Managing Sport Facilities-Gil B. Fried 2015-05-11 Managing Sport Facilities, Third Edition, continues the tradition set by its predecessors of providing future and current sport facility managers with the knowledge they need in order to make the proper decisions in all areas of facility management. Like the previous two versions, the third edition provides a comprehensive understanding of crafting a career in running a sport facility. The third edition of Managing Sport Facilities engages students with a clear writing style, extensive real-world examples, and information on managing a range of facilities, from smaller health clubs, colleges, and recreational environments to professional sport stadiums. In response to its increasing importance over the last decade, the newest chapter in this text focuses on implementing and maintaining green facilities. This chapter details items that should be considered during the construction of new environmentally conscious facilities as well as information on retrofitting and updating older facilities with green technology, such as recycling initiatives and solar panels. In Managing Sport Facilities, Third Edition, students will learn the history of the sport facility industry and the primary goals and objectives of facility managers; how to build and finance a facility; facility operation; administration of marketing, finance, and other critical areas; and event administration and management. A comprehensive approach to understanding the wide-ranging job of sport facility managers has been applied, with a structure that builds from general to specific, and finally to practical knowledge in the final chapter. In addition, the text offers updated content in the Sport

Facility Management Profiles, Facilities Trivia, Behind the Scenes, and Facility Focus sidebars in each chapter, which bring the theories and concepts to life by citing specific examples of strategies used in making a facility—and the facility manager—more successful.
