About Minecraft Bedrock Bedrock Edition covers Android, VR, Xbox, Playstation, Windows 10, IOS, Nintendo Switch and Kindle and allows players from any of those platforms, amongst others, to play together in the same Minecraft game using a feature called crossplay. Crossplay in Minecraft is seamless. You wouldn't know that someone was using a different type of device unless they told you. Java Edition versions of Minecraft will operate slightly different to Bedrock so it is important to check with the sites and sources that are mentioned to adapt your gameplay and to make sure things work as you want them to if you do use this book for that platform.
