The Norman Conquest-Marc Morris 2013-07-02 This riveting and authoritative USA Today and Wall Street Journal bestseller is "a much-needed, modern account of the Normans in England" (The Times, London). The Norman Conquest was the most significant military—and cultural—episode in English history. An invasion on a scale not seen since the days of the Romans, it was capped by one of the bloodiest and most decisive battles ever fought. Language, law, architecture, and even attitudes toward life itself—from the destruction of the ancient ruling class to the sudden introduction of castles and the massive rebuilding of every major church—were altered forever by the coming of the Normans. But why was this revolution so total? Reassessing original evidence, acclaimed historian and broadcaster Marc Morris goes beyond the familiar story of William the Conqueror, an upstart French duke who defeated the most powerful kingdom in Christendom. Morris explains why England was so vulnerable to attack; why the Normans possessed the military cutting edge though they were perceived as less sophisticated in some respects; and why William's hopes of a united Anglo-Norman realm unraveled, dashed by English rebellions, Viking invasions, and the insatiable demands of his fellow conquerors. Named one of the best books of the year by the Kansas City Star, who called the work "stunning in its action and drama," and the Providence Journal, who hailed it "meticulous and absorbing," this USA Today and Wall Street Journal bestseller is a tale of gripping drama, epic clashes, and seismic social change. They are found all over the small submit rRNA based tree of life and these micro-organisms are adapted to salt concentration up to saturation hence able to grow at >300g/l Nacl concentration. Their metabolic diversity is high as well encompassing oxygenic and anoxygenic phototrophs, aerobic heterotrophs, denitrifiers, sulphate reducers, fermenters and methanogens. The proteins of halophiles are magnificently engineered to function in a milieu containing 2-5M salt that encodes genes represent a valuable repository and resource for reconstruction and visualizing processes of habitat selection and adaptive evolution. Search for new enzymes endowed with novel activities and enhanced stability continues to be desirable purpose for important commercial production of biotechnological significance. These poly extremophiles proved excellent source of enzymes and metabolites possessing inherent ability to function in extreme conditions of high salt, alkaline pH and facilitating catalysis for industrial application in food processing, industrial bioconversion, bioremediation etc. In fact, it has just begun to realize the great potential and true extent of diversity and suitable applications if explored then judiciously. This book highlights current applications and research on halophiles to provide a timely overview. Chapters are written by expert authors from around the world and include topics of varied importance which include their role to play in enzyme production, restoration of soil fertility and plant growth , antimicrobial and biocatalytic potential, biomolecules in nanotechnology and aspects of quorum sensing. The book is divided into three sections, dealing with biodiversity, biotechnology and sustainable exploitation of halophiles. This major new work represents a valuable source of information to all those scientists interested in microorganisms in general and extremophiles in particular with respect to their innovative products and applications.

KS3 History 4th Edition: Revolution, Industry and Empire: Britain 1558-1901 Student Book-Aaron Wilkes 2020-02-20 The new fourth edition of Revolution, Industry and Empire is Book 2 of the best-selling Oxford KS3 History by Aaron Wilkes series. This textbook introduces the history knowledge and skills needed to support a coherent knowledge-rich curriculum, prepares students for success in Key Stage 3 History, and builds solid foundations for GCSE study. Hitler's Willing Executioners-Daniel Jonah Goldhagen 2007-12-18 This groundbreaking international bestseller lays to rest many myths about the Holocaust: that Germans were ignorant of the mass destruction of Jews, that the killers were all SS men, and that those who slaughtered Jews did so reluctantly. Hitler's Willing Executioners provides conclusive evidence that the extermination of European Jewry engaged the energies and enthusiasm of tens of thousands of ordinary Germans. Goldhagen reconstructs the climate of "eliminationist anti-Semitism" that made Hitler's pursuit of his genocidal goals possible and the radical persecution of the Jews during the 1930s popular. Drawing on a wealth of unused archival materials, principally the testimony of the killers themselves, Goldhagen takes us into the killing fields where Germans voluntarily hunted Jews like animals, tortured them wantonly, and then posed cheerfully for snapshots with their victims. From mobile killing units, to the camps, to the death marches, Goldhagen shows how ordinary Germans, nurtured in a society where Jews were seen as unalterable evil and dangerous, willingly followed their beliefs to their logical conclusion. "Hitler's Willing Executioner's is an original, indeed brilliant contribution to the...literature on the Holocaust."