Systematic Innovation-John Terninko 1998-04-15 This exciting new book presents the Theory of Inventive Problem Solving (TRIZ), a process that will provoke a breakthrough in your thinking patterns and the way you approach problem solving. The pillar of TRIZ is that contradiction can be methodically resolved through the application of innovative solutions. The Three Premises of TRIZ The

ideal design is a goal Contradictions help solve problems The innovative process can be structured systematically With Systematic Innovation you will learn how to stop seeing conflicts as insurmountable barriers and instead celebrate them as opportunities for improvement and refinement of the design process. You will learn how to eliminate the words "tradeoff" and "compromise" from your vocabulary. The ideal design will become an expectation, not just a dream. By practicing the methods presented in this book, you will increase innovation and radically improve design. Discover the "science" of creativity!

Commercial Refrigeration: For Air Conditioning Technicians-Dick Wirz 2009-06-01 Technicians trained on air conditioning systems are often required to apply their skills to the servicing of commercial refrigeration equipment. This book provides a solid foundation in comfort cooling that can be readily transferred to a broad understanding of medium and low temperature refrigeration equipment such as walk-ins, reach-ins, refrigerated cases, and ice machines. Coverage specific to refrigeration in the food service industry is emphasized, with scores of practical tips that technicians can use right away in the installation and service of commercial equipment. Helpful tips and sound advice from the experienced author and his employees add a personal touch to the comprehensive coverage, increasing interest in, and retention of, key concepts. This book will improve technicians' knowledge, efficiency, and effectiveness in commercial refrigeration and can serve as a permanent addition to the reference library in any truck or shop.
