Maternal Child Nursing Care-Shannon E. Perry 2013-01-01 Written by the foremost experts in maternity and pediatric nursing, Maternal Child Nursing Care, 5th Edition offers the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX® examination. This new edition offers numerous content updates throughout the text to keep you up-to-date on the latest topics and best practices. Plus hundreds of illustrations, alert boxes, and tables clarify key content and help you quickly find essential information. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Critical thinking case studies offer opportunities to test and develop your analytical skills and apply knowledge in various settings. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Family-Centered Care boxes highlight the needs or concerns of families that you should consider to provide family-centered care. NEW! Content updates throughout the text give you the latest information on topics such as the late preterm infant, fetal heart rate pattern identification, obesity in the pregnant woman, shaken baby syndrome/traumatic brain injury, Healthy People 2020, car restraints, immunizations, and childhood obesity. NEW! Updated Evidence-Based Practice boxes including QSEN KSAs (knowledge, skills, attitudes) provide the most current practice guidelines to promote quality care. NEW! Medication Alerts stress medication safety concerns for better therapeutic management. NEW! Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice.

Maternal-Newborn Nursing-Robert Durham 2013-10-15 A better way to learn maternal and newborn nursing! This unique presentation provides tightly focused maternal-newborn coverage in a highly structured text All-in-One Care Planning Resource-Pamela L. Swearingen 2012 The only book featuring nursing care plans for all core clinical areas, Swearingen's All-In-One Nursing Care Planning Resource, 4th Edition provides 100 care plans with the nursing diagnoses and interventions you need to know to care for patients in all settings. It includes care plans for medical-surgical, maternity/OB, pediatrics, and psychiatric-mental health, so you can use just one book throughout your entire nursing curriculum. This edition includes a new care plan addressing normal labor and birth, a new full-color design, new QSEN safety icons, new quick-reference color tabs, and updates reflecting the latest NANDA-I nursing diagnoses and collaborative problems. Edited by nursing expert Pamela L. Swearingen, this book is known for its clear approach, easy-to-use format, and straightforward rationales. NANDA-I nursing diagnoses are incorporated throughout the text to keep you current with NANDA-I terminology and the latest diagnoses. Color-coded sections for medical-surgical, maternity, pediatric, and psychiatric-mental health nursing care plans make it easier to find information quickly. A consistent format for each care plan allows faster lookup of topics, with headings for Overview/Pathophysiology, Health Care Setting, Assessment, Diagnostic Tests, Nursing Diagnoses, Desired Outcomes, Interventions with Rationales, and Patient-Family Teaching and Discharge Planning. Prioritized nursing diagnoses are listed in order of importance and physiologic patient needs. A two-column format for nursing assessments/interventions and rationales makes it easier to scan information. Detailed rationales for each nursing intervention help you to apply concepts to specific patient situations in clinical practice. Outcome criteria with specific timelines help you to set realistic goals for nursing outcomes and provide quality, cost-effective care. NEW! Care plan for normal labor and birth addresses nursing care for the client experiencing normal labor and delivery. UPDATED content is written by practicing clinicians and covers the latest clinical developments, new pharmacologic treatments, patient safety considerations, and evidence-based practice guidelines. NEW full-color design makes the text more user friendly, and includes NEW color-coded tabs and improved cross-referencing and navigation aids for faster lookup of information. NEW! Leaf icon highlights coverage of complementary and alternative therapies including information on over-the-counter herbal and other therapies and how these can interact with conventional medications.

Nursing Care of Children-Jean Weiler Ashwill 1997 This paediatric nursing text discusses the disorders most commonly encountered in both hospital and community care settings. It discusses anatomy, physiology, paediatric differences and common diagnostic tests and medications, enabling readers to associate systems and diseases with appropriate tests and medications. It provides nursing care plans for key disorders, a unit on growth and development, a summary of growth and development, and special considerations for caring for children.

