The Kawasaki Z1 Story-David Sheehan 2015-09-14 Just as Kawasaki was about to green-light the world's first mass-produced across-the-frame four-cylinder motorcycle, Honda pulled the rug out from under them, unveiling the CB750-4 at the Tokyo Show in 1968. It lit the fuse for what was to become motorcycling's most explosive decade. In never before published interviews, with the men responsible for the bike code-named 'New York Steak,' Dave Sheehan relates the story behind the Z1's development; the secret US testing programme in which a team including Imola-race winner Paul Smart rode pre-production bikes disguised as Hondas coast-to-coast across America. The Kawasaki Z1 Story examines the myth, truth and legend surrounding the Z1's first race win - of which even Kawasaki knew nothing. Here, too, is the full story of the epic three days at Florida's legendary Daytona Speedway when a trio of Z1s broke more than 50 speed endurance records.

Eye of the Cricket-James Sallis 2019-11-12 Finding people is what former private investigator Lew Griffin excels at. The terrible irony is that the exception is his own missing son. Dreams, memories, and reality run together to form his own darkest night. Lew Griffin is a survivor, a black man in New Orleans—a teacher, a writer, and an ex-detective. Having spent years finding others, he has lost his son—and himself in the process. Now a derelict has appeared in a New Orleans hospital claiming to be Lewis Griffin and toting a copy of one of Lew's novels. Learning the truth is a quest that will take Griffin into his own past as he tries to deal with the present: a search for three missing young men.

Shadow Coyote-Don Wolslagel 2009-03 A two-man undercover team working for U.S. Customs to disrupt drug smuggling across the Mexican border is missing. The school teacher brother of one missing team member finds their safe house and learns about their

mission and the high tech electronics and weapons they use. Since he knows nothing about how spooks operate, the teacher hires a Native American Viet Nam veteran to help him track down the men. Together, the two amateurs slip into drug cartel territory and begin their search for the covert team, or their bodies. Before long, the amateurs discover the missing team is in jail. However, they don't know they were betrayed by a U.S. Customs official who is dirty with drug money payoff. Recruiting some locals, the amateurs formulate a plan to break the team out of jail, not realizing their movements are being monitored by the highest U.S. espionage bureau, the NSA.

Proficient Motorcycling-David L. Hough 2010-11-09 This best-selling book is also "#1 book in motorcycle safety" (Nielsen BookScan) and essential reading for all motorcyclists regardless of their years of experience. Author David L. Hough, a revered motorcycle author, columnist, and riding-safety consultant, lays out a clear course for all riders who want to sharpen their handling

skills and improve their rides. This second edition, expanded and now in full color, offers new riders and road warriors the exact kind of advice they need to be prepared for anything when on the road, how to avoid accidents, and how to handle the unexpected. Hough, who began motorcycling in the 1960s, tackles every imaginable topic—from the mechanics of the bike, selection of the right-sized bike, and basic riding skills to night riding, group outings, and advanced survival tactics. In the chapter called “Motorcycle Dynamics,” Hough spells out the equipment needed and basic skills required to control a bike, and specifically keeping the rider’s safety and ability to avoid potentially injurious or fatal crashes. The author is outspoken and direct when it comes to safety, and he emphasizes the importance of the rider’s braking abilities and spells out how to improve them. The chapter offers six tried-and-true techniques for quick-stop tactics, critical for every rider to understand and master. He also addresses other vital skills that riders need to evaluate and improve, such as turning, maintaining balance and stability, and steering. He defines, compares, and analyzes the ins and outs of steering and control: direct steering, countersteering, push steering, out-tracking, coning, u-turns, and directional control. The chapter called “Cornering Habits” is a virtual master class in acceleration, deceleration, use of weight, throttle, leaning, and handling challenging terrain. Hough’s skill as a photographer and illustrator adds a graphic element to his books that leads to immediate understanding of the concepts he explains. The detail offered in each section of the book can only come from decades on the road, and the author is the consummate instructor, assigning homework to the readers in the form of exercises to practice and improve specific techniques that he outlines and illustrates in the text. Any rider who would venture out on the road without David Hough’s voice in his head takes an unnecessary risk with his own life. Proficient Motorcycling takes riders from long, snaking country roads right into the traffic of the big city, and Hough offers the best advice for riders dealing with the most challenging conditions, whether it’s road construction, snap-jawed intersections, skateboarders, or suddenly slippery road surfaces. A critical section of the book offers riders advice on how to deal with automobiles, including aggressive car drivers, oblivious SUV drivers, or “blind”

world, describes technical and stylistic innovations, and includes photographs.
