Performing Nature-Gabriella Giannachi 2005 The essays in this volume explore the borderland between ecology and the arts. Nature is here read by a number of contributors as 'cultural', by others as an 'independent domain', or even as a powerful process of exchange 'between the human and the other-than-human'. The four parts of the volume reflect these different understandings of nature and performance. Informed by psychoanalysis and cultural materialism, contributors to the first part, 'Spectacle: Landscape and Subjectivity', look at ways in which particular social and scientific experiments, theatre and film productions and photography either reinforce or contest our ideas about nature and human-human or human-animal relations and identities. The second part, 'World: Hermeneutic Language and Social Ecology', investigates political protest, social practice art, acoustic ecology, dance theatre, family therapy and ritual in terms of social philosophy. Contributors to the third part, 'Environment: Immersiveness and Interactivity', explore architecture and sculpture, site-specific and mediated dance and paratheatre through radical theories of urban and virtual space and time, or else phenomenological philosophy. The final part, 'Void: Death, Life and the Sublime', indicates the possibilities in dance, architecture and animal behaviour of a shift to an existential ontology in which nature has 'the capacity to perform itself'.

Amazed and Confused-Heather Zempel 2014-03-11 Most people have prayed for something or someone in earnest, seeking God's will, only to be left confused by God's response. Sometimes we ask, "Why would a good God allow bad things to happen to good people?" In Amazed and Confused, Heather Zempel tackles this question head-on by exploring the book of Habakkuk. When the prophet Habakkuk prayed that God would bring change to the backsliding nation of Israel, this issue came to the forefront. Habakkuk begged God for revival and that He would turn the hearts of faithless people back to Him. God's answer to Habakkuk was, "Take a look at the nations and watch what happens! You will be shocked and amazed" (1:5, The Voice). The vision God gave Habakkuk was one of warfare and exile. How do you respond when God answers your prayers in a way that seems out of line with his character and promises? Amazed and Confused proceeds systematically through the book of Habakkuk, exploring the prophet's prayer, God's response, and the prophet's journey from confusion to worship. This interactive Bible study is the perfect choice for those who are hurting and confused about God's responses to their prayers. Features include: Helpful guidance on a question without an easy answer Practical tools for studying the Minor Prophets Easy-to-understand, accessible language

The Wolverine Way-Douglas Chadwick 2013-10-06 Glutton, demon of destruction, symbol of slaughter, mightiest of wilderness villains... The wolverine comes marked with a reputation based on myth and fancy. Yet this enigmatic animal is more complex than the legends that surround it. With a shrinking wilderness and global warming, the future of the wolverine is uncertain. The Wolverine Way reveals the natural history of this species and the forces that threaten its future, engagingly told by Douglas Chadwick, who volunteered with the Glacier Wolverine Project. This five-year study in Glacier National Park - which involved dealing with blizzards, grizzlies, sheer mountain walls, and other daily challenges to survival - uncovered key missing information about the wolverine's habitat, social structure and reproduction habits. Wolverines, according to Chadwick, are the land equivalent of polar bears in regard to the impacts of global warming. The plight of wolverines adds to the call for wildlife corridors that connect existing habitat that is proposed by the Freedom to Roam coalition.

Diamonds-Ian Smillie 2014-04-10 Diamonds are a multi-billion dollar business involving some of the world's largest mining companies, a million and a half artisanal diggers, more than a million cutters and polishers and a huge retail jewellery sector. But behind the sparkle of the diamond lies a murkier story, in which rebel armies in Angola, Sierra Leone and the Congo turned to diamonds to finance their wars. Completely unregulated, so-called blood diamonds became the perfect tool for money laundering, tax evasion, drug-running and weapons-trafficking. Diamonds brings together for the first time all aspects of the diamond industry. In it, Ian Smillie, former UN Security Council investigator and leading figure in the blood diamonds campaign, offers a comprehensive analysis of the history and structure of today's diamond trade, the struggle for effective regulation and the challenges ahead. There is, he argues, greater diversification and competition than ever before, but thanks to the success of the Kimberley Process, this coveted and prestigious gem now represents a fragile but renewed opportunity for development in some of the world's poorest nations. This part of the diamond story has rarely been told.