Green 2011-04-15 Maternal Newborn Nursing Care Plans, Second Edition teaches students and professional nurses how to assess, plan, deliver, and evaluate care for normal and abnormal pregnancy, including delivery and recovery for both the mother and baby. This new edition contains more than 65 of the most common and high-risk care plans for maternal and newborn nursing care using the nursing process approach. Organized according to clinical condition, Maternal Newborn Nursing Care Plans, Second Edition provides practical components for each care plan incorporating: * Key nursing activities * Etiologies and risk factors * Signs and symptoms * Diagnostic studies * Medical management * Collaborative problems * Individualized care plans complete with the Nursing Interventions Classification (NIC)

Leifer's Introduction to Maternity & Pediatric Nursing in Canada E-Book-Gloria Leifer 2019-09-06 Gain a solid foundation in Canadian maternity and pediatric nursing! Written in a clear, concise, friendly style, Leifer's Intro to Maternity & Pediatric Nursing in Canada, is the first Canadian edition of the best-selling Leifer textbook. Fully revised by author, Lisa Keenan-Lindsay, RN, MN, PNC(C), it includes Canadian statistics, terminology, references, guidelines, resources, Canadian nursing best practices, assessments, and more! It's organized by developmental stages and includes discussions of pediatric disorders by body system from simple-to-complex and health-to-illness. With a rich focus on family health, this text contains exam-style review questions, case studies, and numerous other pedagogical features to give you the tools you need to successfully care for patients within the Canadian social and institutional context. Logical organization of content by simple-to-complex and health-to-illness, makes it easy for you to locate and access information. Health Promotion Considerations boxes focus on preventive strategies for achieving prenatal wellness, health during pregnancy, postpartum health, newborn health, and pediatric illness prevention and wellness—including Canadian immunization schedules for all ages. Unfolding Case Studies with open-ended critical thinking questions assess application of content to practice as you follow one family through conception and the birth process. Nursing Care Plans provide expected outcomes, interventions, and rationales for nursing interventions. Comprehensive coverage of over 35 skills, outlined in step-by-step format cover a wide range of maternal and pediatric nursing interventions. Focus on health promotion and illness prevention, covers women's health issues, and growth and development of child and parent. Cultural considerations applied as they relate to maternal/infant, and pediatric care in detailed tables. Safety Alerts emphasize protecting patients, family, health care providers, and the public from accidents, medication errors, and the spread of disease. Nursing Tips throughout text provide you with pertinent information applicable in the clinical setting.

Maternal Child Nursing Care-Shannon E. Perry 2011 Master content from the textbook with this helpful study tool! Designed to accompany Perry's Maternal Child Nursing Care, 4th Edition, this workbook will assist students in understanding and applying material from each chapter in the text.

Essentials of Psychiatric Mental Health Nursing-Mary C Townsend 2013-08-16 New DSM-5 content! Whether it's an entire course on psychiatric nursing or integrating these principles into an existing course, this is the text that's concise, engaging, and informative. It offers an evidence-based, holistic approach to mental health nursing—in a streamlined format that explores nursing diagnoses for both physiological and psychological disorders. It's the psychiatric nursing text that students actually read, understand, and use.

Maternal and Child Health Nursing-Adele Pillitteri 2013-11-25 This highly respected book helps students develop the technical skills and broad understanding vital for effective practice while ensuring they never lose sight of the importance of compassion in their role as nurses. Presenting maternal-newborn and child health care not as two separate disciplines but as a continuum of knowledge, Maternal and Child Health Nursing, Seventh Edition views the experience of wellness and illness as family-centered events and pregnancy and childbirth as periods of wellness in a woman's life. Consistently linking theory with application to bring clinical concepts to life and using a nursing process framework to help students prepare for effective practice, this Seventh Edition adds new chapter-ending case studies, an expanded focus on culture and families, the latest QSEN content, and more. In addition, this edition is supported by PrepU's adaptive quizzing, DocuCare's educational electronic health record software, and a fully updated Study Guide.

Maternal-Neonatal Nursing Made Incredibly Easy!-Lippincott Williams & Wilkins 2014-09-29 Maternal-Neonatal Nursing Made Incredibly Easy!, Third Edition offers everything nurses need to know for optimal maternal-neonatal nursing care. This thoroughly updated edition includes new information on bed rest, postpartum depression, alternative therapies, substance abuse, and complex psychosocial disorders, plus a new icon highlighting evidence-based practice. The book is written in the entertaining, award-winning Incredibly Easy! style, with numerous charts and illustrations, two four-page full-color inserts, humorous cartoons, icons emphasizing key information, memory joggers, and end-of-chapter quick quizzes.

