Iconoclast-Steven Laine 2012-12-20 Ex-reporter Christian Hunt debunks the world's greatest myths, from the Bermuda Triangle and Loch Ness Monster to Crop Circles. But on Christmas Eve in London, Hunt reluctantly faces his biggest challenge yet. Hunt's plans for a peaceful Christmas are shattered by an unplanned visit from a man named Ryko, who tells Hunt he has been hired to track down Hailey Osbourne—the woman Hunt loved and lost nine years earlier. With Hailey's life in jeopardy and terrorists now hot on his trail, Hunt has no choice but to partner with Ryko on a mission to find her and investigate why religious icons around the world are being systematically destroyed. As their perilous journey takes them across Europe, they are plunged into a world of ancient foes and modern conflicts in a race against time to stop a threat far more sinister than they ever imagined. In this fast-paced thriller, conspiracy and danger surround the two men who are about to discover that the destruction of the world's religious icons is just the beginning.

Made in Korea-Richard M. Steers 2013-08-21 American business folklore is awash with the adventures of successful entrepreneurs. Still, most of these stories are about Americans, neglecting important and courageous entrepreneurs from other countries. Made in Korea recounts the story of how Chung Ju Yung rose from poverty to build one of the world's largest and most successful building empires - Hyundai - through a combination of creative thinking, tenacity, timing, political skills, and a business strategy that few competitors ever understood. Chung entered the shipbuilding business with no experience and went on to create the world's largest shipyard. He began making automobiles when foreign experts unanimously predicted he would fail, and he started a global construction company that has built some of today's greatest architectural wonders. He even convinced the International Olympic Committee to select South Korea over Japan as the site for the highly successful 1988 Olympics. Unlike most CEO's of major firms, Chung has always preferred the company of his workers to that of the global executive elite. Hard work, creativity and a capacity to never give up - this is the essence of Chung's life. In each of his ventures, he exhibited a sheer determination to succeed, regardless of the obstacles, and he worked tirelessly to instill this drive in all of his employees. Even today, in the midst of Korea's worst economic crisis in over four decades, Chung's company is busy implementing plans to emerge as an even stronger contender in the world economy. Illustrated with 32 pages of colour photographs not previously seen in the West, including photos of Chung's recent historic visit to North Korea in 1998. Made in Korea takes stock of Chung's entire life, highlighting both his contributions to society and the lessons his work can teach to aspiring entrepreneurs.

