The Years That Matter Most-Paul Tough 2019-09-10 "Indelible and extraordinary."—Tara Westover, author of Educated: A Memoir, New York Times Book Review The best-selling author of How Children Succeed returns with a powerful, mind-changing inquiry into higher education in the United States Does college still work? Is the system designed just to protect the privileged and leave everyone else behind? Or can a college education today provide real opportunity to young Americans seeking to improve their station in life? The Years That Matter Most tells the stories of students trying to find their way, with hope, joy, and frustration, through the application process and into college. Drawing on new research, the book reveals how the landscape of higher education has shifted in recent decades and exposes the hidden truths of how the system works and whom it works for. And it introduces us to the people who really make higher education go: admissions directors trying to balance the class and balance the budget, College Board officials scrambling to defend the SAT in the face of mounting evidence that it favors the wealthy, researchers working to unlock the mysteries of the college-student brain, and educators trying to transform potential dropouts into successful graduates. With insight, humor, and passion, Paul Tough takes readers on a journey from Ivy League seminar rooms to community college welding shops, from giant public flagship universities to tiny experimental storefront colleges. Whether you are facing your own decision about college or simply care about the American promise of social mobility, The Years That Matter Most will change the way you think—not just about higher education, but about the nation itself.

Using Emerging Technologies to Develop Professional Learning-Jean Murray 2017-10-02 Internationally, there is a growing body of research about learners' responses to, and uses of, emerging technologies. However, the adoption of these technologies in teachers' professional development is still largely under-researched. Much of the existing literature still positions teachers as playing 'catch-up' in terms of using technology for teaching and learning in an ever expanding and changing world, and ignores the roles that these emerging technologies can play in teacher, and teacher educator, development and learning. This book aims to address the lack of research in the area, and it contributes to the new knowledge area of how emerging technologies can effectively address professional learning, drawing on case studies and perspectives from across the world. Contributors use a wide variety of approaches to analyse the potential for emerging (and established) technologies, including digital, Web2.0, social media, and IT tools, to develop 'effective' or 'deep' professional learning for pre- and in-service teachers and teacher educators. This book was originally published as a special issue of Professional Development in Education.

Summer of the Mariposas-Guadalupe Garcia McCall 2012 In an adventure reminiscent of Homer's Odyssey, fifteen-year-old Odilia and her four younger sisters embark on a journey to return a dead man to his family in Mexico, aided by La Llorona, but impeded by a witch, a warlock, chupacabras, and more.

A Mighty Long Way-Carlotta Walls Lanier 2009-08-25 BONUS: This edition contains an A Mighty Long Way discussion guide. When fourteen-year-old Carlotta Walls walked up the stairs of Little Rock Central High School on September 25, 1957, she and eight other black students only wanted to make it to class. But the journey of the "Little Rock Nine," as they came to be known, would lead the nation on an even longer and much more turbulent path, one that would challenge prevailing attitudes, break down barriers, and forever change the landscape of America. For Carlotta and the eight other children, simply getting through the door of this admired academic institution involved angry mobs, racist elected officials, and intervention by President Dwight D. Eisenhower, who was forced to send in the 101st Airborne to escort the Nine into the building. But entry was simply the first of many trials. Breaking her silence at last and sharing her story for the first time, Carlotta Walls has written an engrossing memoir that is a testament not only to the power of a single person to make a difference but also to the sacrifices made by families and communities that found themselves a part of history.

The Crash Crystal-John D. Wagner 2011-12-12 Title: The Crash Crystal: a LEGO® Mystery. A middle-grade novel for 9-12 year-olds... Using LEGOS that he assembles in eerily accurate crash-site scenes, Mack McCarthy (12) can predict why planes crash with dead-on accuracy, amazing his initially doubtful mother and father, a top crash-site investigator. But Mack is sure his power is real, passed on to him through a crystal by his mystical grandfather, who dies just as the book opens. Defying skeptics, Mack uses Legos to solve crash after crash, proving he's got a very rare gift indeed. When Mack's aunt – his only faithful believer all along – ends up on a criminally doomed flight from Thailand, a daring, international, kids-on-the-run, romping story ensues. Mack teams up with school buddies to evade police, as they use any means necessary to save lives. Then, in the ultimate test of Mack's rare gift, he gets to prove his doubters wrong once and for all when he and his father team up with a larger cadre of oddly gifted kids (who mysteriously appear with their LEGOS), to rescue themselves when the flight they are all on encounters fatal trouble.

The Nine Dots-Dilip Keshu 2011-09-01 The Nine Dots is a handbook for entrepreneurs and young professionals. We spend our working lives learning new skills and behaviors. We go from being talented to competent. As employees we discover and absorb. Entrepreneurship is quite different. It is the journey within. It is about self discovery. Work is a quest of the complex simple. Life is a quest of the simple complex. Every day, we go to work to solve "complex" problems but deep down we know that they are trivial when compared to life's challenges. Sometimes work is our life and life is our work. The fabric of our lives is made from these two intertwining threads. As an entrepreneur you will combine work and life. Your discovery of the simple complex and the complex simple will make you a fuller person if not a better one even if you fail. This book will help you even if in very small measure – with advice and tips – in your journey as an entrepreneur or young, upcoming professional. So you ask, what is the deal with the Nine Dots? Nine is an odd number that does strange things when it multiplies itself with other numbers. It retains its character in the answer. Like life's little challenges that multiply with others yet stay on with a kind of permanence and uniqueness. Like your stamp as an entrepreneur – whatever you do, the outcome will capture your essence.

Memories of You Being Beautiful-Elle Darling 2013-08-26 Most of the time, Briar Rose thinks she's still fifteen, even though it's been two thousand, one hundred, and eighty six days, and if she wasn't stuck in this dream she'd be twenty one already. She hasn't changed since she's been here, not that she can see. There aren't any mirrors or even reflections, so she's not sure if her face has matured, but her voice still sounds young and sweet and her hair hasn't grown at all, still golden and hanging to her elbow in baby curls. Her frock still fits and it's not stretched out or faded or worn, just wet with the scent of her blood. She feels old though, older than fifteen or twenty one or even one hundred. Sometimes she feels older than an entire millenium, sitting here in her dusty, dull castle in the middle of her cloudy, lifeless dream world. Sometimes she wonders what's going to happen when she wakes up after one hundred years and finds everyone she'd ever known has left her behind. She pictures herself kneeling at her parents' graves with clean fingertips on their headstones and a kingdom around her that doesn't remember. But mostly, she wonders what it'll be like to no longer bleed.