Maternal-newborn Nursing-Sally B. Olds 1996

Maternal, Fetal, & Neonatal Physiology- 2017

The third edition of this popular textbook gives a clear, easy-to-read account of anatomy and physiology at all stages of pregnancy and childbirth. Each chapter covers normal physiology, changes to the physiology in pregnancy, and application to practice. The physiology of childbearing is placed within a total biological context, drawing on evolution, ecology, biochemistry and cell biology. Follows childbearing from preconception to postnatal care and the neonate Logical progression through the body systems Highly illustrated, with simple diagrams Emphasises links between knowledge and practice to promote clinical skills Main points summarised to aid study. Website: 10 multiple-choice questions per chapter for self-testing Downloadable illustrations, with and without labels Fully searchable.

Study Guide for Maternal Child Nursing Care-Karen A. Piotrowski 2009-10-01 Master content from the textbook with this helpful study tool! Designed to accompany Perry's Maternal Child Nursing Care, 4th Edition, this workbook will assist students in understanding and applying material from each chapter in the text.

Nursing Care of the Critically Ill Child-Mary Fran Hazinski 1992 This year at Suburban High School is just as troubling as the last. A curly-haired girl ghost is disrupting lives with dreaded "kiss notes," and students are inexplicably sinking into depression. Bruno—the new kid on the block—finds himself at the center of the mystery when he discovers his natural map-reading abilities are actually supernatural. When the reluctant hero isn't engaged in cosmic battles against evil, Bruno is swooning over the mesmerizing Celia (from The Suburban Strange) and navigating the goth sensibilities and musical obsessions of the Rosary, her über-chic clique. A hypnotic coming-of-age novel that chills and thrills.

Skills for Midwifery Practice-Ruth Johnson 2010-03-22 This title is now out of print. A new version with e-book is available under ISBN 9780702044809. This highly acclaimed step-by-step guide provides the relevant physiology, available evidence and rationale for each clinical skill. In a highly readable format, 'Skills for Midwifery Practice' offers self-assessment and short summaries, as well as detailed instruction on achieving a range of clinical skills. Tells you everything you need to know about: Abdominal examination Assessment of maternal and neonatal vital signs Infection control Hygiene needs Elimination management Drug administration Intrapartum and other related childbearing skills Assessment of the baby Infant nutrition Phlebotomy and intravenous therapy Moving and handling Perioperative skills Wound management Restricted mobility management Cardiopulmonary resuscitation for the woman and baby An essential midwifery textbook that covers the fundamental practical tasks required of the student Clear layout ensures easy access to information Highly illustrated to aid understanding Designed to improve competency when delivering basic skills Expanded chapter on the skills used during the first stage of labour Application of national guideline for the management of care Postnatal examination Discussion of the use of infrared touch/non-touch thermometry techniques Specific information on locating pulse sites More on SATS monitoring Increased information on the skills for the second stage of labour, infant feeding and daily examination of the baby Greater reference to infection control protocols and the reduction of hospital-acquired infections.

Maternal Newborn Nursing Care Plans-Carol J. Green 2015-01-05 Maternal Newborn Nursing Care Plans, Third Edition teaches students and practicing nurses how to assess, plan, provide, and evaluate care for pregnancy, delivery, recovery, abnormal conditions, and newborn care. Featuring more than 65 of the most common and high-risk care plans for nursing care using the nursing process approach, it includes NIC interventions, discussions on collaborative problems, key nursing activities, signs and symptoms, and diagnostic studies. Using a progressive approach, the text begins with generic care plans that address all patient situations regardless of the patient diagnosis or condition before moving on to more complicated and specific care plans.