An Introduction to Modern Vehicle Design-Julian Happian-Smith 2001 'An Introduction to Modern Vehicle Design' provides a thorough introduction to the many aspects of passenger car design in one volume. Starting with basic principles, the author builds up analysis procedures for all major aspects of vehicle and component design. Subjects of current interest to the motor industry, such as failure prevention, designing with modern materials, ergonomics and control systems are covered in detail, and the author concludes with a discussion on the future trends in automobile design. With contributions from both academics lecturing in motor vehicle engineering and those working in the industry, "An Introduction to Modern Vehicle Design" provides students with an excellent overview and background in the design of vehicles before they move on to specialised areas. Filling the niche between the more descriptive low level books and books which focus on specific areas of the design process, this unique volume is essential for all students of automotive engineering. Only book to cover the broad range of topics for automobile design and analysis procedures Each topic written by an expert with many years experience of the automotive industry
The Global Automotive Industry-Paul Nieuwenhuis 2015-08-10 The automotive industry is still one of the world's largest manufacturing sectors, but it suffers from being very technology-focused as well as being relatively short-term focused. There is little emphasis within the industry and its consultancy and analyst supply network on the broader social and economic impacts of automobility and of the sector that provides it. The Global Automotive Industry addresses this need and is a first port of call for any academic, official or consultant wanting an overview of the state of the industry. An international team of specialist researchers, both from academia and business, review and analyse the key issues that make vehicle manufacturing still the world's premier manufacturing sector, closely tied in with the fortunes of both established and newly emerging economies. In doing so, it covers issues related to manufacturing, both established practices as well as new developments; issues relating to distribution, marketing and retail, vehicle technologies and regulatory trends; and, crucially, labour practices and the people who build cars. In all this it explains both how the current situation arose and also likely future trajectories both in terms of social and regulatory trends, as the technological, marketing and labour practice responses to those, leading in many cases to the development of new business models. Key features Provides a global overview of the automotive industry, covering its current state and considering future challenges Contains contributions from international specialists in the automotive sector Presents current research and sets this in an historical and broader industry context Covers threats to the industry, including globalization, economic and environmental sustainability The Global Automotive Industry is a must-have reference for researchers and practitioners in the automotive industry and is an excellent source of information for business schools, governments, and graduate and undergraduate students in automotive engineering.
Sustainable Supply Chains-Yann Bouchery 2016-09-01 This book is primarily intended to serve as a research-based textbook on sustainable supply chains for graduate programs in Business, Management, Industrial Engineering, and Industrial Ecology, but it should also be of interest for researchers in the broader sustainable supply chain space, whether from the operations management and industrial engineering side or more from the industrial ecology and life-cycle assessment side. Finding efficient solutions towards a more sustainable supply chain is increasingly important for managers, but clearly this raise difficult questions, often without clear answers. This book aims to provide insights into these kinds of questions for students and practitioners, based on the latest academic research.
On My Knees: Stark International 2-J. Kenner 2015-06-23 New York Times bestselling author J. Kenner continues her smoking hot, emotionally compelling new erotic Stark International trilogy, which began with Say My Name, returning to the world of her beloved Stark novels, Release Me, Claim Me and Complete Me, with the explosive romance between Jackson Steele and Sylvia Brooks. For fans of Fifty Shades of Grey, Sylvia Day, Meredith Wild and Jodi Ellen Malpas. I never thought I'd lose control, but his desire took me to the edge. Powerful, ambitious and devastatingly sexy, Jackson Steele was unlike any other man I'd ever known. He went after what he wanted with his whole mind, body and soul - and I was the woman in his sights. One touch and I surrendered, one night together and I was undone. Jackson and I had secrets, dark pieces of our pasts that threatened to swallow us both. I was scared to trust him fully, to finally let go. Yet no matter the dangers that lay ahead, I knew I was his - that there could be no more holding back and that in our passion lay our salvation... Return to the smoking hot Stark world with the Stark International trilogy: Say My Name, On My Knees and Under My Skin is the explosively emotional story of Jackson Steele and Sylvia Brooks. Fall in love with J. Kenner's hot and addictive bestselling Stark series charting the romance of Nikki and Damien Stark: Release Me, Claim Me, Complete Me, Take Me, Have Me, Play My Game, Seduce Me and Unwrap Me. Don't miss J. Kenner's explosive Most Wanted series of three enigmatic and powerful men, and the striking women who can bring them to their knees: Wanted, Heated and Ignited.
Inside 2000-S. Bews 2000 Five new plays. Elegy (by Jodi Gallagher): Two sisters, unlike, yet sharing a lust for life. When one dies, the other finds herself in a void that can only be created by the loss of a loved one. A tender but frank account of a family tragedy. So Wet (by Samantha Bews): Silv, a twenty-something, is a professional woman on the move and determined to make every post a winner -- and that's just her social life. A witty tale of longing, laced with a touch of the erotic. Like a Metaphor (by Gabrielle MacDonald): A language journey, in four and a half monologues, through a series of refractions, turning points and tiny visceral moments. A woman's sensual examination of bodily experiences. Baby X (by Campion Decent): Georgie and Evelyn are a lesbian couple in search of a sperm donor. A madcap comedy that takes a recipe for family life, throws it in a blender with a generous dollop of queer consciousness, and celebrates the result. Violet Inc. (by Pam Leversha): Violet Fahrenheit: brilliant, savage, inspiring -- her spirit radiates the lovers and acolytes who surround her. Thirty years later, they are still struggling to exorcise her legacy. A vibrant journey through social and personal change.

Phospholipid Technology and Applications-F. D. Gunstone 2008 Phospholipid technology and applications is an essential reference for technologists developing food and cosmetics products, scientists researching phospholipids in biological and food systems, technologists in fats and oils refining, and scientists developing drugs and drug delivery systems and carriers. The major source of phospholipids is the lecithin recovered during degumming of vegetable oils, particularly soybean oil. This crude material finds uses in its own right but can be purified through a series of processes which eventually lead to individual phospholipid classes such as phosphatidylcholines. It is widely accepted that oil and water do not mix but there are several areas in science and technology where these two distinct phases must coexist in stable emulsions. This is achieved by admixture of amphiphilic molecules of which the phospholipids are important natural examples. Today, phospholipids find many uses in the food industry and in other industries that exploit the amphiphilic nature of these compounds. Further, there are now important procedures by which their amphiphilicity can be optimized for different uses. The early chapters in this book are devoted to the more common glycerol-based phospholipids and cover their structure, source, composition, modification by chemical and enzymatic methods, their physical, chemical, and nutritional properties, and their major uses. The final chapter is devoted to another kind of phospholipid, the sphingolipids, in which there is a growing interest.

