Generalist Case Management-Marianne Woodside 2006 Covering such central issues as the responsibilities of case managers, the skills needed for effective case management, and the context in which case management occurs, this practical text equips students with the fundamental information and skills needed to be effective case managers. To ensure that the book offers the most current and accurate information, the authors interviewed human service case managers nationwide about their jobs, their skills, the challenges they face, and the clients they serve. These interviews, combined with the most current research, make this text the most realistic and relevant text available.

Social Work Live-Carol Dorr 2014-09-05 Social Work Live accesses multiple approaches to student learning: experiential, visual, and auditory. Carol Dorr emphasizes the important role of self-reflection and critical thinking in social work practice by paying special attention to process recordings and observing how the social worker reflects on her own reactions in the moment with the client. Students also can appreciate the important role of reflecting on their own interventions with clients after their sessions, acknowledging what went well and what could have been done better. Social Work Live encourages a constructivist perspective to practice that calls attention to the many possible interpretations and approaches to working with clients. The classroom provides an ideal opportunity for students to explore with each other different ways of making meaning out of clients' stories and intervening with them.

Generalist Social Work Practice-Janice Gasker 2018-10-17 Generalist Social Work Practice provides students with the foundational skills and knowledge needed to serve clients across micro, mezzo and macro areas of practice. Author Janice Gasker brings a focus on self-reflection as the first stage in the planned change process and writes with the perspective that we consider work at all levels of practice simultaneously rather than in isolation. In accordance with the 2015 Educational Policy and Accreditation Standards (EPAS) set forth by the Council of Social Work Education (CSWE), the planned change process is presented as dynamic and interactive, providing students with a clear understanding of how each stage of the planned change process can be utilized at any point when serving a client system. The text spotlights the distinctive characteristics of the worker—their values, attitudes, and experiences—that may influence client interaction. The text also includes case studies, collaborative learning exercises, and critical thinking questions to help students apply concepts to practice.

Empowerment Series: Direct Social Work Practice: Theory and Skills-Dean H. Hepworth 2016-04-01 Considered the classic source by means of the authors' proven learning experiences from the field, as well as its excellent balance of theory and application, DIRECT SOCIAL WORK PRACTICE: THEORY AND SKILLS prepares social work students for effective ethical practice. Authoritative, well organized, and written with an appropriate level of rigor, this thorough introduction to practice grounds students in theory while connecting them through vivid examples and vignettes to real-world applications with clients. Many case examples are drawn from social work practitioners as well as the authors' own practice situations. **Social Casework Methodology: A Skills Handbook for the Caribbean Human Services Worker**-Emmanuel Janagan Johnson 2019-10-11 This brief is a practical reference contextualizing social casework methodology in a specifically Caribbean cultural and historical context. It emerged from the experiences of human services workers and educators working in the Caribbean. The concepts of social welfare policy and programs are relatively new to the Caribbean as historically Christian-based organizations and local communities took the responsibility of caring for those in need. As social problems grew more complicated and threatened the security of the nation (e.g., gang violence), it became clear that governments of these small island states needed to provide a systematic approach in dealing with these social problems to help their citizens have a better quality of life. **Social Casework Methodology: A Skills Handbook for the Caribbean Human Services Worker** outlines a systematic approach that human services workers will find useful while working with clients in the Caribbean. It also is an easy-to-use text that defines social casework methodology, components of the methods, case histories, and exercises for social work students interested in working in the human services sector in the Caribbean.

**Direct Practice in Social Work: Oxford Bibliographies Online Research Guide**-Oxford University Press 2010-05-01 This ebook is a selective guide designed to help scholars and students of social work find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books, chapters, and journal articles to online archives, electronic data sets, and blogs. Written by a leading international authority on the subject, the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated. A reader will discover, for instance, the most reliable introductions and overviews to the topic, and the most important publications on various areas of scholarly interest within this topic. In social work, as in other disciplines, researchers at all levels are drowning in potentially useful scholarly information, and this guide has been created as a tool for cutting through that material to find the exact source you need. This ebook is a static version of an article from **Oxford Bibliographies Online: Social Work**, a dynamic, continuously updated, online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study and practice of social work. **Oxford Bibliographies Online** covers most subject disciplines within the social science and humanities, for more information visit [www.aboutobo.com](http://www.aboutobo.com).

Essential Skills and Strategies in the Helping Process-Robert E. Doyle 1992 This book was written with students in mind. The first six chapters may be read independently by students. The information provided in these chapters may be further developed by classroom discussions or supplementary lectures that can go into any of these topics in greater detail. The communication skills discussed in the last four chapters are designed to be used in a skill-building course. The exercises in these chapters need to be studied under the direction of a skilled counselor. I have tried to present the subject matter in a relatively informal writing style. The chapters were pretested with my own students, who were asked to provide feedback and pose questions about any concepts that were not completely understood.

Helping the Aging Family-Victoria E. Bumagin 1990

Introduction to Social Work Practice-Herschel Knapp 2008-12-31 Introduction to Social Work Practice orients the students to the role of the professional social worker. The first chapter delineates the differences between being a good friend and being a good clinician in terms of social/emotional factors, professionalism, and self-disclosure. The second chapter covers techniques for building a trusting working environment that is conducive to processing sensitive issues along with an overview of key therapeutic communication skills. The remaining five chapters detail an easy-to-remember five-step problem-solving model to guide the clinical process: 1. Assessment, 2. Goal, 3. Objectives, 4. Activation, 5. Termination. Key features include: - role-play exercises - brief essay and response questions to build and test key communication skills - discussion points - glossary of terms - diagrams and charts that graphically represent the flow of the helping process. The workbook presumes no prior clinical experience and uses no technical psychological jargon. It teaches fundamental communication skills while emphasizing key social work values, ethics, and issues of multicultural populations and diversity throughout.