--New York Review of Books "The most important book ever published about the Holocaust...Eloquently written, meticulously documented, impassioned...A model of moral and scholarly integrity."--Philadelphia Inquirer KS3 History Early Modern Britain (1509-1760) (Knowing History)-Robert Peal 2021-02-25 Follow a knowledge-led approach to British history from Henry VIII to Georgian life. Perfect for Year 8, embracing the latest KS3 history curriculum, and laying the groundwork for the new history GCSE. Britain 1066-1500-Tony McAleavy 2001 The first book of teacher's resources in a groundbreaking Key Stage 3 series designed to grab pupils' attention with its fresh approach to traditional content. Medieval Minds-Christine Counsell 1997-01 This is the first book in a series of four, each one tailor-made for one of the first four study units of the new curriculum. A teacher's book accompanies each student's book and offers 60 copymasters with a wide range of activities for all abilities. Clear, lively pages are designed to interest and create excitement about the past, whilst an emphasis on a learning pattern, through careful steps, should lead all students, including low achievers, to a real understanding of history. Progress in Geography: Key Stage 3-David Gardner 2018-10-22 Motivate pupils to develop their geographical skills, knowledge and understanding as they become engaged and accomplished geographers, ready for the demands of GCSE. Specifically designed to provide a solid foundation for the 2016 GCSE specifications, this Student Book takes an enquiry-based approach to learning within each unit and lesson. - Easily and cost-effectively implement a new KS3 scheme of work: This coherent single-book course covers the latest National Curriculum content, providing 150 ready-made lessons that can be used flexibly for a two or three-year KS3 - Build and improve the geographical knowledge and skills that pupils need: every double-page spread represents a lesson, with rich geographical data and place contexts for pupils to interpret, analyse andevaluate - Lay firm foundations for GCSE: key vocabulary, command words and concepts are introduced gradually, preparing pupils for the content and question types they will encounter at GCSE, with a particular focus on analysis and evaluation questions - Effectively assess, measure and demonstrate progress: formative assessments throughout each lesson and summative end-of-unit reviews include questions that show whether pupils are 'working towards', 'meeting' or 'exceeding' expectations - Encourage pupils to check and drive their own progress: learning objectives and end-of-unit learning outcomes help pupils reflect on their learning and make connections between key concepts and skills throughout the course The Social Construction of Meaning-John Yandell 2013-09-27 This book takes a fresh look at secondary urban English classrooms and at what happens when students and their teachers explore literature collaboratively. By closely examining what happens in English lessons, minute by minute, it reveals how literary texts function not as a valorised heritage to be transmitted, but as a resource for the students' work of cultural production and contestation. The reading that is undertaken in classrooms has tended to be construed as either a poor substitute or merely a preparation for other reading, particularly for that paradigmatic literacy event, the absorbed and simultaneously discriminating consumption of the literary text by the independent, private reader. This book argues for a different understanding of what constitutes reading, an understanding that is informed by historical and ethnographic perspectives and by psychological and semiotic theory. It presents the case for a conception of reading as an active, collaborative process of meaning-making and for a fully social model of learning. Drawing extensively on data gathered through classroom observation and filming of English lessons taught over the course of a year by two teachers in a London secondary school, the book explores students' engagement with literary texts and the pedagogy that facilitates this engagement. The book offers new insights into reading, and reading literature in particular. It challenges the paradigm of reading that is offered in government policy and the assumption, common to much work within the field of 'new literacies', that 'schoolled literacy' is the already-known, the default, against which the alternative literary practices of homes and communities can be defined. It will be valuable reading for researchers, teachers, teacher educators and postgraduate students, and will have particular appeal for those with an interest in the fields of English studies and literacy.

