Does your life seem overwhelmingly governed by jealousy or competitiveness or lack of confidence? In this ground-breaking book, clinical psychologist Oliver James shows that it is the way we were cared for in the first six years of life that has a crucial effect on who we are and how we behave. Re-Covering Modernism- 2016-03-03 In the first half of the twentieth century, modernist works appeared not only in obscure little magazines and books published by tiny exclusive presses but also in literary reprint magazines of the 1920s, tawdry pulp magazines of the 1930s, and lurid paperbacks of the 1940s. In his nuanced exploration of the publishing and marketing of modernist works, David M. Earle questions how and why modernist literature came to be viewed as the exclusive purview of a cultural elite given its availability in such popular forums. As he examines sensational and popular manifestations of modernism, as well as their reception by critics and readers, Earle provides a methodology for reconciling formerly separate or contradictory materialist, cultural, visual, and modernist approaches to avant-garde literature. Central to Earle’s innovative approach is his consideration of the physical aspects of the books and magazines - covers, dust wrappers, illustrations, cost - which become texts in their own right. Richly illustrated and accessibly written, Earle’s study shows that modernism emerged in a publishing ecosystem that was both richer and more complex than has been previously documented.

Bud, Sweat, And Tees-Alan Shipnuck 2008-06-30 The PGA Tour is the most interesting subculture in sports, though you wouldn’t know it from most golf books. The Tour is home to rowdy, randy young men often drunk with money and fame; fueled by alcohol and adrenaline, they barnstorm from town to town like rock stars, with all the attendant excesses. And in each player’s shadow is his faithful caddie -- performing a thankless six-figure job that comes with all the security of a handshake deal. The PGA Tour offers fabulous rewards, but its good life does not come without a price. In Bud, Sweat, and Tees, Alan Shipnuck takes a no-holds-barred look at modern professional golf. Rich Beem, the hero of our story, joined the Tour as the most clueless of rookies, a logo-free rube only a couple of years removed from the straight world, where he made seven dollars an hour hawking cell phones. Beem took his winnings from big-money matches all across the state of Texas and scraped together enough to go out on Tour, but as he would quickly find out, getting to the big leagues is only half the battle. The fun-loving Beem, more likely to pound beers than range balls, first struggled to fit in among the country-club brats who populate the pro golf scene, and then had to fight to survive the cutthroat competition and crushing self-doubt. Staying true to his girl back home would prove equally challenging. Meanwhile, Steve Duplantis, the one-time golden boy of the Tour’s caddie ranks, was enduring his own tribulations. At the tender age of twenty-one Duplantis began packing for Jim Furyk, and together they reached the pinnacle of the golf world, from Ryder Cup dustups to near misses at the Masters. But like Beem, Duplantis has a taste for the wild life, which helps explain how he wound up as a single dad, trying to balance the demands of fatherhood with the siren song of the road -- a juggling act that eventually cost him his lucrative job on Furyk’s bag. Fate brought Duplantis and Beem together, and in their first tournament, the Kemper Open, they pulled off one of the most improbable triumphs in golf history. What happens next, at this unlikely intersection of lives and careers? How does a lifelong underdog like Beem handle overnight fame and fortune? Would Duplantis make good on this second chance and turn his career, and maybe his life, around? And would Beem and Duplantis’s partnership survive the course of a turbulent season chock full of enough misadventures to land them in a Scottish jail? Bud, Sweat, and Tees is a sometimes bawdy, often hilarious, and always unpredictable account of a strange and magical year in the lives, on and off the course, of golfer and caddie. An exciting and often poignant story, it stands as the best insider’s sports book since Jim Bouton’s Ball Four, and marks Alan Shipnuck as a writer of extraordinary promise.

Mystery Spinner-Gideon Haigh 2000 It is no mystery that today the name of Jack Iverson is virtually unknown. For most of his life he was an unexceptional estate agent in Australia. He died in obscurity, by his own hand, at the age of only 58. He was a clumsy fielder, and a hopeless batsman. But for four years he was the best spin bowler in the world. Mystery Spinner is more than the beautifully written life of an elusive and forgotten hero who, after his brief burst of celebrity, has left strangely little trace in posterity. It is also the utterly compelling story of Gideon Haigh’s quest to solve the enduring riddle of Jack Iverson’s life - a quest which led him across Australia following tenuous clues in school registers and county records. And above all it is a moving study, for an age that presumes sporting prowess to be the ultimate definition of personal identity, of how skill is only half the battle in sport, and how it takes an extraordinary individual to cope successfully with extraordinary achievement.