Social Work Practice-Marion Bogo 2006-02-07 Social Work Practice synthesizes the latest theories and research findings in social work and related fields and demonstrates how this information is used in working with clients. Because the interview is the medium in which much of social work practice takes place, learning the processes and skills to conduct a productive interview is a critical part of social work education.

Human Service Agencies-Lupe Alle-Corliss 2006 This practical and personal guide alerts students to the real-world issues of agency settings--helping them make the most of their agency experience. The authors introduce students to the most salient issues in the field and facilitate the process of professional skill building and introspection that is necessary in becoming an effective helper. Case examples and exercises support and guide students through a variety of settings, client populations, and ethical and legal issues. The importance of diversity-sensitive practice is highlighted throughout the text.

Stepping Out Into the Field-Juliet Cassuto Rothman 2000 "As social work advanced into the new millennium, new knowledge and skills will be required. The pace of change will continue to accelerate. The principles and skills that you learn as a social work student will serve you in the future as a social work practitioner. This textbook is a valuable part of the learning process ; it will help you to acquire skills and knowledge you will need in an ever-changing global society. Your text will also help you to connect

with the latest research and debates in the field...This text can serve as a building block of your professional library as you enter into the practice of social work" -- Back cover.

Encyclopedia of Canadian Social Work-Francis J. Turner 2009-07-23 All of us, as Canadians, are touched throughout our lives by some aspect of social welfare, either as recipients, donors, or taxpayers. But despite the importance of the social network in our country, there has been no single source of information about this critical component of our society. Even professionals in the field of social work or social services have not had a comprehensive volume addressing the myriad features of this critical societal structure. The Encyclopedia of Canadian Social Work fills this need. Over five hundred topics important to Canadian social work are covered, written by a highly diverse group of social workers covering all aspects of the field and all areas of the country. Practitioners, policy makers, academics, social advocates, researchers, students, and administrators present a rich overview of the complexity and diversity of social work and social welfare as it exists in Canada. The principal finding from this project underscores the long-held perception that there is a Canadian model of social work that is unique and stands as a useful model to other countries. The Encyclopedia of Canadian Social Work will be an important source of information, both to Canadians and to interested groups around the world. The Encyclopedia of Canadian Social Work is available in e-book version by subscription or from university and college libraries through the following vendors: Canadian Electronic Library, Ebrary, MyiLibrary, and Netlibrary.

Terminating Therapy-Denise D. Davis 2008-03-28 The first book of its kind to provide an in-depth and practical approach to termination of therapy, Terminating Therapy guides mental health professionals through the practical, ethical, legal, and emotional challenges of how and when to end therapy. Written for a wide range of practitioners at every level of experience, this book provides practical and straightforward advice on ending therapy on a positive note.

The Social Services-H. Wayne Johnson 1995 A text for a first course in a two-year or four-year undergraduate social work program. Contains sections on background, social problems and social services, methods of social work practice, case vignettes, and special groups, issues, and trends. This fifth edition adds content on managed care, technological change, AIDS, welfare reform, and physician-assisted suicide, and reflects changes in accreditation in the field. Social Work Processes-Beulah Roberts Compton 1989

Client Socialization-James A. Jones 1993 Jones and Alcabes consider qualities which must imbue the relationship between individuals seeking help and those professionally trained to respond. They stress that "help-seekers" only become "clients" if they are truly involved, through a process of socialization, in their own rehabilitation. The authors discuss the very real problems facing professionals, and develop a three-stage process for determining the progress of those seeking help--applicant, novice, client. They clearly and practically provide sound and sorely needed guidance for improving the efficacy of the help-seeker's relationship to the professional. The principles set forth are valid across the spectrum of the helping professions.

Foundations of Couples, Marriage, and Family Counseling-David Capuzzi 2015-01-07 A comprehensive and practical approach to the world of marriage, couples, and family counseling Esteemed academics David Capuzzi and Mark D. Stauffer present the theory, research, and real-life practice of today's counselors and therapists in family therapy settings. Aligned with the Council for Accreditation of Counseling and Related Educational Programs (CACREP) and Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE), this useful text covers foundational teaching important to readers, but also critical modern topics not included in other texts, such as sexuality, trauma, divorce, domestic violence, and addictions, filial play therapy, and using community genograms to position culture and context in family therapy. With a unique focus on practical applications, the book discusses the major family therapy theories, and provides graduate students and post-graduate learners in counseling, mental health, and behavioral health fields the skills and techniques they need to help couples and families as part of their work in a variety of helping environments. Each chapter contains case studies and anecdotes that help readers think critically about the issues they are likely to deal with as clinicians. Written by recognized and respected contributors, this book helps readers see the connection between what they know and what happens in couples and family counseling sessions. Readers will: Learn the knowledge and skills essential to family therapy Understand the history, concepts, and techniques associated with major theories Examine the key issues specific to couples work, with relevant intervention Explore solutions to the complexities generated by special issues Discusses the modern realities of family, diversity and culture, and systemic contexts Family and couples counseling presents a complex interplay of various factors inherent to each individual, the dynamic interplay between each person's issues, and the outside influences that shape behavior. Foundations of Couples, Marriage, and Family Counseling helps readers sort out the complexity and guide clients toward lasting resolution.