Empress: The Astonishing Reign of Nur Jahan-Ruby Lal 2018-07-03 A Finalist for the 2018 Los Angeles Times Book Prize in History Four centuries ago, a Muslim woman ruled an empire. When it came to hunting, she was a master shot. As a dress designer, few could compare. An ingenious architect, she innovated the use of marble in her parents' mausoleum on the banks of the Yamuna River that inspired her stepson's Taj Mahal. And she was both celebrated and reviled for her political acumen and diplomatic skill, which rivaled those of her female counterparts in Europe and beyond. In 1611, thirty-four-year-old Nur Jahan, daughter of a Persian noble and widow of a subservive official, became the twentieth and most cherished wife of the Emperor Jahangir. While other wives were secluded behind walls, Nur ruled the vast Mughal Empire alongside her husband, and governed in his stead as his health failed and his attentions wandered from matters of state. An astute politician and devoted partner, Nur led troops into battle to free Jahangir when he was imprisoned by one of his own officers. She signed and issued imperial orders, and coins of the realm bore her name. Acclaimed historian Ruby Lal uncovers the rich life and world of Nur Jahan, rescuing this dazzling figure from patriarchal and Orientalist clichés of romance and intrigue, and giving new insight into the lives of women and girls in the Mughal Empire, even where scholars claim there are no sources. Nur's confident assertion of authority and talent is revelatory. In Empress, she finally receives her due in a deeply researched and evocative biography that awakens us to a fascinating history.

Medieval Realms for Common Entrance and Key Stage 3-Rosemary Rees 2014-05-30 Ensure your pupils are thoroughly prepared for the new-style Common Entrance History examinations with this revised edition of a best-selling, ISEB-endorsed textbook. The first edition of Medieval Realms became a best-seller because of the way it combined step-by-step building of pupils historical understanding and skill with thoughtful and targeted exam preparation. This second edition faithfully retains that approach while thoroughly revising the exam advice to cover the new approach to source evaluation required for the Common Entrance examinations from 2015. Key features of our approach: - Read! The bold, meaty and authoritative narrative provides clear explanation of the content - Think! For each topic carefully constructed tasks build pupil's understanding of the content - Prepare! There is also extensive advice and practice in how to write Common Entrance essays and how to evaluate historical sources to ensure pupils are thoroughly prepared for the Common Entrance examination. Plus a new feature for the second edition: 'An historian writes...' - accessible but stimulating insights from secondary sources which contribute to pupils' wider understanding of the topic and expose them to historical viewpoints on the events they are studying. The Roman Empire: A Very Short Introduction-Christopher Kelly 2006-08-24 The Roman Empire was a remarkable achievement. With a population of sixty million people, it encircled the Mediterranean and stretched from northern England to North Africa and Syria. This Very Short Introduction covers the history of the empire at its height, looking at its people, religions and social structures. It explains how it deployed violence, 'romanisation', and tactical power to develop an astonishingly uniform culture from Rome to its furthest outreaches.

An Introduction to the Study of Education-David Matheson 2014-09-15 This fully updated, fourth edition of An Introduction to the Study of Education provides a comprehensive and reflective introduction to the study of education, inviting students to question what education is, who it is for and what purpose it serves. Taking the reader from the early years through to lifelong learning, it examines all forms of education and learning. This new edition includes ten completely new chapters and a step-by-step guide to essay writing. There is also a companion website to accompany the book, featuring additional chapters which can be visited at www.routledge.com/cw/matheson.This fully updated, fourth edition provides: a full exploration of the historical, sociological, philosophical and psychological roots of education; a clear focus on the individual levels of education - preschool, compulsory, post-compulsory and lifelong learning; the latest debates within special educational needs; an in-depth examination of learning styles; insights into the historical development of education and the role of, and background to, research in education; a focus on current educational practice and diversity across the United Kingdom and Ireland. Written in a clear and accessible style, this is the essential core text for all beginning students on undergraduate and postgraduate courses in Education Studies and all those interested in education today, where it came from and where it is going.
