Urban Outcasts-Loïc Wacquant 2013-04-26 Breaking with the exoticizing cast of public discourse and conventional research, Urban Outcasts takes the reader inside the black ghetto of Chicago and the deindustrializing banlieue of Paris to discover that urban marginality is not everywhere the same. Drawing

on a wealth of original field, survey and historical data, Loïc Wacquant shows that the involution of America's urban core after the 1960s is due not to the emergence of an 'underclass', but to the joint withdrawal of market and state fostered by public policies of racial separation and urban abandonment. In European cities, by contrast, the spread of districts of 'exclusion' does not herald the formation of ghettos. It stems from the decomposition of working-class territories under the press of mass unemployment, the casualization of work and the ethnic mixing of populations hitherto segregated, spawning urban formations akin to 'anti-ghettos'. Comparing the US 'Black Belt' with the French 'Red Belt' demonstrates that state structures and policies play a decisive role in the articulation of class, race and place on both sides of the Atlantic. It also reveals the crystallization of a new regime of marginality fuelled by the fragmentation of wage labour, the retrenchment of the social state and the concentration of dispossessed categories in stigmatized areas bereft of a collective idiom of identity and claims-making. These defamed districts are not just the residual 'sinkholes' of a bygone economic era, but also the incubators of the precarious proletariat emerging under neoliberal capitalism. *Urban Outcasts* sheds new light on the explosive mix of mounting misery, stupendous affluence and festering street violence resurging in the big cities of the First World. By specifying the different causal paths and experiential forms assumed by relegation in the American and the French metropolis, this book offers indispensable tools for rethinking urban marginality and for reinvigorating the public debate over social inequality and citizenship at century's dawn.

In this volume 13 scholars examine the gap between the ideology of the Revolution and the harsh and contradictory reality of its outcome. The Emporium of the World-Angela Schottenhammer 2001 This volume, by offering a score of new insights derived from a wide variety of recent archaeological and textual sources, bring to life an important overseas trading port in Southeast Asia: Quanzhou. During the Song and Yuan dynasties active

official and unofficial engagement in trade had formative effects on the development of the maritime trade of Quanzhou and its social and economic position both regionally and supraregionally. In the first part subjects such as the impact of the Song imperial clan and the local elites on these developments, the economic importance of metals, coins, paper money, and changes in the political economy, are amply discussed. The second part concentrates on the quantitative and qualitative analysis of archaeological data and materials, the investigation of commodities from China, their origins, distribution and final destinations, the use of foreign labour, and the particular role of South Thailand in trade connections, thus supplying the hard data underlying the main argument of the book.

Clear, finely nuanced, historically and philosophically mature, this is a vital reflection on the history of theology and in systematic theology.

Shane knows the piercings adorning Jess' body once created pain and taught her to suppress arousal and desire. And he knows what's needed to take her beyond the torture. But providing a sexual release may prove easier than convincing her something stronger lies between them. All he needs to claim his angel, in every way, is her consent.

Reading Zoos-Randy Malamud 1998 Through an examination of modern depictions of zoos, Reading Zoos presents a paradigm of how these institutions, and a range of reactions to them, illuminate the workings of our cultural sensibilities. The book explores how the nature of zoos and their significance to cultural consumers is portrayed in over 100 works. It explores what animals' captivity signifies about the people who create, maintain, and patronize zoos; Malamud argues that zoos represent a cultural danger, a deadening of our sensibilities, because the institutions - rather than fostering an appreciation for animals' attributes - convince spectators that people are the imperial species.

Fit, Healthy, Happy Mum-Sharny Kieser 2013-06 The cover of this book suggests it is a diet book. Or a weight loss book. It is so much more than that. It is a first hand account of a mother, who through societal pressure felt she had messed up her first 3 births (and kids). Share Sharny's journey as she tells you how she went from being the slave in her life, feeling trapped as though she were in a coffin called "bad parenting", with each new birth, she felt like she was driving a nail of failure on herself. Too tired to function, not enough milk, etc etc. All she wanted to be was the perfect mother to her children, but through lack of confidence, stopped listening to her intuition and became her worst enemy. With baby number 4, she decided to do things differently, very differently. Through ignoring society, listening to her inner voice and really focussing on herself as a mother, she turned her life around. She changed her eating to be for wellness and best quality breastmilk, and as a result lost 24kg in 8 weeks. But if that's all you get from the book, you only read the cover. Inside is a treasure trove of advice, and the courageous story of a public figure who through honesty to herself, turned her life around in a way that any woman can relate. And benefit.

Zoo Renewal-Lisa Uddin 2015-04-01 Why do we feel bad at the zoo? In a fascinating counterhistory of American zoos in the 1960s and 1970s, Lisa Uddin revisits the familiar narrative of zoo reform, from naked cages to more naturalistic enclosures. She argues that reform belongs to the story of cities and feelings toward many of their human inhabitants. In Zoo Renewal, Uddin demonstrates how efforts to make the zoo more natural and a haven for particular species reflected white fears about the American city—and, pointedly, how the shame many visitors felt in observing confined animals drew on broader anxieties about race and urban life. Examining the campaign against cages, renovations at the National Zoo in Washington, D.C. and the San Diego Zoo, and the cases of a rare female white Bengal tiger and a

collection of southern white rhinoceroses, Uddin unpacks episodes that challenge assumptions that zoos are about other worlds and other creatures and expand the history of U.S. urbanism. Uddin shows how the drive to protect endangered species and to ensure larger, safer zoos was shaped by struggles over urban decay, suburban growth, and the dilemmas of postwar American whiteness. In so doing, *Zoo Renewal* ultimately reveals how feeling bad, or good, at the zoo is connected to our feelings about American cities and their residents.

