November Road-Lou Berney 2018-10-09 "When people say they want to read a really good novel, the kind you just can't put down, this is the kind of book they mean. Exceptional." —STEPHEN KING NAMED A BEST BOOK OF THE YEAR BY Entertainment Weekly • Washington Post • AARP • Newsweek • Dallas Morning News • South Florida Sun-Sentinel • Chicago Public Library • Real Book Spy • CrimeReads • Litreactor • Library Journal • LitHub • Booklist Winner of the Barry, Macavity, and Anthony Awards, the Hammett Prize, the Left Coast Crime "Lefty" Award for Best Mystery Novel, and the Oklahoma Book Award for Best Fiction Novel! Set against the assassination of JFK, a poignant and evocative crime novel that centers on a desperate cat-and-mouse chase across 1960s America—a story of unexpected connections, daring possibilities, and the hope of second chances from the Edgar Award-winning author of *The Long and Faraway Gone*. Frank Guidry's luck has finally run out. A loyal street lieutenant to New

Orleans' mob boss Carlos Marcello, Guidry has learned that everybody is expendable. But now it's his turn—he knows too much about the crime of the century: the assassination of President John F. Kennedy. Within hours of JFK's murder, everyone with ties to Marcello is turning up dead, and Guidry suspects he's next: he was in Dallas on an errand for the boss less than two weeks before the president was shot. With few good options, Guidry hits the road to Las Vegas, to see an old associate—a dangerous man who hates Marcello enough to help Guidry vanish. Guidry knows that the first rule of running is "don't stop," but when he sees a beautiful housewife on the side of the road with a broken-down car, two little daughters and a dog in the back seat, he sees the perfect disguise to cover his tracks from the hit men on his tail. Posing as an insurance man, Guidry offers to help Charlotte reach her destination, California. If she accompanies him to Vegas, he can help her get a new car. For her, it's more than a car— it's an escape. She's on the run too, from a stifling existence in small-town Oklahoma and a kindly husband who's a hopeless drunk. It's an American story: two strangers meet to share the open road west, a dream, a hope—and find each other on the way. Charlotte sees that he's strong and kind; Guidry discovers that she's smart and funny. He learns that she's determined to give herself and her kids a new life; she can't know that he's desperate to leave his old one behind. Another rule—fugitives shouldn't fall in love, especially with each other. A road isn't just a road, it's a trail, and Guidry's ruthless and relentless hunters are closing in on him. But now Guidry doesn't want to just survive, he wants to really live, maybe for the first time. Everyone's expendable, or they should be, but now Guidry just can't throw away the woman he's come to love. And it might get them both killed.

Steak-Mark Schatzker 2010-04-29 The definitive book on steak has never been written-until now "Of all the meats, only one merits its own structure. There is no such place as a lamb house or a pork house, but even a small town can have a steak house." So begins Mark Schatzker's ultimate carnivorous quest. Fed up with one too many mediocre steaks, the intrepid journalist set out to track down, define, and eat the

perfect specimen. His journey takes him to all the legendary sites of steak excellence-Texas, France, Scotland, Italy, Japan, Argentina, and Idaho's Pahsimeroi Valley-where he discovers the lunatic lengths steak lovers will go to consume the perfect cut. After contemplating the merits of Black Angus, Kobe, Chianina, and the prehistoric aurochs-a breed revived by the Nazis after four hundred years of extinction-Schatzker adopts his own heifer, fattens her on fruit, acorns, and Persian walnuts, and then grapples with ambivalence when this near-pet appears on his plate. Reminiscent of both Bill Bryson's and Bill Buford's writing, *Steak* is a warm, humorous, and wide-ranging read that introduces a wonderful new travel and food writer to the common table.

Lightning Flower-Tenaya Jayne 2017-01-31 I am Tesla... but I cannot speak my name aloud. Technically, I am only two years old, but inside I am infinite, ageless. I have two loving parents, but I am alone. Like an island in the sea. There is no one else like me. I am totally, uncontested, and damnably unique. My body is the distilled perfection of pain. Even in my mother's womb, before I took my first breath, there was pain.

Don't scoff, I remember it. How can it be that I am the merging of two people, and be so different from them? The poison that entered my mother invaded me. Poison and magic became reactive agents that twisted me before I was born. So, I am screwed up, probably more than anyone else you've ever met. They tell me I'm beautiful, but when I look at my reflection, all I see is the chaos of the tempest of magic inside me. My skin is the paint. I am the portrait of agony. No one sees what I see. Their eyes only perceive the surface. Even those who can see the layers and use them, my grandfather, my friend Merhl, even they cannot see past the second atmosphere. They don't know about the currents and moods of the dark elements. They have never felt the wind in the dangerous grey of the Everpath. I walk alone through maps of other worlds. Searching for the answer... Hunting the last puzzle piece to make my machine of safety impenetrable. I carry Regia on my back. If I fail... we all die.

*Japan's Motorcycle Wars*-Jeffrey W. Alexander 2009-01-01 For decades the crown jewels of Japan's postwar manufacturing industry, motorcycles remain one of Japan's top exports. *Japan's Motorcycle Wars* assesses the historical development and societal impact of the motorcycle industry, from the influence of motor sports on vehicle sales in the early 1900s to the postwar developments that led to the massive wave of motorization sweeping the Asia-Pacific region today. Jeffrey Alexander brings a wealth of information to light, providing English translations of transcripts, industry publications, and company histories that have until now been available only in Japanese. By exploring the industry as a whole, he reveals that Japan's motorcycle industry was characterized not by communitarian success but by misplaced loyalties, technical disasters, and brutal competition.

Beyond Collapse-T. Joseph Miller Jr 2012-10-20 Civilizations come and go... ...and they don't always go quietly. In our global civilization, the consequence of it all crashing is going to be far-reaching, and with nowhere to hide. That's where I come in. In Beyond Collapse, we not only get you prepared for such an event, but we also help you and your fellow survivors come together, defend one another, preserve what may be lost and rebuild civilization together. Unlike most books of this type, we don't require a paramilitary mindset,

tinfoil headgear, bunkers, or living "off-grid." Everything in here is geared towards gaining skills and resources that are just as useful and socially acceptable in peaceful times as they will be when society and civilization crashes. You will find this book useful for beginners, or those who have been preparing for a long time. The best part is, you will find it useful even if civilization holds up just fine.