Genesis Code-Jamie Metzl 2014-11-04 Blue Magic, the latest designer drug linked to a rash of overdoses, might explain the needle mark on the arm of a young woman found dead in her Kansas City apartment. But when Star reporter Rich Azadian digs deeper, the clues point to a far more explosive story: MaryLee Stock was a special protégée of evangelical megapastor and power broker Cobalt Becker, who is poised to deliver his followers and the presidency to a firebrand right-wing senator in the next election. When Azadian sets out to prove that MaryLee's death was no accident and she may have been carrying Becker's genetically enhanced baby, the stakes become life itself. In 2023 America—bankrupt, violently divided by the culture wars, and beholden to archrival China—the rules of the game are complicated. With the danger mounting, the dead bodies of young women piling up, Chinese agents circling, and the US Department of National Competitiveness moving in to quash his investigation, Azadian's only option is to go rogue, assemble a team of brilliant misfits like himself, and begin the fight of his life to find out who is killing these women and why, and if any others like them may still be alive. Mourkogiannis argues that companies must satisfy the need for purpose—a set of values that defines an organization and inspires and motivates its employees. Rather than organization and structure, ideas are what cause companies to go from good to great. Drawing on examples from across multiple industries, Mourkogiannis demonstrates how a strong purpose is the essential first step toward lasting success.

Pilgrimage to Crete-W.E. Welbourne 2016-06-24 At the outset of the Second World War on September 1, 1939, young Aussie diggers are rushed to assist Britain in its hour of need to the nearest European war zone in the Middle East and North Africa. My Uncle Arthur, young Arty is one of these a sapper with 6 years militia training as an army engineer. The ANZAC forces sweep through Libya, from Egypt to Benghazi, defeating superior numbers of heavily armed Italians the first Allied land victory of the war. Ill-equipped and lacking promised supplies, the ANZACs are then inappropriately redirected from North Africa to Greece to help the Greeks face the overwhelming German advance. Retreating to Crete, Arty is captured in the Battle of Crete and becomes a POW. I am motivated to visit the conflict zones of Gallipoli and to follow my uncles wartime exploits from the time of his capture in June 1941 until his third and final escape from a German work camp in Czechoslovakia in 1945. Modern day travel makes it possible to visit not only the more recent wartime scenes of Central Europe, but also to visit the sites of classical civilizations to discover the history, art and cultures of the Mediterranean. Accompanying me on my journey is Avril who was born in England and has vivid wartime memories of the conflict from her childhood.

Auto Biography-Earl Swift 2014-05-06 A brilliant blend of Shop Class as Soulcraft and The Orchid Thief, Earl Swift's wise, funny, and captivating Auto Biography follows an outlaw auto dealer as he struggles to save a rusted '57 Chevy—a car that has already passed through twelve pairs of hands before his—while financial ruin, government bureaucrats and the FBI close in on him. Slumped among hundreds of other decrepit hulks on a treeless, windswept moor in eastern North Carolina, the Chevy evokes none of the Jet Age mystique that made it the most beloved car to ever roll off an assembly line. It's open to the rain. Birds nest in its seats. Officials of the surrounding county consider it junk. To Tommy Arney, it's anything but: It's a fossil of the twentieth-century American experience, of a place and a people utterly devoted to the automobile and changed by it in myriad ways. It's a piece of history—especially so because its flaking skin conceals a rare asset: a complete provenance, stretching back more than fifty years. So, hassled by a growing assortment of challengers, the Chevy's thirteenth owner—an orphan, grade-school dropout and rounder, a felon arrested seventy-odd times, and a man who's been written off as a ruin himself—embarks on a mission to save the car and preserve long record of human experience it carries in its steel and upholstery. Written for both gearheads and Sunday drivers, Auto Biography charts the shifting nature of the American Dream and our strange and abiding relationship with the automobile, through an iconic classic and an improbable, unforgettable hero.

