Fatal Command-Joseph D. McNamara 2012-03-30 FROM THE QUIET LIFE TO THE KILLING GROUND That morning Fraleigh, the high-tech boomtowns unorthodox new chief of detectives, had supervised a quiet stakeout. Now the mayors aide had been gunned down, and an innocent young woman was near death. There were indeed peculiar things going on in Silicon City. But the temptation of hard drugs, hot gold, or something even more priceless could explain everything. Power and greed were making suspiciously strange bedfellows out of certain local cops, politicos, and mob members. And that threatened to put a lot of people to sleep permanently.

LRRP Company Command-Kregg P. Jorgenson 2007-12-18 A gripping account of ordinary men with extraordinary courage and heroism who had one last chance to make good—and one helluva war zone to do it in. The new commander of the Company E, 52d Infantry LRRPs, Capt. George Paccerelli, was tough, but the men's new AO was brutal. It was bad enough that the provinces of Binh Long, Phuoc Long, and Tay Ninh bordered enemy-friendly Cambodia, but their vast stretches of double- and triple-canopy jungle were also home to four crack enemy divisions, including the Viet Cong's notorious 95C Regiment. Only the long-range patrols could deliver the critical strategic intelligence that the 1st Cav so desperately needed. Outmanned, outgunned, far from safety, these LRRPs stalked the enemy to his lair, staging bold prisoner snatches and tracking down hidden jungle bases. Hiding in ambush, surrounded by NVA, these teams either pulled off spectacular escape-and-evasion maneuvers in running firefights—or died trying.

A Matter of Honour-Jonathan Riley 2010-09-30 The monument to Isaac Brock (17691812) on Queenston Heights in Canada, as high as Nelsons column in London, pays tribute to the military commander of all troops opposing the American invasion of Canada during the War of 1812. Brocks service during the War of 1812 includes leading the capture of Detroit. He was killed on the morning of 13 October 1812, leading a company of the 49th Foot in a counter-attack on the American lodgement atop Queenston Heights. Although Brock died and his uphill charge against the American muskets failed, the invasion was repulsed soon afterwards.A Matter of Honour focuses on Brocks career as a military commander and also as a civil administrator for the government of Upper Canada. Early chapters deal with his life and military service up to 1791. The book also records his command of the 49th Regiment in the Low Countries and at Copenhagen up to his arrival in Canada in 1802. Brock spent more time in Canada than any other British general who fought in the War of 1812. He faced a difficult situation in Canada, defending a long frontier with meagre resources. However, he was renowned for his resourcefulness, inspiring leadership and ability to keep opponents off-balance

Bomber Command-Max Hastings 2013-09-15 Bomber Command's air offensive against the cities of Nazi Germany was one of the most epic campaigns of World War II. More than 56,000 British and Commonwealth aircrew and 600,000 Germans died in the course of the RAF's attempt to win the war by bombing. The struggle in the air began meekly in 1939 with only a few Whitleys, Hampdens, and Wellingtons flying blindly through the night on their ill-conceived bombing runs. It ended six years later with 1,600 Lancasters, Halifaxes, and Mosquitoes, equipped with the best of British wartime technology, blazing whole German cities in a single night. Bomber Command, through its fits and starts, grew into an effective fighting force. In Bomber Command, originally published to critical acclaim in the U.K., famed

British military historian Sir Max Hastings offers a captivating analysis of the strategy and decision-making behind one of World War II's most violent episodes. With firsthand descriptions of the experiences of aircrew from 1939 to 1945 - based on one hundred interviews with veterans - and a harrowing narrative of the experiences of Germans on the ground during the September 1944 bombing of Darmstadt, Bomber Command is widely recognized as a classic account of one of the bloodiest campaigns in World War II history. Now back in print in the U.S., this book is an essential addition to any history reader's bookshelf.
