Bitter Eden-Tatamkhulu Afrika 2014-02-25 ONE OF NPR'S GREAT READS OF 2014 A modern classic being introduced to the United States for the first time, Tatamkhulu Afrika's autobiographical novel illuminating the profound and incomparable bonds forged between prisoners of war. Bitter Eden is based on Tatamkhulu Afrika's own capture in North Africa and his experiences as a prisoner of war during World War II in Italy and Germany. This frank and beautifully wrought novel deals with three men who must negotiate the emotions that are brought to the surface by the physical closeness of survival in the male-only camps. The complex rituals of camp life and the strange loyalties and deep bonds among the men are heartbreakingly depicted. Bitter Eden is a tender, bitter, deeply felt book of lives inexorably changed, and of a war whose ending does not bring peace.

Honey, Honey, Miss Thang-Leon Pettitway 2010-09-09 Accounts of five gay, black, drug-using transvestites who struggle to create realities that are not mired in misery and deviance but proclaim their membership in the human family.

God's Favorite Place on Earth-Frank Viola 2013-05-01 When He came to earth, Jesus Christ was rejected in every quarter in which He stepped. The Creator was rejected by His own creation. "He came to His own and His own received Him not," said John. For this reason, Jesus Christ had "no where to lay His head." There was one exception, however. A little village just outside of Jerusalem named Bethany. Bethany was the only place on earth where Jesus was completely received. God's Favorite Place on Earth is a retelling of Jesus' many visits to Bethany and a relaying of the message it holds for us today. Frank Viola presents a beautifully crafted narrative from the viewpoint of Lazarus, one of the people who lived in Bethany with his two sisters. This incomparable story not only brings the Gospel narratives to life, but it addresses the struggle against doubt, discouragement, fear, guilt, rejection, and spiritual apathy that challenges countless Christians today. In profoundly moving prose, God's Favorite Place on Earth will captivate your heart with its beauty, charm, and depth. In this book you will discover how to live as a "Bethany" in our

world today, being set free to love and follow Jesus like never before.

Short Cases in Clinical Medicine-A. B. M. ABDULLAH 2013-11-25 A helpful learning manual for undergraduates and PG students preparing for FCPS, MD, MRCP, FRACP or any other equivalent exam in Internal Medicine. Section B contains Data Interpretation, ECG, X-ray, coloured photograph of common diseases and few instruments, which are helpful for undergraduate students. An easy book to learn the approach to diagnosis and management of common short cases. Cases have been described in the way a student is expected to approach a medical situation in examinations as well as in day-to-day practice. Provides short notes on various common diseases, which will help the students to get a comprehensive knowledge without going through extensive textbooks. Have about 700 colored photographs and a few X-rays, CT scans, etc. to help students to develop a good clinical eye. Easy to understand, concise, yet full of necessary information.

Optical Network Design and Planning-Jane M. Simmons 2014-05-06 This book takes a pragmatic approach to deploying state-of-the-art optical networking equipment in metro-core and backbone networks. The book is oriented towards practical implementation of optical network design. Algorithms and methodologies related to routing, regeneration, wavelength assignment, sub rate-traffic grooming and protection are presented, with an emphasis on optical-bypass-enabled (or all-optical) networks. The author has emphasized the economics of optical networking, with a full chapter of economic studies that offer guidelines as to when and how optical-bypass technology should be deployed. This new edition contains: new chapter on dynamic optical networking and a new chapter on flexible/elastic optical networks. Expanded coverage of new physical-layer technology (e.g., coherent detection) and its impact on network design and enhanced coverage of ROADM architectures and properties, including colorless, directionless, contentionless and gridless. Covers 'hot' topics, such as Software Defined Networking and energy efficiency, algorithmic advancements and techniques, especially in the area of impairment-aware routing and wavelength assignment. Provides more illustrative examples of concepts are provided, using three reference networks (the topology files for the networks are provided on a web site, for further studies by the reader). Also exercises have been added at the end of the chapters to enhance the book's utility as a course textbook.

