Asian Yearbook of International Law-B.S. Chimni 2013-03-05 Launched in 1991, The Asian Yearbook of International Law is a major refereed publication dedicated to international law issues as seen primarily from an Asian perspective, under the auspices of the Foundation for the Development of International Law in Asia (DILA). It is the first publication of its kind edited by a team of leading international law scholars from across Asia. The Yearbook provides a forum for the publication of articles in the field of international law, and other Asian international law topics, written by experts from the region and elsewhere. Its aim is twofold: to promote international law in Asia, and to provide an intellectual platform for the discussion and dissemination of Asian views and practices on contemporary international legal issues. Each volume of the Yearbook contains articles and shorter notes; a section on State practice; an overview of Asian states participation in multilateral treaties; succinct analysis of recent international legal developments in Asia; an agora section devoted to critical perspectives on international law issues; surveys of the activities of international organizations of special relevance to Asia; and book review, bibliography and documents sections. This volume offers Asian perspectives on topics including : treaty-making power in China; the crime of aggression, illegal fishing and the destruction of environment in armed conflicts.

Epanet and Development. A progressive 44 exercise workbook-Santiago Arnalich 2011 This collection of exercises has over 320 images designed to walk you step-by-step towards the modeling of water distribution systems which are commonly found in development work. You will learn how to load cartography and background images; to determine water demand and spatial allocation; to simulate the evolution of water quality in networks and to make economic comparisons, while avoiding the most common costly mistakes. This manual will help you make informed decisions for achieving clear and measurable results in development projects interventions. Epanet is a free and widely used software from the U.S Environmental Protection Agency that models the hydraulic and water quality behavior of water distribution piping systems.

A. 2018-10-01 This book is evolved from the experience of the author who taught all lab courses in his three decades of teaching in various universities in India. The objective of this lab manual is to provide information to undergraduate students to practice experiments in electronics laboratories. This book covers 118 experiments for linear/analog integrated circuits lab, communication engineering lab, power electronics lab, microwave lab and optical communication lab. The experiments described in this book enable the students to learn: • Various analog integrated circuits and their functions • Analog and digital communication techniques • Power electronics circuits and their functions • Microwave equipment and components • Optical communication devices This book is intended for the B.Tech students of Electronics and Communication Engineering, Electrical and Electronics Engineering, Biomedical Electronics, Instrumentation and Control, Computer Science, and Applied Electronics. It is designed not only for engineering students, but can also be used by BSc/MSc (Physics) and Diploma students. KEY FEATURES • Contains aim, components and equipment required, theory, circuit diagram, pin-outs of active devices, design, tables, graphs, alternate circuits, and troubleshooting techniques for each experiment • Includes viva voce and examination questions with their answers • Provides exposure on various devices TARGET AUDIENCE • B.Tech (Electronics and Communication Engineering, Electrical and Electronics Engineering, Biomedical Electronics, Instrumentation and Control, Computer Science, and Applied Electronics) • BSc/MSc (Physics) • Diploma (Engineering)

Hitler Was a British Agent-Greg Hallett 2005-09-01 Hitler was a British Agent covers Hitler's psychological training in Britain during his missing year (1912) and how this was activated throughout WWII to steer him as a puppet of British intelligence, carrying out their plan to destroy the European powers, particularly France, Germany and Russia. For the first time Operation WINNIE THE POOH is exposed: Hitler's escape out of Berlin on 2 May 1945 with the help of Ian Fleming of James Bond fame. It gives the time and circumstance of Hitler's real death. Rudolf Hess' flight to Britain is solved, as is the Duke of Kent's crash and apparent death. Both died in different countries and different decades from the official versions. Many crimes and mysteries of war are solved in "Hitler was a British Agent."
