From Front Porch to Back Seat-Beth L. Bailey 1989-08-01 From gentleman callers to big men on campus, from Coke dates to "parking," From Front Porch to Back Seat is the vivid history of dating in America. In chronicling a dramatic shift in patterns of courtship between the 1920s and the 1960s, Beth Bailey offers a provocative view of how we sought out mates-and of what accounted for our behavior. More than a quarter-century has passed since the dating system Bailey describes here lost its coherence and dominance. Yet the legacy of the system remains a strong part of our culture's attempt to define female and male roles alike.

Better Baby Contests-Annette K. Vance Dorey 1999 A unique campaign of scientific baby judging spread across the United States in the early years of this century. Beginning at state fairs, it spread to towns and cities of all sizes. By the movement's peak in 1913 and 1914, scientific baby contests were held at 40 state fairs and several hundred county fairs and city contests. The baby health contest identified the healthiest infants in a region, while teaching parents how

breeding and environment could produce a superior crop. Then, quietly, the contests slipped into obscurity. This work traces the development of the baby health contests from their rural beginnings at agricultural fairs. Details are provided about the early instruments used for assessing infant development, the organizations and individuals behind the better babies movement, and the methods of promoting prize babies. The controversy generated by the competition for prizes is explored, as are the role of the Children's Bureau in the contests, the business aspect of the contests, and the spin-offs of the health contest idea.
