Borgia's Daughter-C. W. Gortner 2017-01-12 Infamy is no accident. It is a poison in our blood. It is the price of being a Borgia. Glamorous and predatory, the Borgias became Italy's most ruthless and powerful family, electrifying and terrorizing their 15th-century Renaissance world. To this day, Lucrezia Borgia, the Pope's beautiful daughter, is known as one of history's most notorious villainesses, accused of incest and luring men to doom with her arsenal of poison. Was she the heartless seductress of legend? Or was she an unsuspecting pawn in a familial web, forced to choose between loyalty and her own survival? From her pampered childhood in the palaces of Rome to her ill-fated, scandalous marriages and complex relationship with her adored father and her brothers, this is the dramatic, untold story of a papal princess whose courage led her to overcome the fate imposed on her by her Borgia blood.

Cell Phone Use and Health Risks-Cynthia Kempson 2013 Mobile phone use in the United States has risen dramatically over the last 20 years, and Americans increasingly rely on mobile phones as their sole or primary means of telephone communication. The rapid adoption of mobile phones has occurred amidst controversy over whether the technology poses a risk to human health. Like other devices that transmit radio signals, mobile phones emit radio-frequency (RF) energy. At high power levels, RF energy can heat biological tissue and cause damage. Though mobile phones operate at power levels well below the level at which this thermal effect occurs, the question of whether long-term exposure to RF energy emitted from mobile phones can cause other types of adverse health effects, such as cancer, has been the subject of research and debate. This book examines what is known about the health effects of RF energy from mobile phones, with a focus on the FCC and FDA's regulatory responsibilities; and other scientific research.

Old Amable-Guy de Maupassant 2016-03-30 This early work by Guy de Maupassant was originally published in the 1880's. Guy de Maupassant was born in 1850 at the Château de Miromesnil, near Dieppe, France. He came from a prosperous family, but when Maupassant was eleven, his mother risked social disgrace by trying to secure a legal separation from her husband. After the split, Maupassant lived with his mother till he was thirteen, and inherited her love of classical literature. In 1880, Maupassant published his first - and, according to many, his best - short story, entitled 'Boule de Suif' ('Ball of Fat'). It was an instant success. He went on to be extremely prolific during the 1880s, working methodically to produce up to four volumes of short fiction every year. Many of the earliest books, particularly those dating back to the 1900's and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions.

What Caused the Civil War?: Reflections on the South and Southern History-Edward L. Ayers 2006-08-17 "An extremely good writer, [Ayers] is well worth reading . . . on the South and Southern history."—Stephen Sears, Boston Globe The Southern past has proven to be fertile ground for great works of history. Peculiarities of tragic proportions—a system of slavery flourishing in a land of freedom, secession and Civil War tearing at a federal Union, deep poverty persisting in a nation of fast-paced development—have fed the imaginations of some of our most accomplished historians. Foremost in their ranks today is Edward L. Ayers, author of the award-winning and ongoing study of the Civil War in the heart of America, the Valley of the Shadow Project. In wide-ranging essays on the Civil War, the New South, and the twentieth-century South, Ayers turns over the rich soil of Southern life to explore the sources of the nation's and his own history. The title essay, original here, distills his vast research and offers a fresh perspective on the nation's central historical event.

What Is Left the Daughter-Howard Norman 2011-05-03 A two-time National Book Award finalist delivers a stirring tale of the passions - tender, obsessive, even murderous - that are unleashed by a wartime love triangle. Seventeen-year-old Wyatt Hillyer is suddenly orphaned when his parents, within hours of each other, jump off two different bridges - the result of their separate involvements with the same compelling neighbor, a Halifax switchboard operator and aspiring actress. The suicides cause Wyatt to move to small-town Middle Economy to live with his uncle, aunt, and ravishing cousin Tilda. Setting in motion the novel's chain of life-altering passions and the wartime perfidy at its core is the arrival of the German student Hans Mohring, carrying only a satchel. Actual historical incidents - including a German U-boat's sinking of the Nova Scotia-Newfoundland ferry Caribou - lend intense narrative power to Norman's uncannily layered story. Wyatt's account of the astonishing events leading up to his fathering of a beloved daughter spills out twenty-one years later. What Is Left the Daughter is Howard Norman at his celebrated best. From the Trade Paperback edition.

BMW Boxer Twins-Ian Falloon 2004 For nearly 80 years, shaft-drive boxer twins have traditionally formed the backbone of the BMW motorcycle line-up. For many enthusiasts of the Bavarian marque the classic BMW twin was the R90S of 1973-76. Over the decades, successive generations of durable machines - including the R100S, fully-faired R100RS, four-cylinder K-series, high-performance R1100RS and an entire family of touring and sporting models ranging from 850 to 1200cc - would ensure the BMW boxer twins a place in the Haynes "Great Bikes" series. This book covers: historical context, racing, the wartime R75 and R69S; the "75" series which enabled BMW to compete with the high-performance Japanese machines; the R90S, the "76" and Superbike performance; the R100RS, the "77" and the touring R100RT; smaller twins, smaller potential; the R89G/S, including a Paris-Dakar version; rationalization of the boxer range, and the new twins that included four-valve heads and electronic engine management; and technical specifications

from 1969 to 2003.

Hoda-Hoda Kotb 2011-07-19 She's just like the rest of us. But she's something different, too. Hoda Kotb grew up in two cultures--one where summers meant playing at the foot of the ancient pyramids and another where she had to meet her junior prom date at the local 7-Eleven to spare them both the wrath of her conservative Egyptian parents. She's traveled the globe for network television, smuggling videotapes in her shoes and stepping along roads riddled with land mines. She's weathered the devastation of Hurricane Katrina, and a personal Category 5 as well: divorce and breast cancer in the same year. And if that's not scary enough, she then began cohosting the fourth hour of *Today* with Kathie Lee Gifford. Her story reads just like Hoda--light, funny, positive, and inspiring.--From publisher description.