Christmas in America-Penne L. Restad 1996-12-05 The manger or Macy's? Americans might well wonder which is the real shrine of Christmas, as they take part each year in a mix of churchgoing, shopping, and family togetherness. But the history of Christmas cannot be summed up so easily as the commercialization of a sacred day. As Penne Restad reveals in this marvelous new book, it has always been an ambiguous meld of sacred thoughts and worldly actions-- as well as a fascinating reflection of our changing society. In *Christmas in America*, Restad brilliantly captures the rise and transformation of our most universal national holiday. In colonial times, it was celebrated either as an utterly solemn or a wildly social event--if it was celebrated at all. Virginians hunted, danced, and feasted. City dwellers flooded the streets in raucous demonstrations. Puritan New Englanders denounced the whole affair. Restad shows that as times changed, Christmas changed--and grew in popularity. In the early 1800s, New York served as an epicenter of the newly emerging holiday, drawing on its roots as a Dutch colony (St. Nicholas was particularly popular in the Netherlands, even after the Reformation), and aided by such men as Washington Irving. In 1822, another New Yorker named Clement Clarke Moore penned a poem now known as "'Twas the Night Before Christmas," virtually inventing the modern Santa Claus. Well-to-do townspeople displayed a German novelty, the decorated fir tree, in their parlors; an enterprising printer discovered the money to be made from Christmas cards; and a hodgepodge of year-end celebrations began to coalesce around December 25 and the figure of Santa. The homecoming significance of the holiday increased with the Civil War, and by the end of the nineteenth century a full-fledged national holiday had materialized, forged out

of borrowed and invented custom alike, and driven by a passion for gift-giving. In the twentieth century, Christmas seeped into every niche of our conscious and unconscious lives to become a festival of epic proportions. Indeed, Restad carries the story through to our own time, unwrapping the messages hidden inside countless movies, books, and television shows, revealing the inescapable presence--and ambiguous meaning--of Christmas in contemporary culture. Filled with colorful detail and shining insight, *Christmas in America* reveals not only much about the emergence of the holiday, but also what our celebrations tell us about ourselves. From drunken revelry along colonial curbstones to family rituals around the tree, from Thomas Nast drawing the semiofficial portrait of St. Nick to the making of the film *Home Alone*, Restad's sparkling account offers much to amuse and ponder.

The Breathless Zoo-Rachel Poliquin 2012-09-12 From sixteenth-century cabinets of wonders to contemporary animal art, *The Breathless Zoo: Taxidermy and the Cultures of Longing* examines the cultural and poetic history of preserving animals in lively postures. But why would anyone want to preserve an animal, and what is this animal-thing now? Rachel Poliquin suggests that taxidermy is entwined with the enduring human longing to find meaning with and within the natural world. Her study draws out the longings at the heart of taxidermy—the longing for wonder, beauty, spectacle, order, narrative, allegory, and remembrance. In so doing, *The Breathless Zoo* explores the animal spectacles desired by particular communities, human assumptions of superiority, the yearnings for hidden truths within animal form, and the loneliness and longing that haunt our strange human existence, being both within and apart from nature.

Once I Gazed at You in Wonder-Jan Heller Levi 1999-03-01 Alice Fulton, the judge for the 1998 Walt Whitman Award, calls Once I Gazed at You in Wonder "quite simply, the most endearing book I've read in some time." Readers of this audacious and, yes, endearing collection will agree. Jan Heller Levi has said that her poems are not confessions but conversations. Here, then, are her conversations with the world. What sets Levi apart, however, is that she lets the world answer back. Difficult fathers, ineffectual mothers are forgiven; ex-lovers are blessed. Sophisticated but never jaded, this poet looks in wonder beyond the self: a cup of coffee in one of New York's ubiquitous Greek diners can launch Levi into a meditation on truth versus compassion; a suite of elegies for her mother takes us from a hospital corridor to the studio of a television talk show where God is the guest; a poetry reading in which she shares the

stage with a folk singer illustrates Levi's gift for illuminating the absurd textures of late-twentieth-century existence. Don't you have any happy poems? he wondered. Don't you have any cancer songs? I asked. With the narrative drive of great fiction, the consolations of philosophy, and the rigor of art, *Once I Gazed at You in Wonder* marks the entrance of a much-needed new voice and vision in the conversation that is American poetry.

Medieval Identity Machines-Jeffrey Jerome Cohen In Medieval Identity Machines, Jeffrey J. Cohen examines the messiness, permeability, and perversity of medieval bodies, arguing that human identity always exceeds the limits of the flesh. Combining critical theory with a rigorous reading of medieval texts, Cohen asks if the category "human" isn't too small to contain the multiplicity of identities. As such, this book is the first to argue for a "posthuman" Middle Ages and to make extensive use of the philosophical writings of Gilles Deleuze to rethink the medieval. Among the topics that Cohen covers are the passionate bond between men and horses in chivalric training; the interrelation of demons, celibacy, and colonialism in an Anglo-Saxon saint's life; Lancelot's masochism as envisioned by Chretien de Troyes; the voice of thunder echoing from Margery Kempe; and the fantasies that sustained some dominant conceptions of race. This tour of identity--in all its fragility and diffusion--illustrates the centrality of the Middle Ages to theory as it enhances our understanding of self, embodiment, and temporality in the medieval world.
