MITO, LEGITIMACIÓN Y VIOLENCIA SIMBÓLICA EN LOS MANUALES ESCOLARES DE HISTORIA DEL FRANQUISMO (1936-1975)-CASTILLEJO CAMBRA Emilio 2014-03-05 En el Departamento de Historia de la Educación Comparada de la UNED se lleva a cabo desde 1992 una amplia investigación sobre manuales escolares de los siglos XIX y XX -Proyecto MANES-, proyecto de carácter interdisciplinario e interuniversitario en el que colaboran diversas universidades españolas, europeas y latinoamericanas. En la actualidad, este grupo de investigación se ha constituido en un centro adscrito al Instituto de Investigación de la UNED (Centro de Investigación MANES). Fruto del trabajo de estos años son los diversos títulos que han visto la luz en esta colección de la universidad. Esta investigación parte de una hipótesis, y es que los medios de comunicación tienden a crear en cada momento un discurso único. De ahí que el discurso de la historiografía escolar del franquismo no pueda ser distinto del que se elabora en el campo de la política, la prensa, las leyes, los intelectuales oficiales... En todos estos ámbitos se ejerce una violencia simbólica que legitima poderes o situaciones sociales y políticas. Esta investigación estudia la potencialidad de los mitos que discurren en los manuales escolares de Historia del periodo 1936-1975 y su incidencia en la legitimación del orden social, la presencia constante de ciertas identidades (España, Hispanidad, Occidente, Europa) y las relaciones del régimen de Franco con la iglesia. En esta legitimación global convergen las ideologías particulares que sustentaron este régimen (falangismo, carlismo, militarismo, pensamiento eclesial, monarquismo, tecnocracia...) y los cambios sociales, políticos, culturales e internacionales producidos a lo largo de su dilatada historia, pero todo ello no impide analizar el franquismo como un fenómeno unitario. No se pretende una descripción del tratamiento de las lecciones sobre los visigodos o los Reyes Católicos, sino su funcionalidad legitimadora, lo que requiere un desdoble calidoscópico de sus contenidos para poder entender los códigos que encierran.

Participación educativa. Revista del Consejo Escolar del Estado. Segunda época. Vol. 3 / Nº 5 / 2014. Conocimiento, políticas y prácticas educativas-

Glaciers and Glaciation, 2nd edition-Douglas Benn 2014-02-04 Glaciers and Glaciation is the classic textbook for all students of glaciation. Stimulating and accessible, it has established a reputation as a comprehensive and essential resource. In this new edition, the text, references and illustrations have been thoroughly updated to give today's reader an up-to-the minute overview of the nature, origin and behaviour of glaciers and the geological and geomorphological evidence for their past history on earth. The first part of the book investigates the processes involved in forming glacier ice, the nature of glacier-climate relationships, the mechanisms of glacier flow and the interactions of glaciers with other natural systems such as rivers, lakes and oceans. In the second part, the emphasis moves to landforms and sediment, the interpretation of the earth's glacial legacy and the reconstruction of glacial depositional environments and palaeoglaciology.

La transmisión de los modelos femenino y masculino en los libros de la enseñanza obligatoria- 2000

Smart Planet Level 1 Workbook English-Vicki Anderson 2015-03-23 Smart Planet is a secondary-level course which appeals to students' curiosity about the world around them. Stimulating materials complemented by fascinating videos from Discovery Education help bring classes to life and are the ideal starting point for successful language learning. The Workbook provides complete practice of all the vocabulary and grammar from the Student's Book with graded activities catering for mixed-ability classes. The Workbook also contains extra listening activities for self-study practice with online MP3 audio files. Spanish and Catalan editions of this Workbook are also available.

Albert of Adelaide-Howard Anderson 2012-07-10 At once an old-fashioned-buddy-novel-shoot-'em-up and a work of deliciously imagined fantasy, Howard L. Anderson's dazzling debut presents the haunting story of a world where something has gone horribly awry . . . Having escaped from Australia's Adelaide Zoo, an orphaned platypus named Albert embarks on a journey through the outback in search of "Old Australia," a rumored land of liberty, promise, and peace. What he will find there, however, away from the safe confinement of his enclosure for the first time since his earliest memories, proves to be a good deal more than he anticipated. Alone in the outback, with an empty soft drink bottle as his sole possession, Albert stumbles upon pyromaniacal wombat Jack, and together they spend a night drinking and gambling in Ponsby Station, a rough-and-tumble mining town. Accused of burning down the local mercantile, the duo flees into menacing dingo territory and quickly go their separate ways-Albert to pursue his destiny in the wastelands, Jack to reconcile his past. Encountering a motley assortment of characters along the way-a pair of invariably drunk bandicoots, a militia of kangaroos, hordes of the mercurial dingoes, and a former prize-fighting Tasmanian devil-our unlikely hero will discover a strength and skill for survival he never suspected he possessed. Told with equal parts wit and compassion, ALBERT OF ADELAIDE shows how it is often the unexpected route, and the most improbable companions, that lead us on the path to who we really are. Who you journey with, after all, is far more important than wherever it is you are going.