Asian Godfathers-Joe Studwell 2010-09-03 40 or 50 families control the economies of Hong Kong, Singapore, Thailand, the Philippines and Indonesia. Their interests range from banking to property, from shipping to sugar, from vice to gambling. 13 of the 50 richest families in the world are in South East Asia yet they are largely unknown outside confined business circles. Often this is because they control the press and television as well as everything else. How do they do it? What are their secrets? And is it good news or bad for the places where they operate? Joe Studwell explosively lifts the lid on a world of staggering secrecy and shows that the little most people know is almost entirely wrong.

Dvoretzky's Endgame Manual-Mark Dvoretzky 2010-11-12 The first edition of Dvoretzky's Endgame Manual was immediately recognized by novice and master alike as one of the best books ever published on the endgame. The second edition is revised and enlarged - now over 400 pages - covering all the most important concepts required for endgame mastery. "I am sure that those who study this work carefully will not only play the endgame better, but overall, their play will improve. One of the secrets of the Russian chess school is now before you, dear reader!" - From the Foreword to the First Edition by Grandmaster Artur Yusupov "Going through this book will certainly improve your endgame knowledge, but just as important, it will also greatly improve your ability to calculate variations... What really impresses me is the deep level of analysis in the book... All I can say is: This is a great book. I hope it will bring you as much pleasure as it has me." - From the Preface to the First Edition by International Grandmaster Jacob Aagaard Here's what they had to say about the First Edition: "Dvoretzky's Endgame Manual ... may well be the chess book of the year... [It] comes close to an ultimate one-volume manual on the endgame." - Lubomir Kavalek in his chess column of December 1, 2003 in the Washington Post. "Dvoretzky's Endgame Manual is quite simply a masterpiece of research and insight. It is a tremendous contribution to endgame literature, certainly the most important one in many years, and destined to be a classic of the literature (if it isn't already one). The famous trainer Mark Dvoretzky has put together a vast number of examples that he has not only collected, but analysed and tested with some of the world's strongest players. This is a particularly important book from the standpoint of clarifying, correcting, and extending the theory of endings. Most of all, Dvoretzky's analysis is staggering in its depth and accuracy." - John Watson, reviewing DEM at The Week In Chess 2003 Book of the Year - JeremySilman.com 2003 Book of the Year - Seagaard Chess Reviews: "This is an extraordinary good chess book. To call this the best book on endgames ever written seems to be an opinion shared by almost all reviewers and commentators. And I must say that I am not to disagree." - Erik Sobjerg

The interlocking stories give the reader a wonderful insiders view" -Kit Reed Catholic Girls, Weird Women, Wired Women, Seven for the Apocalypse.
Erotic Fairy Tales-Mitzi Szereto 2016-12-20 A traditional source of sexual titillation for adult readers, fairy tales historically boasted licentious themes before being cleaned up for the consumption of children in modern times. Seasoned erotica author Mitzi Szereto restores the explicit sex in these 15 tales — and adds some provocative surprises of her own. Here the bawdy humor of French fable meets the sublime eroticism of ancient Chinese myth; a not-so-virgin damsel weds a Prince Charming with a shoe fetish; Little Red Riding Hood discovers Grandma's bed is open to any stray wolf; and a Japanese monk stumbles onto an S/M scene behind a forbidden door. Each tale is prefaced by a brief introduction telling its history and the sexual culture in which the work was originally composed.

Managing with Dual Strategies-Derek F. Abell 2010-06-15 Rarely, if ever, do companies clearly distinguish between or balance the management of today's business and planning for the future. Derek Abell, internationally renowned for his pioneering work on strategic market planning, once again breaks sharply with conventional wisdom to demonstrate how a company can develop analytic marketing modes for not one but two distinct planning horizons. Managing with dual strategies, Abell argues, calls for new approaches not only to planning, but to organizational structure and management control. He makes specific recommendations on how current operating practices need to be adapted, and shows how leading firms are recognizing the dual nature of management as a new way of organizational life. Planning for the present, Abell shows, requires a vision of how the firm must operate now given its unique competencies and resources. By involving each level within the management team from the CEO to financial planners, to line managers, Abell details how firms can pinpoint market opportunities through careful segmentation and identification of key success factors to "connect" with customers. At the same time, he distinguishes the importance of horizontal relationships for defining and focusing on internal strategies, and vertical relationships for being attuned to changing market realities. Success today, he warns, does not ensure success tomorrow. Abell describes how world-class leaders such as Nestlé, Caterpillar, and Heineken monitor both internal and external forces for market change, successfully mastering the present, and preempting the future. Preparing for the future requires understanding the full range of activities industry-wide, and anticipating changes in technology, buyer/seller behavior, and product life cycles. Abell explains how companies can develop and implement these co-existing visions and address the real forms of change that vitally affect their future -- today and tomorrow.
