The Dream House-Craig Higginson 2016-04 A farmhouse is being reproduced a dozen times, with slight variations, throughout a valley. Three small graves have been dug in the front garden, the middle one lying empty. A woman in a wheelchair sorts through boxes while her husband clammers around the old demolished buildings, wondering where the animals have gone. A young woman - called 'the barren one' behind her back - dreams of love, while an ageing headmaster contemplates the end of his life. At the entrance to the long dirt driveway, a car appears and pauses - pointed towards the house like a silver bullet, ticking with heat. So begins The Dream House, Craig Higginson's riveting and unforgettable novel set in the Midlands of KwaZulu-Natal. Written with dark wit, a stark poetic style and extraordinary tenderness, this is a story about the state of a nation and a deep meditation on memory, ageing, meaning, family, love and loss. This updated 2016 edition contains new content, with Craig Higginson exploring the background to The Dream House, his varied experiences in a farmhouse in KwaZulu-Natal and the subsequent and poignant motivations for this moving novel.

Education for a New Era-Dominic J. Brewer 2007-09-27 The leadership of Qatar has a social and political vision that calls for improving the outcomes of the Qatari K-12 education system. With this vision in mind, the leadership asked RAND to examine Qatar's K-12 education system, to recommend options for building a world-class system, and, subsequently, to develop the chosen option and support its implementation. The option that was selected includes internationally benchmarked curriculum standards, national testing based on those standards, independent government-funded schools, and parental choice

among schools using annual school report cards. This executive summary provides an overview of Phase I (2001-2004) of the Qatari education reform initiative, Education for a New Era, based on RAND's experiences as part of this ambitious effort involving Qataris and Qatari organizations, and international consultants and contractors. An Arabic translation is included.

A New Era?-Sue Ingram 2015-09-17 Timor-Leste has made impressive progress since its historic achievement of independence in 2002. From the instability that blighted its early years, the fledgling democratic country has achieved strong economic growth and a gradual reinstatement of essential social services. A decade on in 2012, Presidential and Parliamentary elections produced smooth political transitions and the extended UN peacekeeping presence in the country came to an end. But significant challenges remain. This book, a product of the inaugural Timor-Leste Update held at The Australian National University in 2013 to mark the end of Timor-Leste's first decade as a new nation, brings together a vibrant collection of papers from leading and emerging scholars and policy analysts. Collectively, the chapters provide a set of critical reflections on recent political, economic and social developments in Timor-Leste. The volume also looks to the future, highlighting a range of transitions, prospects and undoubted challenges facing the nation over the next 5-10 years. Key themes that inform the collection include nation-building in the shadow of history, trends in economic development, stability and social cohesion, and citizenship, democracy and social inclusion. The book is an indispensable guide to contemporary Timor-Leste.

The Many Lives of Michael Bloomberg-Eleanor Randolph 2019-09-10 The authoritative biography of Michael Bloomberg: business genius, inventor, innovator, publisher, philanthropist, activist, and presidential candidate. With unprecedented access, a veteran New York Times reporter and editorial writer who covered New York City and state politics offers a revealing portrait of one of the richest and famously private/public figures in the country. Michael Bloomberg's life sounds like an exaggerated version of The American Story, except his adventures are real. From modest Jewish middle class (and Eagle Scout) to Harvard MBA to Salomon Brothers hot shot (where he gets "sent upstairs" and later fired) to creator of the machine that would change Wall Street and the rest of the world and make him a billionaire (a description by the author makes the invention clear to non-engineers). Randolph's account of Bloomberg's life and time reads almost like a novel, a quintessentially American story. She explains the "machine" he invented that gave and continues to give instant access to an infinite

amount of information to bankers and investors on how, what, and where to invest, and how it changed the financial universe. Randolph recounts one day not long ago when the Bloomberg machine briefly blipped and the whole world's financial marketplace came to a halt. Randolph recounts Mayor Bloomberg's vigorous approach to New York city's care—including his attempts at education reform, contract control, anti-smoking and anti-obesity campaigns, green climate control, and his political adventures with both aides and opponents. After a surprising third term as Mayor, Bloomberg returned to his business and doubles its already tremendous worth. The chapter that describes this is one of the most revealing of his temperament and energy and vision as well as how he spends his "private" time—private but convivial. Bloomberg's philanthropies are education, anti-NRA, and supporting a cleaner environment. He is a moderate liberal in a time when that quality holds the future of the Democratic Party and the country to account.

and training programs in the world will not lead to world-class operations, unless a company first looks to the people who make up their workforce. Only by creating a "caring mindset" -- a culture built upon straightforwardness, honest and openness; a management structure that thinks about the concerns of their people; a workplace that inspires accountability and engagement; and managers and employees who tackle the challenges they face with perseverance and resolve, can companies flourish and excel.

Practising Strategy-Tersia Botha 2019 "Given the common acknowledgement that strategy implementation is the greatest challenge to managers in the 21st century and the greatest reason for strategy failure we decided to focus on strategy implementation. Rather than promoting the unrealistic idea of strategy as a purely rational and deliberate outcome, this book acknowledges and explores the idea that strategy is often emergent, messy and experimental and features a number of new chapters, focusing on strategy implementation and change management, resource allocation and responsible leadership. It also includes a more detailed coverage of managing strategic risk."--Publisher's description.
