Latinos at the Golden Gate-Tomás F. Summers Sandoval Jr. 2013-08-01 Born in an explosive boom and built through distinct economic networks, San Francisco has a cosmopolitan character that often masks the challenges migrants faced to create community in the city by the bay. Latin American migrants have been part of the city's story since its beginning. Charting the development of a hybrid Latino identity forged through struggle--latinidad--from the Gold Rush through the civil rights era, Tomas F. Summers Sandoval Jr. chronicles the rise of San Francisco's diverse community of Latin American migrants. This latinidad, Summers Sandoval shows, was formed and made visible on college campuses and in churches, neighborhoods, movements for change, youth groups, protests, the Spanish-language press, and business districts. Using diverse archival sources, Summers Sandoval gives readers a panoramic perspective on the transformation of a multinational, multigenerational population into a visible, cohesive, and diverse community that today is a major force for social and political activism and cultural production in California and beyond.

Transnational Migration and Lifelong Learning-Shibao Guo 2013-09-13 Economic globalization, modern transportation, and advanced communication technologies have greatly enhanced the mobility of people across national boundaries. The resulting demographic, social, and cultural changes create new opportunities for development as well as new challenges for lifelong learning. Transnational Migration and Lifelong Learning examines the changing nature of lifelong learning in the current age of transnational migration. The book brings together international scholars from a range of countries in a dialogue about the relationship between work, learning, mobility, knowledge, and citizenship in the context of globalization and migration. It covers a wide range of topics, including: global perspectives and analyses of migration; the impact of migration on lifelong learning; processes of exclusion and inclusion in lifelong learning; the tension between mobility, knowledge, and recognition; and transnationalism, learning communities, and citizenship. This book was originally published as a

special issue of the International Journal of Lifelong Education.

Classroom Wars-Natalia Mehlman Petrzela 2015-03-03 The schoolhouse has long been a crucible in the construction and contestation of the political concept of "family values." Through Spanish-bilingual and sex education, moderates and conservatives in California came to define the family as a politicized and racialized site in the late 1960s and 1970s. Sex education became a vital arena in the culture wars as cultural conservatives imagined the family as imperiled by morally lax progressives and liberals who advocated for these programs attempted to manage the onslaught of sexual explicitness in broader culture. Many moderates, however, doubted the propriety of addressing such sensitive issues outside the home. Bilingual education, meanwhile, was condemned as a symbol of wasteful federal spending on ethically questionable curricula and an intrusion on local prerogative. Spanish-language bilingual-bicultural programs may seem less relevant to the politics of family, but many Latino parents and students attempted to assert their authority, against great resistance, in impassioned demands to incorporate their cultural and linguistic heritage into the classroom. Both types of educational programs, in their successful implementation and in the reaction they inspired, highlight the rightward turn and enduring progressivism in postwar American political culture. In Classroom Wars, Natalia Mehlman Petrzela charts how a state and a citizenry deeply committed to public education as an engine of civic and moral education navigated the massive changes brought about by the 1960s, including the sexual revolution, school desegregation, and a dramatic increase in Latino immigration. She traces the mounting tensions over educational progressivism, cultural and moral decay, and fiscal improvidence, using sources ranging from policy documents to student newspapers, from course evaluations to oral histories. Petrzela reveals how a growing number of Americans fused values about family, personal, and civic morality, which galvanized a powerful politics that engaged many Californians and, ultimately, many Americans. In doing so, they blurred the distinction between public and private and inspired some of the fiercest classroom wars in American history. Taking readers from the cultures of Orange County mega-churches to Berkeley coffeehouses, Natalia Mehlman Petrzela's history of these classroom controversies sheds light on the bitterness of the battles over diversity we continue to wage today and their influence on schools and society nationwide.

Consuming Mexican Labor-Ronald Mize 2010-10-15 Mexican migration to the United States and Canada is a highly contentious issue in the eyes of many North Americans, and every generation seems to construct the northward flow of labor as a brand new social problem. The history of Mexican labor migration to the United States, from the Bracero Program (1942-1964) to the North American Free Trade Agreement (NAFTA), suggests that Mexicans have been actively encouraged to migrate northward when labor markets are in short supply, only to be turned back during economic downturns. In this timely book, Mize and Swords dissect the social relations that define how corporations, consumers, and states involve Mexican immigrant laborers in the politics of production and consumption. The result is a comprehensive and contemporary look at the increasingly important role that Mexican immigrants play in the North American economy.