Hyssop-Kevin McVoy 2012-07-10 [Hyssop (his ep) n. 1. A fragrant, blue-flowered plant (Hyssopus officinalis) of the mint family, used in folk medicine as a tonic, stimulant, etc. 2. A plant used in purificatory sprinkling rites by the ancient Hebrews] *** Red Greet, the narrator of Hyssop, is in jail again, as he has been often in his eighty-seven years. As he gives his jailer a dance lesson, Red begins to share with him his life story. Struggling to learn the simple steps, the jailer listens to Red’s outrageous, incredible, yet utterly convincing accounts of the miracles he has witnessed and sometimes participated in directly. Red’s stories center around several constants: his impoverished life as a guilelessly honest thief and grifter in Las Almas, New Mexico; his love for Recita Holquin; and, the miracle story dearest to him, his seventy-two-year friendship with Bishop Francisco Velasco. Frank and Red met in 1924 as Red’s mother, a healer, worked her folk magic to help Frank’s family survive violence and devastating turmoil. The boys immediately formed a deep and abiding bond. Frank, who becomes a Catholic priest and eventually a bishop, remains Red’s lifelong confessor because he is the keeper of Red’s secrets, and Red the keeper of his. The men are not only friends, but unlikely accomplices: they argue over Frank’s car, a Monte Carlo with cathedral windows airbrushed on the hood; they promenade, naked, through the middle of the Hatch Chile Festival; they work to restore a statue of the beloved Virgen de Guadalupe, which “miraculously” begins to perspire blood-blood that bears a suspicious likeness to red paint. Through it all, Red confesses his many sins to Frank, always returning to the mysteries of a sin he feels he cannot be absolved of: his courtship of Recita during his wife Cecilia’s long illness. In telling how he has loved and been loved, in confessing how he has sinned and inspired others to sin, Red Greet seeks hyssop, the substance that might wash his soul clean. Hyssop is a stunning novel full of magic; it is an inquiry into the nature of religious faith and belief and into the power of moral dilemmas embedded in loving friendships and in spiritually rich but materially impoverished lives. Reading Hyssop, you will believe again in miracles of healing and in the haunting power of memories of the past. *** Hyssop is a wonderful gift of faith to a cynical age. Only a book this smart, tough-minded, funny, beautiful and, yes, humble could burrow so deeply into both the doubting mind and the yearning heart." -Richard Russo, author of Straight Man "A radiant, mysterious novel, brilliantly lit by hard-won faith. Hyssop reminds us that we are all part of the last tribe of the unchosen: and that despite that we can be saved by the language of love." -Andrea Barrett, author of Ship Fever, Stories"

Methodology of the Social Sciences, Ethics, and Economics in the Newer Historical School-Peter Koslowski 1997-10-15 The volume at hand gives an exposition of the tradition of the Historical School of Economics and of the Geisteswissenschaften or human sciences, the latter in their development within the Historical School as well as in Neo-Kantianism and the sociology of knowledge. It continues the discussion started in the year 1994 on the Older Historical School of Economics and the 19th century German contribution to an ethical theory of economics with the Newer Historical School of the 20th century. Economists, social scientists, and philosophers examine the contribution of this tradition and its impact for present theory. The schools of thought and their approaches to economics as well as to the cultural and social sciences are examined here not as much for their historical interest as for their potent ial systematic contribution to the contemporary debates on economic ethics, economics, sociology, and philosophy. The volume at hand contains the proceedings of the Fourth Annual SEEP-Conference on Economic Ethics and Philosophy in 1996, "Economics and Ethics in the Historical School. Part B: Max Weber, Heinrich Rickert, Max Scheler, Werner Sombart, Arthur Spiethoff, John Commons, Alfred Marshall, and Others", held at Marienrode Monastery near Hannover, Germa ny, on March 27-30th, 1996, together with several additional invited papers.

American Workers, Colonial Power-Dorothy B. Fujita Rony 2003-03-04 Historically, Filipina/o Americans have been one of the oldest and largest Asian American groups in the United States. In this pathbreaking work of historical scholarship, Dorothy B. Fujita-Rony traces the evolution of Seattle as a major site for Philippine immigration between World Wars I and II and examines the dynamics of the community through the frameworks of race, place, gender, and class. By positing Seattle as a colonial metropolis for Filipina/os in the United States, Fujita-Rony reveals how networks of transpacific trade and militarism encouraged migration to the city, leading to the early establishment of a Filipina/o American community in the area. By the 1920s and 1930s, a vibrant Filipina/o American society had developed in Seattle, creating a culture whose members, including some who were not of Filipina/o descent, chose to pursue options in the U.S. or in the Philippines. Fujita-Rony also shows how racism against Filipina/o Americans led to constant mobility into and out of Seattle, making it a center of a thriving ethnic community in which only some remained permanently, given its limited possibilities for employment. The book addresses class distinctions as well as gender relations, and also situates the growth of Filipina/o Seattle within the regional history of the American West, in addition to the larger area of U.S.-Philippines relations.

Mammals of Ungava and Labrador-Scott A. Heyes 2014-02-25 In 1882 the Smithsonian Institution Arctic scientist, Lucien McShan Turner, traveled to the Ungava District that encompasses Northern Quebec and Labrador. There he spent 20 months as part of a mission to record meteorological data for an International Polar Year research program. While stationed at the Hudson’s Bay Company Trading Post of Fort Chimo in Ungava Bay, now the Inuit community of Kuujuaq, he soon tired of his primary task and expanded his duties to a study of the natural history and ethnography of the Aboriginal peoples of the region. His ethnography of the Inuit and Innu people was published in 1894, but his substantial writings on natural history never made it to print. Presented here for the first time is the natural history material that Lucien M. Turner wrote on mammals of the Ungava and Labrador regions. His writings provide a glimpse of the habits and types of mammals that roamed Ungava 125 years ago in what was an unknown frontier to non-Inuit and non-Innu people.
