Just Great Teaching-Ross Morrison McGill 2019-09-05 Ross Morrison McGill, bestselling author of Mark. Plan. Teach. and Teacher Toolkit, pinpoints the top ten key issues that schools in Great Britain are facing today, and provides strategies, ideas and techniques for how these issues can be tackled most effectively. We often talk about the challenges of teacher recruitment and retention, about new initiatives and political landscapes, but day in, day out, teachers and schools are delivering exceptional teaching and most of it is invisible. Ross uncovers, celebrates, analyses and disseminates best practice in teaching. This is supported by case studies and research undertaken by Ross in ten primary and secondary schools across Great Britain, including a pupil referral unit and private, state and grammar schools, as well as explanations from influential educationalists as to why and how these ideas work. Ross explores the issues of marking and assessment, planning, teaching and learning, teacher wellbeing, student mental health, behaviour and exclusions, SEND, curriculum, research-led practice and CPD. This book inspires readers to open their eyes to how particular problems can be resolved and how other schools are already doing this effectively. It is packed with ideas and advice for all primary and secondary classroom teachers and school leaders keen to provide the best education they possibly can for our young people today.

How Children Learn at Home-Alan Thomas 2008-03-31 In his Educating Children at Home, Alan Thomas found that many home educating families chose or gravitated towards an informal style of education, radically different from that found in schools. Such learning, also described as unschooling, natural or autonomous, takes place without most of the features considered essential for learning in school. At home there is no curriculum or sequential teaching, nor are there any lessons, textbooks, requirements for written work, practice exercises, marking or testing. But how can children who learn in this way actually achieve an education on a par with what schools offer? In this new research, Alan Thomas and Harriet Pattison seek to explain the efficacy of this alternative pedagogy through the experiences of families who have chosen to educate their children informally. Based on interviews and extended examples of learning at home the authors explore: - the scope for informal learning within children's everyday lives - the informal acquisition of literacy and numeracy - the role of parents and others in informal learning - how children proactively develop their own learning agendas. Their investigation provides not only an insight into the powerful and effective nature of informal learning but also presents some fundamental challenges to many of the assumptions underpinning educational theory. This book will be of interest to education practitioners, researchers and all parents, whether their children are in or out of school, offering as it does fascinating insights into the nature of children's learning.

The Accidental Prime Minister-Tom McLaughlin 2015-04-02 When Joe tells a local news reporter exactly what he would do if he were leader of the country, the video goes viral and Joe's speech becomes famous all over the world! Before long, people are calling for the current leader to resign and give someone else a go . . . and that's how an ordinary boy like Joe ended up with the most extraordinary job. Now the fun can really start . . . Hats for cats! Pet pigs for all! Banana shaped buses! Swimming pools on trains! A hilarious story of one boy's meteoric rise to power!

National Curriculum English Practice Book for Year 6-Scholastic 2014-06-26 This book can help your child by providing a whole year of ready to go activities and support on key English topics which will be being taught in school from 2014. Did you know that your child in Year 6 will now need to; spell words with silent letters (such as 'island'); use the subjunctive (using 'were' and 'be' to say things that may or may not be true or about wishes, for example: 'If I were Prime Minister I would make weekends longer' but you're not the Prime Minister so you can't); use expanded noun phrases to convey complicated information concisely. \* Workbooks for home learning \* Linked directly to what your children will be learning in school \* A linked website provides additional activities, answers and support for parents \* Developed by teachers to ensure the best possible support for the new 2014 National Curriculum.