Child Health Nursing-Jane W. Ball 2018-04-23 For courses in Pediatric Nursing. A comprehensive survey of family-centered pediatric nursing care Child Health Nursing: Partnering with Children & Families promotes excellence in nursing care for infants, children, and adolescents--in hospitals and in the community. It focuses on the importance of partnering with families to adapt care plans for children based on their age, health status, and social and cultural influences. The text considers the impact of contemporary care environments on nursing practice, both in health promotion and in the care of children with acute or chronic health conditions. By offering industry best practices and practical applications, the book encourages students to apply evidence-based findings and clinical reasoning to planning superior care. The updated 3rd edition explains how modern nursing practice is affected by reforms to healthcare and its delivery--such as electronic health records, new approaches to chronic and acute condition management, and a focus on prevention. To support safe, effective, and innovative care, this edition draws on the latest recommendations of NANDA International diagnoses, Nursing Intervention Classifications (NIC), Nursing Outcomes Classifications (NOC), and Healthy People 2020. Also available with MyLab Nursing MyLab(tm) Nursing is an online self-study and class preparation program designed to engage students and improve results. Its personalized learning path helps students think like nurses as they move beyond memorization to true understanding through application. Learn more. Note: You are purchasing a standalone product; MyLab Nursing does not come packaged with this content. Nursing Practice in Multiple Sclerosis-June Halper 2006 Nursing Practice in Multiple Sclerosis: A Core Curriculum, 2nd Edition was written for nurses preparing to take the MS certification exam given under the auspices of the International Organization of Multiple Sclerosis Nurses (IOMSN), and for everyone involved, or becoming involved, in the field of MS treatment and care. Developed as a companion to Comprehensive Nursing Care in Multiple Sclerosis, 2nd Edition and Advanced Concepts in Multiple Sclerosis Nursing Care, this guide will help readers learn about the history of MS, its diagnosis, management, and current theories regarding the immunologic basis for the disease.

Pediatric Nursing-Debra L. Price 2008-01-01 Part of the popular LPN Threads series, the new edition of this market-leading textbook presents a clear, well-organized exploration of pediatric nursing for LPN/LVN students. It integrates cutting edge information with updated content, offering useful learning tools to reinforce fundamental concepts. Organized according to developmental stages, the book covers pediatric nursing from infancy to adolescence, with a separate chapter on end-of-life care for children and their families. With its easy-to-read, clear writing style, it provides exactly the right depth and breadth of content for LPN/LVNs. Organization by developmental stages. UNIQUE! Pediatric psychophysiological responses to bioterrorism and threats of bioterrorism are found in Chapter 1. UNIQUE! Nursing Briefs stress important content-related points and help you prioritize information. Communication Alert boxes identify key tips, specific to establishing successful nurse-patient-family communication. UNIQUE! Community Cues address home care and community-based care issues and tie in nursing care with larger community-based problems, such as nutrition, immunization, and health promotion. UNIQUE! Data Cues list assessment data to help you recognize possible pediatric disorders. Nursing Care Plans with Critical Thinking Questions reinforce the nursing process as applied to pediatric disorders. 13 Skills follow the nursing process and are clearly presented in an Action/Rationale format and teach basic procedures used by the LPN/LVN in pediatric nursing settings. UNIQUE! Chapter 3 includes a section on NIC/NOC, classification systems used in many clinical and hospital settings. Online Resources appear at the end of each chapter and provide an opportunity for further study. Perforated Self-Assessment Workbook included at the back of the book features a variety of matching, multiple-choice, study questions, case studies with critical thinking questions, and Internet activities. UNIQUE! Critical Thinking Snapshots of selected clinical situations with brief scenarios are located after the Critical Thinking Questions at the end of selected Nursing Care Plans and provide visual examples of specific disorders to help you apply critical thinking skills to clinical situations. UNIQUE! January 2007 Recommended Childhood Immunization Schedule (Appendix A) for children, adolescents, and catch-up growth immunizations provide the most up-to-date information for nurses and families. UNIQUE! JCAHO's Lists of Dangerous Abbreviations, Acronyms, and Symbols provides guidelines for the prevention of medication administration error, especially serious in pediatric dosages. Health Promotion boxes highlight wellness and disease prevention in light of relevant Healthy People 2010 objectives. Content on evidence-based practice, increased cultural content added to Chapter 1: Child Health Evolution and new information on complementary and alternative therapies in Chapter 3: Care of the Hospitalized Child have been added. Home Care Tips related to specific disorders supplement the content on home care in Chapter 3.

Clinical Skills Manual for Maternity and Pediatric Nursing-Marcia L London 2016-07-22 This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. The all-in-one resource for maternal-newborn and pediatric nursing skills Designed for both the nursing student and the practitioner, Clinical Skills Manual for Maternity and Pediatric Nursing can serve as both a text companion and an essential reference for step-by-step procedures in clinical settings. Showcasing more than 150 skills commonly performed on childbearing women, newborns, and children, this portable reference guides the reader through protective methods, pain assessment and management, administration of medicine and irrigation, physical assessment, and other information crucial to nurses using full-color photographs and rationales. Throughout the manual, boxes and tables highlight important safety issues, growth and development considerations, teaching for families, and clinical tips. Appendices provide information on growth grids and calculation of body surface area for medication administration.