Shift-Carlos Ghosn 2007-12-18 In Shift, Carlos Ghosn, the brilliant, audacious, and widely admired CEO of Nissan, recounts how he took the reins of the nearly bankrupt Japanese automotive company and achieved one of the most remarkable turnarounds in automotive—and corporate—history. When Carlos Ghosn (pronounced like "phone") was named COO of Nissan in 1999, the company was running out of gas and careening toward bankruptcy. Eighteen short months later, Nissan was back in the black, and within several more years it had become the most profitable large automobile company in the world. In SHIFT, Ghosn describes how he went about accomplishing the seemingly impossible, transforming Nissan once again into a powerful global automotive manufacturer. The Brazilian-born, French-educated son of Lebanese parents, Ghosn first learned the management principles and practices that would shape his decisions at Nissan while rising through the ranks at Michelin and Renault. Upon his arrival at Nissan, Ghosn began his new position by embarking on a three-month intensive examination of every aspect of the business. By October 1999 he was ready to announce his strategy to turn the company around with the Nissan Revival Plan. In the plan, he consistently challenged the tradition-bound thinking and practices of Japanese business when they inhibited Nissan's effectiveness. Ghosn closed plants, laid off workers, broke up long-standing supply networks, and sold off marginal assets to focus on the company's core business. But slashing costs was just the first step in Nissan's recovery. In fact, Ghosn introduced changes in every corner of the company, from manufacturing and engineering to marketing and sales. He updated Nissan's car and truck lineup, took risks on dynamic new designs, and demanded improvements in quality—strategies that quickly burnished Nissan's image in the marketplace, and re-established the company in the minds of consumers as a leader in innovation and engineering. Like the best-selling memoirs of Jack Welch, Lou Gerstner, and Larry Bossidy, SHIFT is a fascinating behind-the-scenes look at what it takes to transform and re-create a world-class company. Written by one of the world's most successful and acclaimed CEOs, SHIFT is an invaluable guide for business readers everywhere.

The Four Obsessions of an Extraordinary Executive-Patrick M. Lencioni 2010-06-22 In this stunning follow-up to his best-selling book, *The Five Temptations of a CEO*, Patrick Lencioni offers up another leadership fable that's every bit as compelling and illuminating as its predecessor. This time, Lencioni's focus is on a leader's crucial role in building a healthy organization--an often overlooked but essential element of business life that is the linchpin of sustained success. Readers are treated to a story of corporate intrigue as the frustrated head of one consulting firm faces a leadership challenge so great that it threatens to topple his company, his career, and everything he holds true about leadership itself. In the story's telling, Lencioni helps his readers understand the disarming simplicity and power of creating organizational health, and reveals four key disciplines that they can follow to achieve it.

Experience History: Interpreting America's Past-James West Davidson 2010-10-06 Connect students to the stories of history. Connect students to the experience of history. Connect students to success in history. At McGraw-Hill, we have spent the past few years deepening our understanding of the student and instructor experience. Employing a wide array of research tools including surveys, focus groups, and ethnographic studies, we've identified areas in need of improvement to provide an opportunity for greater learning and teaching experiences. Experience History is a direct result of this. Experience History is also a first in American History. Its groundbreaking adaptive diagnostic and interactive exercises paired with its lively narrative and engaging visuals create a unique teaching and learning environment propelling greater student success and better course results. Instructors gain better insight into students' engagement and understanding as students develop a base of knowledge and construct critical thinking skills. Gripping stories keep students turning the page while the adaptive diagnostics for each chapter and a personalized study plan for each individual student help students prepare for class discussions and course work while enjoying increased course success. Experience History emphasizes that history is not just a collection of proven facts, but is "created" from the detective work of historians examining evidence from the past. Providing the interactive environment that only an integrated solution can provide, Experience History gives students the opportunity to examine primary sources and explore specific periods and events. This leads to greater understanding as well as the building and practicing of critical thinking skills. As students uniquely experience American History, Experience History propels students to greater understanding while achieving greater course success. Give students an experience. Improve course participation and performance. Experience History, and experience success.
