Hydrogen Energy California Project: Sections 4.3-4.8-California Energy Commission 2013 "This project is for an integrated gasification combined cycle (IGCC) power generating facility called Hydrogen Energy California (HECA) in Kern County, California.... The project, as proposed, would gasify blends of petroleum coke (25 %) and coal (75%) to produce hydrogen to fuel a combustion turbine operating in combined cycle mode. The gasification component would produce 180 million standard cubic feet per day (MMSCFD) of hydrogen to feed a 400 megawatt (MW) gross, 288 MW net combined cycle plant providing California with dispatchable baseload power to the grid. The gasification component would also capture approximately 130 MMSCFD of carbon dioxide (or approximately 90 percent at steady-state operation) which would be transported and used for enhanced oil recovery and sequestration (storage) in the Elk Hills Oil Field Unit. The HECA project would also produce approximately 1 million tons of fertilizer for domestic use" --California Energy Commission web site, Docket 08-AFC-8A.

Native Americans at Mission Santa Cruz, 1791-1834-Rebecca Allen 1998 Recent historical archaeological works have concentrated on the economies of the Alta California mission system within the larger world system. The Santa Cruz Mission Adobe is one of the few standing neophyte residences left from the Mission period in California. As such, it offers a unique framework for studying the dynamic social and economic interrelationships between the native and Hispanic people at a particular mission. It also presents an opportunity to focus on neophyte economic activities.

MacBook Air User Guide-Alec Young 2019-12-21 In July 2019, Apple updated the MacBook Air that was originally redesigned in October 2018. Even though there were no major updates to the MacBook Air, the enhancement led to a new butterfly keyboard which utilizes the same updated materials like the 2019 MacBook Pro, some small SSD changes, an improved display with True Tone, and a lower price tag. The MacBook Air has a T2 chip as well as fingerprint sensor for the Touch ID that can be used instead of entering password. This T2 chip is built for enhanced security on the MacBook Air by ensuring a secure boot process through Secure Enclave, and fast data encryption with an SSD controller. The macOS Catalina which was launched in October 2019, is the latest operating system for the Apple Mac family. The new software brought with it several new exciting features that may seem overwhelming even to existing users.

Some of these features include the Screen Time, division of iTunes into 3 separate apps, using the iPad as a second screen, otherwise known as Sidecar and lots more. This user guide contains detailed steps on how to explore all the new features on your computer along with screenshots to make it easy for you to familiarize yourself with the workings of the macOS Catalina. Whether you are just buying a new Mac device or downloading the new software to your existing device, this book would help you to achieve better and faster productivity. The California Trail-George R. Stewart 1983 In 1841 and 1842 small groups of emigrants tried to discover a route to California passable by wagons. Without reliable maps or guides, they pushed ahead, retreated, detoured, split up, and regrouped, reaching their destination only at great cost of property and life. But they had found a trail, or cleared one, and by their mistakes had shown others how to take wagon trains across half a continent. By 1844 a great migration was in progress. Each successive party learned from those who went before where to cross rivers and mountains, when to rest, when to forge ahead, and how to find food and water. Increased experience was translated into better wagon designs, improved understanding of climate and terrain, and better-supplied and -organized caravans. George R. Stewart's California Trail describes the trail's year-by-year changes as weather conditions, new exploration, and the changing character of emigrants affected it. Successes and disasters (like the Donner party's fate) are presented in nearly personal detail. More than a history of the trail, this book tells how to travel it, what it felt like, what was feared and hoped for.