The Food and Feelings Workbook-Karen R. Koenig 2010-03-01 An extraordinary, powerful connection exists between feeling and feeding that, if damaged, may lead to one relying on food for emotional support, rather than seeking authentic happiness. This unique workbook takes on the seven emotions that plague problem eaters — guilt, shame, helplessness, anxiety, disappointment, confusion, and loneliness — and shows readers how to embrace and learn from their feelings. Written with honesty and humor, the book explains how to identify and label a specific emotion, the function of that emotion, and why the emotion drives food and eating problems. Each chapter has two sets of exercises: experiential exercises that relate to emotions and eating, and questionnaires that provoke thinking about and understanding feelings and their purpose. Supplemental pages help readers identify emotions and chart emotional development. The final part of the workbook focuses on strategies for disconnecting feeling from food, discovering emotional triggers, and using one's feelings to get what one wants out of life.

Memorial-Bruce Wagner 2006-09-12 In his most profound and accomplished book to date, acclaimed author Bruce Wagner breaks from Hollywood culture with a novel of exceptional literary dimension and searing emotional depth. Joan Herlihy is a semi-successful architect grasping at the illustrious commission that will catapult her to international renown, glossy décor magazines, and the luxe condo designs of Meier, Koolhaas, and Hadid: the incestuous cult of contemporary architects. Unexpectedly, she finds her Venice Beach firm on the short list for a coveted private memorial — a Napa billionaire's vanity tribute to relatives killed in the Christmas tsunami — with life-changing consequences. Her brother Chester clings to a failing career as a location scout before suffering an accidental injury resulting from an outrageous prank; the tragicomic repercussions lead him through a maze of addiction, delusion, paranoia — and ultimately, transcendence. Virtually abandoned by her family, the indomitable Marjorie Herlihy — mother, widow, and dreamer — falls prey to a confidence scheme dizzying in its sadism and complexity. And unbeknownst to Marj and her children, the father who disappeared decades ago is alive and well nearby, recently in the local news for reasons that will prove to be both his redemption and his undoing. Spiraling toward catastrophe, separate lives collide as family members make a valiant attempt to reunite and create an enduring legacy. To rewrite a ruined American dream. Deeply passionate and violently irreverent, Memorial is a testament to faith and forgiveness, and a luminous tribute to spirituality in the twenty-first century. With an unflagging eye on a society ruptured by natural and unnatural disaster, and an insatiable love for humanity, Wagner delivers a masterpiece.

The Lost Book of Moses-Chanan Tigay 2016-04-12 One man's quest to find the oldest Bible scrolls in the world and uncover the story of the brilliant, doomed antiquarian accused of forging them. In the summer of 1883, Moses Wilhelm Shapira—archaeological treasure hunter and inveterate social climber—showed up unannounced in London claiming to have discovered the oldest copy of the Bible in the world. But before the museum could pony up his £1 million asking price for the scrolls—which discovery called into question the divine authorship of the scriptures—Shapira's nemesis, the French archaeologist Charles Clermont-Ganneau, denounced the manuscripts, turning the public against him. Distraught over this humiliating public rebuke, Shapira fled to the Netherlands and committed suicide. Then, in 1947 the Dead Sea Scrolls were discovered. Noting the similarities between these and Shapira's scrolls, scholars made efforts to re-examine Shapira's case, but it was too late: the primary piece of evidence, the parchment scrolls themselves had mysteriously vanished. Tigay, journalist and son of a renowned Biblical scholar, was galvanized by this peculiar story and this indecipherable man, and became determined to find the scrolls. He sets out on a quest that takes him to Australia, England, Holland, Germany where he meets Shapira's still aggrieved descendants and Jerusalem where Shapira is still referred to in the present tense as a "Naughty boy". He wades into museum storerooms, musty English attics, and even the Jordanian gorge where the scrolls were said to have been found all in a tireless effort to uncover the truth about the scrolls and about Shapira, himself. At once historical drama and modern-day mystery, The Lost Book of Moses explores the nineteenth-century disappearance of Shapira's scrolls and Tigay's globetrotting hunt for the ancient manuscript. As it follows Tigay's trail to the truth, the book brings to light a flamboyant, romantic, devious, and ultimately tragic personality in a story that vibrates with the suspense of a classic detective tale.
