variety of perspectives, this book brings up a number of empirical questions in order to emphasize the necessity of taking a very broad view of what spoken English means in today's socio-cultural context. English has become a truly global means of communication, used as a first, second, or additional language by millions and millions of diverse speakers, in a multitude of different communicative contexts, so that the very notions of native and non-native seem to have changed profoundly, as have the notions of central/ peripheral and standard/ non-standard with regard to English varieties spoken around the globe. Therefore, today more than ever before, in studying English phonetics many small research steps need to be taken to provide diverse and broad empirical data from as many different standpoints as possible. This collection indeed looks at English phonetics from a wide spectrum of perspectives, including those of native or EFL speakers, language varieties, L2 language teaching and learning, as well as language contact, development, and change.
